Il relate les principaux moments de la trajectoire d'initiation et d'apprentissage de Raymond Montpetit, et montre comment un individu sort du « pays de son enfance » pour passer aux horizons plus vastes du monde culturel auquel il accède et par lequel il se donne un univers de sens.

Research-Creation in Music and the Arts Sophie Stévance,Serge Lacasse,2017-12-12 Since the 1970s, the landscape of higher education and research has been considerably altered by the integration of the arts within the university environment. Even though a form of research is inherent to artistic creation, the creative process is not comparable to the established procedures involved in academic research. As such, how can the imperatives of intellectual (and sometimes restrictive) rigour characteristic of scholarly endeavours be reconciled with the more explorative and intuitive approach of artistic creation? The concept of 'research-creation' allows artists and scholars to collaborate on a common project, acknowledging each participant's expertise in the production of an artistic work that either generates theoretical reflections or has emerged from academic research. This fully revised and updated translation of Sophie Stévance and Serge Lacasse's original French book offers an overview of the historical, political, social, cultural and academic contexts within which research-creation has emerged in Quebec and Canada, before similar (yet often divergent) conceptions appeared elsewhere in the world. Focussing primarily on the case of music, the book goes on to explore the pedagogical potential of research-creation within a university-based environment and proposes a clear and encompassing definition, as well as a theoretical model, of research-creation supported by concrete examples. By underscoring the reciprocal nature of this approach and the potential benefits of collaborative relationships, the authors' vision of research-creation extends far beyond the field of music and art alone: rather, it has the potential to integrate all approaches and disciplines that seek to combine practice and research.

Aborder l'oeuvre d'art dans l'enseignement des langues - Ebook Catherine Muller,Nathalie Borgé,2020-01-29 Dans un

contexte où l'approche sensible est de plus en plus mise en avant en didactique des langues, l'œuvre d'art représente un support privilégié d'échanges culturels et langagiers. Elle favorise un engagement des apprenants propice aux processus d'acquisition à travers un partage d'émotions et une stimulation de l'imaginaire comme de la créativité. Cet ouvrage, destiné à un large public d'enseignants, de formateurs, d'étudiants et de chercheurs, propose une réflexion autour de la réception de la peinture et de la photographie d'auteur. Des orientations concrètes et de nombreuses pistes pour la mise en place d'activités à partir de supports iconiques y sont développées. Nous interrogeons les conditions de l'émergence d'une expérience esthétique aussi bien en classe que hors les murs. La médiation de l'apprenant et celle de l'enseignant de langue sont mises en exergue, de même que les dimensions interculturelles impliquées.

Créativités autochtones actuelles au Québec Louise Vigneault,2023-04-13T00:00:00-04:00 Les Premiers peuples issus du territoire nommé Québec connaissent depuis quelques années un rayonnement culturel considérable. En fait preuve cet ouvrage qui rassemble des témoignages et des comptes rendus d'expressions visuelles, performatives, musicales et vidéographiques, ainsi que des entretiens avec des artistes autochtones. Il montre bien comment les œuvres d'art, en tant que canal privilégié de communication, permettent aux communautés d'exprimer leurs conditions, mais aussi de reprendre contact avec le meilleur d'elles-mêmes, d'inscrire leur vision dans l'espace et dans la durée, et de participer aux processus de désaliénation, d'affirmation et de décolonisation. En plus de fournir des repères historiques, le livre offre une véritable cartographie des aspirations de ces artistes, ainsi que de leurs démarches, leurs choix techniques et thématiques et leurs stratégies d'affirmation et de reconstruction à la fois culturelle, sociale et politique.

