Trap Lane Stella Cameron,2019-08-01 The troubled past of the Black Dog's manager returns to haunt him in the intriguing new Cotswold village mystery featuring pub owner Alex Duggins. Although he has always kept his past carefully hidden, as the ever-reliable manager of her well-stocked pub, The Black Dog, Hugh Rhys has Alex Duggins' total trust. However the unexpected arrival of two women from his past raises the fury of the usually even-tempered Hugh, threatens his carefully-crafted reputation and sends shockwaves through the village. When a battered body is discovered in a deep pond near Hugh's estate, Alex and her partner Tony are once again pulled into a chilling murder investigation. Atari Age Michael Z. Newman,2018-10-30 The cultural contradictions of early video games: a medium for family fun (but mainly for middle-class boys), an improvement over pinball and television (but possibly harmful). Beginning with the release of the Magnavox Odyssey and Pong in 1972, video games, whether played in arcades and taverns or in family rec rooms, became part of popular culture, like television. In fact, video games were sometimes seen as an improvement on television because they spurred participation rather than passivity. These “space-age pinball machines” gave coin-operated games a high-tech and more respectable profile. In Atari Age, Michael Newman charts the emergence of video games in America from ball-and-paddle games to hits like Space Invaders and Pac-Man, describing their relationship to other amusements and technologies and showing how they came to be identified with the middle class, youth, and masculinity. Newman shows that the “new media” of video games were understood in varied, even contradictory ways. They were family fun (but mainly for boys), better than television (but possibly harmful), and educational (but a waste of computer time). Drawing on a range of sources—including the games and their packaging; coverage in the popular, trade, and fan press; social science research of the time; advertising and store catalogs; and representations in movies and television—Newman describes the series of cultural contradictions through which the identity of the emerging medium worked itself out. Would video games embody middle-class respectability or suffer from the arcade's unsavory reputation? Would they foster family togetherness or allow boys to escape from domesticity? Would they make the new home computer a tool for education or just a glorified toy? Then, as now, many worried about the impact of video games on players, while others celebrated video games for familiarizing kids with technology essential for the information age.

Historic Cities of the Islamic World C. Edmund Bosworth,2007-08-31 This book contains articles on historic cities of

the Islamic world, ranging from West Africa to Malaysia, which over the centuries have been centres of culture and learning and of economic and commercial life, and which have contributed much to the consolidation of Islam as a faith and as a social and political institution. The articles have been taken from the second edition of the Encyclopaedia of Islam, completed in 2004, but in many cases expanded and rewritten. All have been updated to include fresh historical information, with note of contemporary social developments and population statistics. The book thus delineates the urban background of Islam as it has evolved up to the present day, highlighting the role of such great cities as Cairo, Istanbul, Baghdad and Delhi in Islamic history, and also brings them together in a rich panorama illustrating one of mankind's greatest achievements, the living organism of the city.

Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This captivating historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a

wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
