Ford,Nancy Boyles,Sharon Vaughn,Margaret Mary Policastro,Kathy Brown,Sarah Martino,Shari Frost,Charlene Cobb,Chase Young,Hillary Wolfe,Michelle J. Kelley,Nicki Clausen-Grace,Adele T. Macula,Connie Campbell Dierking,Becky McTague,Mary C. McMackin,Nancy Witherell,Kristin Lems,Elaine Weber,2017-06-06 Teaching English language arts at grades K-5 is both a

science and an art. Educators must teach literacy skills and content with best practices, while also keeping focus on each student's individual needs. They are challenged to monitor students working independently while also conducting small group instruction. And they must focus on providing differentiated support with a rather complicated text. With increased attention to rigor, requirements, and personalized instruction, it can be a challenge to make sure all students are receiving instruction that is just right. *Comprehensive Literacy Basics: An Anthology* by Capstone Professional contains useful tips to support educators. Chapters focus on each part of the literacy and language arts block, including whole group, small group, writing, and differentiation. A collection of expert authors specializing in literacy and language arts instruction contributed chapters to the book. The quick tips and suggestions within will reinforce current practices while providing an invaluable go-to reference.

Rethinking Fiction after the 2007/8 Financial Crisis Mirosław Aleksander Miernik, 2021-03-29 This book provides insight into the impact the 2007/8 financial crisis and subsequent Great Recession had on American fiction. Employing an interdisciplinary approach which combines literary studies with anthropology, economics, sociology, and psychology, the author attempts to gauge the changes that the crisis facilitated in the American novel. Focusing on four books, Elizabeth Strout's *My Name Is Lucy Barton*, Philipp Meyer's *American Rust*, Sophie McManus's *The Unfortunates*, and William Gibson's *The Peripheral*, the study traces how they present such issues as poverty, wealth, equality, distinction, opportunity, and how they relate both to traditional criticisms of consumer culture and the US economy, particularly those issues that have received more attention as a result of the crisis. It also tackles the issue of genre and interpretation in this period, as well as what methods the analyzed novels employ in order to highlight the decreasing social mobility of Americans.

Curriculum at Your Core Lauren Porosoff, 2014-10-08 *Curriculum at Your Core* is a practical guide to designing curriculum that meets standards, serves personal and institutional values, and intentionally leads to successful student learning. Identifying which understandings, knowledge, and skills are “most important” for students to learn is always a question of values, so getting clear on values gives teachers a starting place to design cohesive units, courses, and programs. Written by a teacher for teachers, *Curriculum at Your Core* includes stories, examples, and case studies from across grade levels and subjects, as well as exercises, protocols, and templates teachers can use when writing values-congruent curriculum. Some key features include: stories of failures and successes in designing curriculum metaphors from everyday life to help teachers understand curriculum design as a process rooted in values and culminating in meaningful learning examples of essential questions, assessment guidelines, lesson calendars, unit plans, and curriculum maps exercises and templates teachers can use to create and assess curriculum protocols designed to encourage inclusive participation and critical reflection when colleagues look at curriculum together

Fight Like a Girl Laura Barcella, 2019-08-01 Nearly every day there's another news story or pop cultural anecdote related

to feminism and women's rights. #YesAllWomen, conversations around consent, equal pay, access to contraception, and a host of other issues are foremost topics of conversation in American (and worldwide) media right now. Today's teens are encountering these issues from a different perspective than any generation has had before, but what's often missing from the current discussion is an understanding of how we've gotten to this place. *Fight Like a Girl* will familiarize readers with the history of feminist activism, in an effort to celebrate those who paved the way and draw attention to those who are working hard to further the cause of women's rights. Profiles of both famous and lesser-known feminists will be featured alongside descriptions of how their actions affected the overall feminist cause, and unique portraits (artist's renderings) of the feminists themselves. This artistic addition will take the book beyond simply an informational text, and make it a treasure of a book.

