John Milton

Quotes by John Milton Lilith Regan,2020-04-10 Better to reign in Hell than serve in Heaven.A mind not to be changed by place or time. The mind is its own place, and in itself Can make a heav'n of hell, a hell of heav'n.They also serve who only stand and wait.Awake, arise or be for ever fall'n.A good book is the precious lifeblood of a master spirit, embalmed and treasured up on purpose to a life beyond life.Yet from those flames No light, but rather darkness visible.So farewell hope, and with hope farewell fear, Farewell remorse: all good to me is lost; Evil, be thou my good.Long is the way And hard, that out of hell leads up to light.The stars, that nature hung in heaven, and filled their lamps with everlasting oil, give due light to the misled and lonely traveller.The childhood shows the man, As morning shows the day.

Quotology Willis Goth Regier, 2010-10-01 Erasmus advised readers to learn quotations by heart and copy them everywhere: write them in the front and back of books; inscribe them on rings and cups; paint them on doors and walls, even on the glass of a window.? Emerson noted that ?in Europe, every church is a kind of book or bible, so covered is it with inscriptions and pictures.? In Arabic script as tall as a man, the Koran is quoted on the walls and domes of mosques. ø We quote to admire, provoke, commemorate, dispute, play, and inspire. Quotations signal class, club, clique, and alma mater. They animate wit, relay prophecies, guide meditation, and accessorize fashion. ø In Quotology Willis Goth Regier draws on world literature and contemporary events to show how vital quotations are, how they are collected and organized, and how deceptive they can be. He probes all these aspects, identifying fifty-nine types of quotations, including misquotations and anonymous sayings. Following the logic of quotology, Quotology concludes with famous last words.

Common and Uncommon Quotes: A Theory and History of Epigraphs Jared A. Griffin, 2023-03-07 'Common and Uncommon Quotes: A Theory and History of Epigraphs' is a prolegomenon to the study of epigraphic paratextuality. Building on the work of Gerard Genette's paratextual studies, this volume contextualizes and traces the practice of epigraphy in Anglophone literary history, from the fifteenth to the early twentieth century. This study explores how epigraphs are used by author-functions as a hermeneutic for their text and to establish ethos with their audience, and how that paratextual relationship changed as publishing opportunities and literacy rates grew over four centuries. The first broad-reaching study of this kind, 'Common and Uncommon Quotes' seeks to understand how epigraphs work: through their privilege on the page, their appeal to conjured ideas of the past, and their calls to citizenship.

Politics, Poetics, and Hermeneutics in Milton's Prose David Loewenstein, James Turner, 1990-04-26 This book explores the interconnections between Milton's politics, poetics and prose writings.

Neville Figgis, CR: His Life, Thought and Significance, 2021-11-29 John Neville Figgis, CR (1866-1919) was a brilliant Anglican theologian, historian, political thinker and preacher; he was also a monk. This volume of a dozen freshly commissioned essays by eminent scholars retrieves, expounds and critiques his thought and relates it to the culturally pluralist theological, ethical and political situation in which we find ourselves in the twenty-first century. Although Figgis' significance is widely acknowledged by scholars, little has been written about him. Figgis has an uncontested place in Anglican and Episcopal thought and is overdue for a concerted study of the many facets of his work and importance.

The Craft Apprentice W.J. Rorabaugh, 1988-02-11 The apprentice system in colonial America began as a way for young men to learn valuable trade skills from experienced artisans and mechanics and soon flourished into a fascinating and essential social institution. Benjamin Franklin got his start in life as an apprentice, as did Mark Twain, Horace Greeley, William Dean Howells, William Lloyd Garrison, and many other famous Americans. But the Industrial Revolution brought with it radical changes in the lives of craft apprentices. In this book, W. J. Rorabaugh has woven an intriguing collection of case histories, gleaned from numerous letters, diaries, and memoirs, into a narrative that examines the varied experiences of individual apprentices and documents the massive changes wrought by the Industrial Revolution.
