Handbook of Language and Ethnic Identity Joshua Fishman, Ofelia Garcia, 2011-04-21 Like the first volume, The Handbook of Language and Ethnic Identity, Volume 2 is a reference work on the interconnection between language and ethnic identity. In this volume, 37 new essays provide a systematic look at different language and ethnic identity efforts, assess their relative successes and failures, and place the cases on a success-failure continuum. The reasons for these failures and successes and the linguistic, social, and political contexts involved are subtle and highly complex. Some of these factors have to do with whether the language is considered a dialect, as in the cases of Bavarian, Ebonics, and Scots (considered to be dialects of German, American English, and British English, respectively). Other factors have to do with government policy, as in the cases of Basque and Navajo. Still other factors are historical, such as the way Canaanite was supplanted in present-day Israel by another classical language-Hebrew. Although the volume offers considerable sophistication in the treatment of language, ethnicity and identity, it has been written for the non-specialized reader, whether student or layperson. The contributors are an international group of well-known scholars in a range of fields. Fishman and García provide a detailed introduction that addresses the difficulty of assessing the success or failure of a language. They also present a conclusion that integrates the data presented in the volume.

English in Singapore Lisa Lim, Anne Pakir, Lionel Wee, 2010-06-01 English in Singapore provides an up-to-date, detailed and comprehensive investigation into the various issues surrounding the sociolinguistics of English in Singapore. Rather than attempting to cover the usual topics in an overview of a variety of English in a particular country, the essays in this volume are important for identifying some of the most significant issues pertaining to the state and status of English in Singapore in modern times, and for doing so in a treatment that involves a critical evaluation of work in the field and new and thought-provoking angles for reviewing such issues in the context of Singapore in the twenty-first century. The contributions address the historical trajectory of English (past, present and possible future), its position in relation to language policy and multiculturalism, the relationship between the standard and colloquial varieties, and how English can and should be taught. This book is thus essential reading for scholars and students concerned with how the dynamics of the English language are played out and managed in a modern society such as Singapore. It will also interest readers who have a more general interest in Asian studies, the sociology of language, and World Englishes.

This “living reference work” offers a window into the linguistic sphere in China and beyond, and showcases the latest research into diverse and evolving linguistic phenomena that

have resulted from intensified interactions between the Sinophone world and other lingua-spheres. The Handbook is divided into five sections. The chapters in Section I (New Research Trends in Chinese Linguistic Research) present fast-growing research areas in Chinese linguistics, particularly those undertaken by scholars based in China. Section II (Interactions of Sinitic Languages) focuses on language-contact situations inside and outside China. The chapters in Section III (Meaning, Culture, Translation) explore the meanings of key cultural concepts, and how ideas move between Chinese and English through translation across various genres. Different Voices Rosaly Puthuchear, 2009 Focuses on the challenges that face a novelist in the literary representation of a multilingual environment. This book asserts that the methods of language appropriation have a direct connection to how the writer conveys the multilingual nature of the Singapore-Malayan society through the speaking person, developing the central theme of the novel.

The Evolution of English Language Learners in Japan Yoko Kobayashi, 2018-01-19 This book seeks a better understanding of the sociocultural and ideological factors that influence English study in Japan and study-abroad contexts such as university-bound high schools, female-dominant English classes at college, ESL schools in Canada, and private or university-affiliated ESL programs in Singapore and Malaysia. The discussion is based not only on data garnered from Japanese EFL learners and Japanese/overseas educators but also on official English language policies and commercial magazine discourses about English study for Japanese people. The book addresses seemingly incompatible themes that are either entrenched in or beyond Japan's EFL context such as: Japan's decades-long poorly-performing English education vs. its equally long-lived status as an economic power; Japanese English learners' preference for native English speakers/norms in at-home Japanese EFL contexts vs. their friendship with other Asian students in western study-abroad contexts; Japanese female students' dream of using English to further their careers vs. Japanese working women's English study for self-enrichment; Japanese society's obsession with globalization through English study vs. the Japanese economy sustained by monolingual Japanese businessmen; Japanese business magazines' frequent cover issues on global business English study vs. Japanese working women's magazines' less frequent and markedly feminized discourses about English study.

