Windswept: Walking the Paths of Trailblazing Women Annabel Abbs-Streets, 2021-09-07 A Smithsonian Top Ten Best Book About Travel of 2021 2022 Banff Mountain Book Competition Finalist An Apple Books Pick of the Month and a Powell's and The Story Exchange Best Book of Fall "Unfailingly interesting and even revelatory. . . . Reading about the unfettered freedom to roam enjoyed by these trailblazing women induced considerable vicarious pleasure—and envy."—The Wall Street Journal Annabel Abbs-Streets's *Windswept: Walking the Paths of Trailblazing Women* is a beautifully written meditation on connecting with the outdoors through the simple act of walking. In captivating and elegant prose, Abbs-Streets's follows in the footsteps of women who boldly reclaimed wild landscapes for themselves, including Georgia O'Keeffe in the empty plains of Texas and New Mexico, Nan Shepherd in the mountains of Scotland, Gwen John following the French River Garonne, Daphne du Maurier along the River Rhône, and Simone de Beauvoir—who walked as much as twenty-five miles a day in a dress and espadrilles?through the mountains and forests of France. Part historical inquiry and part memoir, the stories of these writers and artists are laced together by moments in her own life, beginning with her poet father who

raised her in the Welsh countryside as an “experiment,” according to the principles of Rousseau. Abbs-Streets’s explores a forgotten legacy of moving on foot and discovers how it has helped women throughout history to find their voices, to reimagine their lives, and to break free from convention. As Abbs-Streets traces the paths of exceptional women, she realizes that she, too, is walking away from her past and into a radically different future. *Windswept* crosses continents and centuries in a provocative and poignant account of the power of walking in nature.

Walking Thomas Bernhard, 2015-10-15 A walk with a friend unspools a far-ranging, darkly comic, philosophical dialogue in this novella by “one of the masters of contemporary European fiction” (George Steiner). With celebrated novels such as *The Loser*, *Woodcutters*, and *Extinction*, Austrian author Thomas Bernhard cemented his reputation as “one of the century’s most gifted writers.” Though he is favorably compared with Franz Kafka and Samuel Beckett, it is only in recent years that he has gained a devoted cult following in America (Newsday). A powerful, compact novella, *Walking* provides a perfect introduction to the absurd, dark, and uncommonly comic world of Thomas Bernhard, showing a preoccupation with themes—illness and madness, isolation, tragic friendships—that would obsess Bernhard throughout his career. *Walking* records the conversations of the unnamed narrator and his friend Oehler while they walk, discussing anything that comes to mind but always circling back to their mutual friend Karrer, who has gone irrevocably mad. *Walking* is a beautifully realized, penetrating meditation on the impossibility of truly thinking.

The Walking Solution Lee Scott, Michele Stanten, 2020 *The Walking Solution* offers techniques and coaching cues to turn a low-impact, easily accessible activity into a fun and challenging workout for clients of every age and ability.

Weather: Spaces, Mobilities and Affects Kaya Barry, Maria Borovnik, Tim Edensor, 2020-12-17 This book delves into the everyday spaces, diverse mobilities and affective potency of weather. It presents cutting-edge research into the multiplicity of weather phenomena and analyses the lived experiences of humans in conjunction with contemporary issues, notably climate change. The book considers how everyday experiences of weather in the mundane lives of people are linked to broader changes in weather patterns and climate change. Heat, dust, ice, snow, precipitation, sunlight, clouds, tides and fog are states of weather that impact on the ways in which humans become intertwined with landscapes. Our experiences with weather are diverse and ever-changing, and engaging with weather entangles humans with mobilities, materials and landscapes. This book thus explores affective and sensory resonances, drawing upon a variety of theoretical, empirical and creative material to investigate how weather is perceived in different social and cultural contexts. Key themes focus on the mobilities generated by weather, the affective and sensual potency of weather, and the diverse cultural forms and practices that exemplify how weather is historically, geographically and artistically represented. Offering a social and cultural understanding of weather events, this book contributes to a growing literature on weather across various disciplines, including human geography and cultural geography, and will thus appeal to students and scholars of geography, sociology,

humanities, cultural studies and the arts.

