

People Of The Secret Ernest Scott

Ernest Scott

The People of the Secret Ernest Scott, 1983 Are biological evolution and human history directed by a hierarchy of Intelligences, the lowest level of which makes physical contact with mankind? Do invisible guardians of this planet seed ideas into the earth's cultures to prepare human beings for huge steps in their development? The author suggests not only that it may be so, but that it may also be possible to recognize these People of the Secret.

Shambhala Victoria LePage, 2014-08-22 For thousands of years, stories have been told about an inaccessible garden paradise hidden among the icy peaks and secluded valleys of the Himalayas. Called by some Shangri-la, this mythical kingdom, where the pure at heart live forever among jewel lakes, wish-fulfilling trees, and speaking stones, has fired the imagination of both actual explorers and mystical travelers to the inner realms. In this fascinating look behind the myth, Victoria LePage traces the links between this legendary Utopia and the mythologies of the world. Shambhala, LePage argues persuasively, is real and may be becoming more so as human beings as a species learn increasingly to perceive dimensions of reality that have been concealed for millennia.

Legends of the Fire Spirits Robert Lebling, 2010-07-30 'An energy, a pulse form of quantum physics perhaps, alive at the margins of sleep or madness, and more often in the whispering of a single unwelcome thought.' The Economist According to Islamic tradition, Allah created three types of beings: angels, made of light; humans, made of earth; and jinn, made of smokeless fire. Supernatural, shape-shifting, intelligent and blessed with free will and remarkable powers, jinn have over the ages been given many names - demon, spirit, ghoul, genie, ifrit and shaitan. Neither human nor immortal, they roam the earth inhabiting dark and empty places, luring humans to their deaths or demonically possessing them if harmed or offended. Despite the fact they cannot be seen, jinn are said to be strangely human-like - marrying, bearing children, forming communities and tribes, eating, sleeping, playing and facing judgement like any other human. They are ever-present partners in the human experience, causing endless mischief, providing amazing services and sometimes inducing sheer terror. Believed in by hundreds of millions of people throughout the world and from all faiths, jinn have played a particularly central role in the literature, culture and belief systems of the Middle East and the Islamic world. Legends of the Fire Spirits explores through time and across nations the enduring phenomenon of the jinn. From North Africa to Central Asia, from the Mediterranean to sub-Saharan Africa and beyond, this riveting, often chilling, yet reasoned book draws on long-forgotten

ancient testimonies, medieval histories, colonial records, anthropologist's reports and traveller's tales to explore the different types of jinn, their behaviour, society, culture and long history of contact with humankind. It documents their links with famous figures in history such as King Solomon and the Queen of Sheba and illustrates the varied and vivid portrayals of jinn in world literature. In essence *Legends of the Fire Spirits* demonstrates the colourful diversity of human culture and the durability of faith and is a magnificent and indispensable portrayal of the rich folklore of the Islamic world.

The Myth of the Goddess Anne Baring, Jules Cashford, 1993-03-25 A comprehensive, scholarly accessible study, in which the authors draw upon poetry and mythology, art and literature, archaeology and psychology to show how the myth of the goddess has been lost from our formal Judeo-Christian images of the divine. They explain what happened to the goddess, when, and how she was excluded from western culture, and the implications of this loss.

The Phoenix Generation Kingsley L. Dennis, 2014-09-23 According to futurist and sociologist, Kingsley L. Dennis, humanity is entering a momentous phase in its history. Being born today is a generation of children that will radically reinvent human society, moving our culture from competition, control, and censorship toward connection, communication, and compassion. The Phoenix Generation's impact will begin to be felt in 2030, but there much to do to prepare for their arrival. The book is divided into three parts. Part one briefly describes the thorny issues (e.g. global warming, nationalism, and food and water shortages) that the solution-oriented ways of the Phoenix will resolve. Dennis posits that the generations of adults living today are the bridge to the Phoenix and he shows how such developments as the worldwide web and the explosion of mobile technologies are paving the way for them. Part two describes the changes in our own consciousness being brought about by technology and what we need to do to speed their arrival. Part three gives details how the Phoenix generation will be different from us. The Phoenix Generation will work toward forming a planetary society a transition more radical than the shift from agrarian to urban life during the Industrial Revolution. These children are being born with increased instinctive intelligence and with a greater degree of inherited wisdom. With them, the quantum revolution begun 100 years ago will become mainstream. This will bring about a shift away from external dependencies (e.g. our dependency on higher education for career advancement). This normalizing of new perspectives, cosmic awareness, and of multi-dimensional realities will usher in a great wave of change. The Phoenix Generation is a deeply positive examination of our collective future.

