Free Energy Cover-Up: Advisory Book, Hudkins Publishing Ronald Hudkins,2019-01-24 Research appears to show that over the greater span of American history, a number of significant breakthroughs in energy generation and propulsion have occurred that have been systematically suppressed. For example, Nikola Tesla discovered Zero Point Energy in 1902, but the government suppressed the technology. Since then, 5,000 patents on technology of this kind have been legally confiscated. In doing this, our government has committed possibly the greatest injustice against humanity ever. If Tesla's discovery of zero-point energy had become common knowledge back in the 1900s, and the technology had been developed and put into widespread use, we could have had virtually free, unlimited, non-polluting energy for nearly 120 years. We have the technological ability to replace fossil fuel, internal combustion, and nuclear power generating systems with advanced, non-polluting electromagnetic and electrogravity systems.
