**Fact and Fiction in Contemporary Narratives** Jan Alber, Alice Bell, 2021-05-11 This book explores the complex interrelationship between fact and fiction in narratives of the twenty-first century. Current cultural theory observes a cultural shift away from postmodernism to new forms of expression. Rather than a radical break from the postmodern, however, postmodernist techniques are repurposed to express a new sincerity, a purposeful self-reflexivity, a contemporary sense of togetherness and an associated commitment to reality. In what the editors consider to be one manifestation of this general tendency, this book explores the ways in which contemporary texts across different media play with the boundary between fact and fiction. This includes the examination of novels, autobiography, autofiction, film, television, mockumentary, digital fiction, advertising campaigns and media hoaxes. The chapters engage with theories of what comes after postmodernism and analyse the narratological, stylistic and/or semiotic devices on which such texts rely. The chapters in this book were originally published as a special issue of the European Journal of English Studies.

**Fiction's Truth** Danielle Szlawieniec-Haw, 2019-06-18 Fiction's Truth explores professional actors' lived experiences of representing human suffering, distress, and violence. The book analyses the struggles, issues, and transformations professional actors face when dealing with these portrayals of human life; the personal and interpersonal consequences - both taxing and rewarding - they experience while undertaking these representations; and the forms of attention and care they use to limit the costs and maximize the rewards of their work. The author also includes new key terminology, proposing the term *dolesse* to capture the experiences of representing human suffering, distress, and violence. Written for entertainment professionals, acting students, and scholars with an interest in acting, theatre, film, and television, Fiction's Truth addresses the challenges of representing *dolesse* on stage and in front of the camera, acknowledges the importance of health and wellness in the entertainment industry, and helps remove the stigma that surrounds the consequences these representations often have for actors.

**Transforming Nursing Through Reflective Practice** Christopher Johns, Dawn Freshwater, 2009-02-05 Reflective practice has been widely adopted as a successful method for developing nursing. The second edition of Transforming Nursing through Reflective Practice provides a wealth of new insights from practitioners actively involved in reflective practice in nursing research, education, clinical practice and practice development. This invaluable book enables nurses to continually

evaluate their own practice in order to inform their approaches to reflection; critique, develop and monitor their professional practice; and thereby improve the quality of their patient care. There is a greater emphasis in the new edition on transforming practice, the research base for reflective practice and grounding the reflective process in clinical practice. \* Examines the contribution of reflective practice to nursing \* Enables nurses to continually develop their practice and improve patient care \* Includes insights from many areas of clinical practice \* Explores the role of reflection in clinical supervision and research studies \* Examines the role of narrative and reflective dialogue in reflective practice

Much Ado About Nonexistence Avrum Stroll, 2007-04-26 The problem of the nature of fiction and the problem of nonexistence are closely tied because fiction often talks about nonexistent entities. In *Fiction, Reference, and Nonexistence*, A. P. Martinich and Avrum Stroll, two of America's leading philosophers, explore fiction and undertake an analytic philosophical study of fiction and its reference and its relation to truth. Included in the discussion is the authors' new, contemporary theory of fiction developed as an extension of the speech act theory of H. P. Grice, as well as the relationship between nonexistence and Bertrand Russell's well-known theory of definite descriptions, and Hilary Putnam's theory of the relationship between common names and the world.

*The Routledge Handbook of Fiction and Belief* Alison James, Akihiro Kubo, Françoise Lavocat, 2023-12-22 The Routledge Handbook of Fiction and Belief offers a fresh reevaluation of the relationship between fiction and belief, surveying key debates and perspectives from a range of disciplines including narrative and cultural studies, science, religion, and politics. This volume draws on global, cutting edge research and theory to investigate the historically variable understandings of fictionality, and allows readers to grasp the role of fictions in our understanding of the world. This interdisciplinary approach provides a thorough introduction to the fundamental themes of: Theoretical and Philosophical Perspectives on Fiction Fiction, Fact, and Science Social Effects and Uses of Fiction Fiction and Politics Fiction and Religion Questioning how fictions in fact shape, mediate or distort our beliefs about the real world, essays in this volume outline the state of theoretical debates from the perspectives of literary theory, philosophy, sociology, religious studies, history, and the cognitive sciences. It aims to take stock of the real or supposed effects that fiction has on the world, and to offer a wide-reaching reflection on the implications of belief in fictions in the so-called “post-truth” era.

