The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all-inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three- to five-star entries (three stars=good; four stars=excellent; five stars=masterpiece), and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a precis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary, and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

The Complete King Arthur John Matthews, Caitlín Matthews, 2017-04-24 A comprehensive examination of the historical and mythological evidence for every major theory about King Arthur • Explores the history of every Arthur candidate and the geographical arguments that have placed him in different locations • Examines 1,800 years of evidence for Arthur's life and the famous series of 12 battles fought against the Saxons in the 6th century • Reconstructs the history of the 6th century in Britain, when the first references to Arthur and the core events of his reign appear Few legends have had the enduring influence of those surrounding King Arthur. Many believe the stories are based on historical truth. For others Arthur represents the archetype of the brilliant monarch reigning over a fairy-tale kingdom, offering his knights the opportunity to prove their mettle in battle and find gnostic illumination through initiation into sacred mysteries like that of the Grail. Presenting the culmination of more than 40 years' research, John and Caitlín Matthews examine the historical and mythological evidence for every major theory about the existence of King Arthur. Drawing on modern techniques in archaeology and scholarship, they reconstruct the history of the 6th century in Britain, the period when the first unambiguous references to Arthur appear. They explore the history of every Arthur candidate, the geographical arguments that have placed him in different locations, and the evidence for his life and famous battles fought against the Saxons. Was the greatest British hero of all time not a king but a 2nd-century Roman officer active around Hadrian's Wall in Cumbria? A 5th-century soldier who operated in areas as far apart as Cornwall, Wales, Scotland, or Brittany? Or an entirely mythical fiction that provided a figure of light during a dark period of British history? Examining other literary figures from the 5th century such as Vortigern and Ambrosius, the authors also break down the plots of all the major Arthurian romances, including those by Chretien de Troyes, Sir Thomas Malory, and Robert de Boron, to reveal the historical events they are based on. Piecing together the many fragments that constitute the image of Arthur, both the man and the myth, the authors show how each face of Arthur has something to offer and how his modern popularity proves the enduring power of the hero-myth, truly earning Arthur the title he first received in the 15th century: The Once and Future King.

A Knight at the Movies John Aberth, 2012-10-02 Imagining the Middle Ages is an unprecedented examination of the historical content of films depicting the medieval period from the 11th to the 15th centuries. Historians increasingly feel the need to weigh in on popular depictions of the past, since so much of the public's knowledge of history comes from popular mediums. Aberth dissects how each film interpreted the period, offering estimations of the historical accuracy of the works

and demonstrating how they project their own contemporary era's obsessions and fears onto the past.

A Year of Movies Ivan Walters, 2015-11-12 While watching a movie, how many viewers notice some of the finer details of the film, such as the time of day during a scene—or even the date itself? For instance, does anyone remember what day detention is served by the high schoolers in *The Breakfast Club* or can guess when aliens first make their presence known in *Independence Day*? And perhaps only history buffs or fanatics of Leonardo DiCaprio can cite the exact date the Titanic sunk. In *A Year of Movies: 365 Films to Watch on the Date They Happened* Ivan Walters provides a selection for every day on the calendar in which at least some of the events in the film take place. For some films, the entire drama occurs on a very specific day. For other films, such as *The Right Stuff*, the date in question is represented in a key scene or two or even for just a few pivotal seconds. Certain films, to be sure, are obvious candidates for inclusion in this book. What other movie would make sense to watch on February 2nd than *Groundhog Day*? Is there a more appropriate film to consider for June 6th than *The Longest Day*? Representing a variety of genres—from comedies and dramas to westerns and film noir—these films offer fans a unique viewing opportunity. While helping viewers decide what to watch on a given day, this book will also introduce readers to films they may not have otherwise considered. Aimed at film buffs and casual viewers alike, *A Year of Movies* is also an ideal resource for librarians who want to offer creative programming for their patrons.

The Encyclopedia of Epic Films Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action, and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office, for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was, and still is, one of the traits of the epic, though monolithic three- to four-hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence, its central elements have been retained, refined, and modernized to suit the tastes of every new generation. The *Encyclopedia of Epic Films* identifies, describes, and analyzes those films that meet the criteria of the epic—sweeping drama, panoramic landscapes, lengthy adventure sequences, and, in many cases, casts of thousands. This volume looks at the wide variety of epics produced over the last century—from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera, including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu-ray availability Resources for further study This volume also includes appendixes of foreign epics, superhero spectacles, and epics produced for television, along with a list of all

the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences, and this book pays homage to a form of mass entertainment that continues to fill movie theaters. The Encyclopedia of Epic Films will be of interest to academics and scholars, as well as any fan of films made on a grand scale.

Success in the Cinema MoneyMaking Movies John Howard Reid, 2006-06-01 Basically, there are three measures of success in the cinema. First off are pictures like *The Crowd* and *Applause* that achieve rave reviews and even go on to win awards, but don't recover their negative costs. Then there are the movies the critics hate, but the public enjoys. All three versions of *Back Street*, for instance. Finally come the pictures everyone loves, like *From Here To Eternity* or *Sunset Boulevard*. In the annals of success in Hollywood's Golden Age, one name stands out above all others: Cecil B. DeMille. His famous pictures reviewed here include both versions of *The Buccaneer*, *The Crusades*, *Sign of the Cross*, *The Story of Dr Wassell* and *Union Pacific*. But the book also notes a DeMille B movie that tied up a fair amount of money but proved so unpopular it was released in some territories as a support. The book also covers some of Hollywood's other disastrous failures, including the M-G-M movie that cost over \$4 million to make and returned virtually nothing.

