**Brad Gilmore**

Two Sides To Every Story Wanda F. Kenty, 2022-09-27 In the beginning, God created the heavens and the earth because there was a war in heaven. At the end of that war, long before this new Adamic beginning, Almighty Father God gave Archangel Michael charge of leading the battle in casting Satan, the enemy of God, out of heaven. In the archangel's victory Satan was cast down to this God-created earth. In God's full knowledge of the pure evil that Satan possessed, He created man (the first one, Adam) in His own image. Each one of us that proceeded after that creation up to this very day are created as a person or piece of the Almighty God, endowed with the inheritance of who and what He is. God created man to be soldiers in His army. The purpose for our creation is to battle the evils that Satan would use to try to destroy us and this earth in his way of attacking God. In God's creation of man, we are keepers of His footstool because Almighty God is on His throne in heaven. Satan, having had the favor of God before he grew insanely jealous of Him, knew that not to be a good idea. So the very first man God created, Satan attacked and was successful. Satan knew that if he could insert his seed into the very first of God's creation, he would have a good chance of destroying all human beings that man would create. Psalm 139:14 says, I praise you, for I am fearfully and wonderfully made. In my opinion, there has never been a statement that has been proven more true. With Satan hiding behind the scene, he anxiously awaits man to explore his God-given creativity until man knows no limit, which ends us where we are today. Limitless possibilities! Constructive and destructive. Everything man creates is accompanied by an operating manual. In God's proof of all His creation, He accompanied us with one also. It's called the Holy Bible, which is not the story that we are able or want to create simply because we can, but it is His story that we are to follow. Like any other manual of instruction created by man that is unused or not read, you will undoubtedly end up with a lot of extra screws and pieces that do not fit. Give the Lord the mangled pieces of the life you have tried to put together. It's called surrender! It's the only way to true health, wealth, and spiritual freedom.

This is a sign, it is now time to stop our foolishness and take a stand. Why? Because our children are being killed by stray bullets. We are the world. Yet still we close our minds to what we see a nation of hate, pain and poverty. Children are looking up to us and they all deserve better. *A Dictionary of Anglo-American Proverbs & Proverbial Phrases, Found in Literary Sources of the Nineteenth and Twentieth Centuries* George B. Bryan,Wolfgang Mieder,2005 A Dictionary of Anglo-American Proverbs & Proverbial Phrases Found in Literary Sources of the Nineteenth and Twentieth Centuries is a unique collection of proverbial language found in literary contexts. It includes proverbial materials from a multitude of plays, (auto)biographies of well-known actors like Britain's Laurence Olivier, songs by William S. Gilbert or Lorenz Hart, and American crime stories by Leslie Charteris. Other authors represented in the dictionary are Horatio Alger, Margery Allingham, Samuel Beckett, Lewis Carroll, Raymond Chandler, Benjamin Disraeli, Edward Eggleston, Hamlin Garland, Graham Greene, Thomas C. Haliburton, Bret Harte, Aldous Huxley, Sinclair Lewis, Jack London, George Orwell, Eden Phillpotts, John B. Priestley, Carl Sandburg, Harriet Beecher Stowe, Jesse Stuart, Oscar Wilde, and more. Many lesser-known dramatists, songwriters, and novelists are included as well,

making the contextualized texts to a considerable degree representative of the proverbial language of the past two centuries. While the collection contains a proverbial treasure trove for paremiographers and paremiologists alike, it also presents general readers interested in folkloric, linguistic, cultural, and historical phenomena with an accessible and enjoyable selection of proverbs and proverbial phrases.

**Haunting and the Educational Imagination** Barbara Regenspan, 2014-11-27 In a time when it seems like we've run into the limits on what Marx, Dewey, and Freud might hold for liberatory critique, this peculiarly uplifting book seeks to identify some promising thinking and teaching practices, especially for work in our contemporary "corporate university of excellence." With auto-ethnography as a baseline for reflection on her personal teaching life in this troubling political era, as well as an insistence that all students are future teachers whether they seek formal work in classrooms or not, Barbara Regenspan selects insights descending from her horribly imperfect trinity (Marx, Dewey, and Freud), to reevaluate what it means to have "obligations to unknowable others" in our complex and global reality. Drawing on an interdisciplinary cast of contemporary social theorists such as Avery Gordon, Deborah Britzman, Maxine Greene, Bill Readings, and Alain Badiou, this book traces hauntagogical thinking and related classroom practice-hauntagogy-pedagogy aimed to create wide-awakeness through the unearthing of acts of historical and interpersonal hauntings. Balanced between critique and hope, Regenspan offers the field of Educational Studies including teacher education, but also higher education more generally, a way of conceiving of the classroom as a place where contradictions in discourses are mined with and for our students who will be

