Crow: The Deviant (Crow Series, Book 2) ~ An epic science fantasy novel Michael J. Vanecek, 2021-04-20 The monster within him is waking quickly, threatening to overtake him. And the monster only knows destruction. Global destruction.

Steven Crow's safe reality has been obliterated. He is surrounded by fantasy creatures from other worlds. Secret agents are lusting after his capabilities. And he is supposed to be some sort of demon everyone is terrified of. His bucolic childhood has come to an abrupt end. Despite the abundance of radical changes, it is what is happening within that is giving him pause. A growing darkness that is extending its tendrils into every part of his being. A death of himself giving birth to something dark and catastrophic. Once again, Steven Crow finds himself on the run. Not from psychotic secret agents who persist in tormenting him. Nor from the fantasy creatures who are again trying to terminate him. Not even from a twisted goddess who seems completely infatuated with him. Time is running out for everyone. And he is the threat. How does one outrun an enemy who resides within?

Regulating Cartels in India Sudhanshu Kumar, 2022-11-23 This book presents a comprehensive assessment of anti-cartel enforcement and investigative procedures in India. It makes a case for enhanced sanctions for cartel conduct in India. Cartels are considered the most pernicious violation of competition law, referred to as cancer to the free market economy. While competition laws in most jurisdictions prescribe strict sanctions against cartels, Indian Competition Law provides only civil penalties, with an upper ceiling for proven cartel conduct. This volume assesses the effectiveness of anti-cartel enforcement of the Competition Commission of India (CCI). It explores investigative procedures of the CCI through multiple qualitative and quantitative indicators and the extent to which enforcement of anti-cartel laws in India has led to cartel deterrence. Further, it also examines the priorities and processes of the CCI in terms of anti-cartel enforcement, their sanctioning mechanism and their dependency of computation of penalty on varied factors. Featuring detailed case law studies and engaging data, this book will be an essential read for students and researchers of law and legal studies, competition law, corporate law, intellectual property law, and business law.
