The Birth of Korean Cool Euny Hong,2014-08-14 How did a really unhip country suddenly become cool? How could a nation that once banned miniskirts, long hair on men and rock 'n' roll come to mass produce pop music and a K-pop star that would break the world record for the most YouTube hits? Who would have predicted that a South Korean company that used to sell fish and fruit (Samsung) would one day give Apple a run for its money? And just how does South Korea plan to use pop culture to beat America at its own game. Welcome to South Korea: The Brand. In The Birth of Korean Cooljournalist Euny Hong uncovers the roots of the 'Korean Wave': a fanaticism for South Korean pop culture that has enabled them to make the rest of the world a captive market for their products by first becoming the world's number one pop culture manufacturer. South Korea's economic development has been nothing short of staggering - leapfrogging from third-world to first-world in just a few years and continuing to grow at a rapid and unprecedented rate - and for the first time The Birth of Korean Coolwill give readers exclusive insight into the inner workings of this extraordinary country; it's past, present and future.

Mitasari, Penerbit Pustaka Rumah C1nta, Ministry of National Development Planning of the Republic of Indonesia (PPN) and the Central Statistics Agency (BPS) estimates that Indonesia will experience a demographic bonus in 2045. This can bring Indonesia to its heyday if the demographic bonus can be used properly. Human development and mastery of science and technology, sustainable economic development, equitable development, and strengthening national resilience and governance are the four pillars in welcoming that era. The first pillar, human development and mastery of science and technology, can be achieved by realizing quality education. Unfortunately, many factors cause the low quality of higher education in Indonesia. The skill gap or skill gap is one of the causes of the non-absorption of college graduates into work. As a result, many graduates are unemployed. It was recorded that in 2021 the number of unemployed in Indonesia was more than 8 million undergraduates, an increase of 26.3% compared to 2020. In addition to skill gaps, low communication and problem-solving abilities, lack of science and technology, digital literacy skills, and teamwork abilities are also recorded as obstacles. However, to start that development, college students must improve their thought. They have to know the problem's surroundings and solve it through research. And this book is a compilation of their study through research.

Transnational Korean Cinema Dal Yong Jin, 2020 In *Transnational Korean Cinema* author Dal Yong Jin explores the interactions of local and global politics, economics, and culture to contextualize the development of Korean cinema and its current place in an era of neoliberal globalization and convergent digital technologies. The book emphasizes the economic and industrial aspects of the story, looking at questions on the interaction of politics and economics, including censorship and public funding, and provides a better view of the big picture by laying bare the relationship between film industries, the global market, and government. Jin also sheds light on the operations and globalization strategies of Korean film industries alongside changing cultural policies in tandem with Hollywood's continuing influences in order to comprehend the power relations within cultural politics, nationally and globally. This is the first book to offer a full overview of the nascent development of Korean cinema.

Morpho-Syntactic Patterns in Spoken Korean English Sofia Rüdiger, 2019-07-15 Morpho-Syntactic Patterns in Spoken Korean English presents fundamental research on the use of English by South Korean speakers. Despite the extraordinary and vibrant status of the English language in South Korean society (demonstrated, for example, by the notion of English Fever), research on the forms of English in the South Korean context has been sadly neglected in the study of World Englishes. This monograph is the first to provide a rich and contextualized description of the Korean English morpho-syntactic repertoire. It draws on the specifically compiled Spoken Korean English (SPOKE) corpus to shed light on Korean uses of plural marking, articles, pronouns, prepositions, and verbs in spoken English, and demonstrates that English is indeed the language of those who use it. This volume will be highly relevant for researchers interested in Expanding Circle Englishes, Asian Englishes, spoken language corpora, and morpho-syntactic variation.

The Changing Face of Korean Cinema Brian Yecies,Aegyung Shim,2015-12-22 The rapid development of Korean cinema during the decades of the 1960s and 2000s reveals a dynamic cinematic history which runs parallel to the nation's political, social, economic and cultural transformation during these formative periods. This book examines the ways in which South Korean cinema has undergone a transformation from an antiquated local industry in the 1960s into a thriving international cinema in the 21st century. It investigates the circumstances that allowed these two eras to emerge as creative watersheds, and demonstrates the forces behind Korea's positioning of itself as an important contributor to regional and global culture, and especially its interplay with Japan, Greater China, and the United States. Beginning with an explanation of the understudied operations of the film industry during its 1960s take-off, it then offers insight into the challenges that producers, directors, and policy makers faced in the 1970s and 1980s during the most volatile part of Park Chung-hee's authoritarian rule and the subsequent Chun Doo-hwan military government. It moves on to explore the film industry's professionalization in the 1990s and subsequent international expansion in the 2000s. In doing so, it explores the nexus and tensions between film policy, producing, directing, genre, and the internationalization of Korean cinema over half a century. By highlighting the recent transnational turn in national cinemas, this book underscores the impact of developments pioneered by Korean cinema on the transformation of 'Planet Hallyuwood'. It will be of particular interest to students and scholars of Korean Studies and Film Studies.

