Rebecca Rupp

The Element Sir Ken Robinson, PhD, Lou Aronica, 2009-01-08 A New York Times bestselling breakthrough book about talent, passion, and achievement from the one of the world's leading thinkers on creativity and self-fulfillment. The Element is the point at which natural talent meets personal passion. When people arrive at the Element, they feel most themselves and most inspired and achieve at their highest levels. With a wry sense of humor, Ken Robinson looks at the conditions that enable us to find ourselves in the Element and those that stifle that possibility. Drawing on the stories of a wide range of people, including Paul McCartney, Matt Groening, Richard Branson, Arianna Huffington, and Bart Conner, he shows that age and occupation are no barrier and that this is the essential strategy for transforming education, business, and communities in the twenty-first century. Also available from Ken Robinson is *Imagine If*, a call to action that challenges and empowers us to reimagine our world and our systems for the better, through a compilation of Sir Ken's key messages and philosophies.

Creative Schools Sir Ken Robinson, PhD, Lou Aronica, 2015-04-21 A revolutionary reappraisal of how to educate our children and young people by Ken Robinson, the New York Times bestselling author of *The Element* and *Finding Your Element*. Ken Robinson is one of the world's most influential voices in education, and his 2006 TED Talk on the subject is the most viewed in the organization's history. Now, the internationally recognized leader on creativity and human potential focuses on one of the most critical issues of our time: how to transform the nation's troubled educational system. At a time when standardized testing businesses are raking in huge profits, when many schools are struggling, and students and educators everywhere are suffering under the strain, Robinson points the way forward. He argues for an end to our outmoded industrial educational system and proposes a highly personalized, organic approach that draws on today's unprecedented technological and professional resources to engage all students, develop their love of learning, and enable them to face the real challenges of the twenty-first century. Filled with anecdotes, observations and recommendations from professionals on the front line of transformative education, case histories, and groundbreaking research—and written with Robinson's trademark wit and engaging style—*Creative Schools* will inspire teachers, parents, and policy makers alike to rethink the real nature and purpose of education.

Out of Our Minds Ken Robinson, 2011-02-21 It is often said that education and training are the keys to the future. They are, but a key can be turned in two directions. Turn it one way and you lock resources away, even from those they belong to.

Turn it the other way and you release resources and give people back to themselves. To realize our true creative potential—in our organizations, in our schools and in our communities—we need to think differently about ourselves and to act differently towards each other. We must learn to be creative. —Ken Robinson PRAISE FOR OUT OF OUR MINDS Ken Robinson writes brilliantly about the different ways in which creativity is undervalued and ignored . . . especially in our educational systems. —John Cleese Out of Our Minds explains why being creative in today's world is a vital necessity. This book is not to be missed. —Ken Blanchard, co-author of The One-minute Manager and The Secret If ever there was a time when creativity was necessary for the survival and growth of any organization, it is now. This book, more than any other I know, provides important insights on how leaders can evoke and sustain those creative juices. —Warren Bennis, Distinguished Professor of Business, University of Southern California; Thomas S. Murphy Distinguished Research Fellow, Harvard Business School; Best-selling Author, Geeks and Geezers All corporate leaders should read this book. —Richard Scase, Author and Business Forecaster This really is a remarkable book. It does for human resources what Rachel Carson's Silent Spring did for the environment. —Wally Olins, Founder, Wolff-olins Books about creativity are not always creative. Ken Robinson's is a welcome exception —Mihaly Csikszentmihalyi, c.s. and d.j. Davidson Professor of Psychology, Claremont Graduate University; Director, Quality of Life Research Center; Best-selling Author, Flow The best analysis I've seen of the disjunction between the kinds of intelligence that we have traditionally honored in schools and the kinds of creativity that we need today in our organizations and our society. —Howard Gardner, a. hobbs professor in cognition and education, Harvard Graduate School of Education, Best-selling Author, Frames of Mind