Dangerous Fictions Lyta Gold, 2024-10-29 In a political moment when social panics over literature are at their peak, *Dangerous Fictions* is a mind-expanding treatise on the nature of fictional stories as cultural battlegrounds for power. Fictional stories have long held an uncanny power over hearts and minds, especially those of young people. In *Dangerous Fictions*, Lyta Gold traces arguments both historical and contemporary that have labeled fiction as dark, immoral, frightening, or poisonous. Within each she asks: How “dangerous” is fiction, really? And what about it provokes waves of moral panic and even censorship? Gold argues that any panic about art is largely a disguised panic about power. There have

been versions of these same fights over fiction for centuries. By exposing fiction as a social danger and a battleground of immediate public concern, we can see what each side really wants—the right to shape the future of a world deeply in flux and a distraction from more pressing material concerns about money, access, and the hard work of politics. From novels about people driven insane by reading novels to “copaganda” TV shows that influence how viewers regard the police, Gold uses her signature wit, research, and fearless commentary to point readers toward a more substantial question: Fiction may be dangerous to us, but aren’t we also dangerous to it?

**The Mathmos** Mike Hockney, 2014-09-12 The universe is nothing like how it appears to us. So, what's it really like? What is it in itself? Neither our senses nor any experiments can reveal the ultimate truth of existence. Fortunately, one thing can: reason. We inhabit the Mathmos: the mathematical cosmos. This book reveals the compelling secrets of the hidden reality that we will never once see, but we can surely know - thanks to mathematics. Do we live in a rational universe or a random universe? This is the choice between a mathematical universe and a scientific universe. The mathematical universe has a rational ultimate answer, the scientific universe does not. The scientific universe is magicked out of non-existence, as if out of a magician's top hat. Are you a member of the magicians' cult of science? Nothing is more alchemical than modern science. You can generate a cosmos out of randomness in nothingness, which is a much greater trick than merely manufacturing gold from lead.

**Putin Kitsch in America** Alison Rowley, 2019-09-19 Vladimir Putin's image functions as a political talisman far outside of the borders of his own country. Studying material objects, fan fiction, and digital media, Putin Kitsch in America traces the satirical uses of Putin's public persona and how he stands as a foil for other world leaders. Uncovering a wide variety of material culture - satirical, scatological, even risqué - made possible by new print-on-demand technologies, Alison Rowley argues that the internet is crucial to the creation of contemporary Putin memorabilia. She explains that these items are evidence of young people's continued interest and participation in politics, even as some experts decry what they see as the opposite. The book addresses the ways in which explicit sexual references about government officials are used as everyday political commentary in the United States. The number of such references skyrocketed during the 2016 US presidential election campaign, and turning a critical eye to Putin kitsch suggests that the phenomenon will continue when Americans next return to the polls. An examination of how the Russian president's image circulates via memes, parodies, apps, and games, Putin Kitsch in America illustrates how technological change has shaped both the kinds of kitsch being produced and the nature of political engagement today.

