Seems Like Murder Here Adam Gussow, 2010-03-15 Winner of the 2004 C. Hugh Holman Award from the Society for the Study of Southern Literature. *Seems Like Murder Here* offers a revealing new account of the blues tradition. Far from mere laments about lost loves and hard times, the blues emerge in this provocative study as vital responses to spectacle lynchings and the violent realities of African American life in the Jim Crow South. With brilliant interpretations of both classic songs and literary works, from the autobiographies of W. C. Handy, David Honeyboy Edwards, and B. B. King to the poetry of Langston Hughes and the novels of Zora Neale Hurston, *Seems Like Murder Here* will transform our understanding of the blues and its enduring power.

Resounding Afro Asia Tamara Roberts, 2016-02-16 Cultural hybridity is a celebrated hallmark of U.S. American music and identity. Yet hybrid music is all too often marked -and marketed - under a single racial label. *Resounding Afro Asia* examines music projects that counter this convention; these projects instead foreground racial mixture in players, audiences, and sound in the very face of the ghettoizing culture industry. Giving voice to four contemporary projects, author Tamara Roberts traces black/Asian engagements that reach across the United States and beyond: Funkadesi, Yoko Noge, Fred Ho and the Afro Asian Music Ensemble, and Red Baraat. From Indian funk & reggae, to Japanese folk & blues, to jazz in various Asian and African traditions, to Indian brass band and New Orleans second line, these artists live multiracial lives in which they inhabit - and yet exceed - multicultural frameworks built on essentialism and segregation. When these musicians collaborate, they generate and perform racially marked sounds that do not conform to their individual racial identities. The Afro Asian artists discussed in this book splinter the expectations of racial determinism, and through improvisation and composition, articulate new identities and subjectivities in conversation with each other. These dynamic social, aesthetic, and sonic practices construct a forum for the negotiation of racial and cultural difference and the formation of inter-minority solidarities. *Resounding Afro Asia* joins a growing body of literature that is writing Asian American artists back into U.S. popular music history, while highlighting interracial engagements that have fueled U.S. music making. The book will appeal to scholars of music, ethnomusicology, race theory, and politics, as well as those interested in race and popular music.

Create, Produce, Consume David Bruenger, 2019-10-08 *Create, Produce, Consume* explores the cycle of musical

experience for musicians, professionals, and budding entrepreneurs looking to break into the music industry. Building on the concepts of his previous book, *Making Money, Making Music*, David Bruenger provides readers with a basic framework for understanding the relationships between the artist and audience and the producer consumer by examining the methods underlying creation-production-reception and creation-consumption-compensation. Each chapter offers a different perspective on the processes and structures that lead listeners to discover, experience, and interact with music and musical artists. Through case studies ranging from Taylor Swift's refusal to allow her music to be streamed on Spotify to the rise of artists supported through sites like Patreon, Bruenger offers highly relevant real-world examples of industry practices that shape our encounters with music. *Create, Produce, Consume* is a critical tool for giving readers the agile knowledge necessary to adapt to a rapidly changing music industry. Graphs, tables, lists for additional reading, and questions for further discussion illustrate key concepts. Online resources for instructors and students will include sample syllabi, lists for expanded reading, and more.

Freedom's Teacher Katherine Mellen Charron, 2009 Septima Poinsette Clark's gift to the civil rights movement was education. Franchising Dreams Peter M. Birkeland, 2004-04 Franchises have become an ever-present feature of American life, both in our landscapes and our economics. Peter M. Birkeland worked for three years in the front-line operations of franchise units for three companies, met with CEOs and executives, and attended countless trade shows, seminars, and expositions. Through this extensive fieldwork Birkeland not only discovered what makes franchisees succeed or fail, he uncovered the difficulties in running a business according to someone else's system and values. Bearing witness to a market flooded with fierce competitors and dependent on the inscrutable whims of consumers, he revealed the numerous challenges that franchisees face in making their businesses succeed. The Grammar of Rock Alexander Theroux, 2013-02-16 Novelist and critic Alexander Theroux analyzes the pop song. National Book Award nominee, critic and one of America's least compromising satirists, Alexander Theroux takes a comprehensive look at the colorful language of pop lyrics and the realm of rock music in general in *The Grammar of Rock*: silly song titles; maddening instrumentals; shrieking divas; clunker lines; the worst (and best) songs ever written; geniuses of the art; movie stars who should never have raised their voice in song but who were too shameless to refuse a mic; and the excesses of awful Christmas recordings. Praising (and critiquing) the gems of lyricists both highbrow and low, Theroux does due reverence to classic word-masters like Ira Gershwin, Jimmy Van Heusen, Cole Porter, and Sammy Cahn, lyricists as diverse as Hank Williams, Buck Ram, the Moody Blues, and Randy Newman, Dylan and the Beatles, of course, and more outré ones like the Sex Pistols, the Clash, Patti Smith, the Fall (even Ghostface Killa), but he considers stupid rhymes, as well

— nonsense lyrics, chop logic, the uses and abuses of irony, country music macho, verbal howlers, how voices sound alike and why, and much more. In a way that no one else has ever done, with his usual encyclopedic insights into the state of the modern lyric, Theroux focuses on the state of language — the power of words and the nature of syntax — in *The Grammar of Rock*. He analyzes its assaults on listeners' impulses by investigating singers' styles, pondering illogical lunacies in lyrics, and deconstructing the nature of diction and presentation in the language. This is that rare book of discernment and probing wit (and not exclusively one that is a critical defense of quality) that positively evaluates the very nature of a pop song, and why one over another has an effect on the listener.

