

Omi And Winant 1994

Betty A Dobratz

Racial Formation in the United States Michael Omi, Howard Winant, 1994 Discusses racial formation theory, the idea that race is a constructed identity dependent upon social, economic, and political factors.

Racialization Karim Murji, John Solomos, 2005 Racialization has become one of the central concepts in the study of race and racism. This volume brings together international scholars to address key facets of the concept in a wide range of social and political arenas, including gender relations, policing, urban communities, youth cultures, immigration, and political life.

Race and Racism in Theory and Practice Berel Lang, 2000 This collection of original essays by scholars from a diverse range of fields, examines issues of race in a variety of historical and geographical settings, ranging from classical Greece to the contemporary Americas, Europe and Asia. The authors provide an important perspective on race both in its theoretical origins and in its actual appearances while paying close attention to the ways in which the study of race itself has been carried on or ignored by various disciplines.

Handbook of Disaster Research Havidan Rodriguez, Enrico L. Quarantelli, Russell Dynes, 2009-11-14 This timely Handbook is based on the principle that disasters are social constructions and focuses on social science disaster research. It provides an interdisciplinary approach to disasters with theoretical, methodological, and practical applications. Attention is given to conceptual issues dealing with the concept disaster and to methodological issues relating to research on disasters. These include Geographic Information Systems as a useful research tool and its implications for future research. This seminal work is the first interdisciplinary collection of disaster research as it stands now while outlining how the field will continue to grow.

The Handbook of Political Sociology Thomas Janoski, Robert R. Alford, Alexander M. Hicks, Mildred A. Schwartz, 2005-05-23 This Handbook provides a complete survey of the vibrant field of political sociology. Part I explores the theories of political sociology. Part II focuses on the formation, transitions, and regime structure of the state. Part III takes up various aspects of the state that respond to pressures from civil society.

New Faces in a Changing America Loretta I. Winters, Herman L. DeBose, 2003 New Faces in a Changing America is a comprehensive, penetrating, authoritative, and provocative examination of what it means to be multiracial in this country. With contributions by the leading thinkers, activists, and researchers on the subject, it admirably links theory and the

powerful lived experiences of mixed-race people. This book will be the most important reference source on the subject for many years. -- James P. Allen, California State University, Northridge Not since the work of Root has there been as important of an anthology as *New Faces in a Changing America*. This book explores the reality of multiracial people from a variety of theoretical and conceptual perspectives. It is a must read for anybody who want to understand the multiracial movement and the multiracial people who lead that movement. Any teacher who wants to introduce the concept of multiraciality to his/her class must also have this book. Winters and Debose are to be commended for putting together this first-rate academic examination of an important social phenomenon. -- George Yancey, University of North Texas How multiracial people identify themselves can have major consequences on their positions in their families, communities and society. Even the U.S. Census has recognized the rapidly increasing numbers of those who consider themselves multiracial, adding a new racial category to the 2000 Census form: two or more races. *New Faces in a Changing America: Multiracial Identity in the 21st Century* examines the multiracial experience, its history and the political issues and consequences surrounding biracial and multiracial identity, bringing together top names in the field to give readers cutting edge views and insights gained from contemporary research. This important new text follows the trail blazed by Maria Root, who contributes its opening chapter. An introduction places the issues of multiracial identity into context via a discussion of U.S. Census data and debates, providing an overview of the varied readings to come covering such topics as: Race as a social, rather than biological, construction The Multiracial Movement Racial/Ethnic Groups in America and Beyond Race, Gender & Hierarchy Gang Affiliation and Self-Esteem Black/White Interracial Couples and the Beliefs that Help Them to Bridge the Racial Divide The book concludes with *The Multiracial Movement: Harmony and Discord*, by co-editor Loretta Winters, an epilogue putting the readings into perspective according to three models in the multiracial identity literature: the Multiracial Movement model, the Counter Multiracial movements model and the Ethnic Movement model. Timely and comprehensive in its range of topics, this is an important resource for many audiences: students in Ethnic Studies, Race Relations and related courses; human service professionals including psychologists, counselors, social workers and school personnel and, importantly, multiracial individuals themselves.

Racial Formation in the Twenty-First Century Daniel HoSang, Oneka LaBennett, Laura Pulido, 2012-09 This collection of essays marking the twenty-fifth anniversary of the publication of Michael Omi and Howard Winant's *Racial Formation in the United States* demonstrates the importance and influence of the concept of racial formation. The range of disciplines, discourses, ideas, and ideologies makes for fascinating reading, demonstrating the utility and applicability of racial formation theory to diverse contexts, while at the same time presenting persuasively original extensions and elaborations of it. This is an important book, one that sums up, analyzes, and builds on some of the most important work in racial studies during the past three decades.—George Lipsitz, author of *How Racism Takes Place* “*Racial Formation in the Twenty-First Century* is

