The Two Thousand Yard Stare Brendan M. Greeley, 2008 El Paso artist Tom Lea was commissioned by Life Magazine to paint the war as it was being experienced by U.S. and Allied soldiers, sailors, and airmen. Along with his sketchbook, Lea carried on these assignments his record of work, a notebook in which he recorded observations and details on the images he hoped to create from the events he had seen. Brendan M. Greeley, Jr. has collected virtually all of Tom Lea's firsthand accounts of his assignments for Life, along with his powerful sketches and unforgettable paintings, and placed them in context, along with photographs and research focusing on the people, places, and wartime events encountered by Tom Lea. Drawing on previously unpublished sources - the artist's diary, letters to the Texas historian J. Frank. Dobie, oral interviews, and archival materials from Texas and national collections - Greeley presents in The Two Thousand Yard Stare a uniquely comprehensive and sustained treatment of Lea's creative accomplishments during World War II. This well-documented and astonishingly illustrated volume will fascinate those interested in the realistic depiction of war, in both images and words. Also a must-read for students, scholars, and collectors of the artist's work, The Two Thousand Yard Stare: Tom Lea's World War II is a brilliant compendium of the work and thought of one of America's most compelling painters and writers.--BOOK JACKET.

Philosophical Religions from Plato to Spinoza Carlos Fraenkel, 2012-11-22 Many pagan, Jewish, Christian and Muslim philosophers from Antiquity to the Enlightenment made no meaningful distinction between philosophy and religion. Instead they advocated a philosophical religion, arguing that God is Reason and that the historical forms of a religious tradition serve as philosophy's handmaid to promote the life of reason among non-philosophers. Carlos Fraenkel provides the first account of this concept and traces its history back to Plato. He shows how Jews and Christians appropriated it in Antiquity, follows it through the Middle Ages in both Islamic and Jewish forms and argues that it underlies Spinoza's interpretation of Christianity. The main challenge to a philosophical religion comes from the modern view that all human beings are equally able to order their lives rationally and hence need no guidance from religion. Fraenkel's wide-ranging book will appeal to anyone interested in how philosophy has interacted with Jewish, Christian, and Muslim religious traditions.

**Art Rethought** Nicholas Wolterstorff, 2015-09-10 Human beings engage works of the arts in many different ways: they sing songs while working, they kiss icons, they create and dedicate memorials. Yet almost all philosophers of art of the modern period have ignored this variety and focused entirely on just one mode of engagement, namely, disinterested attention. In the first part of the book Nicholas Wolterstorff asks why philosophers have concentrated on just this one mode of engagement. The answer he proposes is that almost all philosophers have accepted what the author calls the grand narrative concerning art in the modern world. It is generally agreed that in the early modern period, members of the middle class in Western Europe increasingly engaged works of the arts as objects of disinterested attention. The grand narrative claims that this change represented the arts coming into their own, and that works of art, so engaged, are socially other and transcendent. Wolterstorff argues that the grand narrative has to be rejected as not fitting the facts. Wolterstorff then offers an alternative framework for thinking about the arts. Central to the alternative framework that he proposes are the idea of the arts as social practices and the idea of works of the arts as having different meaning in different practices. He goes on to use this framework to analyse in some detail five distinct social practices of art and the meaning that works have within those practices: the practice of memorial art, of art for veneration, of social protest art, of works songs, and of recent art-reflexive art.

**Wealthy Slaves and The Ecclesiastes** Jocelyn de Castro, 2010-09-23 Nature versus Nurture: Michael quickly summoned me to his office, where his pet spider is housed in an aquarium, feeling strange about the idea of having an arachnida for a pet. As Michael set me on a miniature ottoman in front of the arachnid's home – the terrestrial environment he provided, my skepticism promptly transformed into fascination. One single spider had reproduced a sac housing hundreds of precious eggs soon to hatch to 'young 'uns', sadly to the demise of its mother upon their births. The gleaming gossamer of spider silk which I had learned in my zoology and biochemistry classes to be the strongest fiber known, even stronger than steel. One beneficial lesson we humans can learn from this creature is an allimportant one – recycling. Once the web is destroyed, the spider swallows this delicate lace, and re-uses its protein in re-building the next structure! Nothing should be wasted, even the most despised creature learns from its Creator. The eyes have seen, the ears have heard the wonders of God's miraculous creation! Yet regrettably some people live to say that there is no God! Given a glimpse of his home I finally saw what Michael meant in his expression and sentiment over the difference in our homes. Michael may not see or admit, but, as he spoke of my home I can feel the yearning in his voice, and I also audibly hear the ache. Mr. Kamo Toyatori can rest assured that his legacy passed on to his son will live on. This legacy weighs heavily on his son's shoulders, but will not give up. His son is simply incapable of doing so; his son aware that it could only lead to his own financial ruin. Michael will labor day and night, he needs to wary not to plant himself in less exalted ground than what he deserves, and that which his father expects.

