**Joel Comiskey**

**Church Planting Movements** V. David Garrison, 2007 David Garrison, PhD University of Chicago, defines Church Planting Movements as rapidly multiplying indigenous churches planting churches that sweep across a people group or population segment. Garrison's Church Planting Movements: How God Is Redeeming a Lost World signaled a breakthrough in missionary church planting. After the publication of Garrison's book in 2004 it became impossible to talk about missions without referencing Church Planting Movements. Church Planting Movements examines more than two-dozen movements of multiplying churches on five continents. After presenting these case studies, Garrison identifies ten universal elements present in each movement. He then broadens the circle of examination to identify a further ten common characteristics, factors identified in most, but not all, of the movements. He concludes his examination with a list of Seven Deadly Sins, i.e. harmful practices that stifle or impede Church Planting Movements. Important for evangelical readers, the author returns to his findings to see how they stand up to the light of Scripture. What he discovers is that Church Planting Movements are much more consistent with the New Testament lay-led house-church movements that swept rapidly through the Mediterranean world in the face of hostile opposition than today's more sedentary professional institutionalized Christianity. Jesus is the one who builds His church and He will use you. He never fails. What you need is a system that shows you how to start a church, while giving you the tools to evaluate the health of your new church and initiate a church planting movement. **Planting Churches That Reproduce** Joel Comiskey, 2008-12 Small group resources tend to overlook the spiritual side of small group leadership. And yet most would agree that spiritual preparation is the most important aspect of leading a small group. Only God's supernatural power can draw people to the truth and liberate them to be all that God wants them to

be. The key distinction of this book is the spiritual perspective it gives to small group ministry. So much of the literature about small groups that is already published relates to small group technique and only touches briefly on the Spirit's power. This book is a practical reference guide to help small group leadership begin to move in the supernatural realm. The book's first priority is to help small group leaders and members trust the Holy Spirit to lead them, empower them and work in their group. Small group facilitators often sense a lack of guidance, power and spiritual authority. Jesus knew His disciples would be powerless without a touch from the Holy Spirit, and so He told them to wait in Jerusalem, saying, You will receive power when the Holy Spirit comes on you; and you will be my witnesses in Jerusalem, and in all Judea and Samaria, and to the ends of the earth (Acts 1:8). Small group leaders need a power boost to make small group ministry relevant and exciting. The second priority of this book is to help the facilitator identify and mobilize each small group member to use his or her own spiritual gifts.

Are Church Planting Movements Real? David Garrison, 2026 Are Church Planting Movements Real? David Garrison (PhD, University of Chicago) set out to answer this question by analyzing 25 years of assessments conducted by the International Mission Board (IMB) of the Southern Baptist Convention. This book pulls back the curtain on in-depth evaluations of 28 reported movements from Asia, Africa, Europe, and the Americas. The findings are surprising—discover what is really happening in reported movements across Cuba, India, East Asia, Africa, and the Muslim world. Garrison was granted unprecedented access to previously unpublished onsite surveys of movements that claimed hundreds of thousands of new Christians and churches among the world's least-reached peoples. For the first time, this book opens the IMB's archives, offering a behind-the-scenes look into the findings of one of the world's largest missionary organizations. What do hundreds of interviews, random samplings, and firsthand accounts reveal about one of the most significant issues in modern missions? Are Church Planting Movements Real? offers new insights into this long-debated subject and is essential reading for any Christian wanting to understand what is actually happening in the remotest corners of the world. It is the most extensive analysis of Church Planting Movements ever produced and promises to be an invaluable resource for students and practitioners of contemporary Christian missions.

Together for the City Neil Powell, John James, 2019-08-27 We need a bigger vision for the city. Pastors Neil Powell and John James contend that to truly transform a city, the gospel compels us to create localized, collaborative church planting movements. The more willing we are to collaborate across denominations and networks, the more effectively we will reach our communities—whatever their size—for Jesus.

**Church Planting** Kevin W. Mannoia, 2005-01-01 Now in its third edition, *Church Planting: The Next Generation*, continues to prove itself a helpful resource for denominations, districts, mission agencies and individuals who know that any church planting movement will require more than raw energy if it is to succeed in the long run. Kevin Mannoia's approach to

church planting is based on the application of comprehensive systems for regional multiplication of churches. This edition includes a new afterword outlining lessons learned from ten years of practical application. Mannoia has identified key areas where resources must be developed and has suggested key structures and processes. His efforts with those of his advisors are creating a road map to the future. Carl F. George Director, Charles E. Fuller Institute What Kevin Mannoia provides is an integrated system that advances us from micro-church planting to macro-church planting. his work is thoughtful, grounded and practical. Charles R. Ridley, Ph.D. Kevin Mannoia was one of the first in North America to see how several key components work together to increase the chances of success for church plants and how networks of churches can collaborate to provide these components, establishing not only new disciple-making communities but entire church planting movements. - Murray Moerman, ChurchPlantingCanada.ca Kevin Mannoia is Dean of the Haggard School of Theology at Azusa Pacific University. Previously he served as President of the National Association of Evangelicals, as well as a pastor, superintendent, bishop emeritus of the Free Methodist Church. *Discovering Church Planting* J. D. Payne, 2009-08-04 J. D. Payne explores the biblical, historical and missiological principles of global church planting, and suggests ways that readers can apply international church planting practices to their own contexts.