Fire and Steel Peter Caddick-Adams,2022-06-06 The final volume in one of the most acclaimed works of military history of this generation. Here is Peter Caddick-Adams' third volume in his trilogy about the final year of the Western front in World War Two. *Fire & Steel* covers the war's final 100 days-beginning in late January 1945 and continuing until May 8th, 1945, when the German high command surrendered unconditionally to all Allied forces. Caddick-Adams' previous two volumes in

the acclaimed series-Sand & Steel, which covers the invasion of Normandy in June 1944, and Snow & Steel, the definitive study of the Battle of the Bulge, the German's final offensive in the war-have set the stage for this concluding volume. In these final months of World War Two, all of Germany is ablaze, from daily bombing runs launched from just across its borders and incessant artillery fire from the east. In the west, the Allied progress was inexorable, with Eisenhower's seven armies taking on Germany's seven armies, town by town, bridge by bridge. With his customary narrative verve and utter mastery of the material, Caddick-Adams does these climactic final months full justice, from the capture of the Ludendorff Railway Bridge at Remagen, to the liberation of the Bergen-Belsen concentration camp, to the taking of Munich on Hitler's birthday, April 20th, and through to VE Day. Fire & Steel ends with the return of prisoners, demobilization of servicemen, and the beginning of the occupation of Germany. A triumphant concluding volume to one of the most distinguished works of military history of this generation.

Routledge Handbook of Contemporary South Korea Sojin Lim, Niki J.P. Alsford, 2021-08-30 The Routledge Handbook of Contemporary South Korea offers a ground-breaking study of the socio-political development of the Korean peninsula in the contemporary period. Written by an international team of scholars and experts, contributions to this book address key intellectual questions in the development of Korean studies, projecting new ways of thinking about how international systems can be organised and how local societies adapt to global challenges. Academically rigorous, each chapter defines current research and lends the reader greater understanding of the social, cultural, economic, and political developments of South Korea, ranging from chapters on the Korean Wave to relations with North Korea and the Korean language overseas. The volume is divided into eight sections, each representing a focused area of inquiry: socio-political history contemporary politics political economy and development society culture international relations security and diplomacy South Korea in international education This handbook provides an interdisciplinary and comprehensive account of contemporary South Korea. It will be of great interest to students and scholars of Korean history, politics and international relations, culture and society, and will also appeal to policy makers interested in the Indo-Asia Pacific region.

Proceedings of the 1st UPY International Conference on Education and Social Science (UPINCESS 2022) Ari Kusuma Wardana, 2023-02-10 This is an open access book. It has been two years since the COVID-19 pandemic swept across the world. This has more or less left a mark of memories and trauma for more or fewer people. This pandemic reminds people around the world that there are things that can happen without people knowing it. People start to worry and pessimistically see the uncertainty that lies in the future. To deal with this, a strategy is needed through educational innovation and social science to answer and face the challenges of uncertainty in the future. Breakthroughs in education and social science are the most strategic ways to build and enhance human capacity to solve problems, environmental and social problems. The spirit of innovation, rising from an economic downturn, the use of technology is obtained through the role of educational institutions.

This can be interpreted that innovation in education and social science produces superior humans, who have good behavior, and wise humans. So that in the face of uncertainty in the post-pandemic period, humans have strategies and become more prepared. To find out more about strategies for dealing with and responding to future uncertainties after the pandemic through educational innovations and social science, it is necessary to conduct research or studies that discuss these matters and be published widely. To support this, Universitas PGRI Yogyakarta held an international conference and Call for Papers The 1st UPY International Conference on Education and Social Science (UPINCESS) “Strategies to Deal with Uncertainty through Education and Social Science Innovation” on June 15, 2022.
