Qualitative Content Analysis in Practice Margrit Schreier, 2012-02-21 Qualitative content analysis is a powerful method for analyzing large amounts of qualitative data collected through interviews or focus groups. It is frequently employed by students, but introductory textbooks on content analysis have largely focused on the quantitative version of the method. In one of the first to focus on qualitative content analysis, Margrit Schreier takes students step-by-step through: - creating a coding frame - segmenting the material - trying out the coding frame - evaluating the trial coding - carrying out the main coding - what comes after qualitative content analysis - making use of software when conducting qualitative content analysis. Each part of the process is described in detail and research examples are provided to illustrate each step. Frequently asked questions are answered, the most important points are summarized, and end-of-chapter questions provide an opportunity to revise these points. After reading the book, students are fully equipped to conduct their own qualitative content analysis. Designed for upper-level undergraduate, MA, PhD students and researchers across the social sciences, this is essential reading for all those who want to use qualitative content analysis.

Video Surveillance of Nesting Birds Christine Ann Ribic, 2012-05-13 "Until recently, inferring identities of predators and monitoring cryptic behaviors at the nest was time-consuming, often with anecdotal results. No more. Video nest surveillance, so aptly revealed in this volume, has ushered in a new era of data collection that allows field workers to link environmental factors with such aspects as the temporal dynamics of predator communities in relation to what the birds are doing at their nests, thus removing much of the guesswork of earlier studies."--Spencer G. Sealy, University of Manitoba Video Surveillance of Nesting Birds shatters earlier beliefs about how birds interact with nest predators. Much of what we thought we knew about nesting and its hazards was flat-out wrong, as authors in this book discovered by using modern technology in the field. As simple as we would like our models of animal behavior to be, this book shows that reality is far more complex and nuanced.--Douglas H. Johnson, University of Minnesota

The Poetry of the American Civil War Lee Steinmetz, 2012-12-30 Deeply affecting and diverse in perspective, *The Poetry of the American Civil War* is the first comprehensive volume to focus entirely on poetry written and published during the Civil War. Of the nearly one thousand books of poetry published in the 1860s, some two hundred addressed the war in some way, and these collectively present a textured portrait of life during the conflict. The poets represented here hail from the North and the South, and at times mirror each other uncannily. Among them are housewives, doctors, preachers, bankers, journalists, and teachers. Their verse reflects the day-to-day reality of war, death, and destruction, and it contemplates questions of faith, slavery, society, patriotism, and politics. This is an essential volume for poetry lovers, historians, and Civil War enthusiasts alike.

The Loving Struggle Emmanuel Falque, 2018-10-15 It has been 25 years since Dominique Janicaud derisively proclaimed the “theological turn” in French phenomenology due to the return of God to philosophy through the influence of “religious” thinkers such as Lévinas, Ricoeur, and Marion. Since then, the “theological turn” has flowered into a fully-fledged movement on both sides of the Atlantic. But, what will be the shape and direction of the second generation of the “theological turn”? In this important new book, Emmanuel Falque engages with all the major twentieth-century French phenomenologists—something heretofore unavailable in English. He argues that rather than being content to argue for the return of God to philosophy, something fought for and developed by the foregoing generation of the “theological turn,” it is necessary to stage a philosophical confrontation, or *disputatio*, with them and their work in order to ensure the ongoing vitality of the unexpected contemporary relationship between philosophy and theology. Drawing on the legacies of Jaspers and Heidegger, who both staged their own “loving struggles” to arrive at defining philosophical conclusions, Falque confronts, interrogates, and learns from his most influential philosophical forebears to steer the “theological turn” in a new direction. Offering a novel and creative philosophy of the body, Falque argues for a reorientation of philosophy of religion generally and the “theological turn” specifically from a philosophy of revelation from above to a philosophy of the limit from below.