Voicing the Popular Richard Middleton, 2013-09-05 How does popular music produce its subject? How does it produce us as subjects? More specifically, how does it do this through voice--through giving voice? And how should we understand this subject--the people--that it voices into existence? Is it singular or plural? What is its history and what is its future? *Voicing the Popular* draws on approaches from musical interpretation, cultural history, social theory and psychoanalysis to explore key topics in the field, including race, gender, authenticity and repetition. Taking most of his examples from across the past hundred years of popular music development--but relating them to the eighteenth- and nineteenth-century pre-history--Richard Middleton constructs an argument that relates the popular to the unfolding of modernity itself. *Voicing the Popular* renews the case for ambitious theory in musical and cultural studies, and, against the grain of much contemporary thought, insists on the progressive potential of a politics of the Low.

Blackbird Katie Kapurch, Jon Marc Smith, 2023-11-14 From the beginning, the Beatles acknowledged in interviews their debt to Black music, apparent in their covers of and written original songs inspired by Chuck Berry, Little Richard, Fats Domino, the Shirelles, and other giants of R&B. *Blackbird* goes deeper, appreciating unacknowledged forerunners, as well as Black artists whose interpretations keep the Beatles in play. Drawing on interviews with Black musicians and using the song "Blackbird" as a touchstone, Katie Kapurch and Jon Marc Smith tell a new history. They present unheard stories and resituate old ones, offering the phrase "transatlantic flight" to characterize a back-and-forth dialogue shaped by Black musicians in the United States and elsewhere, including Liverpool. Kapurch and Smith find a lineage that reaches back to the

very origins of American popular music, one that involves the original twentieth-century blackbird, Florence Mills, and the King of the Twelve String, Lead Belly. Continuing the circular flight path with Nina Simone, Billy Preston, Jimi Hendrix, Aretha Franklin, Sylvester, and others, the authors take readers into the twenty-first century, when Black artists like Bettye LaVette harness the Beatles for today. Detailed, thoughtful, and revelatory, *Blackbird* explores musical and storytelling legacies full of rich but contested symbolism. Appealing to those interested in developing a deep understanding of the evolution of popular music, this book promises that you'll never hear "Blackbird"—and the Beatles—the same way again.

Hip-Hop Genius 2.0 Sam Seidel, 2022-02-15 Many educators already know that hip-hop can be a powerful tool for engaging students. But can hip-hop save our schools—and our society? *Hip-Hop Genius 2.0* introduces an iteration of hip-hop education that goes far beyond studying rap music as classroom content. Through stories about the professional rapper who founded the first hip-hop high school and the aspiring artists currently enrolled there, Sam Seidel lays out a vision for how hip-hop's genius—the resourceful creativity and swagger that took it from a local phenomenon to a global force—can lead to a fundamental remix of the way we think of teaching, school design, and leadership. This 10-year anniversary edition welcomes two new contributing authors, Tony Simmons and Michael Lipset, who bring direct experience running the High School for Recording Arts. The new edition includes new forewords from some of the most prominent names in education and hip-hop, reflections on ten more years of running a hip-hop high school, updates to every chapter from the first edition, details of how the school navigated the unprecedented complexities brought about by the COVID-19 pandemic and uprising in response to the murder of George Floyd, and an inspiring new concluding chapter that is a call to action for the field.

Diamond Star Halo Tiffany Murray, 2011-04-07 Growing up in a rural recording studio, Halo Llewellyn is rarely star-struck, but when one of the visiting singers gives birth to Fred, she knows right away that he's special. As the golden child grows into the gilded man, she remains dazzled by his ambition and his talent. Up on stage, being screamed at by hundreds of teenage girls, Fred will always turn his spotlight on Halo in the crowd. But that's the problem with falling in love with your charismatic almost-brother - it can never be a secret. In the end, the whole world has to know.

The Political Force of Musical Beauty Barry Shank, 2014-03-17 In *The Political Force of Musical Beauty*, Barry Shank shows how musical acts and performances generate their own aesthetic and political force, creating, however fleetingly, a shared sense of the world among otherwise diverse listeners. Rather than focusing on the ways in which music enables the circulation of political messages, he argues that communities grounded in the act and experience of listening can give rise to new political ideas and expression. Analyzing a wide range of beautiful music within popular and avant-garde genres—including the Japanese traditions in the music of Takemitsu Toru and Yoko Ono, the drone of the Velvet Underground, and the insistence of hardcore punk and Riot grrrl post-punk—Shank finds that when it fulfills the promise of combining sonic and lyrical differences into a cohesive whole, musical beauty has the power to reorganize the basis of social

relations and produce communities that recognize meaningful difference.

