The Kite Runner Khaled Hosseini, 2003 The unforgettable, heartbreaking story of the unlikely friendship between a wealthy boy and the son of his father's servant, *The Kite Runner* is a beautifully crafted novel set in a country that is in the process of being destroyed. It is about the power of reading, the price of betrayal, and the possibility of redemption, and it is also about the power of fathers over sons—their love, their sacrifices, their lies. The first Afghan novel to be written in English, *The Kite Runner* tells a sweeping story of family, love, and friendship against a backdrop of history that has not been told in fiction before, bringing to mind the large canvases of the Russian writers of the nineteenth century. But just as it is old-fashioned in its narration, it is contemporary in its subject—the devastating history of Afghanistan over the last thirty years. As emotionally gripping as it is tender, *The Kite Runner* is an unusual and powerful debut.

Censorship! ...or Selection? Shaheen Shariff, Leanne Johnny, 2007-01-01 This book is a must read for academics, policy-makers and teachers who grapple with policy and pedagogical decisions about what to include or exclude in schools that cater to diverse stakeholders. Much has been written about controversial, litigious school censorship controversies relating to text and library books. Post-September 11th, these have expanded to banning of religious clothing and symbols. Court challenges emerge in the context of a global and political media backdrop that consistently reinforces anti-Muslim sentiment. The re-emergence of an extreme right-wing religious backlash against liberal civil liberties that endorse homosexuality, feminism, religious and racial equality create formidable dilemmas for educators, further complicated by the blurred boundaries of free expression, safety and privacy in cyber-space, as students increasingly communicate on-line. Shariff and Johnny argue that censorship is deeply rooted in hegemonic perspectives that sustain neo-colonial privilege and silence the social, historical and intellectual contributions of some students. This “curriculum of orthodoxy” supports discriminatory political/media stereotypes of non-Caucasian ethnic groups through “selection” that is in fact “censorship.” The authors introduce a Critical Legal Literacy model for teacher education that combines legal and digital literacies with critical educational pedagogy to help educators meet contemporary challenges through pluralistic, ethical and educational decisions.

Muslim Women, Transnational Feminism and the Ethics of Pedagogy Lisa K. Taylor, Jasmin Zine, 2014-06-27

Following a long historical legacy, Muslim women's lives continue to be represented and circulate widely as a vehicle of intercultural understanding within a context of the war on terror. Following Edward Said's thesis that these cultural forms reflect and participate in the power plays of empire, this volume examines the popular and widespread production and reception of Muslim women's lives and narratives in literature, poetry, cinema, television and popular culture within the politics of a post-9/11 world. This edited collection provides a timely exploration into the pedagogical and ethical possibilities opened up by transnational, feminist, and anti-colonial readings that can work against sensationalized and stereotypical representations of Muslim women. It addresses the gap in contemporary theoretical discourse amongst educators teaching literary and cultural texts by and about Muslim Women, and brings scholars from the fields of education, literary and cultural studies, and Muslim women's studies to examine the politics and ethics of transnational anti-colonial reading practices and pedagogy. The book features interviews with Muslim women artists and cultural producers who provide engaging reflections on the transformative role of the arts as a form of critical public pedagogy.

Political Engagement as Biblical Mandate Paul D. Hanson, 2010-01-01 How does the Bible shape the perspective from

which Christians view politics, the manner in which they engage in public debate, and the strategies they adopt when they translate faith into action? In *Political Engagement as Biblical Mandate*, Hanson suggests that many believers give insufficient thought to the basic principles that biblical study contributes to the lives of those who simultaneously seek to live in obedience to the central confessions of the Christian faith and to engage constructively in the life of a nation guided by the First Amendment and populated by an increasingly religiously diverse citizenry.
