Financial Services in Nigeria Taiwo O. Soetan, Emmanuel Mogaji, 2024-08-16 This book presents a holistic picture of Nigeria's financial services landscape. This includes identifying service providers and regulatory bodies, understanding consumer behaviour, and examining the unique challenges faced by Nigerian financial institutions. The book presents up-to-date research on recent developments and regulatory changes within Nigeria's financial sector, as well as future considerations for how financial services and financial inclusion can play a crucial role in the country's sustainable economic growth. Combining academic analysis with practical insights, the book takes readers through Nigeria's key financial services providers, regulators, consumers, marketing strategies and challenges. A core focus throughout is on financial inclusion and the opportunities associated with reaching financially underserved or excluded populations, demonstrating how increasing financial access at a country-wide level aligns with global goals of reducing inequalities and promoting growth. It will have interdisciplinary appeal to scholars, students and professionals working in finance, economics, business, public policy and development studies.

e-Services Sam Goundar, 2021-09-01 The turn of the new millennium has brought with it an explosion of activity around electronic services (e-services) in the form of e-commerce, e-business, e-government, e-learning, and so on. The provision of all possible goods and services electronically via the Internet with the use of semantic web technologies has seen a paradigm shift from the traditional brick-and-mortar location-based services to the ubiquitous provision of goods and services online. An understanding of this paradigm shift and the fundamental properties of e-service composition is required in order to take full advantage of the paradigm. As such, this book provides comprehensive coverage and understanding of the use of e-services within the technological, business, management, and organizational domains. Chapters cover such topics as digitized learning, information and communication technology in sports, cloud computing for universities, and more. This

book is a reference book for scholars, researchers, and practitioners looking to update their knowledge on methodologies, theoretical analyses, modeling, simulation, and empirical studies on e-services.

Written by Davidson Otoru, this book offers an in-depth analysis of the legal, regulatory, and operational frameworks that govern fintech businesses in one of Africa's largest economies. From payment systems to cryptocurrency, mobile banking, and digital lending, this book covers key aspects of the Nigerian fintech ecosystem. It delves into the various laws, guidelines, and regulations shaping the industry, offering practical insights for fintech founders, legal practitioners, regulators, and investors. Whether you are navigating the complexities of licensing requirements, compliance obligations, or investor agreements, this book provides clarity and actionable advice. In addition to covering local regulatory practices, Fintech Law and Practice in Nigeria highlights the global trends impacting the Nigerian fintech space, drawing comparisons with international markets. The book is an essential guide for anyone seeking to understand or engage with the legal side of financial technology in Nigeria, and a must-read for professionals looking to stay ahead in this fast-paced sector.

The Report: Nigeria 2017,

The Report: Nigeria 2016 Oxford Business Group, 2016-10-06 Nigeria is the largest economy in Africa with a GDP of \$ 487bn in 2015, according to the World Bank. The country asserted the mantle of the continent's largest economy in 2013, following a rebasing exercise. However, its large population means that Nigeria remains a comparatively poor country in per capita terms, with a lower GDP per capita than several of its sub-Saharan neighbors. Following a real GDP contract of 1.5% in 2016, the IMF forecasts that growth will reach 0.8% in 2017 and 1.9% in 2018. While growth began to pick up in the first half of 2017, Nigeria still has much work to do. However, there is the sentiment that the economy has turned a corner and has begun to see a silver lining. Devaluation of the naira, rising inflation, the drop in oil revenues, the slowdown in oil production, and the leader softening of growth,

State-of-the-Art Theories and Empirical Evidence Roshima Said, Noor Zahirah Mohd Sidek, Zubir Azhar, Khairul Anuar Kamarudin, 2017-12-06 This book discusses several important issues related to corporate governance reporting, corporate social responsibility (CSR), fraud and bankruptcy. It gathers papers presented at the 6th International Conference on Governance, Fraud, Ethics and Social Responsibility, which was held in Penang, Malaysia on 18-19 November 2015. The content is divided into three major sub-themes: Corporate Governance and Accountability; Corporate Social Responsibility

(CSR) and Sustainable Development; and Ethics, Risk and Fraud. The first sub-theme addresses recently identified issues, such as corporate governance reporting, corporate governance regulation differences between countries, governance and financial market economics, financial market supervision, and control and risk management. In turn, the second sub-theme focuses on international auditing standards, green/socially responsible investment, environmental and social accounting and auditing, CSR-related matters, legislation and CSR reporting differences for public listed companies, accounting for sustainable development performance, and sustainability assessment models. The third sub-theme puts the spotlight on financial assessment and diagnosis, modeling, hedging, fraud, bankruptcy, accounting and auditing ethics and ethical problems in financial markets. Taken together, the issues discussed here provide state of art theories and empirical evidence approached from broad perspectives, making the book a valuable resource for researchers, students and practitioners alike.

Corruption and Development in Nigeria Oláyinka Àkànle, David O. Nkpe, 2021-12-28 Despite being Africa's largest economy and most populous country, with abundant natural resources, Nigeria still faces substantial development challenges. This book argues that corruption lies at the heart of many of the country's problems. Drawing on a range of different disciplinary perspectives, this volume explores the relationship between corruption and development, investigating the causes, contexts, and consequences of corruption, and the pathways for addressing it. As well as covering the wider background and theory surrounding corruption in the country, the book will investigate different sectors: the media, the judiciary, the health sector, industry, the criminal justice system, and of course politics and governance. The book concludes by considering attitudes and perceptions to corruption within Nigeria, current approaches to countering corruption, and future pathways to addressing the problem. This book's critical investigation of the links between corruption and development in Nigeria will be of interest to researchers of corruption, development and African Studies, as well as to policy makers, practitioners, and local stakeholders.