Counting Down Elvis Mark Duffett,2018-02-23 Over the course of the last six decades, Elvis Presley has sold more than a billion records; his music has touched nearly every modern listener. Despite an avalanche of books on his life, there are, surprisingly, few about his musical creativity. In *Counting Down Elvis: His 100 Finest Songs*, Mark Duffett urges readers to put aside the misleading stereotypes and rumor-filled debates about Elvis and listen once again to the legend who emerged from Memphis. Elvis had a unique approach to music—one that was both powerful and versatile. In a career stretching across more than twenty years, Presley changed the face of popular music, drawing together genres—from country and blues to contemporary folk—and placing a unique stamp on all of them. *Counting Down Elvis: His 100 Finest Songs* explores the full range of Presley recordings, from his earliest numbers to posthumous hits, combing through gold records and unpolished gems to distill the best that Presley has to offer.

Pop Culture Wars William D. Romanowski,2006-02-15 Entertainment has long been a source of controversy in American life. On the one hand, American popular culture is enormously desired, captivating audiences around the world. On the other hand, more and more critics blame it for the breakdown of morals and even civilizations itself. Surely Christians and other religious citizens have something to contribute to what is, after all, a discussion of morality. But too often their contributions have been ill-informed, unreflective and reactionary. In this groundbreaking book, William Romanowski brings something desperately needed to the discussion: an informed, systematic and challenging Christian perspective. Comprehensive and historically revealing, *Pop Culture Wars* bids to accomplish nothing less than to reframe and render more constructive a crucial but angry cultural debate.

No Ways Tired: The Journey for Professionals of Color in Student Affairs Monica Galloway Burke,U. Monique Robinson,2019-08-01 Even though diversity is currently conveyed as a ubiquitous principle within institutions of higher education, professionals of color still face issues such as discrimination, the glass ceiling, lack of mentoring, and limited access to career networks. Unfortunately, an open channel does not exist for professionals of color to express their frustrations and genuine concerns. The narratives in *No Ways Tired* present a powerful voice about the experiences of student affairs professionals of color in higher education, including intersecting identities such as race, class, and gender. Furthermore, the narratives are nuggets of personal truth that can serve as a lens for professionals of color who wish to develop strategies to succeed as they traverse their careers in higher education. Through the sharing of their visions of success, lessons learned, and cautionary tales, the authors openly offer insights about how they have created a way to survive and thrive within higher education in spite of challenges and distractions. They also articulate a vision where student affairs professionals of color can develop fully, be authentic, use their agency, and effectively contribute. This book includes recommendations for professionals of color at all levels within higher education and ways to construct opportunities to

flourish. The ultimate goal for this book is to promote discussions regarding how professionals of color can be more proactive in developing strategies that are conducive to their professional and personal success as they navigate their higher education careers.

Songs of America Jon Meacham, Tim McGraw, 2019-06-11 NEW YORK TIMES BESTSELLER • A celebration of American history through the music that helped to shape a nation, by Pulitzer Prize winner Jon Meacham and music superstar Tim McGraw “Jon Meacham and Tim McGraw form an irresistible duo—connecting us to music as an unsung force in our nation's history.”—Doris Kearns Goodwin Through all the years of strife and triumph, America has been shaped not just by our elected leaders and our formal politics but also by our music—by the lyrics, performers, and instrumentals that have helped to carry us through the dark days and to celebrate the bright ones. From “The Star-Spangled Banner” to “Born in the U.S.A.,” Jon Meacham and Tim McGraw take readers on a moving and insightful journey through eras in American history and the songs and performers that inspired us. Meacham chronicles our history, exploring the stories behind the songs, and Tim McGraw reflects on them as an artist and performer. Their perspectives combine to create a unique view of the role music has played in uniting and shaping a nation. Beginning with the battle hymns of the revolution, and taking us through songs from the defining events of the Civil War, the fight for women’s suffrage, the two world wars, the Great Depression, the civil rights movement, the Vietnam War, and into the twenty-first century, Meacham and McGraw explore the songs that defined generations, and the cultural and political climates that produced them. Readers will discover the power of music in the lives of figures such as Harriet Tubman, Franklin Roosevelt, Eleanor Roosevelt, and Martin Luther King, Jr., and will learn more about some of our most beloved musicians and performers, including Marian Anderson, Elvis Presley, Sam Cooke, Aretha Franklin, Bob Dylan, Duke Ellington, Carole King, Bruce Springsteen, and more. *Songs of America* explores both famous songs and lesser-known ones, expanding our understanding of the scope of American music and lending deeper meaning to the historical context of such songs as “My Country, ’Tis of Thee,” “God Bless America,” “Over There,” “We Shall Overcome,” and “Blowin’ in the Wind.” As Quincy Jones says, Meacham and McGraw have “convened a concert in *Songs of America*,” one that reminds us of who we are, where we’ve been, and what we, at our best, can be.