*Slender Man Is Coming* Trevor J. Blank, Lynne S. McNeill, 2018-09-21 The essays in this volume explore the menacing figure of Slender Man—the blank-faced, long-limbed bogeyman born of a 2009 Photoshop contest who has appeared in countless horror stories circulated on- and offline among children and young people. Slender Man is arguably the best-known example in circulation of “creepypasta,” a genre derived from “copypasta,” which in turn derived from the phrase “copy/paste.” As narrative texts are copied across online forums, they undergo modification, annotation, and reinterpretation by new posters in a folkloric process of repetition and variation. Though by definition legends deal largely with belief and possibility, the crowdsourced mythos behind creepypasta and Slender Man suggests a distinct awareness of fabrication. Slender Man is therefore a new kind of creation: one intentionally created as a fiction but with the look and feel of legend. *Slender Man Is Coming* offers an unprecedented folkloristic take on Slender Man, analyzing him within the framework of contemporary legend studies, “creepypastas,” folk belief, and children’s culture. This first folkloric examination of the phenomenon of Slender Man is a must-read for anyone interested in folklore, horror, urban legends, new media, or digital cultures. Contributors: Timothy H. Evans, Andrea Kitta, Mikel J. Koven, Paul Manning, Andrew Peck, Jeffrey A. Tolbert, Elizabeth Tucker

**Taking Sides** Elke Bippus, Anne Ganzert, Isabell Otto, 2021-10-01 Is there an option to oppose without automatically participating in the opposed? This volume explores different perspectives on dissent, understanding practices, cultures, and theories of resistance, dispute, and opposition as inherently participative. It discusses aspects of the body as a political instance, the identity and subjectivity building of individuals and groups, (micro-)practices of dissent, and theories of critique from different disciplinary perspectives. This collection thus touches upon contemporary issues, recent protests and movements, artistic subversion and dissent, online activism as well as historic developments and elemental theories of dissent.

Fictional television and American politics Jack Holland, 2019-07-19 This book explores the relationship between fictional television and American world politics in the period from 9/11 through to the presidency of Donald J. Trump. This period comprises a second golden age for fictional TV. The book therefore explores some of the best TV of all time across two decades of heightened political controversy.

**Impossible Speech** Christopher P. Hanscom, 2024-03-26 In what ways can or should art engage with its social context? Authors, readers, and critics have been preoccupied with this question since the dawn of modern literature in Korea. Advocates of social engagement have typically focused on realist texts, seeing such works as best suited to represent injustices and inequalities by describing them as if they were before our very eyes. Christopher P. Hanscom questions this

understanding of political art by examining four figures central to recent Korean fiction, film, and public discourse: the migrant laborer, the witness to or survivor of state violence, the refugee, and the socially excluded urban precariat. Instead of making these marginalized figures intelligible to common sense, this book reveals the capacity of art to address the “impossible speech” of those who are not asked, expected, or allowed to put forward their thoughts, yet who in so doing expand the limits of the possible. Impossible Speech proposes a new approach to literature and film that foregrounds ostensibly “nonpolitical” or nonsensical moments, challenging assumptions about the relationship between politics and art that locate the “politics” of the work in the representation of content understood in advance as being political. Recasting the political as a struggle over the possibility or impossibility of speech itself, this book finds the politics of a work of art in its power to confront the boundaries of what is sayable.

**Philosophical Theories of Political Cinema** Angelo Emanuele Cioffi, 2021-10-31 This book utilizes philosophical tools to build up a framework for the classification, analysis and assessment of political cinema. The author first maps the category of political cinema, clarifying what it means for a film to be ‘political’, and then analyzes the relation between the value of a film as a political film and its value as art. Through philosophical enquiry, Angelo Emanuele Cioffi builds up a framework that could be of use in art-critical practice and that can help with the classification and assessment of political films. Grounded in analytic philosophy of art and cognitivist film theory, with insights from political science, political philosophy, epistemology and cognitive science, the book presents a unique analysis of the relation between films and the ‘political’. This theory is tested with detailed case studies, and the author uses specific films as examples of the applicability and explanatory power of this theoretical framework. As such, this book will be of interest not just to film studies, film theory and political philosophy scholars, but to anyone with an interest in political film, aesthetic practice and philosophy of art.

From Big Data to Intelligent Data Fady A. Harfoush, 2021-06-26 This book addresses many of the gaps in how industry and academia are currently tackling problems associated with big data. It introduces novel concepts, describes the end-to-end process, and connects the various pieces of the puzzle to offer a holistic view. In addition, it explains important concepts for a wide audience, using accessible language, diagrams, examples and analogies to do so. The book is intended for readers working in industry who want to expand their knowledge or pursue a related degree, and employs an industry-centered perspective.