A Study of Attitudes of Dialect Speakers Towards the Speak Mandarin Campaign in Singapore Patrick Chin Leong Ng, 2017-01-19 This book makes an original contribution to the fields of sociolinguistics, language planning policy and Chinese language studies. It examines the effectiveness of the Singapore's Speak Mandarin Campaign in changing the language use of dialect speakers towards Mandarin. Singapore may be only "a small red dot" and barely visible on the world's

map. However, its complex and dynamic linguistic diversity and its quadrilingual educational system make it a unique and fascinating research site for examining deliberate language planning on the part of governmental authorities. 2017 marks the 38th anniversary of the Speak Mandarin Campaign, a focused language-planning policy aimed at changing the deeply entrenched sociolinguistic habits of Chinese Singaporeans who are used to speaking Chinese dialects. This book provides a revealing update on dialect speakers' attitudes towards the campaign by including discussions and other related issues such as the recent call for the revitalisation of Chinese dialects by younger dialect speakers, Chinese students' attitude towards learning Mandarin in schools, the encroachment of English in the home environment, the spread and dominance of English in the local linguistic landscape, and the challenges of maintaining Mandarin as a language of use and preference.

Style, Identity and Literacy Christopher Stroud, Lionel Wee, 2011-11-15 Style, Identity and Literacy is a qualitative study of the literacy practices of a group of Singaporean adolescents, relating their patterns of interaction - both inside and outside the classroom - to the different levels of social organization in Singaporean society (home, peer group and school).

Nudging Public Policy Rosemarie Fike, Stefanie Haeffele, Arielle John, 2021-11-17 This book asks several critical questions relevant to those interested in public policy: What is a nudge? What are the ethical implications of and justifications for nudges? Are we able to have nudges without affecting one's freedom to choose? In what institutional context are nudges likely to work well and in what context are they likely to fail? The text explores several real-world instances of government attempts at successful choice architecture across a wide range of policy topics: internet privacy laws, environmental policy, education policy, the sharing economy, and creating a national culture. This approach also highlights the spontaneous and evolutionary nature of social institutions like culture and trust. Attempts from policymakers to generate these social institutions where they did not exist previously are unlikely to succeed unless they are aligned with the unique characteristics of the society in question. This raises the question of whether the seemingly successful policy interventions were even necessary. A few of the chapters in this book directly examine these issues through case studies of both Latin America and Singapore. Each chapter in this volume explores the ways in which individuals in society respond to attempts by policymakers to "nudge" them towards a specific outcome. Some chapters explore the theoretical arguments in favor of utilizing this behavioral policy approach. Others explore the feasibility and potential limitations of this approach to public policy. Several of the chapters apply market process theory to understand a particular case study where nudge policies have been put into practice. The chapters, authored by an interdisciplinary group of policy scholars, include discussions of internet privacy laws, the sharing economy, education policy, environmental policy, as well as social issues such as trust and culture.

Multilingual Singapore Ritu Jain, 2021-05-25 This volume brings together researchers whose analysis and insights provide a comprehensive and up-to-date account of Singapore's rich linguistic diversity. Applying a combination of descriptive, empirical, and theoretical approaches, the authors investigate not only official languages such as English, Mandarin, Malay, and Tamil, but also minority languages such as the Chinese vernaculars and South Asian and Austronesian languages. The chapters in this volume trace the historical development, contemporary status, and functions of these languages, as well as potential scenarios for the future. Exploring the tension between language policies and linguistic realities in Singapore, the contributions in this volume capture the shifting educational, political, and societal priorities of the community through its past and contemporary present.

KELONG KINGS Wilson Raj Perumal, Alessandro Righi, Emanuele Piano, 2014-04-28 Wilson Raj Perumal has been labeled the world's most prolific match-fixer in football's recent history. Born a village boy in rural Singapore in the mid-60's, Wilson climbed the heights of international match-fixing across five continents, becoming FIFA's most wanted man. Like a guppy in the sea, Wilson starts off a small gambler, mixing with the local Singapore bookies, and witnesses the rise and fall of the old-school Asian big fish of match-fixing until he finds himself competing against them in a world with no set rules, where turncoats are the norm and quick money the only drive. Perumal was arrested in Finland in February 2011 and decided to

collaborate with authorities, thus opening the match-fixing Pandora's box. In his book, Wilson reveals an unprecedented account of how the international match-fixing underworld has influenced the outcomes of matches at every level of football that we may well have watched unsuspectingly. *Kelong Kings* is the ultimate tale about gambling, football and match-fixing, told directly by the man who made it all happen. But be advised, after you read this book, you will never be able to watch a soccer match in the same way again.
