The Killer Within Philip Carlo, 2011-01-11 Philip Carlo's successful and acclaimed books reveal the truth about notorious

characters such as LA serial killer Richard Ramirez, Mafia contract killer Richard Kuklinski and crime-family boss Anthony Casso. Working closely with the DEA, Carlo also wrote the definitive account of Bonanno Mafia family assassin Tommy 'Karate' Pitera. Carlo's investigative achievements were remarkable, but what wasn't known to his readers was that, while working on *The Ice Man*, he learned he had amyotrophic lateral sclerosis (ALS), a form of motor neuron disease. Suddenly, after years of penetrating the minds of killers, Carlo was himself being pursued by the grim reaper. But rather than lying down and succumbing to the disease, Carlo continued to work right up until his death in 2010. In *The Killer Within*, Carlo provides an intimate account of his relationships with Ramirez, Kuklinski and Casso and reveals intriguing information about writing his bestsellers while simultaneously coping with ALS as it slowly began to steal his life away.

Serial Killing for Profit Dirk C. Gibson, 2009-11-19 This is the first book to focus specifically on serial killers motivated by monetary gain. *Serial Killing for Profit: Multiple Murder for Money* addresses a gap in the existing literature by documenting one dozen of the most notorious perpetrators of commercial serial murder—murderers who kill to secure inheritances and pensions, to sell possessions or even the body itself, or as murderers-for-hire. In these pages, readers will encounter some of the nation's most infamous and disturbing criminals, including America's first serial killer, Herman Mudgett; Raymond Fernandez and Martha Beck, the Honeymoon Killers; Los Angeles's Night Stalker, Richard Ramirez; the black widow Blanche Taylor Moore; and Dana Sue Gray, who killed three women for shopping money. Author Dirk Gibson gets to the twisted heart of each case, meticulously detailing the crimes, the victims, the hunt for the killers, the distinctive variations on the motive of killing for money, and the lessons learned by investigators in each instance. Everyone from professional investigators to true crime aficionados will be riveted by these stunning accounts.

Supernatural Serial Killers Samantha Lyon, Dr Daphne Tan, 2015-11-25 Albert Fish held the genuine belief that the

murders he committed were upon instruction from God. The original Dracula's relative Countess Elisabeth was rumoured to use blood of her victims to preserve her youth and beauty. Jeffrey Dahmer began a macabre project of building an occult altar with his victims' body parts, believing this granted him supernatural powers to subdue and control his prey. Peter Stumpp, who started practising the wicked arts from twelve years of age, was convinced he was a werewolf. The crimes committed by these people usually involved sexual deviance, cannibalism and violence toward children. In the sixteenth-century Europe, the problem became so significant that 'Werewolf Witch Trials' were conducted - many have no idea that it was possible to be tried and convicted for the crime of being a Werewolf, but Lycanthropy was a serious and major social concern in the 1500s. Supernatural Serial Killers discuss the individual cases of supernatural serial killers, including their background, crimes, trials and defences.

How to Catch a Killer Katherine Ramsland, 2021-07-13 There are two parts to every crime story: how they did it and why they got caught. This book is about the second part, and how it changes the way we catch serial killers. No two stories about the capture of a serial killer are the same. Sometimes, the killers make crucial mistakes; other times, investigators get lucky. And the process of profiling, hunting, and apprehending these predators has changed radically over time, particularly in the field of criminal forensics, which has exploded in the last ten to 15 years. Laser ablation, video spectral analysis, cyber-sleuthing, and even DNA-based genetic genealogy are now crucial tools in solving murders, including the recent capture of the so-called Golden State Killer. This book in the new Profiles in Crime series tells the history of forensics through the "capture stories" of some of the most notorious serial killers, going back almost a century. The killers include: Rodney Alcala, a serial rapist and murderer sometimes called "Dating Game killer" for his appearance on that TV show. No one knows the exact number of his victims. Takahiro Shiraishi, the suicide killer from Zama, Japan, who dismembered nine victims and stored their bodies in his refrigerator. Aileen Wuornos, one of the rare female serial killers. She shot seven men in Florida and was turned in by an accomplice. Jeffrey Dahmer, the "Milwaukee Cannibal," and Bobby Joe Long, both identified by survivors Ted Bundy and David Berkowitz ("Son of Sam"), who both made mistakes. Ludwig Tesson, who killed several children in Germany, and was caught through new methods in forensic investigation that could distinguish human from animal blood.

their victims, and recognize the special concerns around multiple murder victims and their survivors. Students will examine the latest theories of criminal behavior and apply them to mass and serial murderers from around the world, such as the mass shooting at a country music festival in Las Vegas, the Grim Sleeper in Los Angeles, the Pulse nightclub massacre in Orlando, the shooting of nine African Americans by a white supremacist in a Charleston church, and more.

The Exorcist Effect Joseph P. Laycock, Eric Harrelson, 2023-11-07 The Exorcist Effect examines the relationship between horror films and religious culture, focusing on the period from 1968 to the present. Films like Rosemary's Baby (1968), The Exorcist (1973), and The Omen (1976) claimed to be based on actual events, religious traditions, and Biblical texts. These films inspired subsequent beliefs and experiences, which became the basis for yet more horror films. This book draws on archival research to shed new light on such figures as Ed and Lorraine Warren and Malachi Martin, who inserted themselves into this cycle. It also incorporates interviews with horror authors, film writers, and paranormal investigators.