future teachers in the formal or informal sense. Here is a view of what historical materialism might hold for the relationship between democracy and education and what that relationship means for new, wild, conceptions of self, politics, and spirituality. “Barbara Regenspan combines the personal, the political, and the educational in creative ways in this volume. In the process, she provides a number of important insights into the human complexities and necessary commitments involved in struggling toward an education that is worthy of its name.” – Michael W. Apple, John Bascom Professor of Curriculum and Instruction and Educational Policy Studies, University of Wisconsin, Madison and author of *Can Education Change Society?* “So much of my experience as an American teacher fell into place while reading this book. Regenspan never veers far from the pragmatic and personal realities of being an American educator right now, grappling with indifference, short-sightedness and disillusionment of the system. Her deft, and often profound intellectual work is peppered with anecdotes, both personal and pedagogical, and these accounts of teaching and learning on the ground level make her case fierce and fresh. Haunting and the Educational Imagination is politically humane and intellectually electrifying.” – Tony Hoagland, Professor of Creative Writing at the University of Houston, National Book Award Finalist, teacher of high school English teachers, and author of *Unincorporated Persons in the Late Honda Dynasty*. He's Been a Cloud over Me All My Life with Love, Love, and More Love Kevin Moss, 2023-06-05 God's a cloud that's truly needed over all lives, for God is life do I say out loud to all the world, such a crowd. A crowd that truly needs to hear, believe, and accept these words very, very proud. So to Jesus Christ, God the Son and Savior of the world, do I proudly also say out loud. To be comforted, yes, saved with love by God the Holy Ghost makes me even prouder to say. Yes, proudly do I say to the whole world as if I were the world do I say loudly. Yes, loudly I say with truth, as if hurled over the rooftop do I proudly say. I thank you, God, my Father; I thank you, God, my Brother; and I thank you, God, my rock. Yes, I thank you, I thank you, truly do I thank you with love, love, and more love. I thank you for being a cloud of protection over me all my life!

*The Power of Principles: Physics Revealed* Howard Burton, 2020-10-01 This book is based on an in-depth filmed conversation between Howard Burton and Nima Arkani-Hamed, faculty member at the renowned Institute for Advanced Study in Princeton. Nima Arkani-Hamed is one of today's leading particle physicists. With his unbridled enthusiasm and engaging eloquence, Nima takes us inside the world of a working theoretical physicist, sharing his frustration at some of the ways that physics is communicated to the general public while revealing how he and his colleagues hope to be steered towards the truth without experiment to guide them. This carefully-edited book includes an introduction, Beyond Nymphs, Dryads and Leprechauns, and questions for discussion at the end of each chapter: I. Physics Time Management - Giving it your all II. The Problem with Popularization - Not what it used to be III. In Feynman's Footsteps - A

genuine challenge IV. Describing Reality - The latest thing vs. the eternally significant V. A Timeless Community - Walking with Galileo, aided by Weinberg VI. **The Dark Side of Speech** Carlo Penco, 2024-10-08 What is disinformation, and why does it matter? How can we understand and detect different kinds of disinformation? With an analysis of relevant events of the period 2012-2022, the book attempts to answer these questions. The book is organized into four parts. (1) The first part presents the notions of post-truth and fake news using some of the most recent critical studies, analyzing some typical examples and the environment in which some of them originated. (2) The second part introduces the notion of conspiracy theory and describes the emergence of the idea of white supremacy and its ramifications, together with the narratives developed during the COVID restrictions. (3) The third part describes the emergence of the algorithms behind social networks and their role in propaganda, making examples of US and European elections and the Brexit referendum. An analysis of 'Cambridge Analytica' shows the tip of an iceberg of disinformation that is spreading around the world. Some remarks by comedians and philosophers help to give a new view on the concept of freedom of speech, with particular attention to the more and more difficult freedom of the press. (4) The fourth part gives some “emergency tools” for detecting disinformation at an individual

level, understanding the most hidden mechanisms of disinformation, and the biases that almost unavoidably enter our minds. These tools come from the results both of traditional theories and the most recent social philosophy of language, not despising references to statistics. This is a fundamental book for having a general survey of this period of political turmoil, consulting a wide list of references and official documents, and having a grasp of the means of intellectual self-defense. This book is non-standard: it relies on the most sophisticated theories of language and yet it gives everything in simple and colloquial language. Differently from sophisticated analyses of linguistic phenomena, it gives the feeling of participating in a tour around what happened in the last decade, with a disenchanted eye that uses some results of the critical literature, without compelling one to become a theoretician in the field of philosophy or critical analysis. The hidden focus of the book is freedom of speech and freedom of thought, and what they mean today in an era of more sophisticated and widespread disinformation permitted by the algorithms governing social networks...