Critical and Intersectional Gang Studies Jennifer M. Ortiz, 2023-04-13 This book offers a critical and empirical examination of gang life, using an intersectional framework considering race, class, gender, and other characteristics. The book reexamines mainstream definitions of gangs, identifies myths and misconceptions, and presents the complex subcultural or countercultural realities of gang members and their associates. Special attention is given to the importance of structural violence experienced by gang members and their communities. This book also interrogates how mainstream gang research is complicit in the oppression of marginalized individuals who join gangs. Assembling contributions from leading experts involved in gang research and the investigation of street gang culture, this book provides a perspective often missing

in the conversation around gangs. Direct input from current and former gang members provides a window into the lived experiences of gang life—a picture more accurate and useful than that afforded by the privileged lens often used in gang research. Reliance on an intersectional approach fosters a non-pathological and critical look at gangs and their members. Critical and Intersectional Gang Studies is intended for students and scholars involved in the study of gangs, delinquency, and subcultural theory and will serve as a reference for researchers who wish to utilize a progressive, critical, and intersectional approach to study the impacts of gangs.

The Power of the Metaphysical Artifact Obed Frausto, 2023-02-06 In the nineteenth century, French and Mexican intellectuals had a common interest in providing a groundwork for educating better citizens in response to social crises. There were political and philosophical controversies regarding science and technology in this environment between spiritualists (humanists) and positivists (scientists).. Power and knowledge were intertwined in these controversies. Another objective of the book is to show that controversies can be seen as a dispute between two cultures between those in favor of science and technology and those in favor of philosophy and the humanities. Their continuous arguments articulated a third culture based on an intertwining of power and knowledge. This articulation had an implicit dimension in which philosophy, science, and technology had to interact to enrich the political potential of the human experience of thinking. They were able to grasp a mix or a synthesis that conceptualized the power of a metaphysical artifact in which philosophy, science, and technology belong to the same culture, where politics helps invite dialogue between different cultural, religious, and political perspectives.

Signs and Wonders Mirae Park, 2009-09 God revealed at the beginning He created all things in His mighty Work with signs and wonders. Signs and wonders, are miraculous events that occur in daily life, which are apparently unexplainable,

except through the supernatural power of God. In this wonderful book those powerful theological conceptions and meanings of the Scriptures are blended with true-life experiences of Mirae Park's life and ministry. Now this living model will continue to be a signs and wonders, and a blessing to all those who read it. God also bearing them witness, both with signs and wonders, and with divers miracles, and gifts of the Holy Ghost, according to his own will? (Hebrews 2:4) The Scripture will spring to life and become valid to you as you read Signs and Wonders. Mirae Park is the author of Inner Healing in A Supernaturally Way, Amazing Powerful Fast and the founder of the counseling practice the House of All People, Inc. Mirae has studied biblical science at Valley Forge Christian College and holds numerous degrees: PhD in biblical counseling from Trinity Theological Seminary, dissertation entitled An Effective Health for the Believer: An Application of Biblical Counseling; doctor of ministry from Regent University, dissertation entitled Effective Healing Ministry; doctor of guidance in Counseling at Lael Graduate School; master of divinity from New York Theological Seminary; and a master of arts from Faith Theological Seminary.

Street Gang Patterns and Policies Malcolm W. Klein, Cheryl L. Maxson, 2010-04-12 In the past two decades, many prevention and suppression programs have been initiated on a national and local level to combat street gangs--but what do we really know about them? Why do youths join them? Why do they proliferate? Street Gang Patterns and Policies is a crucial update and critical examination of our understanding of gangs and major gang-control programs across the nation. Often perceived solely as an urban issue, street gangs are also a suburban and rural dilemma. Klein and Maxson focus on gang proliferation, migration, and crime patterns, and highlight known risk factors that lead to youths form and join gangs within communities. Dispelling the long-standing assumptions that the public, the media, and law enforcement have about street gangs, they present a comprehensive overview of how gangs are organized and structured. The authors assess the major gang programs across the nation and argue that existing prevention, intervention, and suppression methods targeting individuals, groups, and communities, have been largely ineffective. Klein and Maxson close by offering valuable policy guidelines for practitioners on how to intervene and control gangs more successfully. Filling an important gap in the literature on street gangs and social control, this book is a must-read for criminologists, social workers, policy makers, and criminal justice practitioners.

Strategies of Difference in Modern Poetry Pierre Lagayette, 1998 This volume consists of a collection of essays, mostly by European scholars, on the ways modern poets have dealt with the crucial concept of difference in their practice of poetic composition. What is examined here through the works of Stevens, Roethke, Yeats, Pound, Ammons, Graham, Laviera, Reznikoff, and Kinsella is the range of strategies used in poetry to convey a sense of disruption, estrangement, disturbance, indeterminacy. The aim is to track down the many kinds of difference that these poets' works illustrate and the challenges

they pose to the critic.