Cybersecurity for Decision Makers Narasimha Rao Vajjhala, Kenneth David Strang, 2023-07-20 This book is aimed at managerial decision makers, practitioners in any field, and the academic community. The chapter authors have integrated theory with evidence-based practice to go beyond merely explaining cybersecurity topics. To accomplish this, the editors drew upon the combined cognitive intelligence of 46 scholars from 11 countries to present the state of the art in cybersecurity. Managers and leaders at all levels in organizations around the globe will find the explanations and suggestions useful for understanding cybersecurity risks as well as formulating strategies to mitigate future problems. Employees will find the examples and caveats both interesting as well as practical for everyday activities at the workplace and in their personal lives. Cybersecurity practitioners in computer science, programming, or espionage will find the literature and statistics fascinating and more than likely a confirmation of their own findings and assumptions. Government policymakers will find the book valuable to inform their new agenda of protecting citizens and infrastructure in any country around the world. Academic scholars, professors, instructors, and students will find the theories, models, frameworks, and discussions relevant and supportive to teaching as well as research.

The topics cover all ICT-related areas and their contributions to socio-economic development, focusing on the most advanced technologies, such as AI. Researchers and practitioners in academia and industry use the books as a valuable reference for their research activities, teaching, learning, and advancing current technologies. The Conference is hosted by Thai Nguyen University of Information and Communication Technology (ICTU).

The Report: Nigeria 2013 Oxford Business Group, 2013-12-04 As the single most populous nation in Africa, Nigeria recently overtook South Africa as the largest economy on the continent. Natural resources, oil and gas in particular, comprise the country's single largest revenue-earner but the 170m person economy also has seen significant activity in

recent years into the industrial, financial, telecoms and – as of 2013 – power sectors. Hydrocarbons reserves have traditionally attracted the vast majority of domestic and foreign investment in Nigeria. Oil production capacity has remained at roughly 2.5m barrels per day (bpd) since the start of 2000, although output fell to 2.2m bpd on average in 2012. Still, the country has long operated below its true potential and government efforts in recent years have sought to increase local value addition, by boosting refining capacity and minimising theft and bunkering. The country's banking sector has been through a significant shake-up as well, resulting in a far healthier and more robust financial industry, while reforms in the telecoms and agricultural sectors have strengthened medium-term prospects.

The Law of Banking in Nigeria Otu Enyia,2019-08-23 The Law of Banking in Nigeria - Principles, Statutes and Guidelines captures the general principles of banking law, statutes and guidelines relating to banking transactions. The book is presented in a very simple, precise, and clear language and contains three parts of thirty-one chapters in all covering the general principles of banking. It should create considerable awareness among the general public, law students, law teachers, bank customers as well as banks and bankers. Most certainly, it is a book that will assist the students and researchers in this area of law in wading through the general principles of banking law as well as the numerous Legislation and Guidelines on banking business.

Infrastructure Development in Nigeria Michael O. Onolememen,2020-01-22 This book examines the politics and economics of infrastructure development in Nigeria from Independence in 1960 up to 2015, and the role of good governance in promoting the socioeconomic wellbeing of citizens. Arguing for the need for transformational leadership in infrastructure development, the chapters examine policy issues and survey the various administrative, economic, and social-political reforms that have impacted infrastructure development in Nigeria. The author also discusses current national development plans and Vision 20:2020; challenges to infrastructure development, including corruption; and the future potential of a strong infrastructure network for the economy and citizens. Drawing upon his experience within government departments, as well as existing models of leadership and governance, the author explores the role of infrastructure development in promoting the wellbeing and growth of Nigeria. Combining theory with practical examples of good governance, this book will be of interest for students and researchers of political science and infrastructure development in Africa.

Frontier Capital Markets and Investment Banking Temitope W. Oshikoya,Kehinde Durosinmi-Etti,2019-05-28 This book discusses the role of capital markets and investment banking in Nigeria, the largest frontier market economy in the world by

both population size and gross domestic product. Offering a systematic framework combining conceptual principles with real practice, the book enables the reader to gain useful insight into how capital markets and investment banking work in the real world of a frontier market. The book provides a synopsis of the economic attractiveness, financial systems intermediation and capital markets, as well as the regulatory framework within a frontier market. It explores capital raising through equity and underwriting and private equity, paying particular attention to putting capital to work on mergers and acquisitions, project and infrastructure finance and real estate finance. Furthermore, it analyses asset management, pension industry and securities trading in a frontier market. The authors use detailed case studies from Nigeria to illustrate the operations of investment banking in frontier markets. The cases, tables and charts serve as useful illustrations of the topics under discussion. With the authors' combined experience of more than 50 years as economists, finance and investment professionals and in executive leadership positions in the financial services industry, this book will interest the academic community, professionals in the financial industry, retail and institutional investors interested in frontier markets, development practitioners in international organizations and policy makers including securities and capital market regulators.