Homo Serpiens Aeolus Kephas, 2011-06 *Homo Serpiens* investigates the millennia-long psi-opa known as culture and the various socio-religious systems of worship that have shaped and directed humanity's evolution until now. Mapping a flow of archetypes, beliefs, and practices from Ancient Egypt, through the wilderness with Moses and the Israelites, into the Ministry of Christ, the Gnostic movement and the inception of Christianity, Aleister Crowley's Law of Thelema, Hitler and the National Socialists, and finally the UFO contact cults and alien abduction rituals of modern times, *Homo Serpiens* unveils an occult

agenda behind history and the mythic narrative of Masonic Sorcery Theater that drives it. Drawing on the works of C.G. Jung, Rudolph Steiner, and Philip K. Dick, this work interprets all human and even trans-human manipulations as side effects of an even deeper process of DNA-activation, Kundalini rising, and species mutation, from personal to galactic consciousness, into 2012 and beyond. Homo Serpiens is a grimoire for the end times. Chapters include: A Fellowship of the Rings; Homoplasmate and Apotheosis of Species; The Egyptian Strand; The Judaic Strand; The Aiwaz Working; The Nazi Strain; The Humalien Agenda and the Return of the Godsa; The Goddess Revival; The Lucifer Coil; more. Aeolus Kephas has dedicated much of his life to the study of philosophy, world folklore, comparative religion, Jungian psychology, parapolitics, and the so-called paranormal. He has traveled extensively throughout his life and continues to do so. He has lived on three different continents. Kephas is devoted to mapping worlds both inner and outer. He is currently hosting a podcast, Stormy Weather: News from the Front Line in the End Times, as well as setting up Crisis-Gnosis Management, an Existential Detective Agency. His twenty-year researches for The Lucid View and Homo Serpiens have led him into the realms of paranoid awareness, surrealism, mind control, ritual abuse, shamanism, demonology, and alien abductions. Against all odds, he has kept his sense of humor intact.

The Cambridge Companion to Sufism Lloyd Ridgeon, 2015 This book traces the evolution of Sufism from the formative period to the present.

The Synchronicity Key David Wilcock, 2014-07-29 Unlock the key to a universal life-force in this astonishing book from the New York Times bestselling author of The Source Field Investigations and Awakening in the Dream. The Source Field Investigations was a New York Times, Wall Street Journal, and USA Today bestseller that uncovered hidden science and lost prophecies to illuminate an entirely new understanding of our world today. Now, in The Synchronicity Key, David Wilcock embarks on an astonishing investigation into what lies beyond—finding proof that everything in our lives is not only connected, but it also influences everything else. Using history, astrology, and synchronicity theory among other concepts, Wilcock shows that there is hidden architecture within time, guiding individuals and nations through a system of enlightenment Joseph Campbell called the Hero's Journey. Historical events occur in shockingly precise, repeating cycles of time as a result. Once we understand and identify the hidden laws of this seemingly random “synchronicity,” we are left with a remarkable blueprint of how best to lead our lives in this uncertain and confusing world.

Aleister Crowley Colin Wilson, 2005-12-31 Poet, Magician, Mountaineer, Polemicist and Pornographer, Aleister Crowley was the most famous, or infamous, name in twentieth century occultism. With his usual flair and style, Colin Wilson brings this complex and enigmatic figure to life and provides an engrossing portrait of the self-styled Great Beast, the man whom the contemporary press dubbed The Wickedest Man in the World. The popular image of him as, in the words of Francis King, 'an insatiable sexual athlete, a pimp who lived on the immoral earnings of his girl-friends, and a junkie who daily took enough

heroin to kill a roomful of people', has a basis in fact; but there were other, less obnoxious and despicable, aspects of this highly original character. Crowley's greatest legacy is his eclectic occult system: his Magick persists, a potent synthesis of Golden Dawn magic, oriental esoteric techniques, sexual magic, and the all-encompassing Law of Thelema with its two fundamental principles, 'Every man and woman is a star' and the notorious 'Do What Thou Wilt Shall Be the Whole of the Law'.