Out of Our Minds Ken Robinson, 2017-09-20 Creativity is critical. Out of Our Minds explores creativity: its value in business, its ubiquity in children, its perceived absence in many adults and the phenomenon through which it disappears — and offers a groundbreaking approach for getting it back. Author Sir Ken Robinson is an internationally recognised authority on creativity, and his TED talk on the subject is the most watched video in TED's history. In this book, Sir Ken argues that organisations everywhere are struggling to fix a problem that originates in schools and universities. Organisations everywhere are competing in a world that changes in the blink of an eye - they need people who are flexible enough to adapt, and creative enough to find novel solutions to problems old and new. Out of Our Minds describes how schools, businesses and communities can work together to bring creativity out of the closet and realise its inherent value at every stage of life. This new third edition has been updated to reflect changing technologies and demographics, with updated case studies and coverage of recent changes to education. While education and training are the keys to the future, the key can also be turned the other way; locking people away from their own creativity. Only by actively fostering creativity can businesses unlock those doors and achieve their true potential. This book will help you to: Understand the importance of actively promoting creativity and innovation. Discover why creativity stagnates somewhere between childhood and adulthood. Learn how to re-

awaken dormant creativity to help your business achieve more. Explore ways in which we can work together to keep creativity alive for everyone. Modern business absolutely demands creativity of thought and action. We're all creative as children — so where does it go? When do we lose it? Out of Our Minds has the answers, and clear solutions for getting it back.

Finding Your Element Sir Ken Robinson, PhD, Lou Aronica, 2013-05-21 The New York Times bestselling author of The Element gives readers an inspirational and practical guide to self-improvement, happiness, creativity, and personal transformation Sir Ken Robinson's TED talk video and groundbreaking book, The Element, introduced readers to a new concept of self-fulfillment through the convergence of natural talents and personal passions. The Element has inspired readers all over the world and has created for Robinson an intensely devoted following. Now comes the long-awaited companion, the practical guide that helps people find their own Element. Among the questions that this new book answers are: • How do I find out what my talents and passions are? • What if I love something I'm not good at? • What if I'm good at something I don't love? • What if I can't make a living from my Element? • How do I help my children find their Element? Finding Your Element comes at a critical time as concerns about the economy, education and the environment continue to grow. The need to connect to our personal talents and passions has never been greater. As Robinson writes in his introduction, wherever you are, whatever you do, and no matter how old you are, if you're searching for your Element, this book is for you.

You, Your Child, and School Sir Ken Robinson, PhD, Lou Aronica, 2019-03-12 An essential book for parents to help their children get the education they need to live happy, productive lives from The New York Times bestselling author of The Element and Creative Schools Parents everywhere are deeply concerned about the education of their children, especially now, when education has become a minefield of politics and controversy. One of the world's most influential educators, Robinson has had countless conversations with parents about the dilemmas they face. As a parent, what should you look for in your children's education? How can you tell if their school is right for them and what can you do if it isn't? In this important new book, he offers clear principles and practical advice on how to support your child through the K-12 education system, or outside it if you choose to homeschool or un-school. Dispelling many myths and tackling critical schooling options and controversies, You, Your Child, and School is a key book for parents to learn about the kind of education their children really need and what they can do to make sure they get it.

Imagine If . . . Sir Ken Robinson, PhD, Kate Robinson, 2022-03-01 A call to action that pulls together all of Sir Ken Robinson's key messages and philosophies, and that challenges and empowers readers to re-imagine our world, and our systems, for the better. Sir Ken Robinson changed the lives of millions of people. The embodiment of the prestigious TED conference, his TED Talks are watched an average of 17,000 times a day--a figure that Chris Anderson, Head of TED, says is

the equivalent of selling out the Millennium Dome every night for fifteen consecutive years. A New York Times bestselling author, Sir Ken's books have been translated into twenty four languages. In his final years, Sir Ken was working on a book that would serve as his manifesto. This book was being written for both new and dedicated audiences alike as a coherent overview of the arguments that he dedicated his life to, and as a pivotal piece of literature for the education revolution he began. When Sir Ken received his cancer prognosis in August 2020 he asked his daughter and collaborator, Kate Robinson, to finish writing this manifesto and continue his work. At its core, Sir Ken's work is a love letter to human potential--a celebration of what we as a species are capable of doing, and of being, if we create the right conditions. It is a rallying cry to revolutionize our systems of education, and the ways in which we run our businesses and structure our social systems, so that they bring out the best in each and every person. Sir Ken often observed that what separates us from the rest of life on Earth is our power of imagination: the ability to bring to mind things that are not present to our senses. It is imagination that allows us to create the world in which we live, rather than just exist in it. It also gives us the power to recreate it.