Against Creative Writing Andrew Cowan, 2022-09-13 The rise of Creative Writing has been accompanied from the start by two questions: can it be taught, and should it be taught? This scepticism is sometimes shared even by those who teach it, who often find themselves split between two contradictory identities: the artistic and the academic. *Against Creative Writing* explores the difference between 'writing', which is what writers do, and Creative Writing, which is the instrumentalisation of what writers do. Beginning with the question of whether writing can or ought to be taught, it looks in turn at the justifications for BA, MA, and PhD courses, and concludes with the divided role of the writer who teaches. It argues in favour of Creative Writing as a form of hands-on literary education at undergraduate level and a form of literary apprenticeship at graduate level, especially in widening access to new voices. It argues against those forms of Creative Writing that lose sight of literary values – as seen in the proliferation of curricular couplings with non-literary subjects, or the increasing emphasis on developing skills for future employment. *Against Creative Writing*, written by a writer, is addressed to other writers, inside or outside the academy, at undergraduate or graduate level, whether 'creative' or 'critical'.

The Death and Life of Aida Hernandez Aaron Bobrow-Strain, 2019-04-16 One of Esquire's 50 Best Biographies of All Time Winner of the 2020 Pacific Northwest Book Award | Winner of the 2020 Washington State Book Award | Named a 2019 Southwest Book of the Year | Shortlisted for the 2019 Brooklyn Public Library Literary Prize What happens when an undocumented teen mother takes on the U.S. immigration system? When Aida Hernandez was born in 1987 in Agua Prieta, Mexico, the nearby U.S. border was little more than a worn-down fence. Eight years later, Aida's mother took her and her

siblings to live in Douglas, Arizona. By then, the border had become one of the most heavily policed sites in America. Undocumented, Aida fought to make her way. She learned English, watched *Friends*, and, after having a baby at sixteen, dreamed of teaching dance and moving with her son to New York City. But life had other plans. Following a misstep that led to her deportation, Aida found herself in a Mexican city marked by violence, in a country that was not hers. To get back to the United States and reunite with her son, she embarked on a harrowing journey. The daughter of a rebel hero from the mountains of Chihuahua, Aida has a genius for survival—but returning to the United States was just the beginning of her quest. Taking us into detention centers, immigration courts, and the inner lives of Aida and other daring characters, *The Death and Life of Aida Hernandez* reveals the human consequences of militarizing what was once a more forgiving border. With emotional force and narrative suspense, Aaron Bobrow-Strain brings us into the heart of a violently unequal America. He also shows us that the heroes of our current immigration wars are less likely to be perfect paragons of virtue than complex, flawed human beings who deserve justice and empathy all the same.

Exploring America in the 1990s Molly Sandling, Kimberley Chandler, 2021-09-03 *Exploring America in the 1990s: New Horizons* is an interdisciplinary humanities unit that looks at literature, art, and music of the 1990s to provide an understanding of how those living through the decade experienced and felt about the world around them. Through the lens of identity, it explores life in America and the myriad groups that coexisted in harmony and, often, with friction. Cultural movements like grunge and Generation X will be examined alongside larger issues such as rising racial tensions following the O.J. Simpson trial and Rodney King riots, the conflict between progress and morality as scientific advances in cloning and the Internet changed the U.S., and the growing debate over previously marginalized identities and gay rights following Don't Ask, Don't Tell and DOMA. The unit uses field-tested instructional strategies for language arts and social studies from The College of William and Mary, as well as new strategies, and it includes graphic organizers and other tools for analyzing primary sources. Children of Globalization Ricardo Quintana-Vallejo, 2020-12-10 *Children of Globalization* is the first book-length exploration of contemporary Diasporic Coming-of-age Novels in the context of globalized and de facto multicultural societies. Diasporic Coming-of-age Novels subvert the horizon of expectations of the originating and archetypal form of the genre, the traditional Bildungsroman, which encompasses the works of Johann Wolfgang von Goethe, Charles Dickens, and Jane Austen,

