Arthur Cherep-Spiridovich (Count)

The Secret Government Ismael Perez, 2007-06-01 In his shocking book, *The Secret Government*, author Ismael Perez exposes the existence and purpose of a secret society which has been in existence since pre-Biblical times. Perez uncovers a secret government, an underground society of the worlds most influential leaders, working together to form one government. The society, known by many as The Secret Government, includes world leaders, politicians, religious organizations, corporations, and some of the most influential families in history. Its purpose is to mold world events, using calamities, assassinations, diseases, terrorism, and political elections, in their quest for world domination and control. They have been the power behind most of the worlds empires and institutions and have maintained their stronghold over the earth through secrecy, conspiracy, manipulation, division and wars. Taking the reader through history, Ismael Perez exposes the workings of this dark, hidden hand society as they attempt to bring all nations under their control. From the days of Adam and Eve, their bloodline has evolved and is currently behind the economic, political, and social corruption facing the world today. The Secret Government reveals the real reasons behind the 9-11 attacks on the World Trade Center and the assassinations of presidents, as well as their method of economic dominance through control of the worlds banking system. From the highest echelons of world organizations, Perez provides proof that this dark brotherhood exists in the United Nations, the pharmaceutical companies, in organized religion, as well as the political arena. Years of research performed by Perez and other truth seekers bring these undeniable truths to light. It is time to familiarize ourselves with the meaning of the great awakening in relationship to the declining power of the dark forces. The great awakening has long been prophesied, and its taking place for many people who are becoming aware. The disclosure of the oppressive forces will be a great step in the awakening process, states Perez. Through *The Secret Government*, he shows us how we can use this information to change our future and prepare for the final conflict between Good and Evil, only then can the full restoration of the earth take place and we can begin the age of light marked by brotherhood, peace, justice, and freedom. *The Secret Government* is the first book written by Ismael Perez, and is based on extensive study of the Bible, as well as many political, historical, economic, and social events and documents throughout history. Perez is currently researching his next book, *Our Cosmic (Divine) Beginning*.

The Secret World Government Or "The Hidden Hand" Count Cherep-Spiridovich, 2000 This book rants against

Freemasonry, Satan, international banks, Napoleon and more. It makes a series of unsubstantiated claims against Jews and possibly substantiated ones against the Rothschilds of his time. If one can put the authors personal biases aside, there remains some good historical information about government, religion, world power and money. The publishers do not agree with the authors biased opinions, but wish to make the remaining facts available to those interested. Conspiracy buffs will enjoy it immensely. The book, in its entirety, should not be taken at face value the truth that exists within it must be carefully extracted.

Challenging the Secret Government Kathryn S. Olmsted, 2000-11-09 Just four months after Richard Nixon's resignation, New York Times reporter Seymour Hersh unearthed a new case of government abuse of power: the CIA had launched a domestic spying program of Orwellian proportions against American dissidents during the Vietnam War. The country's best investigative journalists and members of Congress quickly mobilized to probe a scandal that seemed certain to rock the foundations of this secret government. Subsequent investigations disclosed that the CIA had plotted to kill foreign leaders and that the FBI had harassed civil rights and student groups. Some called the scandal 'son of Watergate.' Many observers predicted that the investigations would lead to far-reaching changes in the intelligence agencies. Yet, as Kathryn Olmsted shows, neither the media nor Congress pressed for reforms. For all of its post-Watergate zeal, the press hesitated to break its long tradition of deference in national security coverage. Congress, too, was unwilling to challenge the executive branch in national security matters. Reports of the demise of the executive branch were greatly exaggerated, and the result of the 'year of intelligence' was a return to the status quo. American History/Journalism

Something in This Book Is True, Second Edition Bob Frissell, 2011-10-25 A training manual for navigating a future full of danger and hope, this book considers earth changes, pole shifts, Hopi prophecies, the secret government, and much more. Written in Bob Frissell's warm, personal style with updated commentary, *Something in This Book Is True* is both an account of Frissell's journey to inner discovery and empowerment and a most unusual reader's guide. Delving into topics as eclectic as polarity consciousness, emotional body clearing, and higher selves, Frissell affirms that humanity is composed of spiritual beings having human experiences—not vice versa. This new edition incorporates photos and illustrations into Frissell's engaging text.