Manifesto Ken Robinson, Kate Robinson (Consultant), 2022-03 Imagination and creativity are at the root of every uniquely human achievement and those achievements have brought us to this present moment. We are now the largest population in human history- seven and half billion people, rising to nine billion by 2050. Our technologies are evolving exponentially, but spiritually and emotionally, we're not keeping pace. Our appetites are straining the earth's capacity to sustain us, and our attempts to force it to do so are fuelling a holocaust of other species. Communities across the globe are still locked in ancient cultural conflicts, and while the majority of people are materially more comfortable than ever before, there are global epidemics of depression and anxiety. To meet these existential challenges, we have to harness our creativity to a more compassionate and sustainable vision of the world we want to live in and the lives we hope to lead. To do that, we have to create new systems of education for the future and for our children that are based on organic principles of diversity, creativity, and collaboration.

Finding Your Element Ken Robinson, Lou Aronica, 2014-01-30 The Element is the point where your personal passions and natural talents meet. But how do you find this formula for happiness? Insurrection Keith David Reeves, 2015-10-01 Enough. Private interests, politicians, reformers, and pundits have had their chance, and enough is enough. Teachers have been pushed around and pushed to the edge, and the time for tolerating the failed system of our public education policies is over. It's time to drag the standardized testing commercial complex out of our schools, kicking and screaming if need be, and take back our schools for our kids. The revolution has already begun. We must understand the etiology of the American public school's seeming inability to meaningfully and holistically teach every child if we are to have any hope of changing that school for the better. We must wrestle with the philosophical, sociological, and psychological roots of our misperception and mistreatment of children in order to change the way we understand our students. We must also understand the history of reform in American education in order to avoid repeating failed experiments. Once we do this, we can dismantle the traditional structures of the American Public School deliberately and thoughtfully, and capitalize upon the intense zeitgeist of the movement against corporatized standardized multiple choice testing, in order to truly revolutionize our schools. Over five sequential sections, Insurrection addresses educational philosophy, the system of schools, the social issue of misunderstanding children, replacement structures for those that are

incompatible with understandings corrected in the first three sections, and a possible manner in which current school employees can lend their efforts to the revolution called for by Sir Ken Robinson in his 2010 TED Talk, which served as the impetus for the work.

The Self-Driven Child William Stixrud, PhD, Ned Johnson, 2019-02-12 “Instead of trusting kids with choices . . . many parents insist on micromanaging everything from homework to friendships. For these parents, Stixrud and Johnson have a simple message: Stop.” —NPR “This humane, thoughtful book turns the latest brain science into valuable practical advice for parents.” —Paul Tough, New York Times bestselling author of *How Children Succeed* A few years ago, Bill Stixrud and Ned Johnson started noticing the same problem from different angles: Even high-performing kids were coming to them acutely stressed and lacking motivation. Many complained they had no control over their lives. Some stumbled in high school or hit college and unraveled. Bill is a clinical neuropsychologist who helps kids gripped by anxiety or struggling to learn. Ned is a motivational coach who runs an elite tutoring service. Together they discovered that the best antidote to stress is to give kids more of a sense of control over their lives. But this doesn't mean giving up your authority as a parent. In this groundbreaking

book they reveal how you can actively help your child to sculpt a brain that is resilient, and ready to take on new challenges. The Self-Driven Child offers a combination of cutting-edge brain science, the latest discoveries in behavioral therapy, and case studies drawn from the thousands of kids and teens Bill and Ned have helped over the years to teach you how to set your child on the real road to success. As parents, we can only drive our kids so far. At some point, they will have to take the wheel and map out their own path. But there is a lot you can do before then to help them tackle the road ahead with resilience and imagination.

