Where I Live Now Lucia Berlin, 2017-04-01 The New York Times—bestselling author of *So Long* contemplates the human condition in this short story collection for fans of Grace Paley & Alice Munro. The elusive nature of happiness is a compelling theme in *Where I Live Now*. The survivors in these stories—many of them society's marginal or excluded people, fighting alcohol or drug addiction, bearing emotional scars—recognize it all too well. They mourn the lost dreams of youth, the roads not taken. They suffer the damage life inflicts: the ache of loneliness, the pain of separation, the fear of death. Set mainly in Los Angeles, Lucia Berlin's gritty working-class stories bridge the gap between the Americas—rich and poor, North and South, Anglo and Hispanic. While her style has been compared to Raymond Carver's, and her dream- and drink-addicted characters to Richard Yates's, her fictional territory and fatalistic humor are hers alone. Praise for *Where I Live Now* "Berlin's literary model is Chekhov, but there are extra-literary models too, including the extended jazz solo, with its surges, convolutions, and asides. This is writing of a very high order." —August Kleinzahler, *London Review of Books* "This remarkable collection occasionally put me in mind of Annie Proulx's *Accordion Crimes*, with its sweep of American origins and places. Berlin is our Scheherazade, continually surprising her readers with a startling variety of voices, vividly drawn characters, and settings alive with sight and sound." —Barbara Barnard, *American Book Review* "Berlin is marvelously successful, placing her memorable characters in gripping situations, plumbing their messed-up lives for pathos and allowing us to see deeply into their souls." —*Publishers Weekly*

"Like some damned Juggernaut" Johannes Weber, 2015-10-06

The Butterflies of Memory Ian Watson, 2011-09-29 Ian Watson is one of the finest writers of SF and fantasy stories, and *Butterflies of Memory* is his 10th collection, a selection of stories that are by turns serious and playful, and always wildly imaginative... In the title story, what if mobile phones were to become truly mobile, flying about like butterflies? 'An Appeal to Adolf' tells of gay sailors on a Nazi battleship many kilometres long during a Second World War unfamiliar to us; 'Lover of Statues' of an enigmatic alien visiting the only statue of Satan in the world, in Madrid - while in the bubbling stew of faiths which is Jerusalem a doorway opens to reveal capricious godlike beings. And just suppose that Jules Verne undertook an actual journey to the centre of the Earth. Closer to home, in a Midlands town, a man who seems to have suddenly popped into existence tries to discover who and what he is. 'Hijack Holiday', written a year before 9/11, presciently if bizarrely anticipates

events akin to those on that fateful day.

A Manual for Cleaning Women Lucia Berlin, 2015-08-18 One of The New York Times Book Review's Ten Best Books of 2015 One of Jezebel's Favorite Books of 2016 A Manual for Cleaning Women compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves. -Lydia Davis

Looking-Glass Wars: Spies on British Screens since 1960 Alan Burton, 2018-01-31 Looking-Glass Wars: Spies on British Screens since 1960 is a detailed historical and critical overview of espionage in British film and television in the important period since 1960. From that date, the British spy screen was transformed under the influence of the tremendous success of James Bond in the cinema (the spy thriller), and of the new-style spy writing of John le Carré and Len Deighton (the espionage story). In the 1960s, there developed a popular cycle of spy thrillers in the cinema and on television. The new study looks in detail at the cycle which in previous work has been largely neglected in favour of the James Bond films. The study also brings new attention to espionage on British television and popular secret agent series such as Spy Trap, Quiller and The Sandbaggers. It also gives attention to the more 'realistic' representation of spying in the film and television adaptations of le Carré and Deighton, and other dramas with a more serious intent. In addition, there is wholly original attention given to 'nostalgic' spy fictions on screen, adaptations of classic stories of espionage which were popular in the late 1970s and through the 1980s, and to 'historical' spy fiction, dramas which treated 'real' cases of espionage and their characters, most notably the notorious Cambridge Spies. Detailed attention is also given to the 'secret state' thriller, a cycle of paranoid screen dramas in the 1980s which portrayed the intelligence services in a conspiratorial light, best understood as a reaction to excessive official secrecy and anxieties about an unregulated security service. The study is brought up-to-date with an examination of screen espionage in Britain since the end of the Cold War. The approach is empirical and historical. The study examines the production and reception, literary and historical contexts of the films and dramas. It is the first detailed overview of the British spy screen in its crucial period since the 1960s and provides fresh attention to spy films, series and serials never previously considered.

God's Coach Skip Bayless,1991-07 Skip Bayless breaks through the clouds of myth and misfortune generated by pro football's most powerful PR machine to show readers a befuddled coach, whose quarterbacks shrewdly ignored his play calls, whose truly Christian work kept him from studying game films, and a man who came to believe his own publicity. Relationship Marketing Thorsten Hennig-Thurau,Ursula Hansen,2013-06-29 The concept of marketing and managing relationships with customers and other interest groups is at the core of marketing today. In the academic world, the topic is covered in special issues released by numerous journals (e. g. Journal of the Academy of Marketing Science, Journal of Strategic Marketing, Psychology & Marketing), and conferences and conference sessions regularly discuss the advantages of the approach. But relationship marketing is not limited to theory. On the contrary, no service firm or business-to-business company can now do without some form of long-term orientation, and all have implemented at least some elements of the relationship marketing concept. Even in the consumer goods sector, there are a growing number of cases where the traditional orientation towards brand equity is being complemented by a relational focus. As Berry has mentioned, relationship marketing is a new old concept. Several important aspects of relationship marketing were already being discussed in the marketing literature. This applies both to central constructs (such as customer satisfaction) and to single elements (such as the management of complaints and after-sales services). Although they do not involve explicit mention of the term relationship marketing, a long-term orientation can be found in the network approach of industrial marketing (closely related to the work of the IMP Group), in the work of Gronroos, Gummesson and their colleagues at the Nordic School of Services Marketing and, last but not least, in the concept of customer-focused marketing.

Operative Neuromodulation Damianos E. Sakas, Brian A. Simpson, 2007-12-03 Neuromodulation is a rapidly evolving multidisciplinary biomedical and biotechnological field. The two volumes present the state-of-the-art in established and emerging applications for pain, spasticity, movement disorders, bladder and bowel dysfunction, cardiovascular disease, epilepsy, psychiatric illness, impairment of hearing and vision, and computational neuromodulation. Experts describe the neural networks involved and the appropriate surgical approaches, provide clinical guidelines, technical descriptions of implanted devices, proposals for refinements and personal views on future prospects of the field. The immense therapeutic potential is highlighted which arises from the close collaboration of biomedical scientists and biotechnological engineers in this area and signifies the transition from the conventional resective surgery to functional neuroprosthetic surgery (Vol. I) and neural networks surgery (Vol. II) which uses neuro-engineering to improve impaired neural function. Vol. 2 describes the techniques and procedures applied by direct a) contact with the central nervous system or cranial nerves, in order to modulate the function of neural networks as in the case of motor cortex stimulation for pain or vagus nerve stimulation for epilepsy, or b) in deeply located structures inside the nervous system, in order to alter the function on specific networks as in the case of deep brain stimulation for Parkinson's disease.
