The End Charlie Higson, 2016-06-04 Everyday Reality is a Drag?. FUN!-the latest in augmented reality-is fun YAY! but it's also frustrating, glitchy, and dangerously addictive BOO!. Just when everyone else is getting on, 17-year-old Aaron O'Faolain wants off. But first he has to complete his Application for Termination, and in order to do that he has to deal with his History-not to mention the present, including his grandfather's suicide and a series of clues that may (or may not) lead to buried treasure. As he attempts to unravel the mystery, Aaron is sidetracked again . . . and again. Shadowed by his virtual best friend, Homie, Aaron struggles with love, loss, dog bites, community theater, wild horses, wildfires, and the fact (deep breath) that actual reality can sometimes surprise you. Sean McGinty's strikingly profound debut unearths a world that is eerily familiar, yet utterly original. Discover what it means to come to the end of fun.

Child Autonomy and Child Governance in Children's Literature Christopher Kelen, Bjorn Sundmark, 2016-11-18 This book explores representations of child autonomy and self-governance in children's literature. The idea of child rule and child realms is central to children's literature, and childhood is frequently represented as a state of being, with children seen as aliens in need of passports to Adultland (and vice versa). In a sense all children's literature depends on the idea that children are different, separate, and in command of their own imaginative spaces and places. Although the idea of child rule is a persistent theme in discussions of children's literature (or about children and childhood) the metaphor itself has never been properly unpacked with critical reference to examples from those many texts that are contingent on the authority and/or power of children. Child governance and autonomy can be seen as natural or perverse; it can be displayed as a threat or as a promise. Accordingly, the child rule-motif can be seen in Robinsonades and horror films, in philosophical treatises and in series fiction. The representations of self-ruling children are manifold and ambivalent, and range from the idyllic to the nightmarish. Contributors to this volume visit a range of texts in which children are, in various ways, empowered, discussing whether childhood itself may be thought of as a nationality, and what that may imply. This collection shows how representations of child governance have been used for different ideological, aesthetic, and pedagogical reasons, and will appeal to scholars of children's literature, childhood studies, and cultural studies.

The British Television Pilot Episodes Research Guide 1936-2015 Christopher Perry, 2015-12 A new idea can become an expensive flop for TV executives. So from the earliest days of television, the concept of a pilot episode seemed like a good idea. Trying out new actors; new situations and new concepts before making a series was good economical sense. It was also tax deductible. Sometimes these pilots were shown on television; sometimes they were so awful they were hidden from sight in archives; and sometimes they were excellent one-offs, but a series seemed elusive and never materialised. Chris Perry has always been fascinated by the pilot episode. So many pilots are made annually, but never seen by audiences. Only a handful appear on screen. It's a hidden world of comedy, variety, drama and factual programming. This volume attempts to lift the lid on the world of the TV pilot by revealing the many transmitted and untransmitted episodes made through the decades.

Happy Now Charles Higson, 2015-09-17 From the author of the latest official James Bond novel 'Charlie Higson's thrillers are major events' Mark Billingham 'An off-beat, atmospheric novel' Mirror 'Written with chilling perception' Time Out 'I do not believe that a man can be truly happy unless he fully understands what he is and can act accordingly... how can it be wrong to be happy?' These lines are taken from Will's diary, a seemingly innocuous exercise book which details his house-breaking activities. Will carefully selects houses - forty-seven so far - ensuring their owners will be in. As they cook their supper or watch television, Will (wearing surgical gloves and leaving no trace behind) enters not only their houses, but their secret lives. A secret museum, housed in his loft, is 'held together by sex'. All his trophies are carefully catalogued and he keeps a very precise diary of his activities and his thoughts. All his life Tom Kendall had lived as quietly and normally as possible ... but he gave people the creeps ... 'kids didn't like him, or the cat'. When Tom discovers Will's diary he decides to adopt the same quest for happiness. Tom has problems of his own - a difficult temper, problems with his girlfriend, Maddie, and an overwhelming sense of powerlessness. Perhaps Will's diary holds the key?