Awakening in the Dream David Wilcock, 2021-08-10 New York Times bestselling author David Wilcock's latest captivating work of nonfiction, exploring new hidden truths about extraterrestrials, dreams, sacred science, channeling your Higher Self, and Ascension What happens when a UFO researcher suddenly comes into telepathic contact with the very beings he has been so avidly studying, after years of increasingly provocative dreams? What happens when these telepathic readings begin predicting the future with astonishing precision—and speaking about an incredible upcoming event in which all life in our solar system will undergo a spontaneous transfiguration? David Wilcock is a master at weaving together cutting-edge alternative science, shocking insider information, and his own personal experiences to reveal stunning truths about humanity, positive and negative extraterrestrials, lost civilizations, and the universe we share. In *Awakening in the Dream*, David once again combines his extensive research, the Law of One series, new insider revelations, and his own connection with the divine to bring humanity closer to full disclosure than ever before—as well as to help us activate our full potential on the eve of Ascension. A New York Times bestselling author, TV personality, filmmaker, lecturer, and consciousness expert, David is the perfect person to guide us through the hidden realities of our world. With its myriad information, anecdotes, big picture comparative analysis with over six hundred references, and trustworthy messages channeled directly from the highest-level angelic sources, including a remarkable set of future prophecies built into the Great Pyramid itself, *Awakening in the Dream* promises to be his most astounding book yet.

Stairway to the Stars Max Gorman, 2010-02-28 The book provides an introduction to mystical philosophy and the concept of inner development by looking at a number of its great schools. Mystics concur in saying that we are in some way asleep and must recognise this to awaken. A considerable attempt to identify the nature of this sleep is made in the earlier part of the book, with the particular help of the teaching of Gurdjieff. Also studied are ways of the past and present, including the Mystery Schools, Gnosticism, Alchemy, Zen, the Fourth Way, and the Way of the Sufi. It is also made apparent that the Way of Jesus, until it was overlaid by Christianity, was once understood as one of these waves or teachings for the development of human being and consciousness. The resonance of this teaching with all other mystical teachings is a significant theme. The purpose of the book is to inspire the reader to ascend the Stairway to the Stars!

Heart of a Sufi Rahima Milburn, Ashen Venema, Zohra Sharp, 2013-02-13 *Heart of a Sufi* provides contemporary Sufi teaching practices evoked by Fazal Inayat-Khan (1942-1990). This volume shows the impact of Fazal's passion for truth on his

friends and associates who offer a pointer to the achievement of self-realisation.

Initiates of Theosophical Masters K. Paul Johnson, 1995-07-20 The author examines the careers of the most distinguished disciples of the Theosophical Masters. He begins by examining the concept of initiation promoted by the Theosophical movement's founders. Each section investigates a separate category of initiates, focusing consecutively on Hindus, Muslims, Bahais, Buddhists, and the Western female occultists. More than just a study of Theosophy, this book explores many related developments in political and religious history. Among the figures it illumines in new ways are Anagarika Dharmapala, Alexandra David-Neel, George Ivanovitch Gurdjieff, and Isabelle Eberhardt. Its approach brings needed objectivity and balance to a topic too long mythologized by cultists and ignored by scholars.

The Inversion Kingsley L. Dennis, 2023-09-26 Rewriting perceptions of reality and unravelling the conspiracies of the modern mirror-world Have you ever wondered why things in life aren't quite as they seem? Why we celebrate distorted entertainments to such an extreme; or why an industrial-technology-media complex has become the dominant political and economic force of governance? Why our way of life seems morally corrupt and our choices upside-down? This is the Inversion: the model of reality that our brains have been programmed to accept and which also compels us to participate in and sustain. In his ground-breaking book, Kingsley Dennis examines these issues, questions this reality-model, and comes to some surprising conclusions. Dennis unpicks the complexities of our manipulated reality, enlightening readers to the nature and mechanisms of the inverted, mirror world that so many people have become lost within. Yet it does not need to remain this way - if people are ready and willing to open their eyes to what is going on around them. The Inversion deals with unpleasant truths which we too often ignore because a veil has been pulled over our eyes and minds. Within its pages, readers will find out about the hidden hands that work to normalize the madness of the 'upside-down world.' Dennis also examines the social engineering of spiritual control mechanisms, machinic consciousness, the metaverse, entropic or negative forces, the evolutionary impulse, the nature of the hybrid self - and much more. This book is for those readers who are ready to open their mind and to perceive a greater reality.