and illustrates middle-class, European, enlightened, and overwhelmingly male protagonists who become accommodated citizens, workers, and spouses whom the readers should imitate. Conversely, Diasporic Coming-of-age Novels have manifold ways of defining youth and adulthood. The culturally-hybrid protagonists, often experiencing intersectional oppression due to their identities of race, gender, class, or sexuality, must negotiate what it means to become adults in their own families and social contexts, at times being undocumented or otherwise unable to access full citizenship, thus enabling complex and variegated formative processes that beg the questions of nationhood and belonging in increasingly globalized societies worldwide.

Unsettling Gilberto Rosas,2023-03-28 Analyzes how border and immigration enforcement culminated in a mass shooting in El Paso, Texas. Honorable Mention for the American Ethnological Society Senior Book Prize On August 3, 2019, a far-right extremist committed a deadly mass shooting at a major shopping center in El Paso, Texas, a city on the border of the United States and Mexico. In *Unsettling*, Gilberto Rosas situates this devastating shooting as the latest unsettling consequence of our border crisis and currents of deeply rooted white nationalism embedded in the United States. Tracing strict immigration policies and inhumane border treatment from the Clinton era through Democratic and Republican administrations alike, Rosas shows how the rhetoric around these policies helped lead to the Trump administration's brutal crackdown on migration—and the massacre in El Paso. Rosas draws on poignant stories and compelling testimonies from workers in immigrant justice organizations, federal public defenders, immigration attorneys, and human rights activists to document the cruelties and indignities inflicted on border crossers. Borders, as sites of crossings and spaces long inhabited by marginalized populations, generate deep anxiety across much of the contemporary world. Rosas demonstrates how the Trump administration amplified and weaponized immigration and border policy, including family separation, torture, and murder. None of this dehumanization and violence was inevitable, however. The border zone in El Paso (which translates to the Pass) was once a very different place, one marked by frequent and inconsequential crossings to and from both sides—and with more humane immigration policies, it could become that once again.

A Translational Turn Marta E. Sánchez,2019-05-17 No contemporary development underscores the transnational linkage between the United States and Spanish-language América today more than the wave of in-migration from Spanish-language countries during the 1980s and 1990s. This development, among others, has made clear what has always been true, that the United States is part of Spanish-language América. Translation and oral communication from Spanish to English have been constant phenomena since before the annexation of the Mexican Southwest in 1848. The expanding number of counter-national translations from English to Spanish of Latinx fictional narratives by mainstream presses between the 1990s and 2010 is an indication of significant change in the relationship. *A Translational Turn* explores both the historical reality of Spanish to English translation and the “new” counter-national English to Spanish translation of Latinx narratives. More than

theorizing about translation, this book underscores long-standing contact, such as code-mixing and bi-multilingualism, between the two languages in U.S. language and culture. Although some political groups in this country persist in seeing and representing this country as having a single national tongue and community, the linguistic ecology of both major cities and the suburban periphery, here and in the global world, is bilingualism and multilingualism.

Exploring America in the 1980s Molly Sandling,Kimberley Chandler,2021-09-03 Exploring America in the 1980s: Living in the Material World is an interdisciplinary humanities unit that looks at literature, art, and music of the 1980s to provide an understanding of how those living through the decade experienced and felt about the many social changes taking place around them. Through the lens of identity, it explores why these changes occurred and lends an ear to the voices of the groups that clamored for them. Cultural icons like Madonna and Bill Cosby are examined alongside larger issues such as the end of the Cold War and a changing economic and political identity. The unit uses field-tested instructional strategies for language arts and social studies from The College of William and Mary, as well as new strategies, and it includes graphic organizers and other learning tools. It can be used to complement a social studies or language arts curriculum or as standalone material in a gifted program. Grades 6-8
