Post 9/11 and the State of Permanent Legal Emergency Aniceto Masferrer,2012-05-09 The terrorist attacks occurred in the United States on 11 September 2001 have profoundly altered and reshaped the priorities of criminal justice systems around the world. Atrocities like the 9/11 attacks, the Madrid train bombings of March 2003, and the terrorist act to the United Kingdom of July 2005 threatened the life of democratic nations. The volume explores the response of democratic nation-states to the problems of terrorism and counter-terrorism within the framework of the Rule of Law. One of the primary subjects of study is the ways in which the interests of the state (security from external threats, the maintenance of civil peace, and the promotion of the commonwealth) are balanced or not with the liberty and freedom of the citizens of the state. The distinctive aspect of this focus is that it brings a historical, political, philosophical and comparative approach to the contemporary shape and purposes of the criminal justice systems around the world.

Sobre la República Cicerón,2016-08-05 En Sobre la República, obra de gran interés para los estudiosos de la historia, la reflexión griega acerca del Estado ideal se combina con la sabiduría práctica romana. Este tratado, publicado en el año 51 a.C., se conserva hoy en sus tres primeros libros, de los seis originales, y en algunos fragmentos ulteriores, entre ellos su conclusión, «El sueño de Escipión» (del que Macrobio escribió un célebre comentario, aparecido en esta misma colección). De re publica trata de ciencia política, en un diálogo entre Escipión Emiliano y Lelio. Escipión pasa revista (como lo hicieron los griegos desde la República de Platón) a las tres formas típicas de gobierno -monarquía, aristocracia y democracia- y describe como forma de gobierno ideal (a semejanza de Polibio) la combinación de las tres, tal como se manifestó en la República romana. La evolución de ésta es analizada en el libro segundo, desde sus primeros tiempos hasta el logro de su

equilibrio, optima re publica, en el siglo II. En el libro tercero se sostiene que el estado no puede mantenerse sin justicia. En los fragmentos conservados de los restantes tres libros se trata de la educación (moral, física e intelectual), sobre el político ideal y su recompensa y se describe una visión de la vida celeste de las almas de los grades estadistas, en el referido «Sueño de Escipión», la parte más interesante de la obra desde el punto de vista literario. Sobre la República posee un gran interés para los historiadores. En él las ideas griegas del Estado ideal se encuentran con la sabiduría práctica romana. Aunque se trata de una obra filosófica, Cicerón no se abstiene de tratar problemas políticos que Roma afrontaba en aquel momento (con lo cual pone en práctica su precepto de acción necesaria). Hablaba a su tiempo al insistir en que todos los hombres tienen el deber de servir a su patria y que la moralidad privada se aplicaba a los asuntos públicos.

Portraying Cicero in Literature, Culture, and Politics Francesca Romana Berno, Giuseppe La Bua, 2022-02-21 Cicero has played a pivotal role in shaping Western culture. His public persona, his self-portrait as model of Roman prose, philosopher, and statesman, has exerted a durable and profound impact on the educational system and the formation of the ruling class over the centuries. Joining up with recent studies on the reception of Cicero, this volume approaches the figure of Cicero from a 'biographical', more than 'philological', perspective and considers the multiple ways by which different ages reacted to Cicero and created their 'Ciceros'. From Cicero's lifetime to our times, it focuses on how the image of Cicero was revisited and reworked by intellectuals and men of culture, who eulogized his outstanding oratorical and political virtues but, not rarely, questioned the role he had in Roman politics and society. An international group of scholars elaborates on the figure of Cicero, shedding fresh light on his reception in late antiquity, Humanism and Renaissance, Enlightenment and modern centuries. Historians, literary scholars and philosophers, as well as graduate students, will certainly profit from this volume, which contributes enormously to our understanding of the influence of Cicero on Western culture over the times.

Storia dell'educazione nell'antichità Henri-Irénée Marrou,2016-06-20 Concepita nei giorni più bui della seconda guerra mondiale, «quando bisognava rianimare nei cuori dei giovani la fiamma della libertà contro il falso prestigio della barbarie totalitaria», quest'opera è ormai divenuta un classico della storia dell'educazione. Accanto alla celebre Paideia di Jaeger, è il testo complessivo più rilevante - così è stato scritto - sull'educazione classica. Non si tratta in realtà di un manuale di teoria pedagogica o di storia delle scuole greco-romane, ma di una ricerca storica e di un'analisi di tutte le componenti della cultura greca, romana e cristiana. La solidissima competenza archeologica, filologica e pedagogica dell'autore illumina dal di dentro ogni pagina. Rispettosa del significato pregnante del concetto di paideia, che è sintesi e concentrato di una cultura, cultura ed educazione insieme, l'opera finisce per essere fondamentalmente una storia della cultura antica, e nello stesso momento una storia delle idee e delle istituzioni educative dell'antichità. La disamina privilegia però i fatti e vede la forza delle dottrine nella loro capacità di realizzarsi in fenomeni concreti. L'itinerario della paideia è seguito dalle origini alla comparsa delle prime scuole cristiane di tipo medievale, sia nel mondo greco, prendendo le mosse dai modelli dell'educazione cavalleresca descritti nei poemi omerici, sia nella cultura latina, a partire dai costumi tipici della cultura contadina dell'età regia e dei primi secoli della repubblica. Un arco temporale che abbraccia quindici secoli. È un'opera che non può lasciare indifferente - e fino ad oggi non l'ha lasciata - la cultura dei nostri anni, perché delinea le origini dirette della nostra tradizione pedagogica.