truly a state-of-the-field anthology, fully worthy of the classic volume it honors—timely, committed, sophisticated, accessible, engaging. The collection will be a boon to anyone wishing to understand the workings of race in the contemporary United States.” —Matthew Frye Jacobson, Professor of American Studies, Yale University “This stimulating and lively collection demonstrates the wide-ranging influence and generative power of Omi and Winant’s racial formation framework. The contributors are leading scholars in fields ranging from the humanities and social sciences to legal and policy studies. They extend the framework into new terrain, including non-U.S. settings, gender and sexual relations, and the contemporary warfare state. While acknowledging the pathbreaking nature of Omi and Winant’s intervention, the contributors do not hesitate to critique what they see as limitations and omissions. This is a must-read for anyone striving to make sense of tensions and contradictions in racial politics in the U.S. and transnationally.”—Evelyn Nakano Glenn, editor of *Shades of Difference: Why Skin Color Matters*

Making Multiracials Kimberly McClain DaCosta, 2007 *Making Multiracials* explains how a social movement emerged around mixed race identity in the 1990s and how it made multiracial a recognizable racial category in the United States.

The Cambridge Handbook of Sociology: Volume 2 Kathleen Odell Korgen, 2017-08-11 Whether a student, an instructor, a researcher, or just someone interested in understanding the roots of sociology and our social world, *The Cambridge Handbook of Sociology, Volume 2* is for you. This second volume of the Handbook covers specialties within sociology and interdisciplinary studies that relate to sociology. It includes perspectives on race, class, feminist theories, special topics (e.g. the sociology of nonhuman animals, quality of life/social indicators research, the sociology of risk, the sociology of disaster, the sociology of mental health, sociobiology, the sociology of science and technology, the sociology of violence, environmental justice, and the sociology of food), the sociology of the self, the sociology of the life course, culture and behavior, sociology's impact on society, and related fields (e.g. criminology, criminal justice studies, social work, social psychology, sociology of translation and translation studies, and women and gender studies). Each essay includes a discussion of how the respective subfield contributes to the overall discipline and to society. Written by some of the most respected scholars, teachers, and public sociologists in the world, the essays are highly readable and authoritative.

Reworking Race Moon-Kie Jung, 2010-02-26 In the middle decades of the twentieth century, Hawai'i changed rapidly from a conservative oligarchy firmly controlled by a Euro-American elite to arguably the most progressive part of the United States. Spearheading the shift were tens of thousands of sugar, pineapple, and dock workers who challenged their powerful employers by joining the left-led International Longshoremen and Warehousemen's Union. In this theoretically innovative study, Moon-Kie Jung explains how Filipinos, Japanese, Portuguese, and others overcame entrenched racial divisions and successfully mobilized a mass working-class movement. He overturns the unquestioned assumption that this interracial effort traded racial politics for class politics. Instead, the movement reworked race by incorporating and rearticulating racial

meanings and practices into a new ideology of class. Through its groundbreaking historical analysis, *Reworking Race* radically rethinks interracial politics in theory and practice.

Acting Black Sarah Susannah Willie, 2003-12-16 Sarah Willie asks: What's it like to be black on campus. For most Black students, attending predominantly white universities, it is a struggle. Do you try to blend in? Do you take a stand? Do you end up acting as the token representative for your whole race? And what about those students who attend predominantly black universities? How do their experiences differ? In *Acting Black*, Sarah Willie interviews 55 African American alumnae of two universities, comparable except that one is predominantly white, Northwestern, and one is predominantly black, Howard. What she discovers through their stories, mirrored in her own college experience, is that the college campus is in some cases the stage for an even more intense version of the racial issues played out beyond its walls. The interviewees talk about acting white in some situations and acting black in others. They treat race as many different things, including a set of behaviours that they can choose to act out. In *Acting Black*, Willie situates the personal stories of her own experience and those of her interviewees within a timeline of black education in America and a review of university policy, with suggestions for improvement for both black and white universities seeking to make their campuses truly multicultural. In the tradition of *The Agony of Education* (Routledge, 1996), Willie captures the painful dilemmas and ugly realities African Americans must face on campus.

Racial Formation in the New Millennium Michael Omi, Howard Winant, 2008 First published in 1986, and then again in 1994, Omi and Winant's *Racial Formation in the United States* is considered a classic text on race and ethnicity. *Racial Formation in the New Millennium* builds upon the ideas set forth in Omi and Winant's classic text-providing a sophisticated and up-to-date overview of race and ethnicity in the United States. In this volume, they include current issues and controversies related to racism, race/ class / gender interrelationships, modern life, and racial politics.

The Politics of Multiracialism Heather M. Dalmage, 2004-06-23 A provocative analysis of current thought and discourse on multiracialism.

