*Unlawful Orders: A Portrait of Dr. James B. Williams, Tuskegee Airman, Surgeon, and Activist (Scholastic Focus)* Barbara Binns,2022-10-18 Barbara Binns presents the inspiring story of one man in his struggle for racial equality in the field of battle and the field of medicine. Scholastic Focus is the premier home of thoroughly researched, beautifully written, and thoughtfully designed works of narrative nonfiction aimed at middle-grade and young adult readers. These books help readers learn about the world in which they live and develop their critical thinking skills so that they may become dynamic citizens who are able to analyze and understand our past, participate in essential discussions about our present, and work to grow and build our future. The Tuskegee Airmen heroically fought for the right to be officers of the US military so that they might participate in World War II by flying overseas to help defeat fascism. However, after winning that battle, they faced their next great challenge at Freeman Field, Iowa, where racist white officers barred them from entering the prestigious Officers' Club that their rank promised them. The Freeman Field Mutiny, as it became known, would eventually lead to the desegregation of the US armed forces, forever changing the course of American history and race relations. One Black officer who refused to give in to the bigotry at Freeman Field was James Buchanan JB Williams. JB grew up the son of sharecroppers, but his loving family and insuppressible intellect drove him to push boundaries placed on Black Americans in the early twentieth century. JB's devotion to the betterment of others took him from the classroom where he learned to be a doctor, to serving as a medic in the US military and eventually joining the elite Tuskegee Airmen, where he fought to change the minds of all who believed Black men couldn't make good soldiers. But JB's greatest contribution came in his role as doctor and Civil Rights activist after the war, where he continued to push past injustices placed on Black Americans. Critically acclaimed author Barbara Binns tells the story of one man's remarkable life, and in doing so, explores the trials of the brave Black freedom fighters who defended the world against racism and bigotry, both on the front lines and at home.

"*A Different Sense of Power*" Thomas Fink,2001 This volume analyzes the work of a racially, ethnically, and geographically diverse group of recent social poets. These figures -- Thylias Moss, John Yau, Denise Duchamel, Carolyn Forche, Joseph Lease, Gloria Anzaldua, Martin Espada, Melvin Dixon, and Stephen Paul Miller -- utilize a diversity of aesthetic strategies to address a number of central problems, such as poetic speculations about dangers and opportunities of visual representations by dominant and marginalized groups, effacement of specific communities' histories, and attempts at restoration of history.

The Science of the Good Samaritan Dr. Emily Smith,2023-10-24 What does it mean to love your neighbor in today's fraught, divided world? Join Dr. Emily Smith, global health expert and creator of the popular Facebook page Friendly Neighbor Epidemiologist, as she dives into what loving your neighbor--as illustrated in the biblical parable of the Good

Samaritan--truly means. Combining Dr. Smith's expertise as a scientist with her deep Christian faith while drawing from her journey from small-town Texas to a prestigious university, The Science of the Good Samaritan shares fascinating stories from Dr. Smith's life and the lives of other inspiring people around the world to show us how to: Find shared values with people from different backgrounds, faiths, and cultures than our own Reach outside our immediate circles to bring in those on the margins Redefine our concept of neighbor and love our neighbors in more practical and global ways Bridge the gaps of society's disparities and inequities You can help reimagine and create a better world--and it all starts with authentically loving your neighbor.

**The Palgrave Handbook of Infertility in History** Gayle Davis,Tracey Loughran,2017-09-01 This ground-breaking, interdisciplinary volume provides an overdue assessment of how infertility has been understood, treated and experienced in different times and places. It brings together scholars from disciplines including history, literature, psychology, philosophy, and the social sciences to create the first large-scale review of recent research on the history of infertility. Through exploring an unparalleled range of chronological periods and geographical regions, it develops historical perspectives on an apparently transhistorical experience. It shows how experiences of infertility, access to treatment, and medical perspectives on this 'condition' have been mediated by social, political, and cultural discourses. The handbook reflects on and interrogates different approaches to the history of infertility, including the potential of cross-disciplinary perspectives and the uses of different kinds of historical source material, and includes lists of research resources to aid teachers and researchers. It is an essential 'go-to' point for anyone interested in infertility and its history. Chapter 19 is open access under a CC BY 4.0 license via [link.springer.com](http://link.springer.com).
