Space Raptor Butt Trilogy Chuck Tingle, 2016-07-11 With his genre-defining work, *Space Raptor Butt Invasion*, Chuck Tingle proved that even gay dinosaur erotica could be nominated for a Hugo Award, the most prestigious honor in science fiction. Nobody could have expected what would happen when the story continued. Collected here is the entire trilogy of Chuck Tingle's history making *Space Raptor Butt* series. **SPACE RAPTOR BUTT INVASION** Space can be a lonely place, especially when you're stationed by yourself on the distant planet Zorbus. In fact, Lance isn't quite sure that can last the whole year before his shuttle pod arrives, but when a mysterious visitor appears at Lance's terraforming station, he quickly realizes that he might not be so alone after all. Soon enough, Lance becomes close with this mysterious new astronaut, a velociraptor. Together, they form an unlikely duo, which quickly begins to cross the boundaries of friendship into something much, much more sensual. It's not gay if it's a man and a dinosaur, is it? **SPACE RAPTOR BUTT REDEMPTION** After a year stationed on planet Zorbus, astronaut Lance Tanner and his raptor lover Orion return home to find that they are not greeted as heroes, but as villains. Unbeknownst to Lance, his space travels have been funded by the villainous Scoundrels Inc, a corporation that has deep ties to the illegal trade of unicorn tears and a destructive mining project at the core of the earth. Now Lance is on trial for a number of false charges; from having connections to the wicked Scoundrels, to being too strange for space. The opposing lawyer argues that space is only for serious astronauts, and that love between a raptor and a man is giving space travel a bad name. Lance is arguing that there's room to be weird in space. More importantly, Lance is arguing for the idea of love itself; that just because something comes out of darkness doesn't mean it can't become a beacon of light. Of course, this all culminates in a hardcore dinosaur on astronaut pounding that will have your jaw on the courtroom floor! **SPACE RAPTOR BUTT ASCENSION** Soon after blasting off on their mission to find refuge for the people of Earth 1 on the dinosaur inhabited Earth 2, Orion and his space raptor lover Lance find a spaceship stow away, the notorious CEO of Scoundrels Inc, Vam Dox. Vam claims that his intentions are pure, but it's hard to trust such a sad, strange man. After landing in Hugona, the planet capital of Earth 2, our heroes restrain Vam Dox and head off to secure an important diplomatic relationship with the pterodactyl president, but that's when all hell breaks loose. Soon, Vam Dox is storming the capital with a band of rabid dogs, and Lance and Orion are wrongly taking the blame! Fortunately, Lance and Orion know that the only cure for evil this strong is to prove their love in a hardcore gay encounter at the steps of the capital building. When the

smoke clears, will Vam Dox be revealed as the super villain that he claims to be, or a meek, lonesome manbaby who is starved for attention?

Everything and Less Mark McGurl, 2021-10-19 National Book Critics Circle Award Finalist Best Book of Fall (Esquire) and a Most Anticipated Book of 2021 (Lit Hub) What Has Happened to Fiction in the Age of Platform Capitalism? Since it was first launched in 1994, Amazon has changed the world of literature. The “Everything Store” has not just transformed how we buy books; it has affected what we buy, and even what we read. In *Everything and Less*, acclaimed critic Mark McGurl explores this new world where writing is no longer categorized as high or lowbrow, literature or popular fiction. Charting a course spanning from Henry James to E. L. James, McGurl shows that contemporary writing has less to do with writing per se than with the manner of its distribution. This consumerist logic—if you like this, you might also like ...—has reorganized the fiction universe so that literary prize-winners sit alongside fantasy, romance, fan fiction, and the infinite list of hybrid genres and self-published works. This is an innovation to be cautiously celebrated. Amazon’s platform is not just a retail juggernaut but an aesthetic experiment driven by an unseen algorithm rivaling in the depths of its effects any major cultural shift in history. Here all fiction is genre fiction, and the niches range from the categories of crime and science fiction to the more refined interests of Adult Baby Diaper Lover erotica. *Everything and Less* is a hilarious and insightful map of both the commanding heights and sordid depths of fiction, past and present, that opens up an arresting conversation about why it is we read and write fiction in the first place.

Chuck's Dinosaur Tingle: Chuck Tingle, 2017-01-05 Chuck Tingle is a world-renowned master of the 'tingler'; a story so sensual, so erotic, and so powerfully gay that it will change the whole way you look at erotic romance literature. Collected here are three such tales of the dinosaur variety. Are you ready to depart on a depraved journey of gay lust that will tingle you to your very core? If so, then this explicit collection is for you. **SPACE RAPTOR BUTT ASCENSION** The shocking conclusion of the Space Raptor Butt Trilogy! Soon after blasting off on their mission to find refuge for the people of Earth 1 on the dinosaur inhabited Earth 2, Orion and his space raptor lover Lance find a spaceship stow away, the notorious CEO of Scounrels Inc, Vam Dox. Vam claims that his intentions are pure, but it's hard to trust such a sad, strange man. After landing in Hugona, the planet capital of Earth 2, our heroes restrain Vam Dox and head off to secure an important diplomatic relationship with the pterodactyl president, but that's when all hell breaks loose. Soon, Vam Dox is storming the capital with a band of rabid dogs, and Lance and Orion are wrongly taking the blame! Fortunately, Lance and Orion know that the only cure for evil this strong is to prove their love in a hardcore gay encounter at the steps of the capital building. When the smoke clears, will Vam Dox be revealed as the super villain that he claims to be, or a meek, lonesome manbaby who is starved for attention. **STRANGER POUND** Something strange is afoot in the small town of Bawking, where Sheriff Bopper finds himself wrapped up in a tale of mystery, intrigue and other worlds. After receiving a desperate call from his friend

Weno, Bopper must track down her missing husband who is trapped on a deeper, gayer level of the Tingleverse. Through communication with an alphabetical wall of vibrating butt plugs, Bopper discovers that the Tingleverse entrance is located deep within a secret government facility. But when Bopper finally makes it through the Tingleverse gate, he encounters an obstacle much more homoerotic than anything he could have ever imagined... a handsome velociraptor with a flower for a head who is ready to give Sherriff Bopper the best butt pounding of his life. CHEF WOOLLY MAMMOTH EATS MY BUTT Serpo is an expert foodie, and is willing to do whatever it takes to satiate his craving for the newest, hottest, and more exciting restaurants across New York City. However, even Serpo is having trouble getting a table at Le Butt, the innovative Paleo New American eatery from world renown woolly mammoth, Chef Malmo. Somehow, Sepro manages to get reservations, and quickly finds himself receiving a VIP treatment that culminates in a hardcore culinary encounter with the handsome prehistoric chef himself. Chef Malmo is searching for the perfect ingredient for his newest creation, and he just may have found it in Serpo's ass!

The Inter-Galactic Playground Farah Mendlesohn, 2009-07-15 Science fiction is often considered the genre of ideas and imagination, which would seem to make it ideal for juveniles and young adults; however, the ideas are often dispensed by adults. This book considers the development of science fiction for children and teens between 1950 and 2010, exploring why it differs from science fiction aimed at adults. In a broader sense, this critical examination of 400 texts sheds light on changing attitudes toward children and teenagers, toward science education, and toward the authors' expectations and sociological views of their audience.