It Was Always ME Josh Willaert, 2018-04-18 Forget everything you thought you thought you knew about the most publicly covered murders of our time. The evidence leads to one man committing the most chilling and widely known murders that have captivated the public's interest and caused terror throughout our communities including the Zodiac killings. Based on the investigation by veteran detective John Cameron and others contained in this book, Edward Edwards is also now linked to the murder of Steve Avery, the Black Dahlia, and Laci Peterson for which he set up Scott Peterson who is currently on death row for killing her. The evidence also strongly suggests that he killed JonBenet Ramsay and that he framed the parents whom were later exonerated.

Czeslaw Milosz and Joseph Brodsky Irena Grudzińska-Gross, 2009-01-01 An intimate portrayal of the friendship between two icons of twentieth-century poetry...highlights the parallel lives of the poets as exiles living in America and as Nobel Prize laureates in literature...Irena Grudzinska Gross draws on poems, essays, letters, interviews, speeches, lectures, and her own personal memories as a confidant of both Milosz and Brodsky. -- pub. description.

**Italy to Argentina** Tullio Pagano, 2023-04-18 In *Italy to Argentina: Travel Writing and Emigrant Colonialism*, Tullio Pagano examines Italian emigration to Argentina and the Rio de la Plata region through the writings of Italian economists, poets, anthropologists, and political activists from the 1860s to the beginning of World War I. He shows that Italians played an important role in the so-called conquest of the desert, which led to Argentina's economic expansion and the suppression and killing of the remaining indigenous population. Many of the texts he discusses have hardly been studied before: from Paolo Mantegazza's real and imaginary travel narratives at the time of Italian unification to Gina Lombroso's descriptions of Brazil, Uruguay, and Argentina in early 1900s. Pagano questions the apparent opposition between diaspora and empire and argues that there was a continuity between the "peaceful conquest" though spontaneous emigration envisioned by Italian liberal intellectuals at the turn of the century and the military colonialism of Italian Nationalists and Fascists. He shows that racist assumptions about Native American and "creole" cultures were present in the work of progressive authors like Edmondo de Amicis, whose writings became enormously popular in Argentina, and anarchist militants and legal scholars like Pietro Gori, who founded the first revolutionary unions in Buenos Aires while remaining dangerously attached to Cesare Lombroso's theories of atavism and primitivism. The "growl" of Italian emigrants about to land in Argentina, found in Dino Campana's poem *Buenos Aires* (1907), echoes throughout Pagano's book, and encourages the reader to explore the apparent oxymoron of "emigration colonialism" and the role of literature and public media in the formation of our social imaginary. "Italy to Argentina shows meticulous bibliographic work and is attentive to both fundamental and marginal texts in a double task, on the one hand, of textual analysis, and on the other, of rescuing and recovering a corpus forgotten by critics even when it is highly significant. It is, then, a research work that addresses the Italian emigration to Argentina from an original point of view, linking texts that have not been studied or that have not been sufficiently analyzed." —Fernanda Elisa Bravo Herrera, author of *Huellas y recorridos de una utopía: La emigración italiana en la Argentina* From Boccadasse to La Boca. Tullio Pagano complexifies the relationship between 'diaspora' and 'colonialism' in the context of Italian migration to South America. In six thematic chapters, Pagano explores the thought of authors on and off the canon. Such diverse voices lead the reader to a new approach to the study of emigrant colonialism and creole studies, towards a deeper, more realistic understanding of the 'conquest of the desert' that Italian emigrants wanted to perform in Argentina.—Giuseppe Gazzola, Stony Brook University