Catholicisme et cultures, Regards croisés Québec-France Collectif,2015-07-03T00:00:00-04:00 A l'horizon des discussions récentes sur la laïcité et la religion dans la sphère publique se joue le lien historique et profond que la France et le Québec nouent, par-delà leurs différences, avec un catholicisme romain majoritaire. C'est dans l'analyse de ce lien, autour de la problématique « catholicisme et culture », et l'affinement nécessaire des théories de la sécularisation que réside l'apport du rassemblement des 18 contributions qu'offre ce livre. Qu'en est-il de la préméditation, du rejet ou de l'oubli du catholicisme qui, au fil du temps, avait pénétré toutes les couches de la vie collective ? Qu'en est-il de la liaison ou de la déliaison entre catholicisme et société sous les multiples angles culturels que sont notamment les rites, les pratiques religieuses, la conception de la nation, la famille et l'éducation des enfants, le patrimoine, la mémoire et la littérature ? Les dix-huit études de cas présentées ici permettent d'appréhender plusieurs angles conceptuels novateurs.

Manuel d'archéologie médiévale et moderne - 2e éd. Joëlle Burnouf,Danielle Arribet-Deroin,Bruno Desachy,Florence Journot,Anne Nissen-Jaubert,2020-03-11 Les apports de l'archéologie, et singulièrement de l'archéologie préventive, sont considérables et donnent matière à repenser profondément le Moyen Âge. L'archéologie médiévale mise en perspective sur la longue durée, spatialisée, a découvert la géographicité de ses objets d'étude. Ce changement d'échelle spatiale, comme la

nouveauté parfois surprenante d'« objets archéologiques » mis au jour en abondance, ont bousculé les paradigmes et cadres d'interprétation anciens. Les archéologues médiévistes sont désormais en situation d'établir ou reconstruire les héritages, de marquer de nouveaux seuils et de mieux tisser les liens indispensables à l'intelligence de la complexité des produits matériels et de leurs effets. Et cette archéologie médiévale remontée en puissance débouche à présent sur une relance comparable de l'archéologie des périodes moderne et contemporaine. C'est donc un univers très ouvert et porteur d'avenir que le présent livre fera découvrir aux étudiants. Joëlle BURNOUF est Professeure émérite d'Archéologie Médiévale à l'Université de Paris 1 Panthéon-Sorbonne - UMR 7041 ArScAn. Learning on the Shop Floor Bert De Munck, Steven L. Kaplan, Hugo Soly, 2007 Apprenticeship or vocational training is a subject of lively debate. Economic historians tend to see apprenticeship as a purely economic phenomenon, as an 'incomplete contract' in need of legal and institutional enforcement mechanisms. The contributors to this volume have adopted a broader perspective. They regard learning on the shop floor as a complex social and cultural process, to be situated in an ever-changing historical context. The results are surprising. The authors convincingly show that research on apprenticeship and learning on the shop floor is intimately associated with migration patterns, family economy and household strategies, gender perspectives, urban identities and general educational and pedagogical contexts.

Culture et citoyenneté à l'école québécoise Collectif Collectif, 2025-02-19T00:00:00-05:00 L'ouvrage se veut une contribution originale visant à alimenter les réflexions et les discussions portant sur la construction de la citoyenneté à l'école québécoise. Cet exercice est d'autant plus pertinent dans le contexte pédagogique, didactique et politique dans lequel le Québec baigne actuellement, où la plupart des projets mis en branle sont nés au tournant de la Révolution tranquille.

Dictionnaire critique des enjeux et concepts des « éducations à », 2024-03-28 Depuis le début des années quatre-vingt ont émergé de nombreuses formes d'éducations à... (Développement durable, santé, citoyenneté, solidarité internationale,

médias et information, patrimoine...), sources de nouvelles problématiques et de questionnements pour le champ des sciences de l'éducation et de la formation, et d'interrogations pour les praticiens. Appelées également éducations transversales, elles prennent en charge les questions sociétales et s'inscrivent dans le contexte de la mondialisation. Cette situation conduit les chercheurs et les praticiens à questionner ces nouvelles prescriptions, à problématiser leur place dans les curricula et les disciplines scolaires, à apporter des étayages aux réflexions des enseignants et des formateurs, et à en reformuler de nouvelles. Cette édition actualise et complète la précédente.