**Understanding Religion and Popular Culture** Elizabeth Rae Coody, Dan W. Clanton Jr., Terry Ray Clark, 2023-04-17 Understanding Religion and Popular Culture 2nd edition provides an accessible introduction to this exciting and rapidly evolving field. Divided into two parts, Issues in Religion and Genres in Popular Culture, it encourages readers to think critically about the ways in which popular cultural practices and products, especially those considered as forms of entertainment, are laden with religious ideas, themes, and values. This edition has been thoroughly revised and includes five

new chapters, updated case studies, and contemporary references. Among the areas covered are religion and film, food, violence, music, television, cosplay, and fandom. Each chapter also includes a helpful summary, glossary, bibliography, discussion questions, and suggestions for further reading/viewing. Providing a set of practical and theoretical tools for learning and research, this book is an essential read for all students of Religion and Popular Culture, or Religion and Media more broadly.

The Discursive Construction of Identities On- and Offline Birte Bös, Sonja Kleinke, Sandra Mollin, Nuria Hernández, 2018-07-23 This volume explores linguistic identity construction across online and offline contexts. The contributors focus on 'clusivity' as an overarching aspect and offer a multifaceted operationalisation of the linguistic processes of identity construction. The studies address three major strands of human identity, each of which can be thought of as an aggregative abstraction with its own complexities: personal identity, group identity and collective identity. The contributions pay special attention to the interplay between the public and private dimensions of the interactions and audiences, as well as the potential impact of social and technical affordances of different communicative settings and online and offline modes of identity construction. The volume is aimed at all researchers concerned with the complex notion of identity, both in linguistics and in neighbouring disciplines.

*Authenticity* James H. Gilmore, B. Joseph Pine, 2007 The authors list the five factors that most directly influence customer perceptions: the operational essence of the enterprise, the nature of its offerings, the effects of the organization's heritage, its sense of purpose and its demonstrable body of values.

Disruptive Inclusion Jen Smith, 2024-03-31 What is Christian adult learning? What questions are raised when Christian faith and learning meet? Many existing approaches primarily address issues such as curriculum content or teacher character. Building on the work of John Hull, *Disruptive Inclusion* approaches the intersection of theology and pedagogy suggesting that the christianness of Christian adult learning is best expressed by the posture adopted by learners, not only via what is taught and by whom. Specifically, Jen Smith claims that a key to Christian adult learning posture is how learners include the unexpected and disruptive in their learning. Drawing on key resources, such as the biblical narrative, Christian tradition, liturgy, community and her own experiences, Jen takes us on a deeply personal and practical journey into disruptive inclusion and invites us to re-imagine what effective Christian adult learning might look like in the classroom, pulpit and online learning settings.

**Art and Belief** Ema Sullivan-Bissett, Helen Bradley, Paul Noordhof, 2017-10-20 *Art and Belief* presents twelve new essays at the intersection of philosophy of mind and philosophy of art, particularly to do with the relation between belief and truth in our experience of art. Several contributors discuss the cognitive contributions artworks can make and the questions surrounding these. Can authors of fiction testify to their readers? If they can, are they culpable for the false beliefs of their

readers formed in response to their work? If they cannot, that is, if the testimonial powers of authors of fiction are limited, is there some non-testimonial epistemic role that fiction can play? And in any case, is such a role relevant when determining the value of the work? Also explored are issues concerned with the phenomenon of fictional persuasion, specifically, what is the nature of the attitude involved in such cases (those in which we form beliefs about the real world in response to reading fiction)? If these attitudes are typically unstable, unjustified, and unreliable, does this put pressure on the view that they are beliefs? If these attitudes are beliefs, does this put pressure on the view that all beliefs are aimed at truth? The final pair of papers in the volume take different stances on the nature of aesthetic testimony, and whether testimony of this kind is a legitimate source of beliefs about aesthetic properties and value.