Michael Snow James King, 2019-10-12 An all-encompassing view of the life and work of one of Canada's greatest living artists Michael Snow is rightly recognized as one of the greatest Canadian artists. In a productive, lengthy career, he has, in a wide variety of genres and media, asked (and often answered) some of the most vexing and important questions in the history of art. During his lifetime, the notion of what constitutes a work of art has undergone many changes, and his work has consistently been at the forefront of that discussion. *Michael Snow: Lives and Works* examines all aspects of the artist's work and provides a guide to understanding its subtleties and complexities. The book also charts the life of Snow: his early years as a student and artist in Toronto, his stay in New York City, his turbulent marriage to Joyce Wieland, his reputation as a lady's man, and his adventures in movie making and improvised music. In many ways, Snow is the visual artist as intellectual: his images are vibrant and compelling, but so are the ideas behind them. Ultimately, his work is about perception. What do we really see when we look at a work of art? What is the act of looking all about? What exactly is a work of art? *Michael Snow: Lives and Works* is a personal and intimate portrait of an artist who has helped shaped the face of Canadian art in our time.

*The Storm Before Atlanta* Karen Schwabach, 2011-12-13 At a time when most people have grown weary of the war between the states, two young children are desperate to find their way to the battlefields. But all that is threatened when they cross paths with the mysterious Charlie, a young Confederate soldier, who may look like the enemy but feels more like a friend. Young readers who like their fiction filled with exciting historical details, rich characters, and action-packed adventures will be drawn to *The Storm Before Atlanta*.

*The Ancient City of USA* Mike Goyette, 2022-05-22 *The Ancient City of USA* is Book 1 in the *Standing Up For America* Series. A pointed and humorous look at today's cultural and political environment offering an alternative message to the woke, Leftist ideology being trumpeted daily. Will people in the future look back in history and laugh at the behavior of their ancient ancestors? Will they wonder why a free people relinquished their freedom for tyranny? Will they even know that their ancestors were free for a time? Will they be so different in the future? Will they have learned the lessons of the past, the lessons offered by the failure of others? Have we? Will human nature ever change? Join Guy, Jon, Candace and Gabriel, four college students, as they attend a mostly peaceful protest which draws them down a path at odds with the radical Left. Battling the self-described 4 Horsemen of the Apocalypse and a mysterious girl who personifies evil, they fight to find the truth in a dystopian society. They find themselves fighting against forces seemingly bent on creating an upside down world; forces that include the FBI, Corporate America, the leftist media, their own government and an unhinged, cultish mob, all following the twisted, anti-American, anti-family, anti-God ideology promoted by the young, power hungry hustlers that comprise the 4 Horsemen.

**Skin Tight** Stuart I. Haussler, 2003-05-14 This is a story about Sam Hull, a United States Marshal, and the inner desires he set aside to bring Law and Order to wherever he was needed. Now, approaching the later years of his life, he wants to seek out those dreams of yesteryears that have eluded him as a Marshal. The dreams of starting a cattle ranch, marrying, and having children. Having been a part of the judiciary system for so long, he begins to periodically question if he has had enough of death, deceit, and the quagmire of sadness that goes along with being a United States Marshal. All the things he desires become his, but not without struggles that inevitably cause him to once again want to resign. However, with the right woman at his side and a renewed vigor, he finds what sustained all those who built the west. Courage, the courage to go on and initiate new dreams, ambitions, and to continue on as a Marshal at large, by putting aside any doubts about his ability to serve with Honor.

*Ill-Gotten Panes* Jennifer McAndrews, 2014-07-01 **FIRST IN A NEW SERIES!** Stained-glass aficionado Georgia Kelly packed up her city life for the quiet of small town Wenwood, New York. After a banking scandal loses Georgia her job and fiancé, she decides that a change of scenery will help piece her life back together. But escaping to her grandfather's house in the old-fashioned, brick-making Hudson River hamlet of Wenwood, New York, turns out to be less relaxing than she expects. Not only is the close-knit community on edge about their beloved brickworks being turned into a marina to draw in tourists, one of those most opposed to the project winds up dead—cracked over the head with a famous Wenwood brick. Georgia wouldn't be broken up over the news except for the fact that the main suspect is the deceased's biggest adversary—her grandfather. Now, to remove the stain from her

grandy's record, Georgia will have to figure out who in town was willing to kill to keep the renovation project alive, before someone else is permanently cut out of the picture...

Conversations on Conflict Photography Lauren Walsh,2020-09-08 In today's image-saturated culture, the visual documentation of suffering around the world is more prevalent than ever. Yet instead of always deepening the knowledge or compassion of viewers, conflict photography can result in fatigue or even inspire apathy. Given this tension between the genre's ostensible goals and its effects, what is the purpose behind taking and showing images of war and crisis? Conversations on Conflict Photography invites readers to think through these issues via conversations with award-winning photographers, as well as leading photo editors and key representatives of the major human rights and humanitarian organizations. Framed by critical-historical essays, these dialogues explore the complexities and ethical dilemmas of this line of work. The practitioners relate the struggles of their craft, from brushes with death on the frontlines to the battles for space, resources, and attention in our media-driven culture. Despite these obstacles, they remain true to a purpose, one that is palpable as they celebrate remarkable success stories: from changing the life of a single individual to raising broad awareness about human rights issues. Opening with an insightful foreword by the renowned Sebastian Junger and richly illustrated with challenging, painful, and sometimes beautiful images, Conversations offers a uniquely rounded examination of the value of conflict photography in today's world.