Critical Race Theory in Education Adrienne D. Dixson, Celia K. Rousseau Anderson, Jamel K. Donnor, 2016-08-25 Appropriate for both students curious about Critical Race Theory (CRT) and established scholars, *Critical Race Theory in Education* is a valuable guide to how this theoretical lens can help better understand and seek solutions to educational inequity. While CRT has been established as a vital theoretical framework for understanding the ways race-neutral policies and laws sustain and promote racial inequity, questions around how to engage and use CRT remain. This second edition of *Critical Race Theory in Education* evaluates the role of CRT in the field of higher education, answering important questions about how we should understand and account for racial disparities in our school systems. Parts I and II trace the roots of CRT from the legal scholarship in which it originated to the educational discourse in which it now resides. A much-

anticipated Part III examines contemporary issues in racial discourse and offers all-important practical methods for adopting CRT in the classroom.

The Cosby Cohort Cherise A. Harris, 2013-02-14 The Cosby Cohort examines the childhood experiences of second generation middle class Blacks who grew up in mostly White spaces during the 1980s and 1990s. This probing book explores their journey to upward mobility, including the discrimination they faced in White neighborhoods and schools, the extraordinary pressures placed upon them to achieve, the racial lessons imparted to them by their parents, their tenuous relationships with Black children of other classes, and the impact that all of these experiences had on their adult racial identities. At young ages, this generation of middle class Blacks, whom Harris coins as the Cosby Cohort, was faced with racial displacement, frustration, and the ever-present pressure to emerge victorious against the pull of downward mobility. Even in adulthood, they continue to negotiate the tensions between upward mobility and maintaining ties to the larger Black community and culture. While these young Blacks may have grown up watching The Cosby Show, as the book reveals, their stories indicate a much more complex reality than portrayed by the show.

Asian American Students in Higher Education Samuel D. Museus, 2014-01-10 Asian American Students in Higher Education offers the first comprehensive analysis and synthesis of existing theory and research related to Asian American students' experiences in postsecondary education. Providing practical and insightful recommendations, this sourcebook covers a range of topics including critical historical and demographic contexts, the complexity of Asian American student identities, and factors that facilitate and hinder Asian American students' success in college. The time has come for institutions of higher education to develop more holistic and authentic understandings of this significant and rapidly growing population, and this volume will help educators acquire deeper and more intricate knowledge of Asian American college students' experiences. This resource is vital for college educators interested in better serving Asian American students in their institutions.

Experiencing Social Research Kerry J. Strand, Gregory L. Weiss, 2020-08-11 This reader introduces students to the social research process by pairing 16 published research articles with candid interviews with the lead researcher on each study.

The Color of Asylum Katherine Jensen, 2023-09-05 Congolese migrants wait in long lines in unbearable heat to see immigration officials, while Syrians go through an expedited process. And while Syrian migrants reported a relaxed and comfortable environment while meeting with immigration officials, Congolese migrants were met with distrust and suspicion as they recounted the harrowing and traumatic stories of life in their home country. As Jensen shows, Syrians are treated so differently from other asylum seekers because the Brazilian state recognizes them as white. This dates back to Brazilian immigration policy that followed the abolition of slavery. Eager to whiten its population, Brazil welcomed a first wave of Syrian and Lebanese immigrants-a precedent that would affect the nation's policy toward Syrian refugees in the twenty-first

century. On the other hand, anti-black racism shapes the experiences of Congolese and other African refugees and entrenches racial inequalities—even among those deemed worthy of safe haven. .

Divided by Choice Ryane McAuliffe Straus, 2025-08-05 How race and capitalism shape education School choice programs—such as vouchers, education savings accounts, and tax credit scholarships—are surrounded by controversy, raising questions about their impact on student diversity and inequality. In this book, Ryane McAuliffe Straus takes up a core part of this divisive debate, exploring why charter schools are reshaping America’s education system—and democracy—for the worse. Drawing on interviews with elected officials, policy entrepreneurs, parents, and activists in Albany, NY, Straus argues that charter schools are a poor alternative to failing public schools, ultimately worsening racial segregation under the guise of providing underprivileged students with access to better education. Taking a wide-ranging view, the author explores why parents, elected officials, and community activists may or may not choose to leave the public education system by enrolling their children in charter schools. Straus finds that when families of color leave public schools in favor of charter schools this removes their democratic voice and participation, diminishing their political power in a high-stakes area of public policy. *Divided by Choice* highlights the fundamental flaws of one solution to public education inequalities, at a time when racial tensions are at an all-time high.

Power, Politics, and Society Betty A Dobratz, 2015-10-14 *Power, Politics & Society: An Introduction to Political Sociology* discusses how sociologists have organized the study of politics into conceptual frameworks, and how each of these frameworks foster a sociological perspective on power and politics in society. This includes discussing how these frameworks can be applied to understanding current issues and other real life aspects of politics. The authors connect with students by engaging them in activities where they complete their own applications of theory, hypothesis testing, and forms of inquiry.