*Strategies for Church Planting Movement* S. Devasagayam Ponraj, 2013

*Transformative Church Planting Movement* Martin Jones, 2015-05-28 Transformative Church Planting Movement is a new way of doing church. It challenges Christians to evaluate their present paradigm and supporting traditions (the way they do church) in light of Jesus' ministry. It stresses the importance of individual and small group transformation as the foundation for church transformation. The book emphasizes The Great Commandment of love for God and others as the motivations for TCPM. The Great Commission to make disciples with the corresponding method of go to baptize, baptize to teach, and teach to go form the matrix of TCPM. In addition, the book uses the Parable of the Sower from Matthew 13 to introduce a transformative theological model that is an insightful and inductive process for producing individual transformation that is practical. For those that want to make disciples and see God through His Word transform lives, churches, and communities, this book offers an alternative, a different way of doing church.

No Ordinary Work Larry Snyder, 2021-06-17 With so many church planters seeking to be successful, many of the ways we measure success can lead to personal disappointment, frustration, comparisons, and even depression. This can result in church planters who quit and churches that close even before they really get started, potentially ruining a witness to an entire community. What if we redefined and clarified the biblical metrics for church planting in a way that replaces frustration with fire, and replaces disappointment with direction? What if we stopped the comparisons to steroid growth and replaced them with a better understanding of kingdom growth? In this lighthearted and encouraging book we will highlight

each extraordinary aspect to church planting and detail the biblical metrics that can infuse in each planter a better understanding of success.

**Church Planting Movements - India** Frederick Osborn, 2014-12-11 In the year, 1999, David Garrison, the Associate Vice President, Strategy Coordination and Mobilization, for the International Mission Board of the Southern Baptist Convention completed an assignment to profile the growing number of Church Planting Movements that were appearing in their work around the world. The final result of this assignment was published by the Southern Baptist Convention (SBC) in a small pamphlet of 60 pages, appropriately titled, Church Planting Movements. Although many people in India were involved in missions work long before this report was written and there are many missionaries still working in India today, the major emphasis of their work so far has been making new converts, social works, and building church buildings. There are a number of reasons why missionaries have not been successful in initiating true Church Planting Movements (CPMs), which will be examined in detail in this book, but the primary reasons are because traditional methods of planting churches involve enormous costs in purchasing land and building church buildings, and there remains a shortage of seminary-trained ministry leaders who have studied and understood what a CPM is all about. However if they were encouraged, equipped, and educated, there are enough indigenous workers ready, willing, and able to evangelize the lost and start Church Planting Movements across India. Today there is an increased desire among village pastors to plant new churches, but they are often delayed because of the tremendous burden and crippling financial drain involved in obtaining land and building church buildings. Following the traditional model it would not take long before all of the efforts of church planters would be poured into fundraising for building churches. However, after reading David Garrison's report, one will realize two things: first is how important it is to place more emphasis on biblical church planting strategies among the marginalized communities; and second is how important it is to understand from the book of Acts what are the qualities and characteristics of a genuine Church Planting Movement.

**The Church as Movement** JR Woodward, Dan White Jr., 2016-07-14 JR Woodward and Dan White Jr. have trained church planters all over North America. In this interactive field manual, they help you and your team gain eight key competencies crucial for church planting so that you can create churches that flourish and launch their own sustainable missional and incarnational congregations.

**On Mission with God** Henry T. Blackaby, Avery T. Willis, 2002 God is on mission and He isn't just giving selected Christians missions experience. He wants every Christian to be on mission with Him.

*Perspectives on the World Christian Movement (4th Edition)* Ralph D. Winter, Steven C. Hawthorne, 2009-06-01 Perspectives on the World Christian Movement presents a multi-faceted collection of readings exploring the biblical, historical, cultural, and strategic dimensions of world evangelization. practitioners (over 60 of them new to this edition) portray the history and anticipate the potential of the global Christian movement. Every one of the 170 articles and side bars offers practical wisdom enabling Christians to labor together in bold, biblical hope to finish the task of seeing that Christ is named and followed among all the peoples of the earth. The Fourth Edition contains over 60 articles and sidebars that are new to this edition. Many articles have been updated and revised.

*Emerging Gospel Movements* Gene Wilson, 2021-12-17 In this book, Wilson gives a thoroughly biblical foundation for gospel movements. He takes us back to the New Testament and walks us through examples from missions history. He compares different types of gospel movements and demonstrates that, at their core, gospel movements make, mature, and multiply disciples. They are found not only in Africa and Asia, but also in Europe, the Americas, and throughout the world. Based on twenty years of experience, Wilson gives practical principles and real-life stories that will help church planting catalysts maximize their effectiveness as they come alongside emerging movements around the world. He shares the collective wisdom of national movement leaders and missionary catalysts to help us engage and assist developing movements without doing harm. This book offers a realistic portrayal of the challenges and sacrifices involved in launching gospel movements and constructive pathways to strengthen their growth. With insights from this book, movement leaders and external catalysts can contribute synergistically according to the stage of the movement—pioneer penetration, local multiplication, regional organization, or global participation. Humble facilitators who embrace biblical priorities and best practices will play a constructive role. Read this book prayerfully considering how God can use you to add value to a gospel movement.
