But when Tommy’s beautiful new client turns out to be the highborn lady she’s secretly smitten with, more than her mission is at stake . . . Bluestocking Miss Philippa York doesn’t believe in love. Her heart didn’t pitter-patter when she was betrothed to a duke, nor did it break when he married someone else. All Philippa desires is to decode a centuries-old manuscript to keep a modern-day villain from claiming credit for work that wasn’t his. She hates that she needs a man’s help to do it—so she’s delighted to discover the clever, charming baron at her side is in fact a woman. But as she and Tommy grow closer and the stakes of their discovery higher, more than just their hearts are at risk. Entertainment Weekly Best Romances of 2021 Library Journal Best Romances of 2021

Still Reading Romance Josefine Smith, Kathleen W. Taylor Kollman, 2025-04-01 In a world that commodifies feminism, is adapting romance novels for small and big screen projects, and the Romance Writers Association is evolving to a more inclusive representative group, it is imperative for researchers to reevaluate the cultural assumptions and gender norming work happening in the romance genre. It is time to question the cultural capital of traditional archetypes, explore the experience of romance readers, and question how romance and cultural studies researchers create quantitative, qualitative, and mixed methods research. This work centers around a data set collected with a revised version of Janice Radway's Reading the Romance survey that will be shared with all the authors of this anthology. By having access to this pool, authors will have the opportunity to explore different elements of reader experience and cultural norms in romance fiction, and potentially reflect on changes since Janice Radway's seminal work. The norms and negotiations readers experience while consuming romance is especially interesting as romancelandia becomes a more mainstream part of popular culture with the popularity of Bridgerton and romance series like Ice Planet Barbarians exploding on BookTok. No other book in romance or popular culture studies identifies a data set as the connecting element, and to do so creates an exciting opportunity to create a more inclusive study of popular romance, offer truly interdisciplinary research on the question of how readers read romance, and generate diverse areas of future scholarship. This edited volume explores multiple issues in romance fiction, based on survey data from real romance readers. An updated version of Janice Radway's influential survey looking at

romance readers in the early 1980s, this time scholars explore romance readers' habits and attitudes in the twenty-first century. Each contributor in this volume uses the same survey data to make unique statements about gender, intersectionality, popular fiction, and popular culture. By using a common data set but approaching it from different perspectives, this unique volume is able to apply multiple methodologies to the same subject.