Creating Romantic Obsession Kathleen Béres Rogers, 2019-03-29 Most of us have, at one time, been obsessed with something, but how did obsession become a mental illness? This book examines literary, medical, and philosophical texts to argue that what we call obsession became a disease in the Romantic era and reflects the era's anxieties. Using a number of literary texts, some well-known (like Mary Shelley's 1818 *Frankenstein* and Edgar Allan Poe's 1843 "The Tell Tale Heart") and some not (like Charlotte Dacre's 1811 *The Passions* and Charles Brockden Brown's 1787 *Edgar Huntly*), the book looks at "vigilia", an overly intense curiosity, "intellectual monomania", an obsession with study, "nymphomania" and "erotomania", gendered forms of desire, "revolutiana", an obsession with sublime violence and military service, and "ideality," an obsession with an idea. The coda argues that traces of these Romantic constructs can be seen in popular accounts of obsession today.

Postmodern and Poststructural Approaches to Nursing Research Julianne Cheek, 1999-11-18 In the first three chapters, the author examines definitions of postmodern and postcultural approaches and ways in which they can be used to influence and inform us about health care. Chapters 4 and 5 look at the practical aspects of proposing and carrying out research projects using these approaches. Cheek concludes by reviewing the intellectual journey required in coming to grips with the meaning and application of these approaches, and she suggests ways in which the reader can continue to grow in his or her pursuit.--BOOK JACKET.

Lent Through Eastertide David L. Bartlett, Barbara Brown Taylor, 2010-10-01 Feasting on the Word offers pastors focused resources for Sermon preparation, written by companions on the way. With four different essays on each of the four biblical texts assigned by the Revised Common Lectionary, this series offers preachers sixteen different ways into the proclamation of God's Word on any given occasion. For each reading, preachers will find brief essays on the exegetical, theological, homiletical, and pastoral challenges of the text. The page layout is unusual. By setting the biblical passage at the top of the page and placing the essays beneath it, we mean to suggest the interdependence of these four approaches without granting priority to any one of them. Some readers may decide to focus on the Gospel passage, for instance, by reading all four essays provided for that text. Others may decide to look for connections between the Hebrew Bible, Psalm, Gospel, and Epistle texts by reading the theological essays on each one. Wherever they begin, preachers will find what they need in a single volume produced by writers from a wide variety of disciplines and religious traditions. These authors teach in colleges and seminaries. They lead congregations. They write scholarly books as well as columns for the local newspaper. They oversee denominations. In all these capacities and more, they serve God's Word, joining the preacher in the ongoing challenge of bringing that Word to life.... We have been honored to work with a multitude of gifted thinkers, writers, and editors. We present these essays as their offering-and ours-to the blessed ministry of preaching.-From the introduction by David L.

Nuclear Nuevo México Myrriah Gómez, 2022-11-22 In the 1940s military and scientific personnel chose the Pajarito Plateau to site Project Y of the secret Manhattan Project, where scientists developed the atomic bomb. Nuevomexicanas/os and Tewa people were forcibly dispossessed from their ranches and sacred land in north-central New Mexico with inequitable or no compensation. Contrary to previous works that suppress Nuevomexicana/o presence throughout U.S. nuclear history, *Nuclear Nuevo México* focuses on recovering the voices and stories that have been lost or ignored in the telling of this history. By recuperating these narratives, Myrriah Gómez tells a new story of New Mexico, one in which the nuclear history is not separate from the collective colonial history of Nuevo México but instead demonstrates how earlier eras of settler colonialism laid the foundation for nuclear colonialism in New Mexico. Gómez examines the experiences of Nuevomexicanas/os who have been impacted by the nuclear industrial complex, both the weapons industry and the commercial industry. Gómez argues that Los Alamos was created as a racist project that targeted poor and working-class Nuevomexicana/o farming families, along with their Pueblo neighbors, to create a nuclear empire. The resulting imperialism has left a legacy of disease and distress throughout New Mexico that continues today.
