**Mechademia 3** Frenchy Lunning,2014-11-01 Dramatic advances in genetics, cloning, robotics, and nanotechnology have given rise to both hopes and fears about how technology might transform humanity. As the possibility of a posthuman future

becomes increasingly likely, debates about how to interpret or shape this future abound. In Japan, anime and manga artists have for decades been imagining the contours of posthumanity, creating dazzling and sometimes disturbing works of art that envision a variety of human/nonhuman hybrids: biological/mechanical, human/animal, and human/monster. Anime and manga offer a constellation of posthuman prototypes whose hybrid natures require a shift in our perception of what it means to be human. *Limits of the Human*—the third volume in the Mechademia series—maps the terrain of posthumanity using manga and anime as guides and signposts to understand how to think about humanity’s new potentialities and limits. Through a wide range of texts—the folklore-inspired monsters that populate Mizuki Shigeru’s manga; Japan’s Gothic Lolita subculture; Tezuka Osamu’s original cyborg hero, Atom, and his manga version of Fritz Lang’s *Metropolis* (along with Ôtomo Katsuhiro’s 2001 anime film adaptation); the robot anime, *Gundam*; and the notion of the uncanny in *Ghost in the Shell 2: Innocence*, among others—the essays in this volume reject simple human/nonhuman dichotomies and instead encourage a provocative rethinking of the definitions of humanity along entirely unexpected frontiers. Contributors: William L. Benzon, Lawrence Bird, Christopher Bolton, Steven T. Brown, Joshua Paul Dale, Michael Dylan Foster, Crispin Freeman, Marc Hairston, Paul Jackson, Thomas LaMarre, Antonia Levi, Margherita Long, Laura Miller, Hajime Nakatani, Susan Napier, Natsume Fusanosuke, Sharalyn Orbaugh, Ôtsuka Eiji, Adèle-Elise Prévost and MUSEbasement; Teri Silvio, Takayuki Tatsumi, Mark C. *Operas in English: A Dictionary* Margaret Ross Griffel, 2012-12-21 In this revised and expanded edition of *Operas in English: A Dictionary*, Margaret Ross Griffel updates her work on operas written specifically to an English text, including not only works originally in English but also those set to new English librettos. Since the book’s initial publication in 1999, Griffel has added nearly 900 new items, bringing the total number of entries in this new edition to 4,400, covering the world of opera in English from 1634 through 2011. The front matter includes a brief history of English opera, to “set the stage” for the dictionary entries that follow. Listed alphabetically, each opera entry includes alternative titles; a full, descriptive title; the number of acts; composer’s name; librettist’s name, with original language of the libretto; the source of the text (date, place, and cast of the first performance); date of composition (if it occurred substantially earlier than the premiere); similar information for the first U.S. (including colonial) and British (England, Scotland, Wales) performances; brief plot summary; main characters (names and vocal ranges, where known); names of noteworthy numbers; comments on special musical problems and techniques; other settings of the text, including non-English ones; other operas, if any, involving the same story or characters (cross references are indicated by asterisks). Entries include such information as first and critical editions of the score and libretto; a bibliography, ranging from scholarly studies to more informal journal articles and reviews; a discography; and information on video recordings. *Operas in English* features four appendixes, a selective bibliography, and

two indexes. The first appendix lists composers, their places and years of birth and death, and their operas included in the text as entries; the second does the same for librettists; the third records authors whose works inspired or were adapted for the librettos; and the fourth comprises a chronological listing of the A-Z entries, including the date of first performance, the city of the premiere (or composition date if unperformed or performed much later), the short title of the opera, and the composer. There is a main character index and an index of singers, conductors, producers, composers of other settings, and other key figures.