Literary Trips Victoria Brooks, 2000 Slices of on-the-road literary history and detail-rich travel romps with famous writers. Sheila F. Buckmaster, senior editor, *National Geographic Traveler*

Encyclopedia of Television Film Directors Jerry Roberts, 2009-06-05 From live productions of the 1950s like *Requiem for a Heavyweight* to big budget mini-series like *Band of Brothers*, long-form television programs have been helmed by some of the most creative and accomplished names in directing. *Encyclopedia of Television Film Directors* brings attention to the directors of these productions, citing every director of stand alone long-form television programs: made for TV movies, movie-length pilots, mini-series, and feature-length anthology programs, as well as drama, comedy, and musical specials of more than 60 minutes. Each of the nearly 2,000 entries provides a brief career sketch of the director, his or her notable works, awards, and a filmography. Many entries also provide brief discussions of key shows, movies, and other productions. Appendixes include Emmy Awards, DGA Awards, and other accolades, as well as a list of anthology programs. A much-needed reference that celebrates these often-neglected artists, *Encyclopedia of Television Film Directors* is an indispensable resource for anyone interested in the history of the medium.

The Hundred Books Glyn Hughes, 2016-10-03 There's a set of books which you're just supposed to know about, at least if you live in The West and fancy the idea of being thought 'educated'. There's the Bible, Shakespeare, James Joyce, Walter Scott and Machiavelli. Dr Jekyll, Tiny Tim, Starbuck, Socrates, Mr. Scrooge, Raskolnikov, Einstein and Enkidu. The Brontes and Boswell, Wordsworth, Newton Confucius and Don Quixote. Here they all are. 100 of the most quoted, most known, works of all time, in the original author's own words, but squashed up into nice little abridgements you can read in an hour or so.

Little versions which smell and sound just like the originals. And ... with *The Hundred Books* it becomes possible to read the whole thing as a single narrative, to discover a Pisgah View of the written history of the great grand thing of how We got where We are now, in way that's just impossible for ordinary mortals. Read the lot, you'll love it, and you'll never, ever, be bored in an airport again.

Ancient Rome on the Silver Screen Gregory S. Aldrete, Graham Sumner, 2023-05-15 An unparalleled exploration of films set in Ancient Rome, from the silent *Cleopatra* to the modern rendition of *Ben-Hur*. No sooner had the dazzling new technology of cinema been invented near the end of the 19th century than filmmakers immediately turned to ancient history for inspiration. Nero, Cleopatra, Caesar, and more all found their way to the silver screen and would return again and again in the decades that followed. But just how accurate were these depictions of Ancient Rome? In *Ancient Rome on the Silver Screen: Myth versus Reality*, Gregory S. Aldrete and Graham Sumner provide a fascinating examination of 50 films set in Ancient Rome, analyzing each for its historical accuracy of plot, characters, costumes and sets. They also divulge insights into the process of making each movie and the challenges the filmmakers faced in bringing the Roman world to vivid cinematic life. Beginning with the classics from the dawn of cinema, through the great golden age of sword-and-sandals flicks in the 1950s, to the dramatic epics of the modern day, Aldrete and Sumner test the authenticity of Hollywood's version of history. Featuring remarkable custom-made paintings depicting characters as they appeared in film and how they should have appeared if they were historically correct, *Ancient Rome on the Silver Screen* delivers an invaluable perspective of film and history. This unique collaboration between professional illustrator and award-winning Roman historian offers a deeper understanding of modern cinema and brings Roman history to life.

The Middle Ages and the Movies Robert Bartlett, 2022-08-04 From Ingmar Bergman's *The Seventh Seal* to Monty Python, an investigation into how eight key films have shaped our understanding of the medieval world. In *The Middle Ages and the Movies*, eminent historian Robert Bartlett takes a fresh, cogent look at how our view of medieval history has been shaped by eight significant films of the twentieth century. The book ranges from the concoction of sex and nationalism in Mel Gibson's *Braveheart*, to Fritz Lang's silent epic *Siegfried*, the art-house classic *The Seventh Seal*, and the epic historical drama *El Cid*. Bartlett examines the historical accuracy of these films, as well as other salient aspects—how was Umberto Eco's *Name of the Rose* translated from page to screen? Why is Monty Python and the Holy Grail funny? And how was Eisenstein's *Alexander Nevsky* shaped by the Stalinist tyranny under which it was filmed?

The Cinema of Terry Gilliam Jeff Birkenstein, Anna Froula, Karen Randell, 2013-04-23 Terry Gilliam has been making movies for more than forty years, and this volume analyzes a selection of his thrilling directorial work, from his early films with Monty Python to *The Imaginarium of Doctor Parnassus* (2009). The frenetic genius, auteur, and social critic continues to create indelible images on screen--if, that is, he can get funding for his next project. Featuring eleven original essays from an international group of scholars, this collection argues that when Gilliam makes a movie, he goes to war: against Hollywood caution and convention, against American hyper-consumerism and imperial militarism, against narrative vapidness and spoon-fed mediocrity, and against the brutalizing notion and cruel vision of the American Dream.