Secret Government Projects Corbin Shepherd, AI, 2025-03-31 Secret Government Projects explores the hidden world of classified government initiatives, drawing from declassified files and historical records to reveal the intersection of political maneuvering and scientific ambition. The book delves into areas like mind control experiments and unexplained aerial phenomena investigations, uncovering how governments have operated beyond public scrutiny. One intriguing example is the extent to which covert technological development was pursued during the Cold War, driven by fear and scientific competition. The book is structured to first lay the groundwork with historical context and legal frameworks, then presents case studies supported by primary source documents. It argues that a tension exists between national security and the public's right to know, highlighting how these projects, while often well-intentioned, crossed ethical boundaries. The final section analyzes the broader implications, examining ongoing challenges of government transparency and potential abuses of power. This exploration offers a valuable, neutral perspective, allowing readers to form their own conclusions based on the evidence presented. It provides a comprehensive overview of these projects, emphasizing documented facts over sensationalism, and meticulously sourcing its information. This allows the reader to delve into the documented history of government secrecy.

The Secret Government Bill D. Moyers, 1990 Examines the threats to constitutional government and looks at events that led to the Iran-contra affair.

The Handy American Government Answer Book Gina Misiroglu, 2017-12-01 A practical, accessible, engaging, and comprehensive guide to how American democracy works (and how it sometimes doesn't work). The stakes have never been higher: national security, civil liberties, the economy, the future of the republic. Yet few outside Washington actually understand how our government and political system should work, much less how it actually operates. On one level, it's a

complex, interlocking world veiled in power brokering, bureaucracy, and big money. On another, it's the biggest, richest, most influential organization in the world, for better or worse. Understanding how modern America is managed and governed is more vital than ever, but television, radio, newspapers, and social media frequently aim to spin, seduce, and sell product rather than serve anything resembling the truth. Filling the breach and answering basic questions about how our very complex government operates and what it promises, *The Handy American Government Answer Book: How Washington, Politics, and Elections Work* takes a comprehensive look at the systems, people, and policies that comprise American democracy, providing much-needed clarity to the current political drama. This informative book traces the historic development of the government, the functions of each branch of government, and how they work together. It provides clear and concise definitions of who does what and why. Written in an entertaining, reader-friendly, question-and-answer format, *The Handy American Government Answer Book* deciphers the news behind the headlines through well-researched answers to nearly 800 common questions. You will also read about such fascinating tidbits as Why is America's democratic system considered so precious? How are shifting demographics related to the electorate? What can Americans do to influence their government? Did the framers of the Constitution place equal weight on the concepts of liberty, equality, and democracy? What does checks and balances mean? What generally happens when members of Congress act inappropriately? How many presidents have been impeached? How does a case reach the U.S. Supreme Court? Which president appointed the most justices? How do civil liberties differ from civil rights? How does the Bill of Rights protect individual liberties? Is measuring public opinion a new phenomenon in politics? What does the concept of majority rule with minority rights mean? Why has trust in the government declined? What does it mean to lobby? How are PAC donations and political decisions linked? Where do the party symbols of the donkey and the elephant come from? What is electoral realignment? Who pays for the campaigns of candidates? Did the electoral college ever vote unanimously for a president? This handy primer also includes numerous illustrations, graphs, tables, a helpful bibliography, and an extensive index, adding to its usefulness. In the midst of the overheated rhetoric of the moment and the fast-changing, crisis-dominated world, a well-informed citizenry armed with *The Handy American Government Answer Book* is the best defense against political and corporate chicanery!

