Portals of Power Lori M. Campbell,2010-03-08 Fantasy writing, like literature in general, provides a powerful vehicle for challenging the status quo. Via symbolism, imagery and supernaturalism, fantasy constructs secondary-world narratives that both mirror and critique the political paradigms of our own world. This critical work explores the role of the portal in fantasy, investigating the ways in which magical nexus points and movement between worlds are used to illustrate real-world power dynamics, especially those impacting women and children. Through an examination of high and low fantasy, fairy tales, children's literature, the Gothic, and science fiction, the portal is identified as a living being, place or magical object of profound metaphorical and cultural significance.

**Fight of the Century** Viet Thanh Nguyen,Jacqueline woodson,Ann Patchett,Brit Bennett,Steven Okazaki,David Handler,Geraldine Brooks,Yaa Gyasi,Sergio De La Pava,Dave Eggers,Timothy Egan,Li Yiyun,Meg Wolitzer,Hector

Tobar,Aleksandar Hemon,Elizabeth Strout,Rabih Alameddine,Moriel Rothman-Zecher,Jonathan Lethem,Salman Rushdie,Lauren Groff,Jennifer Egan,Scott Turow,Morgan Parker,Victor LaValle,Michael Cunningham,Neil Gaiman,Jesmyn Ward,Moses Sumney,George Saunders,Marlon James,William Finnegan,Anthony Doerr,C.J. Anders,Brenda J. Childs,Andrew Sean Greer,Louise Erdrich,Adrian Nicole LeBlanc,2020-01-21 The American Civil Liberties Union partners with award-winning authors Michael Chabon and Ayelet Waldman in this “forceful, beautifully written” (Associated Press) collection that brings together many of our greatest living writers, each contributing an original piece inspired by a historic ACLU case. On January 19, 1920, a small group of idealists and visionaries, including Helen Keller, Jane Addams, Roger Baldwin, and Crystal Eastman, founded the American Civil Liberties Union. A century after its creation, the ACLU remains the nation’s premier defender of the rights and freedoms guaranteed by the Constitution. In collaboration with the ACLU, authors Michael Chabon and Ayelet Waldman have curated an anthology of essays “full of struggle, emotion, fear, resilience, hope, and triumph” (Los Angeles Review of Books) about landmark cases in the organization’s one-hundred-year history. *Fight of the Century* takes you inside the trials and the stories that have shaped modern life. Some of the most prominent cases that the ACLU has been involved in—*Brown v. Board of Education*, *Roe v. Wade*, *Miranda v. Arizona*—need little introduction. Others you may never even have heard of, yet their outcomes quietly defined the world we live in now. Familiar or little-known, each case springs to vivid life in the hands of the acclaimed writers who dive into the history, narrate their personal experiences, and debate the questions at the heart of each issue. Hector Tobar introduces us to Ernesto Miranda, the felon whose wrongful conviction inspired the now-iconic Miranda rights—which the police would later read to the man suspected of killing him. Yaa Gyasi confronts the legacy of *Brown v. Board of Education*, in which the ACLU submitted a friend of- the-court brief questioning why a nation that has sent men to the moon still has public schools so unequal that they may as well be on different planets. True to the ACLU’s spirit of principled dissent, Scott Turow offers a blistering critique of the ACLU’s stance on campaign finance. These powerful stories, along with essays from Neil Gaiman, Meg Wolitzer, Salman Rushdie, Ann Patchett, Viet Thanh Nguyen, Louise Erdrich, George Saunders, and many more, remind us that the issues the ACLU has engaged over the past one hundred years remain as vital as ever today, and that we can never take our liberties for granted. Chabon and Waldman are donating their advance to the ACLU and the contributors are forgoing payment.

**The Folkloresque** Michael Dylan Foster, Jeffrey A. Tolbert, 2015-11-01 This volume introduces a new concept to explore the dynamic relationship between folklore and popular culture: the “folkloresque.” With “folkloresque,” Foster and Tolbert name the product created when popular culture appropriates or reinvents folkloric themes, characters, and images. Such manufactured tropes are traditionally considered outside the purview of academic folklore study, but the folkloresque offers a frame for understanding them that is grounded in the discourse and theory of the discipline. Fantasy fiction, comic books, anime, video games, literature, professional storytelling and comedy, and even popular science writing all commonly incorporate elements from tradition or draw on basic folklore genres to inform their structure. Through three primary modes—integration, portrayal, and parody—the collection offers a set of heuristic tools for analysis of how folklore is increasingly used in these commercial and mass-market contexts. The Folkloresque challenges disciplinary and genre boundaries; suggests productive new approaches for interpreting folklore, popular culture, literature, film, and contemporary media; and encourages a rethinking of traditional works and older interpretive paradigms. Contributors: Trevor J. Blank, Chad Buterbaugh, Bill Ellis, Timothy H. Evans, Michael Dylan Foster, Carlea Holl-Jensen, Greg Kelley, Paul Manning, Daniel Peretti, Gregory Schrempp, Jeffrey A. Tolbert

