Geographia Literaria: Studies in Earth, Ethics, and Literature Jagannath Sarkar, Jayjit Basu, 2021-10-19 By sensing the fundamental ideas of earth and the earth-thought, this collection seeks to negotiate with and react to the underlying semasiological or psycho-geographical principle of geopoetics that cuts across varied and at times conflicting schools. From reading some geopoetical texts to understanding the idea of earth in Humboldt and Marx-Engels, to politics in Tintin, reef-thinking, geopoet(h)ics and Asiabodh, the volume tries to perceive how we poetically exist with the earth. Isn't literature, taking a cue from Hölderlin, a symptom of the way "man lives poetically on the earth"? How is our body and psyche integral parts of the earth-thought? How does literature deal with the concepts of space and place? How literature enables us to comprehend the underlying principle of geopoetics — the principle of finding art in earth? These are some of the critical questions which this volume seeks to explore. Literature exemplifies a geographical consciousness — an "intimate and subjective" experience of the earth. This book is an attempt to conceive this eclectic infusion of art and earth, so that we are able to ensure that the world of the art always remains in touch with the earth of the world. Let us, through this book, unearth this deep-rooted spatiality and geographicality in literature. Let us imitate earth through art, as this is the only place where we can live.

Tintin au Tibet Hergé, 1995-04 Read about the world's most famous travelling reporter in his native language, French, as Tintin discovers that his friend Chang, whom he believed to have died, might actually be alive and in desperate need of help. Tintin's friend Chang has been killed in a terrible plane crash and Tintin is distraught. But after a strange dream, Tintin becomes convinced Chang is alive. Together with Captain Haddock, he sets out on an impossible mission, an adventure deep into the mountains, through blizzards and caves of ice. They must find Chang at all costs! Join the most iconic character in comics as he embark on an extraordinary adventure spanning historical and political events, and thrilling mysteries. Still selling over 100,000 copies every year in the UK and having been adapted for the silver screen by Steven Spielberg and Peter Jackson in 2011, *The Adventures of Tintin* continue to charm more than 80 years after they first found their way into publication. Since then an estimated 230 million copies have been sold, proving that comic books have the same power to

entertain children and adults in the 21st century as they did in the early 20th.

Narratives of fear and safety Kaisa Kaukiainen, Kaisa Kurikka, Hanna Mäkelä, Elise Nykänen, Sanna Nyqvist, Juha Raipola, Anne Riippa, Hanna Samola, 2020-09-01 The essays in this edited volume, written in English and French, tackle the intriguing problems of fear and safety by analysing their various meanings and manifestations in literature and other narrative media. The articles bring forth new, cross-cultural interpretations on fear and safety through examining what kinds of genre-specific means of world-making narratives use to express these two affectivities. The articles also show how important it is to study these themes in order to understand challenges in times of global threats, such as the climate crisis. The main themes of the book are approached from various theoretical perspectives as related to their literary and cultural representations. Recent trends in research, such as affect and risk theory, serve as the basis for the discussion. The articles in the volume also draw from disciplines such as gender studies and trauma studies to examine the threats posed by collective fears and aggression on individuals' lives and propose ways of coping with fear. These themes are addressed also in articles analysing new adaptations of old myths that retell stories of the past. Many of the articles in the volume discuss apocalyptic and dystopian narratives that currently permeate the entire cultural landscape. Dystopian narratives do not only deal with future threats, such as totalitarianism, technocracy, or environmental disasters, but also suggest alternative ways of being and new hopes in the form of political resistance.

Tintin in Tibet Herge, Hergé, 1972-04 The classic graphic novel. One day Tintin reads about a plane crash in the Himalayas. When he discovers that his friend, Chang, was on board, Tintin travels to the crash site in hopes of a rescue.

Tintin in Tibet Herge, 1992-04-01 Tintin searches the mountains of Nepal and Tibet for his friend, victim of an airplane crash.