Simply Brilliant William C. Taylor, 2016-09-20 Cofounder of Fast Company magazine and bestselling author of *Mavericks at Work* and *Practically Radical* shows how true business innovation can spring from the unlikeliest places. Far away from Silicon Valley, in familiar, traditional, even unglamorous fields, ordinary people are unleashing extraordinary advances that amaze customers, energize employees, and create huge economic value. Their secret? They understand that the work of inventing the future doesn't just belong to geeks designing mobile apps and virtual-reality headsets, or to social-media entrepreneurs hoping to launch the next Facebook. Some of today's most compelling organizations are doing brilliant things in simple settings such as retail banks, office cleaning companies, department stores, small hospitals, and auto dealerships. William C. Taylor, cofounder of Fast Company and best-selling author of *Practically Radical*, traveled thousands of miles to visit these hotbeds of simple brilliance and unearth the principles and practices behind their success. He offers fascinating case studies and powerful lessons that you can apply to do ordinary things in extraordinary ways, regardless of your industry or profession. Consider, for instance, how... ·Miami Beach's dazzling 1111 Lincoln Road reimaged the humble parking garage as a high-profile public space that hosts weddings, yoga classes, and celebrity gatherings. ·USAA, the financial-services giant that provides soldiers and their families with insurance and banking products, inspires frontline employees to deliver legendary service by immersing them in military culture. ·Pal's Sudden Service, a fast-food chain with a cult following, serves up burgers and fries with such speed and accuracy that companies from other industries pay to learn from its astonishing discipline. ·Lincoln Electric, a manufacturer based in Euclid, Ohio, dominates its ultracompetitive markets with a fierce devotion to quality and productivity. But the key to its prosperity is a share-the-wealth model that gives everybody a sense of security and a piece of the action. It has maintained a strict no-layoff pledge since 1958. As Taylor writes: "The story of this book, its message for leaders who aim to do something important and build something great, is both simple and subversive: In a time of wrenching disruptions and exhilarating advances, of unrelenting turmoil and unlimited promise, the future is open to everybody. The thrill of breakthrough creativity and breakaway performance . . . can be summoned in all sorts of industries and all walks of life, if leaders can reimagine what's possible in their fields." *Simply Brilliant* shows you how.

The Seven Principles for Raising a Self-Driven Child William Stixrud, PhD, Ned Johnson, 2025-03-25 From the

authors of *What Do You Say?* and *The Self-Driven Child*, a workbook of vital practices and step-by-step resources for parents striving to raise self-motivated, secure, and joyfully driven children. A guide to move from understanding the science and value behind nonanxious parenting to developing and sharpening the essential skills parents need to be a trusted resource for growing kids. Authors William Stixrud and Ned Johnson have watched firsthand as the crisis around education and the mental health crisis in childhood have converged in the postpandemic years. Their book *The Self-Driven Child* was ahead of the curve in addressing the way these forces converge in adolescents at pivotal moments as children develop their sense of autonomy, ambition, self-discipline, and learning style. As the authors have continued to lecture on the book's subject, parents have again and again homed in on the value of the model dialogues and practice prompts. Using material from their current work with parents and children, and pulling essential principles from the science in *The Self-Driven Child*, this workbook guides parents to develop the practice of being a nonanxious presence in children's lives, as well as introducing essential skills for navigating the pressure cooker of school. With prompts to help parents diagnose and rewire their instinctual responses to stressful situations, exercises to give them the language to communicate clearly and calmly, and lists to keep anxiety responses in check and big-picture goals in view, this workbook will bring peace and clarity to parents and educators seeking to support the unique path each child traverses on the road to growing up.

From Me to We Jason Griffith, 2016-08-19 With this practical book, you'll learn effective ways to engage students in reading and writing by teaching them narrative nonfiction. By engaging adolescents in narrative, literary, or creative nonfiction, they can cultivate a greater understanding of themselves, the world around them, and what it means to feel empathy for others. This book will guide you to first structure a reading unit around a narrative nonfiction text, and then develop lessons and activities for students to craft their own personal essays. Topics include: Engaging your students in the reading of a nonfiction narrative with collaborative chapter notes, empathy check-ins, and a mini-research paper to deepen students' understanding; Helping your students identify meaningful life events, recount their experiences creatively, and construct effective opening and closing lines for their personal essays; Encouraging your students to use dialogue, outside research, and a clear plot structure to make their narrative nonfiction more compelling and polished. The strategies in this book are supplemented by examples of student work and snapshots from the author's own classroom. The book also includes interviews with narrative nonfiction writers MK Asante and Johanna Bear. The appendices offer additional tips for using narrative nonfiction in English class, text and online resources for teaching narrative nonfiction, and a correlation chart between the activities in this book and the Common Core Standards.
