Mexico, 1848-1853 Pedro Santoni, Will Fowler, 2018-08-06 Historians have paid scant attention to the five years that span from the conclusion early in 1848 of Mexico's disastrous conflict with the United States to the final return to power in April 1853 of General Antonio López de Santa Anna. This volume presents a more thorough understanding of this pivotal time, and the issues and experiences that then affected Mexicans. It sheds light on how elite politics, church-state relations, institutional affairs, and peasant revolts played a crucial role in Mexico's long-term historical development, and also explores topics like marriage and everyday life, and the public trials and executions staged in the aftermath of the war with the U.S.

Uso legítimo de la fuerza Eduardo Medina Mora Icaza, 2008

Criminología contemporánea Gerardo Saúl Palacios Pámanes, 2020-08-12 Uno de los problemas de la Criminología en México consiste en que el análisis de los problemas contemporáneos no siempre está fincado en modelos recientes: se pretende explicar la realidad del siglo XXI con teorías de los siglos XIX y principios del XX. Por esa razón, resulta necesario ampliar nuestro panorama para mejorar los sistemas criminológicos actuales o crear nuevos con los que sea posible aplicar la justicia en el sentido deseado. Criminología contemporánea es una obra cuyo propósito es introducir al lector a las ideas criminológicas e inducirlo a una reflexión sobre los esquemas de impartición de justicia existentes. En esta cuarta edición, el autor agrega dos capítulos en los cuales aborda el estudio criminológico de las grandes ciudades. Para ello, utiliza, el pensamiento de Michel Foucault, por una parte, y, por la otra, el de Robert J. Sampson.

Análisis dialéctico de la teoría general de la pena Cornejo Aguiar, Jose, José Sebastián Cornejo Aguiar, Cumandá Martínez Puente, 2023-12-01 Desde un punto de vista el Derecho penal, es entendido como la herramienta jurídica que determina la aplicación del ius puniendi, en razón de que la pena es el recurso que utiliza el Estado para reaccionar frente al delito, expresándose como la restricción de derechos del responsable. Por ello, el Derecho que regula los delitos se denomina habitualmente Derecho penal; no obstante, en esta contextualización es necesario delimitar que la pena también se define como una sanción que produce la pérdida o restricción de derechos personales de un sujeto hallado responsable de la comisión de una conducta punible, término que deriva del latín poena y posee una connotación de dolor causado por un castigo. Por lo tanto podría decirse que la pena produce una serie de efectos en el conjunto de individuos que componen la sociedad, siendo imperante por ende entenderla desde el enfoque de varias de sus teorías, como son las subjetivas de la

retribución, planteadas por Kant, las objetivas de la retribución, planteadas por Hegel, así como también la teoría de prevención general negativa; la teoría de prevención general positiva, la teoría de prevención especial negativa y positiva, como criterios de legitimación, que hacen referencia a la resocialización, reeducación, rehabilitación o reinserción social del delincuente y a su tratamiento; y, la teoría de la unión o mixta de la pena, que nos ayudan a entender que el fundamento de la pena tiene ver no solo con la culpabilidad, sino también con la peligrosidad. Teorías que se han ido desarrollando a lo largo de los años y que serán entendidas desde la definición de la pena, planteadas en la presente obra, misma que cuenta con un análisis esquemático no solo de las teorías, sino también de las finalidades de la pena y de las formas de extinción de la misma.

Temas selectos de derecho procesal penal José Fernández de Cevallos y Torres, 2022-08-09 Para comprender el modelo de justicia acusatorio es indispensable conocer el nuevo marco procesal en materia de justicia penal y seguridad, así como las figuras jurídicas que participan en este. En la presente obra, cinco especialistas en la materia profundizan en el análisis del nuevo sistema desde una perspectiva basada en la protección de los derechos humanos, y ofrecen una reflexión y crítica de su aplicación en la legislación actual. Como parte del estudio, se analizan la evolución del sistema acusatorio y las etapas que lo conforman; el papel de la víctima en el procedimiento penal, a partir de los aportes de la victimología; la reinserción social y sus ejes rectores previstos en la legislación, así como los desafíos a los que se enfrenta; la justicia transicional como mecanismo de paz, abordada desde la perspectiva de género; y, por último, la figura del principio de congruencia y la reclasificación jurídica dentro del proceso penal.

Derecho penitenciario y de ejecución penal Daniel Montero Zendejas, 2020-01-01 Ante las diversas teorías, doctrinas, publicaciones de colegas y estudiosos de este tema, las interrogantes que se fueron presentando para iniciar este libro fueron innumerables, pues como hablar de prisiones, correccionales, centros de reinserción social o de resocialización o readaptación, sin olvidar todo lo que se deriva de esta connotación; por ello, quisimos abordarlo desde las diversas aristas de la Ciencia Penal, o sea desde la teoría punitiva que va desde el delito, la pena hasta las tendencias criminológicas del positivismo penal de inicios del siglo XX, y su proyección en este despertar de milenio, con la llamada cuarta revolución industrial, que nos es otra que la era cibernética. El presente estudio se basa en la evolución de la teoría de la pena y los efectos sociales que se desarrollan frente a la imposición de una sanción privativa de la libertad. Aspectos todos ellos que hermanan hipótesis, teorías y demás elementos propositivos que asimilan desde el origen del hombre hasta nuestros días aspectos que devienen de un comportamiento, para algunos, criminal, para otros productos del medio donde se desenvuelven, o sea, crecen y mueren frente a una realidad anómica cuyos efectos desde Garofalo han sido producto de la ciencia criminal donde los genes de nuestra historia dan como resultado la teoría de la violencia y de la propia fuerza como ejes motores del origen del Estado.

Justicia penal y administración de prisiones José Álvarez Ramos,2007

Castigo, cárceles y controles Anitua, Gabriel Ignacio,2023-01-01 Este libro da cuenta de la instancia penitenciaria con una compilación de artículos que van desde lo genealógico hasta el deber ser del control, pasando por el ser de las cárceles en nuestro margen. Se reflexiona sobre la naturaleza del castigo, sobre sus manifestaciones materiales en la actualidad y, finalmente, realiza una apuesta para el control democrático y jurídico de dichas manifestaciones. También da cuenta de una empresa más amplia, de la cual este libro es la segunda parte de una trilogía destinada a señalar los objetos de atención de una criminología crítica o una disciplina de análisis del sistema penal desplegado o concreto, y que se calificó como “instancias de aplicación del sistema penal”. Las tres instancias, “policía, jurisdicción penal y castigo”, que se ocupan o entre las que se ha distribuido el sistema penal configurado, son las que se encargan de la denominada criminalización secundaria, y por ello tienen una responsabilidad muy alta en la llamada selectividad del poder punitivo. Es por ello que, de haber sido descuidadas o dadas por naturales en la criminología tradicional se convirtieron en principal objeto de estudio en los pensamientos críticos. Estudiarlas implica, naturalmente, ejercer algún tipo de control sobre dicho poder punitivo.