Buddhism and the Body, 2023-08-28 Mahayana, Theravada, ancient, modern? Even at the most basic level, the diversity of Buddhism makes a comprehensive approach daunting. This book is a first step in solving the problem. In foregrounding the bodies of practitioners, a solid platform for analysing the philosophy of Buddhism begins to become apparent. Building upon somaesthetics Buddhism is seen for its ameliorative effect, which spans the range of how the mind integrates with the body. This exploration of positive effect spans from dreams to medicine. Beyond the historical side of these questions, a contemporary analysis includes its intersection with art, philosophy, and ethnography.

Les enjeux de la recherche-création en musique Sophie Stévance, Serge Lacasse, 2014-01-13T00:00:00-05:00 Depuis les années 1970, au Québec, le paysage de l'enseignement supérieur a été considérablement modifié par l'intégration des arts dans le milieu universitaire. Pour quelles raisons la création a-t-elle été introduite dans ce haut lieu de production des savoirs? Comment le concept « recherche-création» a-t-il bien pu émerger et que signifie-t-il ? Bien qu'une recherche soit inhérente au processus de création, la démarche de création n'est pas comparable à la recherche scientifique. Aussi, comment peut-on concilier les impératifs de rigueur intellectuelle de la recherche scientifique et la démarche expérimentale et intuitive de création? La recherche-création permet cette collaboration autour d'un projet qui reconnaît les expertises de chacun en vue d'une production artistique qui générera un discours de nature théorique ou qui aura été générée par la recherche scientifique. Dans le domaine de la recherche en musique, en quelles circonstances peut-on alors parler de discipline académique à part entière? Comment et pourquoi enseigner cette discipline, et qui intéresse-t-elle ? Cet essai propose de revenir sur le contexte historique, politique, social, culturel et universitaire qui a vu naître, au Québec, la recherche-création avant qu'ailleurs dans le monde on ne s'empare arbitrairement de cette notion pour désigner une réalité parfois tout autre. Dans le domaine de la musique plus particulièrement, les auteurs de cet ouvrage avancent minutieusement et progressivement une définition de la recherche-création sur la base de leurs projets interdisciplinaires, desquels se dégagent des avenues méthodologiques possibles de recherche-création en musique.

Questions théoriques et pratiques sur l'enseignement explicite Clermont Gauthier, Steve Bissonnette, Marie Bocquillon, 2022-06-08T00:00:00-04:00 Pour faciliter l'enseignement, il importe de prendre appui sur les données issues des recherches rigoureuses en éducation et de s'éloigner des idées préconçues et des pseudo-approches pédagogiques. En

tenant résolument le parti de la recherche empirique, le présent livre offre des réponses à 11 questions qui touchent directement l'enseignement, et ce, tant sur le plan théorique que sur le plan pratique. Les constats qu'on peut en tirer permettront d'entrevoir les défis des enseignantes et enseignants d'aujourd'hui et d'anticiper ce dont sera faite la pédagogie de demain.

Éveil et enracinement Marie-Claude Larouche, Joanne Burgess, Nicolas Beaudry, 2016-11-16T00:00:00-05:00 L'exploitation des ressources patrimoniales à des fins pédagogiques, du primaire à l'université, suscite un intérêt grandissant chez les enseignants et les formateurs. La richesse et la diversité du patrimoine culturel permettent à ces professionnels d'envisager des formules pédagogiques originales afin de répondre à des objectifs divers, et d'appuyer l'enseignement sur l'expérience d'une communauté. Dans cet ouvrage, des enseignants et des chercheurs partagent leurs pratiques, leurs expériences et leurs réflexions sur l'exploitation des ressources patrimoniales dans l'enseignement.

Regards sur l'évaluation des apprentissages en arts à l'enseignement supérieur Diane Leduc, Sébastien Béland, 2017-11-15T00:00:00-05:00 Il est difficile de concilier l'enseignement en arts et le processus évaluatif qui ont deux logiques différentes. Nous sommes là au cœur de l'éternel débat entre objectivité et subjectivité. Pour nourrir ce débat, pour proposer des pistes de réflexions, suggérer des moyens pour évaluer, ce volume collectif se veut un véhicule témoignant d'une réconciliation entre l'enseignement en art et l'évaluation des apprentissages.
