100 Best Quotes from Children's Books Susan Gabrielle,2012-07-30 ABOUT THE BOOK Storytelling has been around as long as humankind, although the ability to be a storyteller or history-keeper is a special gift not everyone possesses. Generations of our ancestors told oral tales of encounters with nature-with wild animals or with the land itself, real or imagined. Clans gathered around to hear of dreams or of explanations of certain unexplainable phenomena, such as thunder and lightning. These stories were often illustrated by scratching them or painting them onto cave walls or on rocks, and especially those tales of great battles against warring tribes. Some of the stories only existed as verbal histories passed from grandfathers to sons to grandsons. MEET THE AUTHOR Susan Gabrielle has had work published in The Christian Science Monitor, TheBatShat, New Verse News, and local publications, and was a finalist in the Tiny Lights Narrative Essay Contest. Her short story What she should have said was published in the Social Justice issue of the Little Patuxent Review, and she has been nominated for a Pushcart Prize for her poem After 10 years of War. She currently teaches writing and literature classes as a university instructor, and is at work on a nonfiction writers' guide. You can reach her at Susan-Gabrielle.com EXCERPT FROM THE BOOK But while storytelling itself is an ancient art form, the genre of children's literature is relatively new, and children's book publishing only came to prominence beginning in Great Britain in the 18th century. As Allen notes, From the time John Newbery, publisher and bookseller, decided to create books just for children in 18th-century England until the end of the 19th century, when English industry produced children's books of the highest quality, the body of children's literature that became available from England earned a growing respect throughout the literary world. Before that time, children were treated as miniature adults, useful only insofar as their ability to bring income to the home. Most children up to the 1800s worked on the family farm, so there was little free time for play, and since many children did not attend school, they could not read. The family may have owned a Bible, but it most likely would have been read to them by the father, perhaps after dinner. She's fully occupied by her love of math and her frequent battles with anxiety. Besides, she's always found the idea of kissing to be kind of weird and pretty unsanitary, when you think about it. But with the help of her therapist and her support system, she's feeling braver. Maybe even brave enough to enter a prestigious physics competition or to say yes to the new boy who's been flirting with her. Evie's best friend, Caleb, has always been a little in love with Evie, and though he knows she isn't ready for romance, he hopes that when she is, she'll choose him. So Caleb is horrified when he is forced to witness Evie's meet-cute with a floppy-haired, mathematically gifted transfer student. In desperation, Caleb decides to use an online forum to capture Evie's interest. When it goes better than he could've wished for, he wonders if it's possible to be jealous of himself. And Evie wonders how she went from eschewing romance to having to choose between two—or is it three?—boys.

All life seems to be sacred except human life. Always trying to build a house by beginning at the top. Believed it; because she desired to believe it. Best intentions and the frailest resolution. But there are liars everywhere this year. Children were clothed in nothing but sunshine. Fertile in invention and elastic in conscience. Fun—but of a mild type. Grief that is too deep to find help in moan or groan or outcry. Haughty humility. I was not scared, but I was considerably agitated. I had a delicacy about going home and getting thrashed. Imagination to help his memory. Invariably allowed a half for shrinkage in his statements. It used to be a good hotel, but that proves nothing. It is easier to stay out than get out. It had cost something to upholster these women. Keg of these nails—of the true cross. Let me take your grief and help you carry it. Life a vanity and a burden, and the future but a way to death. Children's Literature for All God's Children Virginia Thomas,Betty Davis Miller,1986-01-01 The themes, words, and

concepts in children's literature speak to the whole Christian community. This unique resource/reference handbook gives the church the opportunity to function as a united community of believers. Children and adults have the chance to study and learn together -- grow as a whole community. Thomas and Miller offer a practical approach to children's literature that gives background and theory, an evaluation of techniques, how-to guidelines, suggestions for use, lists of books, two annotated bibliographies, and indices: subject and themes, genre, and book awards. Explains: why children's literature is a good resource for Christians where to find good stories how significant themes are adapted for different age levels how to evaluate stories how to use them Parents, teachers, and ministers will delight with children in this new approach to sharing, learning, teaching, and worship. The bibliography of books for all ages is a treasure-house of information. Features basic book information, summary, and themes values. The Teenage Writer Timothy Horan, 2023-09-13 An accessible guide to help teenagers improve all aspects of their writing skills, from preparing a research paper to creating works of fiction Writing well is a worthwhile skill for anyone to master, but it is especially important for teenagers. To be successful, young adults must write for school, college, and employment; and sometimes, young adults write to be creative or to express themselves. Despite this, most teens don’t know how to write well, and this can be a source of great frustration and stress. In *The Teenage Writer: A Guide to Writing for School and Creativity*, Dr. Timothy Horan presents a remedy for this deficiency. He starts from a belief that all teens are writers at heart—whether they are writing for fun or for school—and can develop their skills and writing potential through proper instruction and practice. Written with a light touch, Horan uses experience, compassion, and humor to make all aspects of writing transparent and understandable. In this book, for example, he provides readers with the following advice: The best writing is clear and simple Always start with an outline Analyze things in terms of threes Write the way you talk Believe in yourself and in your ideas From writing an outline, to a paragraph, to a research paper, Horan explains all steps of writing in

an accessible, enjoyable manner that takes the anxiety out of the process. An invaluable guide for young writers of all levels and abilities, this book will also be useful for parents, teachers, and all who want to understand the art of writing well.
