Mexican Cartels David F. Marley, 2019-10-11 This captivating resource covers the bloody history of Mexican drug cartels from their rise in the 1980s to the latest round of brutal violence, which has seen more than 125,000 Mexican citizens killed over the past decade. This comprehensive reference work offers a detailed exploration of the vicious drug organizations that have enveloped Mexico in extreme violence since the 1980s. The book opens with illuminating essays that provide context for Mexico's cartels and the long-running War on Drugs and explore the impact of the cartels on the United States. The A-Z entries that follow include such topics as Vincente Fox, El Chapo Guzman, the Golden Triangle, Operation Border Star, and the Sinaloa and Zetas cartels. Other entries focus on various anti-drug campaigns, crucial events, and weaponry favored by the cartels. The entries are augmented by an expansive chronology, a colorful glossary, and an extensive bibliography.

Organized Crime and Corruption Across Borders T. Wing Lo, Dina Siegel, Sharon Kwok, 2019-09-10 This book explores China's Belt and Road Initiative and the criminogenic potential for economic, financial, and socio-cultural cooperation across countries, where some are known for weak law enforcement and high levels of corruption. It examines whether these flows of capital are increasing the amount of organized crime in the newly linked regions and how law enforcement agencies are responding. Bringing together experts across the Global South and Europe, this book considers transnational organized crime and corruption across One Belt One Road (OBOR). It examines crime and corruption in China and its international United Front tactic; analyzes various forms of transnational organized crime such as trafficking of illegal drugs, looted antiquities, and wildlife and counterfeit products; and presents studies on corruption and organized crime in selected OBOR countries including Russia, Kazakhstan, Lithuania, Czech Republic, Poland, and Bangladesh. This book makes a significant contribution to the development of southern criminology and will also be of interest to those engaged with transnational organized crime, political economy, international relations, and Asian and Chinese studies.

Cartels at War Paul Rexton Kan, 2012-10-31 Now in its sixth year, the conflict in Mexico is a mosaic of several wars occurring at once: cartels battle one another, cartels suffer violence within their own organizations, cartels fight against the Mexican state, cartels and gangs wage war against the Mexican people, and gangs combat gangs. The war has killed more than 60,000 people since President Felipe Calder began cracking down on the cartels in December 2006. The targets of the violence have been wide-ranging—from police officers to journalists, from clinics to discos. Governments on either side of the U.S.-Mexican border have been unable to control the violence. The war has spilled over into American cities and affects domestic policy issues ranging from immigration to gun control, making the border the nexus of national security and public safety concerns. Drawing on fieldwork along the border and interviews with officials at the Drug Enforcement Administration, the Office of National Drug Control Policy, the Department of Defense, U.S. Border Patrol, and Mexican military officers, Paul Rexton Kan argues that policy responses must be carefully calibrated to prevent stoking more cartel violence, to cut the incentives to smuggle drugs into the United States, and to stop the erosion of Mexican governmental capacity.

The Strong Man Grant Edwards, 2019-07-22 A powerful story of life under fire and one man's journey back from the brink Grant Edwards was once an elite athlete, Olympics qualifier and Australia's strongest man. His Guinness Book of Records feats of strength were acclaimed internationally, and as a high ranking police officer he spent decades protecting vulnerable people around the world. But nothing could shield him from catastrophic harm in the line of duty. Rising above his tough beginnings in 1970s suburbia, where he was bullied for his father's decision to live as a gay man, Edwards found sanctuary in sport. But he found his true calling with the Australian Federal Police, rising swiftly through the ranks to Commander and

personally establishing cybercrime units to fight child exploitation and human trafficking. A highly sought after and disciplined security advisor for governments around the world such as East Timor, Afghanistan and the Americas, Edwards was considered the last person to 'crack' – but a narrow escape from a deadly attack in Kabul pushed him to breaking point. This is the story of an extraordinary man and his extraordinary battle back from the brink.

The Uneasy Silence Mate Antolos, 2024-08-16 The Australian Government is facing a national embarrassment when two ASIS (Australian Secret Intelligence Service) agents have gone missing on the Mornington Peninsula along with top secret files, mobile telephones, and their laptops. The director of ASIS decides to sidestep accountability by using the National Missing Persons (NMPCC) arm of the AFP (Australian Federal Police), and tasks the team of operation Reveles to work covertly to ensure that this matter never leaks out to the local population in the town of Sorrento nor become a feeding frenzy for the Australian Media. AFP Lead Detective Emir 'Eddy' Muravic under the supervision of his boss AFP Inspector Phil Morris soon discovers that the chic town of Sorrento is not just full of party goers, holiday makers, sea, and tree changers and 'A Listers' but an underbelly which could threaten his own family, and childhood visions of the Mornington Peninsula.