Transcending the Global Power Game Armin Risi, 2004-01-01 Whatever happens on the visible plane has its roots in invisible dimensions; reality is more than meets the eye. This is the essence of all spiritual teachings and mystery schools, and it is the key to understanding what actually happens on the stage of the global power game. Here, in a unique compendium, you get to know what the world looks like when seen from this paranormal viewpoint. Step by step, the author unfolds stunning insights into the hidden dimensions of secret politics, money manipulations, and the ongoing transformation. The pieces are put together to reveal an exciting puzzle. Topics Include: • Ancient knowledge and new revelations • The conclusive meaning of the symbolism of light and darkness • The ideology of the Illuminati • The roots and goals of today's secret societies • Prophecies regarding money and the crash • Alien forces and the presence of lightbeings •

Our role in this cosmic drama Had Armin Risi lived in classical times, he would now be counted among the great philosophers and theologians. Being a contemporary author, however, he is able to go beyond classical philosophy and shed light on problems, coverups, and challenges of today, using a revolutionary logic, or mytho-logic, as he calls it. — Professor Jorg Rehberg, Zurich

Colin Wilson's 'Occult Trilogy' Colin Stanley,2013-05-31 The 'Occult Trilogy' is the collective label applied to Colin Wilson's three major works on the occult: The Occult (1971); Mysteries: an Investigation into the Occult, the Paranormal and the Supernatural (1978) and Beyond the Occult (1988). They amounted to a monumental 1600 pages and have spawned many other lesser works.

Jesus the Sufi Max Gorman,2018-03-01 Jesus is seen as a representative of an ancient and continuing wisdom tradition identified with that of the Sufis. By his distinctive use of stories for teaching purposes, his sayings, and what the Sufis call 'action-teachings', including those actions known as 'miracles', Jesus is shown to have been quintessentially a Sufi master. Max Gorman shows how Sufism illuminates from within concepts central to Christianity: the kingdom of Heaven, son of God, baptism, resurrection - which can then be seen as states and stages in an evolutionary philosophy. This new edition of the classic work includes a new chapter on Gnosis.

The Realized Idiot Bruno Martin,2015-01-21 Becoming an Idiot... Everyone who decides to work on himself is an idiot in both meanings. The wise know that he is seeking reality. The foolish think he has taken leave of his senses, John G. Bennett says. The famous “life teacher” and philosopher G. I. Gurdjieff (1866-1949) taught his developmental psychology for thirty years during daily ritual meals. In this book this special teaching gets published for the first time and is explained in a contemporary way. The “Science of Idiotism” puts out a challenge for those who are striving to get to the bottom of their own being - for those who want to become an Idiot in the original sense and step up the “ladder of reason” as Gurdjieff puts it. Bruno Martin found a key for interpreting the metaphorical descriptions of the 21 types of “Idiots” Gurdjieff used in the old Tarot of Marseilles and compares both teachings. Teaching stories from Sufism and Zen are further illustrating the meanings. Written in an inspiring and entertaining way the book gives an introduction in Gurdjieff’s artful psychology and also instructions for conducting a ritual meal with the toasts on the idiots, which can help to win new insights into the essence of the participants.

23 Skiddoo: Way back beyond across the stars Wyman Wicket,2016-05-05 Altruistic Red Pill Fantasy. We sometimes hear things that cannot be definitively traced to a source. This nurtures a sense of magic all the more, as befuddlement trumps our rational ability to figure out and explain something our senses tell us is there none-the-less. Such phenomena can instill fear-fear of the unknown-and this, in turn, might pry open our souls, our consciousness, our life force, enough for a malevolent force to gain entry; at least this is a premise to be found in 23 Skiddoo.

New Consciousness for a New World Kingsley L. Dennis, 2011-08-16 A call for a paradigm shift in human thinking in recognition of the interconnectedness of all things--a new mind for a new world • Explains how the instability of our current time is part of a larger cycle of human evolution that will soon turn toward renewal and regeneration • Reveals how to participate in the process of conscious evolution to maintain resilience during these transitional times • Examines new findings in quantum physics and quantum biology on the interconnectivity of all life and how to utilize this for conscious evolution For centuries, indigenous wisdom traditions have talked of an epochal shift on the horizon, of a spiritual renaissance for the earth and her living family. Now the timelines are converging and the potential for an energetic “upgrade” for humanity is here, but first we must survive and evolve through the current period of transition. Explaining that evolution is not a gradual process but more like a “shock to the system”--radical waves of transformation after a period of dormancy--author Kingsley Dennis reveals that we are currently undergoing an evolutionary leap and shows not only how to survive but also thrive in this period of global upheaval and change. Examining the nature of evolutionary cycles, he explains that the instability we are now experiencing--climate change, economic meltdowns, and increasing political polarization--is the convergence of complex systems that have reached a critical state. What we need in order to push through to the coming spiritual renaissance is a paradigm shift in human thinking and perception, a conscious evolution in recognition of the interconnectedness of all things--a new mind for a new world. Examining new findings in quantum physics and quantum biology on the interconnectivity of all life as well as opportunities for us to reawaken our slumbering souls, this book offers a glimpse of the new global society to come, a renewed humanity for the 21st century, and how each of us can best participate during the process of planetary transformation.
