Effective Multicultural Teams: Theory and Practice Claire B. Halverson, S. Aqeel Tirmizi, 2008-06-06 Multicultural and multinational teams have become an important strategic and structural element of organizational work in our globalized world today. These teams are demonstrating their importance from the factory floors to the boardrooms of contemporary organizations. The emergence of multicultural teams is evident across a variety of organizations in the private, public, and civil society sectors. These developments have led to an increasing interest in the theory and practice of multicultural teams. Management educational and training programs are giving increasing attention to these developments. At the same time, there is emerging interest in research about and study of multicultural teams. This book emerged from our teaching, research, and consulting with multicultural and diverse teams in multiple sectors over the last several years. In particular, we have developed and refined our ideas about the concepts in this book from teaching an advanced course called Effective Multicultural Teams in the Graduate Program at the School for International Training (SIT) in Vermont. We have learned from the rich background of students who are from, and have worked in, six continents, and who are, or plan to be, working in the public, educational, not-for-profit, and for-profit sectors. Additionally, we have engaged with a variety of teams through our consulting and training, providing consultation to teams in a variety of sectors and continents as they struggled to become more effective.

Twenty Years of Euro-Mediterranean Relations Richard Youngs, 2017-10-02 The creation of the Euro-Mediterranean Partnership in 1995 was seen, at the time, as a forward-thinking foreign policy which would strengthen ties between Europe and the Mediterranean Arab states. Since that time, however, almost none of this initial ambition has been translated into positive, successful policy. Twenty years on from the creation of the Euro-Mediterranean Partnership (now the Union for the Mediterranean), this book collects some of the most influential articles published in the *Mediterranean Politics* journal since 1995 - and suggests what these articles tell us about the state of relations between Europe and the Middle East. The selection of articles gives a sense of the way in which analytical debate has changed in the journal's lifetime, a lifetime which has seen the journal at the forefront of academic study on a variety of issues in the Mediterranean region. As such, the selection is naturally a reflection of the different periods from which the articles are taken, and, taken together, they paint a

picture of how the Euro-Mediterranean partnership has been reshaped over time.