Gangs and Organized Crime George W. Knox, Gregg Etter, Carter F. Smith, 2018-07-04 In *Gangs and Organized Crime*, George W. Knox, Gregg W. Etter, and Carter F. Smith offer an informed and carefully investigated examination of gangs and organized crime groups, covering street gangs, prison gangs, outlaw motorcycle gangs, and organized crime groups from every continent. The authors have spent decades investigating gangs as well as researching their history and activities, and this dual professional-academic perspective informs their analysis of gangs and crime groups. They take a multidisciplinary approach that combines criminal justice, public policy and administration, law, organizational behavior, sociology, psychology, and urban planning perspectives to provide insight into the actions and interactions of a variety of groups and their members. This textbook is ideal for criminal justice and sociology courses on gangs as well as related course topics like gang behavior, gang crime and the inner city, organized crime families, and transnational criminal groups. *Gangs and Organized Crime* is also an excellent addition to the professional's reference library or primer for the general reader. Transnational Crime and Global Security Philip L. Reichel, Ryan Randa, 2018-01-12 This two-volume work offers a comprehensive examination of the distressing topics of transnational crime and the implications for global security. National security is a key concern for individual nations, regions, and the global community, yet globalism has led to the perfusion of transnational crime such that it now poses a serious threat to the national security of governments around the world. Whether attention is concentrated on a particular type of transnational crime or on broader concerns of transnational crime generally, the security issues related to preventing and combatting transnational crime remain of top-priority concern for many governments. *Transnational Crime and Global Security* has been carefully curated to provide students, scholars, professionals, and consultants of criminal justice and security studies with comprehensive information about and in-depth analysis of contemporary issues in transnational crime and global security. The first volume covers such core topics as cybercrime, human trafficking, and money laundering and also contains infrequently covered but nevertheless important topics including environmental crime, the weaponization of infectious diseases, and outlaw motorcycle gangs. The second volume is unique in its coverage of security issues related to such topics as the return of foreign terrorist fighters, using big data to reinforce security, and how to focus efforts that encourage security cooperation.

Gangs in the Caribbean Randy Seepersad, 2013-09-17 The present volume represents the first published book on gangs in the Caribbean. The study of criminal gangs is both timely and of the utmost importance to policy and security in the region. In many countries across the Caribbean, criminal gangs are increasing in number and prominence, and official crime data indicate that they are responsible for an increasing proportion of violent crimes. The Caribbean region experienced a dramatic increase in murder rates from 14.3 murders per 100,000 inhabitants in 2000 to 28.1 murders per 100,000 inhabitants in 2010. In some of the countries with comparatively high murder rates, such as Jamaica and Trinidad and Tobago, the proportion of gang-related murders has reached alarming levels. In the case of Trinidad and Tobago, for example, for the period 2001 to 2012, 29.5% of all murders which occurred were classified as gang-related, with fully 38% being so classified in 2012. The Caribbean represents a diverse region with very different cultures and security issues. Foreign experiences and research on gangs may not generalize to the region, nor may foreign policy be entirely relevant. The present volume represents an attempt to come to terms with the phenomenon of gangs in the Caribbean, and presents a wealth of empirical data, as well as an analysis of the varying issues from a number of disciplinary perspectives. Much of what is currently known about gangs in the Caribbean is brought together in this volume, with the primary aims of understanding the varying issues and examining relevant strategies for dealing with the proliferation of criminal gangs.

The Devil's Drug Teun Voeten, 2025-02-18 With a combination of thorough investigative journalism, daring fieldwork, and colorful atmospheric sketches, Teun Voeten draws a very detailed and disturbing picture of a drug that is on a rapid international rise. Methamphetamine, commonly referred to as crystal meth, is one of the most addictive drugs in the world. Heavy users can destroy themselves in just a few months. Originally given by the Nazis to their troops to fight the blitzkrieg, it has now conquered the whole world and is used at sex parties in Amsterdam and Antwerp, by former hippies in Prague, by the underclass in the slums of Harare, Cape Town, and Peshawar, by truck drivers in Thailand, and by workers in the sweatshops in Bangladesh. Researcher Teun Voeten traveled the globe for two years to investigate all sides of this diabolic drug, exploring the bizarre history and pharmacological effects. He talked to homeless addicts in Tijuana and Los Angeles, cartels in Mexico, international drug experts in Bangkok and Kabul, and more. Voeten also interviewed numerous authorities, judges, and social workers who are trying to stop the meth epidemic.

Debunk This! Matt Palumbo, 2019-08-20 Countless studies have proven that over 90 percent of Trump-related news coverage is negative, and the percentage of journalists that identify as Republicans are in the single digits. When liberals are running the show, you can bet that their narrative has gone unchallenged. If you tell a lie long enough people will begin to

believe it, and that's certainly the case with so many liberal myths that have become accepted as conventional wisdom. In this book you'll learn, among many other facts: What happened to non-gun mass killings when Australia enacted strict gun control. The truth about "Scandinavian socialism." How Obama twisted the numbers to appear tough on immigration. Why Mexico has stricter immigration laws than the US. How Bill Clinton faked the "Clinton surplus." That the US doesn't have the majority of the world's mass shootings. Why statistics claiming that illegal aliens commit fewer crimes than the general public are bogus. The countless lies the media simply made up about the Trump administration. If you're in need of ammunition to shoot down liberal lies, this is the book for you.

A National Asset Desmond Ball, Andrew Carr, 2016-08-26 This volume commemorates the 50th anniversary of the Strategic and Defence Studies Centre (SDSC). The Centre is Australia's largest body of scholars dedicated to the analysis of the use of armed force in its political context and one of the earliest generation of post-World War II research institutions on strategic affairs. The book features chapters replete with stories of university politics, internal SDSC activities, cooperation among people with different social and political values, and conflicts between others, as well as the Centre's public achievements. It also details the evolution of strategic studies in Australia and the contribution of academia and defence intellectuals to national defence policy.