The Flat Earth Trilogy Book of Secrets II Gregory Lessing Garrett, 2019-04-18 Evidently, NASA can see though millions of layers of stars and galaxies to get thousands of crystal-clear shots of galaxies millions of light years away, but they cannot take even ONE simple photo of Earth from the Moon's distance that is not CGI fakery? NASA is merely a film production company with a huge budget and huge real rocket props. We have ALL been indoctrinated by occult high masters at NASA to the tune of 53 million dollars a day coming out of OUR Pay Checks to pay for their fake CGI rubbish. When we stop and slow down and really, really let it sink in, the most accurate map of the Earth used by the United Nations is The Flat Earth Map? They even outline the map with wheat stalks to symbolize Antarctica. This is the groundbreaking story of The

Flat Earth cover-up: The Who, How, and Why they did it story.

EXPOSING THE GOVERNMENT'S BEST KEPT UFO SECRETS The UFO Guy, 2013-04-02 Radio Personalities that book me as a guest for their shows and have done so for many years call me The UFO GUY. I hope you enjoy my little narrative. It's one of several books I have written and still hope to write about my experiences and investigations. As you'll soon discover, my life has been surrounded by the paranormal and unusual events. People that have experienced the unexplained have been drawn to me, and I to them. If nothing else, I hope you'll learn to appreciate why so many UFO and Paranormal Witnesses feel so strongly about their unusual experiences. This book takes you on a journey through my most bizarre and amazing UFO cases and helps to blow the lid off the U.S. Government cover-up of this phenomenon. It is also a sequel to my first book, THE UFO GUY.

Creators and Friends Robert Shapiro, 1998-02-01 Humans creators in training have a purpose and destiny so heartwarmingly, profoundly glorious that it is almost unbelievable from our present dimensional perspective. Humans are great lightbeings from beyond this creation, gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions. This truth about the great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature. Zoosh and a great assortment of beings who have never spoken to the physical plane before from particles to All That Is speak vibrantly through superchannel Robert Shapiro. Each personality has its own knowing, perception and expertise as it shares its history, its present focus and the awesome truth about humanity's mission. The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond. As we explore the greater reality beyond our planet, our galaxy, our dimension, our creation, we meet prototypes, designers, shapemakers, creators, creators of creators and friends of our Creator, who explain their roles in this creation and their experiences before and beyond this creation. As our awareness expands about the way creation works, our awareness of who we are expands and we realize that a part of ourselves is in that vast creation and that we are much greater and more magnificent than even science fiction had led us to believe. Join us in the adventure of discovery. It's mind-stretching.

Nothing in This Book Is True, But It's Exactly How Things Are, 15th Anniversary Edition Bob Frissell, 2010-06-15 Nothing in This Book Is True, But It's Exactly How Things Are is an account of humankind's function within the grand celestial battle between internal and external knowledge. Author Bob Frissell gives a compelling account of our planetary ascent into higher consciousness, presenting a big-screen view of the Earth through the experience of the Ascended Masters, Thoth, Babaji, and Drunvalo Melchizedek. Pulling in all manner of conspiracy theories from the Secret Government to the

Philadelphia Experiment, Frissell proposes both a core transdimensional shift based on the Mayan calendar and a personal Rapture mediated through the connected, affirmed breaths of rebirthing that his teacher Melchizedek used to travel from the other side of the universe to here—breathing your own spacecraft (merkaba) out of and around your aura in order to travel through the astral realms. The 15th anniversary edition of this cult classic is revised and expanded with new illustrations and 50 pages of important new information on the Lucifer Rebellion, the solar storm, and the final three breaths of the merkaba meditation.

Shining the Light II Robert Shapiro, Arthur Fanning, 1995-01-01 This book continues the story of the secret government and alien involvement as well as information about the photon belt, cosmic holograms photographed in the sky, a new vortex forming near Sedona, and nefarious mining on the sacred Hopi land.

Top Secret Government Archives Nick Redfern, 2014-12-15 This compelling volume tackles the topic of the classified files that government agencies choose not to release under the terms of the Freedom of Information Act. Many of these documents supposedly cannot be found or are Top Secret files that the agencies admit exist but that they have decided to keep the public from seeing. The reason for the missing files is to stop the truth about some of the world's greatest conspiracies from ever becoming known, such as the Roswell UFO crash, the JFK assassination, Project MKUltra (the CIA's mind control operation), and a secret U.S. base on the moon.