Tintin sur le divan Gérard Guasch, 2011-10-05 Voici Tintin assis devant moi. Je le regarde et l'écoute. « - Je suis déjà allé chez le psychanalyste, me confie-t-il, chez plusieurs même, mais ils se sont plus intéressés à mon père et à ses histoires de famille qu'à moi. Je viens vous voir pour une autre psychanalyse. » A ces mots, Milou me lance un coup d'oeil complice et se fend d'un large sourire. « Vous voyez, semble-t-il me dire, nous savons à qui nous avons affaire ». Nous invitent à pratiquer cette analyse pas à pas avec lui, c'est bien au-delà du cadre confiné d'un cabinet d'analyste que Gérard Guasch nous entraîne. Avec lui, chaque lecteur devient l'analyste de Tintin.

Sémiotique des formes de vie Jacques Fontanille, Alain Perusset, 2020-11-03 Une étude de sémiotique contemporaine sur la façon dont nous donnons sens à nos expériences et révélons nos manières d'être. La vie, qu'elle soit humaine ou animale, individuelle ou collective, ne peut compter que sur elle seule pour persévérer dans son cours et se maintenir dans le monde. Voilà pourquoi elle doit toujours s'activer et souvent emprunter des voies nouvelles lorsque sa persistance est menacée. Le sens est cette direction indéterminée que trace la vie, que tracent nos vies. En parcourant le monde, nous rencontrons,

manipulons et produisons des textes et des objets qui, à leur tour, viennent à manifester un sens, celui que nous leur conférons au cours de nos existences et de nos expériences. Nous marquons ainsi toujours d'une empreinte symbolique notre environnement ; nous révélons toujours, par nos manières d'être et de faire, des formes de vie sémiotiques. À la fois essai en sciences sociales et introduction générale à la sémiotique, ce livre présente une étude complète et critique des formes de vie : une définition détaillée du concept, une clarification quant à leur rapport avec les pratiques, les stratégies et les styles de vie, une classification de leurs variétés, enfin, une explication de comment, à terme, elles parviennent à colorer de leurs éthiques les milieux humains, nos sémiosphères. Instaurant le dialogue entre sémioticiens actuels et historiques, comme Algirdas Julien Greimas ou Roland Barthes, cet ouvrage explore les nouveaux champs sémiotiques de l'expérience et de la culture, tout en offrant des pistes et des outils pour étudier et exercer le sens de façon plus éclairée.

Milou, Idéfix et Cie. Le chien en BD BARATAY Eric et DELISLE Philippe, 2012-11-17 Les chiens tiennent une grande place au sein de la bande dessinée francophone, et ils ont souvent modelé nos souvenirs d'enfance. Qui n'a pas vibré aux exploits ou aux facéties d'animaux de papier tels que Milou et Rantanplan ? Cet ouvrage propose de redécouvrir, de manière originale et documentée, le parcours de ces figures canines. Le lecteur est convié à une galerie de portraits des plus célèbres chiens de BD : Milou, Pif, Rantanplan, Idéfix, Bill, Cubitus. Il peut aussi découvrir des animaux de papier un peu moins connus : les chiens de Topffer, Flambeau, Attila. Ces portraits sont tracés sous des angles extrêmement variés. Parmi les auteurs de ce livre collectif, on trouve en effet un généticien, un historien de l'art, un historien de l'animal, des historiens du neuvième art et des spécialistes de littérature. De courtes « variations » viennent en outre toujours replacer les portraits des héros ou compagnons canins dans un contexte social et culturel plus large. En effet, au fil de l'ouvrage on découvre que, si les chiens de BD ont souvent été inspirés par des chiens réels, ils pèsent sur notre relation à l'animal de compagnie... Éric Baratay est professeur d'histoire contemporaine à l'Université de Lyon. Il est spécialiste de l'histoire des animaux. Philippe Delisle est professeur d'histoire contemporaine à l'Université de Lyon. Il travaille depuis plusieurs années sur la BD « franco-belge ».
