*The Solid Confessor* Eckonesbit,2007-02 The anonymous cult classic of the early machine age The Solid Confessor has intrigued readers for over a decade: its literary dementia is akin to the best of 1960's Russian Science Fiction set within a gritty, distinctly American Beat literature perspective. Often compared to everything from Economic Genre fiction to Textual Arcology, The Solid Confessor continues to defy convention and easy definition: an apocalyptic, dense, horrific, hyper-referential document of the intrusion of information science upon the biologic, The Solid Confessor is in the end a documentary of dystopic technocracy. This edition, lavishly illustrated by Kjell Otterness and with a new forward by A.J. Specktowsky, brings our nightmares of a world dominated by science, technology and biological mutation out from the dark and into the present. Vol. VIII in the Machine-Humanist Library.
