Creating a Common Table in Twentieth-Century Argentina Rebekah E. Pite,2013-04-01 Dona Petrona C. de Gandulfo (c. 1896-1992) reigned as Argentina's preeminent domestic and culinary expert from the 1930s through the 1980s. An enduring culinary icon thanks to her magazine columns, radio programs, and television shows, she was likely second only to Eva Peron in terms of the fame she enjoyed and the adulation she received. Her cookbook garnered tremendous popularity, becoming one of the three best-selling books in Argentina. Dona Petrona capitalized on and contributed to the growing appreciation for women's domestic roles as the Argentine economy expanded and fell into periodic crises. Drawing on a wide range of materials, including her own interviews with Dona Petrona's inner circle and with everyday women and men, Rebekah E. Pite provides a lively social history of twentieth-century Argentina, as exemplified through the fascinating story of Dona Petrona and the homemakers to whom she dedicated her career. Pite's narrative illuminates the important role of food--its consumption, preparation, and production--in daily life, class formation, and national identity. By connecting issues of gender, domestic work, and economic development, Pite brings into focus the critical importance of women's roles as consumers, cooks, and community builders.

Women Who Changed the World Candice Goucher,2022-01-24 This indispensable reference work provides readers

with the tools to reimagine world history through the lens of women's lived experiences. Learning how women changed the world will change the ways the world looks at the past. Women Who Changed the World: Their Lives, Challenges, and Accomplishments through History features 200 biographies of notable women and offers readers an opportunity to explore the global past from a gendered perspective. The women featured in this four-volume set cover the full sweep of history, from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams. Every walk of life is represented in these pages, from powerful monarchs and politicians to talented artists and writers, from inquisitive scientists to outspoken activists. Each biography follows a standardized format, recounting the woman's life and accomplishments, discussing the challenges she faced within her particular time and place in history, and exploring the lasting legacy she left. A chronological listing of biographies makes it easy for readers to zero in on particular time periods, while a further reading list at the end of each essay serves as a gateway to further exploration and study. High-interest sidebars accompany many of the biographies, offering more nuanced glimpses into the lives of these fascinating women.

Saberes con sabor Conxita Domènech,Andrés Lema-Hincapié,2020-09-13 Saberes con sabor: Culturas hispánicas a través de la cocina es un manual avanzado que responde al creciente interés por el estudio de las prácticas culinarias y alimenticias de Ibero-América, sin desatender ni la lengua ni la cultura de esas regiones del mundo. Cada capítulo comprende aspectos vinculados con recetas, lengua, arte y teoría. Los estudiantes son expuestos a temas de geografía, historia, literatura, política, economía, religión, música e, incluso, cuestiones de género que estarían implicadas en la elaboración y en el consumo de ciertas comidas. Y, esto, mientras mejoran sus habilidades en temas esenciales y específicos del español. A lo largo del libro, están incorporados materiales de internet —como vínculos para videos, registros sonoros, referencias históricas, sitios web de cocina y contenidos suplementarios para la investigación. Muy útil en cursos universitarios, Saberes con sabor es un recurso original y único de aprendizaje para estudiantes fascinados por los placeres del paladar y, de igual manera, con una genuina pasión por las culturas hispánicas.

Microhistories of Technology Mikael Hård,2023-02-20 In this open access book, Mikael Hård tells a story of how people around the world challenged the production techniques and products brought by globalization. Retaining their autonomy and freedom, creative individuals selectively adopted or rejected modern gadgets, tools, and machines. In standard historical narratives, globalization is portrayed as an unstoppable force that flattens all obstacles in its path. Modern technology is also seen as inexorable: in the nineteenth century, steamships, telegraph lines, and Gatling guns are said to have paved the way for colonialism and other forms of dominating people and societies. Later, shipping containers and computer networks purportedly pulled the planet deeper into a maelstrom of capitalism. Hård discusses instances that push

back against these narratives. For example, in Soviet times, inhabitants of Samarkand, Uzbekistan, preferred to remain in—and expand—their own mud-brick houses rather than move into prefabricated, concrete residential buildings. Similarly, nineteenth-century Sumatran carpenters ignored the saws brought to them by missionaries—and chose to chop down trees with their arch-bladed adzes. And people in colonial India successfully competed with capitalist-run Caribbean sugar plantations, continuing to produce their own muscovado and sell it to local consumers. This book invites readers to view the history of technology and material culture through the lens of diversity. Based on research funded by the European Research Council and conducted in the Global South, Microhistories of Technology: Making the World shows that the spread of modern technologies did not erase artisanal production methods and traditional tools.

The Americas Kimberly J. Morse, 2022-08-23 This two-volume encyclopedia profiles the contemporary culture and society of every country in the Americas, from Canada and the United States to the islands of the Caribbean and the many countries of Latin America. From delicacies to dances, this encyclopedia introduces readers to cultures and customs of all of the countries of the Americas, explaining what makes each country unique while also demonstrating what ties the cultures and peoples together. The Americas profiles the 40 nations and territories that make up North America, Central America, the Caribbean, and South America, including British, U.S., Dutch, and French territories. Each country profile takes an in-depth look at such contemporary topics as religion, lifestyle and leisure, cuisine, gender roles, dress, festivals, music, visual arts, and architecture, among many others, while also providing contextual information on history, politics, and economics. Readers will be able to draw cross-cultural comparisons, such as between gender roles in Mexico and those in Brazil. Coverage on every country in the region provides readers with a useful compendium of cultural information, ideal for anyone interested in geography, social studies, global studies, and anthropology.

