Conservation Issues in Modern and Contemporary Murals Tom Learner,Mercedes Sanchez-Pons,Will Shank,2015-09-04 This volume represents a forum for conservators, conservation scientists, artists and heritage managers. It includes the voices of many of the different partners involved in the complex task of preserving artworks:

- The vital experience of artists who create murals and are sometimes asked to treat their creations;
- Theoretical reflections on how to deal methodologically with conservation;
- Scientific studies on the identification of constituent materials and/or on the

development of procedures for their preservation; • The opinion of cultural managers; • The specific experiences of conservators. All of the above must have a voice in the difficult task of preserving such a challenging and changing heritage. Este volumen se plantea como un foro de encuentro entre conservadores restauradores, científicos, artistas y gestores del patrimonio. En él se incluye el trabajo de los diferentes interlocutores que participan en la compleja tarea de conservar una obra de arte: • La experiencia vital del artista creador de murales, que a veces es llamado para restaurar lo que ya hizo; • Las reflexiones teóricas sobre el modo de enfrentarnos metodológicamente a su conservación y restauración; • Los estudios científicos destinados a la identificación de materiales constitutivos o la puesta a punto de procedimientos para su conservación; • La opinión de quienes se encargan de su gestión; • Las experiencias concretas de conservadores restauradores. Todos ellos deben tener voz en la difícil tarea de conservar un patrimonio complejo y cambiante.

Apuntes de obra. Construcciones para arquitectos TOMO 2 Norberto Cussi, 2022-09-21 Esta obra marca la necesidad de dar respuestas a esos interrogantes no resueltos en la bibliografía existente sobre construcciones de obras de arquitectura.

APUNTES DE OBRA TOMO 2 NORBERTO CUSSI, 2024-05-17 Continuando con la misión del primer tomo, este segundo intenta sumar valor agregado a la formación universitaria, la reingeniería del rol del arquitecto, al abordar temas que hacen a la formación profesional, donde hoy más que nunca la cerrada competencia en un campo de escasa demanda, requiere de la máxima capacitación para que el potencial cliente sienta confianza en la idoneidad y seriedad del arquitecto al que le encomendará su obra. Para el patrimonio profesional en el que suman los conocimientos académicos, más los adquiridos en las vivencias de todos los días, la información publicada o solicitada y las experiencias prácticas, este libro intenta brindar, en forma clara y precisa, los conceptos que ayuden a ligar todo lo concerniente a la materialización de la obra, incluyendo los otros tópicos que se suceden en el proceso de una construcción, hasta llegar a la entrega final de la misma.