**The Kingdoms of Savannah** George Dawes Green, 2022-07-19 “Around these parts, the publication of a new George Dawes Green novel is an event. ... Green leans all the way into Southern Gothic, but the main grotesquerie is the city’s history, built on the backs of enslaved people. His prose is languid, even luxurious, but at critical moments of suspense, he pares it back to ramp up the terror.” —New York Times Book Review Savannah may appear to be “some town out of a fable,” with its vine flowers, turreted mansions, and ghost tours that romanticize the city’s history. But look deeper and you’ll uncover secrets, past and present, that tell a more sinister tale. It’s the story at the heart of George Dawes Green’s chilling new novel, *The Kingdoms of Savannah*. It begins quietly on a balmy Southern night as some locals gather at Bo Peep’s, one of the town’s favorite watering holes. Within an hour, however, a man will be murdered and his companion will be “disappeared.” An unlikely detective, Morgana Musgrove, doyenne of Savannah society, is called upon to unravel the mystery of these crimes. Morgana is an imperious, demanding, and conniving woman, whose four grown children are weary of her schemes. But one by one she inveigles them into helping with her investigation, and soon the family uncovers some terrifying truths—truths that will rock Savannah’s power structure to its core. Moving from the homeless encampments that ring the city to the stately homes of Savannah’s elite, Green’s novel brilliantly depicts the underbelly of a city with a dark history and the strangely mesmerizing dysfunction of a complex family.

*Horror Literature through History* Matt Cardin, 2017-09-21 This two-volume set offers comprehensive coverage of horror literature that spans its deep history, dominant themes, significant works, and major authors, such as Stephen King, Edgar Allan Poe, and Anne Rice, as well as lesser-known horror writers. Many of today's horror story fans—who appreciate horror through movies, television, video games, graphic novels, and other forms—probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers—who are of course also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a

seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror—such as ghosts, vampires, religion, and gender roles—have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections.

**The Cambridge Companion to Fantasy Literature** Edward James, Farah Mendlesohn, 2012-01-26 Fantasy is a creation of the Enlightenment, and the recognition that excitement and wonder can be found in imagining impossible things. From the ghost stories of the Gothic to the zombies and vampires of twenty-first-century popular literature, from Mrs Radcliffe to Ms Rowling, the fantastic has been popular with readers. Since Tolkien and his many imitators, however, it has become a major publishing phenomenon. In this volume, critics and authors of fantasy look at its history since the Enlightenment, introduce readers to some of the different codes for the reading and understanding of fantasy, and examine some of the many varieties and subgenres of fantasy; from magical realism at the more literary end of the genre, to paranormal romance at the more popular end. The book is edited by the same pair who produced *The Cambridge Companion to Science Fiction* (winner of a Hugo Award in 2005).

*The Mammoth Book of Angels & Demons* Paula Guran, 2013-05-16 Despite our tendency to think of the demonic as evil and the angelic as good, our own legends don't always bear this out. Angels can be the incarnation of light and salvation, but they can also fall - Satan himself is a fallen angel. Demons can be truly demonic, but these unearthly creatures can also, on occasion, lend humankind a hand. Temptation can lead to revelation, supernatural messengers who bring true justice may not be welcomed, and beings seeking redemption can be blind to mortal needs. Stories from world-renowned authors of science fiction and fantasy - including Neil Gaiman, George R. R. Martin and Joyce Carol Oates - and rising stars portray angels in all their glory, demons at their most dreadful, and a surprising variety of modern interpretations of ancient myth.

**Living in Digital Worlds** Naomi Jacobs, Rachel Cooper, 2018-01-29 *Living in Digital Worlds* investigates the relationship between human society and technology, as our private and particularly our public lives are increasingly undertaken in spaces that are inherently digital: digital public spaces. The book unpicks why digital technology is such an inextricable part of modern society, first by examining the historical relationship between technological development and the early progression of human sociality. This is then followed by an examination of the ways in which modern life is currently being impacted by the expansion of digital information and devices into multiple aspects of our lives, including focuses on privacy, bias and ownership in digital spaces. Finally, it explores potential future developments and their implications, and proposes that it is crucial to consider the design of technology and systems in order to support a positive and beneficial direction of change. Each chapter includes case studies, primarily drawn from The Creative Exchange, a fiveyear programme which ran from

2012 to 2016 to explore the notion of the digital public space through collaborative cross-sector research.