**Skateboarding and Femininity** Dani Abulhawa, 2020-08-27 Skateboarding and Femininity explores and highlights the value of femininity both within skateboarding and wider culture. This book examines skateboarding's relationship to gender politics through a consideration of the personal politics connected to individual skateboarders, the social-spatial arenas in which skateboarding takes place, and by understanding the performance of tricks and symbolic movements as part of gender-based power dynamics. Dani Abulhawa analyses the discursive frameworks connected to skateboarding philanthropic projects and how these operate through gendered tropes. Through the author's work with skateboarding charity SkatePal, this book offers an alternative way of recognising the value of skateboarding philanthropy projects, proposing a move toward a more open and explorative somatic practice perspective.

*Children's Literature as Communication* Roger D. Sell, 2002-01-01 In this book, members of the ChiLPA Project explore the children's literature of several different cultures, ranging from ancient India, nineteenth century Russia, and the Soviet Union, to twentieth century Britain, America, Australia, Sweden, and Finland. The research covers not only the form and content of books for children, but also their potential social functions, especially within education. These two perspectives are brought together within a theory of children's literature as one among other forms of communication, an approach that sees the role of literary scholars, critics and teachers as one of mediation. Part I deals with the way children's writers and picturebook-makers draw on a culture's available resources of orality, literacy, intertextuality, and image. Part II examines their negotiation of major issues such as the child adult distinction, gender, politics, and the Holocaust. Part III discusses children's books as used within language education programmes, with particular attention to young readers' pragmatic processing of differences between the context of writing and their own context of reading.

*Book Auction Records* Frank Karslake,1921 A priced and annotated annual record of international book auctions.

*Colonial India in Children's Literature* Supriya Goswami,2012-07-26 Colonial India in Children's Literature is the first book-length study to explore the intersections of children's literature and defining historical moments in colonial India. Engaging with important theoretical and critical literature that deals with colonialism, hegemony, and marginalization in children's literature, Goswami proposes that British, Anglo-Indian, and Bengali children's literature respond to five key historical events: the missionary debates preceding the Charter Act of 1813, the defeat of Tipu Sultan, the Mutiny of 1857, the birth of Indian nationalism, and the Swadeshi movement resulting from the Partition of Bengal in 1905. Through a study of works by Mary Sherwood (1775-1851), Barbara Hofland (1770-1844), Sara Jeanette Duncan (1861-1922), Rudyard Kipling (1865-1936), Upendrakishore Ray (1863-1915), and Sukumar Ray (1887-1923), Goswami examines how children's literature

negotiates and represents these momentous historical forces that unsettled Britain's imperial ambitions in India. Goswami argues that nineteenth-century British and Anglo-Indian children's texts reflect two distinct moods in Britain's colonial enterprise in India. Sherwood and Hofland (writing before 1857) use the tropes of conversion and captivity as a means of awakening children to the dangers of India, whereas Duncan and Kipling shift the emphasis to martial prowess, adaptability, and empirical knowledge as defining qualities in British and Anglo-Indian children. Furthermore, Goswami's analysis of early nineteenth-century children's texts written by women authors redresses the preoccupation with male authors and boys' adventure stories that have largely informed discussions of juvenility in the context of colonial India. This groundbreaking book also seeks to open up the canon by examining early twentieth-century Bengali children's texts that not only draw literary inspiration from nineteenth-century British children's literature, but whose themes are equally shaped by empire.

*Cosplay and the Art of Play* Garry Crawford, David Hancock, 2019-06-04 This book is an introduction to cosplay as a subculture and community, built around playful spaces and the everyday practices of crafting costumes, identities, and performances. Drawing on new and original ethnographic data, as well as the innovative use of arts-led research, this book adds to our understanding of a popular, global cultural practice. In turn, this pushes forward our understanding of play, fan practices, subcultures, practice-led research, and uses of urban spaces. *Cosplay and the Art of Play* offers a significant addition to key contemporary debates on the meaning and uses of popular culture in the 21st century, and will be of importance to students and scholars interested in communities, fandom, identity, leisure, participatory cultures, performance, and play.
