Diagnosing history Katherine Byrne,Julie Anne Taddeo,James Leggott,2022-03-22 This timely collection examines representations of medicine and medical practices in international period drama television. A preoccupation with medical plots and settings can be found across a range of important historical series, including *Outlander*, *Poldark*, *The Knick*, *Call the Midwife*, *La Peste* and *A Place to Call Home*. Such shows offer a critique of medical history while demonstrating how contemporary viewers access and understand the past. Topics covered in this collection include the innovations and horrors of surgery; the intersection of gender, class, race and medicine on the American frontier; psychiatry and the trauma of war; and the connections between past and present pandemics. Featuring original chapters on period television from the UK, the US, Spain and Australia, *Diagnosing history* offers an accessible, global and multidisciplinary contribution to both televisual and medical history.
