Happy Lies Melissa Dougherty, 2025-01-28 In this groundbreaking book, popular apologist Melissa Dougherty helps us understand how our society got to be so toxically subjective, why endless positivity is inherently destructive, and how we can live with faithful truth and genuine love in these self-obsessed times. Melissa Dougherty skillfully diagnoses the issue and provides the cure: the authentic and life-giving truth of the Christian worldview. - Wesley Huff Have you ever wondered how we ended up in a world where personal feelings could become the authority for reality? Or why so many of us are on a relentless pursuit for happiness yet somehow feel more exhausted and sadder than ever? You're not alone. Melissa deftly traces the roots of today's social chaos back to a little-known (but very influential) 1800s philosophy known as New Thought. A former follower of its teachings, Melissa provides clarity and compassion mixed with a dash of loving snark as she exposes New Thought's deceptions and its many concerning tendrils within the church and our self-help culture. You'll be shocked, grieved, and encouraged as you learn: How you can experience true freedom, hope, and peace instead of the world's counterfeits How an anti-God ideology so easily hijacked Christian-sounding ideas Why thinking positively is entirely different from the unbiblical and burdensome positive thought movement Why fake authenticity short-circuits real redemption How understanding the New Thought mindset can help us share our faith more effectively Uncover a dangerous ideology that nearly everyone has met, yet few of us can name, in order to better understand our culture and joyfully live faithful to the gospel that is so much better than our world's Happy Lies.

Embattled Home Fronts Karsten H. Piep, 2009-01-01 Embattled Home Fronts is an inquiry into the highly conflicted US American experience of World War I as it plays itself out in the diverse body of novelistic works to which it has given rise and by which it has been, in turn, shaped and commemorated. As such, this book naturally concerns itself with the formal aspects

of artistic war representation. But rather than merely endeavoring to illustrate how American writers from various backgrounds chose to depict World War I, the present work seeks to uncover the particular ideologies and political practices that inform these representational choices. To this end, *Embattled Home Fronts* examines both canonized and marginalized US American World War I novels within the context of contemporaneous debates over shifting class, gender, and race relations. The book contends that American literary representations of the Great War are shaped less by universal insights into modern society's self-destructiveness than by concerted efforts to fashion class-, gender-, and race-specific experiences of warfare in ways that stabilize and heighten political group identities. In moving beyond the customary focus on ironic war representations, *Embattled Home Fronts* illustrates that the representational and ideological battles fought within American World War I literature not only shed light on the emergence of powerful identity-political concepts such as the New Woman and the New Negro, but also speak to the reappearance of utopian, communitarian, and social protest fictions in the early 1930s. This study *Embattled Home Fronts* provides a new understanding of the relationship between war literature and home front politics that should be of interest to students and scholars working from a variety of disciplines and perspectives

Enter the New Negroes Martha Jane Nadell, 2004 With the appearance of the urban, modern, diverse New Negro in the Harlem Renaissance, writers and critics began a vibrant debate on the nature of African-American identity, community, and history. Martha Jane Nadell offers an illuminating new perspective on the period and the decades immediately following it in a fascinating exploration of the neglected role played by visual images of race in that debate. After tracing the literary and visual images of nineteenth-century Old Negro stereotypes, Nadell focuses on works from the 1920s through the 1940s that showcased important visual elements. Alain Locke and Wallace Thurman published magazines and anthologies that embraced modernist images. Zora Neale Hurston's *Mules and Men*, with illustrations by Mexican caricaturist Miguel Covarrubias, meditated on the nature of black Southern folk culture. In the folk history *Twelve Million Black Voices*, Richard Wright matched prose to Farm Security Administration photographs. And in the 1948 Langston Hughes poetry collection *One Way Ticket*, Jacob Lawrence produced a series of drawings engaging with Hughes's themes of lynching, race relations, and black culture. These collaborations addressed questions at the heart of the movement and in the era that followed it: Who exactly were the New Negroes? How could they attack past stereotypes? How should images convey their sense of newness, possibility, and individuality? In what directions should African-American arts and letters move? Featuring many compelling contemporary illustrations, *Enter the New Negroes* restores a critical visual aspect to African-American culture as it evokes the passion of a community determined to shape its own identity and image.

Winning the War in Your Mind Workbook Craig Groeschel,2021-06-15 In this twelve-lesson workbook, pastor and New York Times bestselling author Craig Groeschel pairs modern psychology and biblical teaching to reveal how to win the war in your mind and restore daily peace in your life. What you think shapes who you are. If your thoughts are out of control, your life will be as well. Both the Bible and modern science provide evidence that this is true. In recent years, a discipline of psychology called cognitive behavioral therapy has gained popularity. This discipline is rooted in an understanding that many problems--from eating disorders to relational challenges, addictions, and even some forms of depression--are rooted in negative patterns of thinking. Treating those problems begins with changing that thinking. This has many parallels with Scripture. In Paul's letter to the Philippians, he writes about turning our thoughts to certain types of things (truth, purity, loveliness...) and putting them into practice so that we experience God's peace. In this workbook, Craig goes deeper into the principles outlined in his book (sold separately) to reveal the strategies he has discovered that will change your mind and, by

extension, your life for the long-term. Each lesson includes biblical exploration, reflection and application questions, and practical exercises to help you: Gain insight into how your brain works and how your thoughts affect your reality. Identify your destructive thought patterns and eliminate them from your life. Become a thought warrior and replace the enemy's lies with God's truth. God has something better for your life than your old ways of thinking. It's time to change your mind so God can change your life.