Petre Tutea Alexandru Popescu, 2018-01-16 Petre Tutea (1902-91) was one of the outstanding Christian dissident intellectuals of the Communist era in Eastern Europe. Revered as a saint by some, he spent thirteen years as a prisoner of conscience and twenty-eight years under house arrest at the hands of the Securitate. This book explores his unique response to the horrors of torture and 're-education' and reveals the experience of a whole generation detained in the political prisons. Tutea's understanding of human needs and how they can be fulfilled even amidst extreme adversity not only reflects huge learning and great brilliance of mind, but also offers a spiritual vision grounded in personal experience of the Romanian Gulag. Following the fall of the Ceausescus, he has begun to emerge as a significant contributor to ecumenical Christian discourse and to understanding of wider issues of truth and reconciliation in the contemporary world. As Tutea's pupil and scribe for twelve years, as a psychiatrist, and as a theologian, Alexandru Popescu is uniquely placed to present the work of this twentieth-century Confessor of the faith. Drawing on bibliographical sources which include unpublished or censored manuscripts and personal conversations with Tutea and with other prisoners of conscience in Romania, Popescu presents extensive translations of Tutea, which make his thought accessible to the English-speaking reader for the first time. Through his stature as a human being and his authority as a thinker, Petre Tutea challenges us to question many of our assumptions. The choice he presents between 'sacrifice' and 'moral suicide' focuses us on the very essence of religion and human personhood. Resisting any ultimate separation of theology and spirituality, his work affirms hope and love as the sole ground upon which truth can be based. At the same time, hope and love are not mere ideal emotions, but are known and lived in engagement with the real world - in politics, economics, science, ecol

At Risk Jennifer Griffiths, 2022-12-28 Jennifer Griffiths's *At Risk: Black Youth and the Creative Imperative in the Post-Civil Rights Era* focuses on literary representations of adolescent artists as they develop strategies to intervene against the stereotypes that threaten to limit their horizons. The authors of the analyzed works capture and convey the complex experience of the generation of young people growing up in the era after the civil rights movement. Through creative experiments, they carefully consider what it means to be narrowed within the scope of a sociological "problem," all while trying to expand the perspective of creative liberation. In short, they explore what it means to be deemed an "at risk" youth. This book looks at crucial works beginning in 1968, ranging from Sapphire's *Push* and *The Kid*, Walter Dean Myers's *Monster*, and Dael Orlandersmith's *The Gimmick*, to Bill Gunn's *Johnnas*. Each text offers unique representations of Black gifted children, whose creative processes help them to navigate simultaneous hypervisibility and invisibility as racialized subjects. The book addresses the ways that adolescents experience the perilous "at risk" label, which threatens to narrow adolescent existence at a developmental moment that requires an orientation toward possibility and a freedom to

experiment. Ultimately, *At Risk* considers the distinct possibilities and challenges of the post-civil rights era, and how the period allows for a more honest, multilayered, and forthright depiction of Black youth subjectivity against the adultification that forecloses potential.

Towards a Critique of Methodological Presentism in Migration Research Garbi Schmidt, 2025-09-23 This book investigates the benefits of integrating history, sociology, and ethnography to better understand migration and its consequences, using Denmark's history of migration as a case study. Although migration research is an interdisciplinary field, much research on migration still occurs in disciplinary containers. The field is not least affected by a methodological presentism: a scholarly and societal tendency to understand social phenomena within a limited contemporary framework, neglecting possible effects and similarities embedded in and established through human history. This book builds upon previous research underscoring the importance of examining migration from a longer, diachronic, and genealogical viewpoint, and it is among the first to advocate for a more profound methodological discussion regarding how, why, and when this should be addressed. This book's analysis draws on empirical examples from Denmark, a Northern European country where the impact of migration is currently hotly debated, yet the history of migration is frequently overlooked. Specific themes examined in the book range from demography/immigrant statistics to the understanding of "the ghetto," the implications of discussions around "Danishness," and how migration has influenced and molded a particular neighborhood in Copenhagen (Nørrebro) over time. This volume is innovative and pertinent for an international audience of researchers and students interested in the genealogies of migration and eager to explore new pathways for pursuing this research interest.

Keep Walking Intently Lori Waxman,2023-09-26 A study of walking as artistic action, from Surrealism to Fluxus. Walking, that most basic of human actions, was transformed in the twentieth century by Surrealism, the Situationist International, and Fluxus into a tactic for revolutionizing everyday life. Each group chose locations in the urban landscape as sites—from the flea markets and bars of Paris to the sidewalks of New York—and ambulation as the essential gesture. *Keep Walking Intently* traces the meandering and peculiar footsteps of these avant-garde artists as they moved through the city, encountering the marvelous, studying the environment, and re-enchanting the banal. Art historian Lori Waxman reveals the radical potential that walking holds for us all.