Nuevo manual de gastronomía molecular Mariana Koppmann, 2019-11-22 Una nueva entrega del encuentro entre la ciencia y la cocina, donde se develan, tenedor en mano, los secretos de los platos que preparamos a diario y las técnicas que la ciencia aporta a nuestras recetas. Mariana Koppmann demuestra una vez más que nuestras cocinas son verdaderos laboratorios de química, física y biología. De entrada, lleva al extremo una de las verdades de la gastronomía al proponer que la comida no sólo entra por los ojos, sino por los cinco sentidos. Desentraña su funcionamiento y explora las combinaciones de sensaciones cuando comemos. Luego revela la ciencia oculta detrás de algunos fenómenos -los secretos de los vegetales de todos los colores (y cómo conservar el color durante la cocción) o los procesos que tienen lugar durante la fritura-, pasando por el fascinante método de la cocción al vacío, el supercongelamiento con nitrógeno líquido y las misteriosas esferificaciones, que permiten que sorprendamos a nuestros invitados con bolitas... de jugo de manzana. También nos enseña a perderle el miedo a una de las mayores innovaciones culinarias de los últimos años, como la utilización de aditivos, emulsionantes y gelificantes para lograr las más variadas texturas en los platos. La seguridad e inocuidad alimentaria se han convertido en un tema central, y este nuevo manual aporta las claves para conocer los microorganismos que contaminan los productos a fin de instrumentar una higiene eficaz para combatirlos. Además, los apéndices resumen conceptos básicos de la química y la física de los alimentos, fundamentales para entender la ciencia de la cocina. Y lo mejor: todas las explicaciones están regadas con consejos prácticos y recetas de vanguardia. Este libro nos ofrece ideas para deleitar a los comensales con globos de tomate, aires de salsa de soja o esféricos de naranja, y ser el centro de la fiesta al hablar de pectinas o cloroplastos. ¡Que lo disfruten!

Manual básico de gastronomía científica Mariana Koppmann, 2023-12-01 En casa o en un restaurante, pequeñas o grandes, tradicionales o equipadas con la última tecnología, las cocinas son siempre laboratorios. De hecho, cocinar implica desencadenar una serie de reacciones físicas y químicas en los alimentos, combinarlos y tratarlos para lograr sabores, texturas y maridajes que despierten los sentidos. Este Manual básico de gastronomía científica viene a develar los secretos del encuentro entre la ciencia y la cocina, un vínculo cada vez más difundido entre profesionales y aficionados. Para eso, sus páginas recorren los principales ingredientes -de los huevos a las carnes, de los vegetales a las harinas, de las grasas al almidón y los azúcares-, sus propiedades físicas y los modos en que se transforman químicamente cuando los sometemos a distintos métodos de cocción. En esa aventura didáctica, rigurosa pero fácilmente comprensible, incluye recetas y consejos prácticos para experimentar mientras se lee. Tampoco olvida al comensal -la otra parte de la ecuación culinaria- y, así, revisa el modo en que nos relacionamos con los sabores, los colores, los aromas y las combinaciones de los alimentos. Verdadera Biblia culinaria para tener siempre al alcance de la mano, este volumen presta atención a los nuevos hábitos alimentarios y las innovaciones más recientes, sin dejar de lado una de las razones más poderosas para dedicar tiempo a aprender a cocinar: lo hacemos, finalmente, por el placer de disfrutar y compartir comidas deliciosas.

Historia feminista de la literatura argentina, 2024-12-20 Este tomo propone una historia feminista de las estéticas transmediales que implica una comprensión de los lenguajes artísticos o "modos de decir". Por eso, los trabajos que integran el tomo pueden considerarse ensayos de imaginación teórica, crítica y artística en un estado de pura especulación: con la literatura argentina van hacia la teoría, los métodos, los activismos, las visualidades y gráficas, las formas de vida, el sonido, el movimiento, las tecnologías, las puestas en escena, la cocina, la gestoría cultural, el fútbol y los museos y buscan encontrar una zona de cercanía.

Pura vida Norma Lopez-Burton, Marques Pascual, Pardo Ballester, 2019-11-26 In *Pura vida* (Life is good) Spanish is more than vocabulary and grammar, just as Spanish-speaking cultures are more than products and practices. In this learner-centered introductory program, the authors' commitment to a methodology based on true-to-life experiences brings Spanish to life. *Pura vida* is the discovery of a Spanish-speaking world through the experiences of real people who share anecdotes and reflections on those experiences. Students relate to these people and make deeper, more meaningful connections between language and culture, and acquire Spanish with an unparalleled sense of personal engagement. In this 12-chapter introductory program, students don't only learn Spanish for real life, but also from real life. They discover that there is not just one homogeneous Hispanic culture, but rather that each Spanish-speaking country has its own rich, unique culture and that the people who live in these countries speak one common language with different accents, characteristics, and idiosyncrasies. The program offers truly seamless integration of cultural notions and language instruction and features 100% contextualized and personalized activities.
