**Digital Punishment** Sarah Esther Lageson, 2020-05-27 The proliferation of data-driven criminal justice operations creates millions of criminal records each year in the United States. Documenting everything from a police stop to a prison sentence, these records take on a digital life of their own as they are collected by law enforcement and courts, posted on government websites, re-posted on social media, online news and mugshot galleries, and bought and sold by data brokers. The result is digital punishment, where mere suspicion or a brush with the law can have lasting consequences. In Digital Punishment, Sarah Esther Lageson unpacks criminal recordkeeping in the digital age, as busy and overburdened criminal justice agencies turned to technological solutions offered by IT companies over the last two decades. These operations produce a mountain of data, including the names, photographs, and home addresses of people arrested or charged with a crime, transforming millions of paper records into a digital commodity. Regardless of factual or legal guilt, these records rapidly multiply across the private sector background checking and personal data industries. Emboldened by public records laws designed for paper-based systems, criminal record data has become an extremely valuable resource for employers, landlords, and communities to monitor criminal behavior and assess other people. But while transparency laws were originally designed to allow governmental watchdogging, digital punishment has redirected our gaze toward one another. Hundreds of interviews detailed in this book reveal the consequences of digital punishment, as people purposefully opt out of society to cope with privacy and due process violations. As criminal histories impact nearly every aspect of private and civic life, the collateral consequences of even the most minor records are much more than barriers to employment and housing. For the criminal record-holder, the messy entanglement of government bureaucracy is nothing compared to the jurisdiction-

less haze of the internet. Drawing on empirical data, interviews, and review of case law, this book powerfully demonstrates that addressing digital punishment will require a direct acknowledgement of privacy and dignity in the context of public accusation, and a reckoning of how rehabilitation can actually occur in a society that never forgets.

*Reputation Management Online* Ben Medeiros, 2022-02-20 This book examines the work of the public relations, technology, and legal professionals who provide online “reputation management” services, situating their work within contemporary debates about regulating speech on the internet. The author argues that legal solutions like the European “Right to Be Forgotten” are not really possible in the United States, but that the private solutions of reputation management help to ameliorate novel concerns about reputation. At the same time, he contends that these practices prompt different free speech and dignitary concerns unique to the digital environment. Drawing upon rhetorical and legal analysis of diverse texts, including reputation management promotional materials, interviews with practitioners, legal cases, and popular online commentary about reputational disputes themselves, the book intervenes in specific debates about the regulation of the internet, as well as broader socio-legal debates about the role of reputation-damaging speech in a democratic society. This timely and relevant study will have great relevance for all students and scholars of communication studies, public relations, rhetoric, new and digital media, internet law, technology and society, computer-mediated communication, and sociology.

**What Stays in Vegas** Adam Tanner, 2014-09-02 The greatest threat to privacy today is not the NSA, but good-old American companies. Internet giants, leading retailers, and other firms are voraciously gathering data with little oversight from anyone. In Las Vegas, no company knows the value of data better than Caesars Entertainment. Many thousands of enthusiastic clients pour through the ever-open doors of their casinos. The secret to the company's success lies in their one unrivaled asset: they know their clients intimately by tracking the activities of the overwhelming majority of gamblers. They know exactly what games they like to play, what foods they enjoy for breakfast, when they prefer to visit, who their favorite hostess might be, and exactly how to keep them coming back for more. Caesars' dogged data-gathering methods have been so successful that they have grown to become the world's largest casino operator, and have inspired companies of all kinds to ramp up their own data mining in the hopes of boosting their targeted marketing efforts. Some do this themselves. Some rely on data brokers. Others clearly enter a moral gray zone that should make American consumers deeply uncomfortable. We live in an age when our personal information is harvested and aggregated whether we like it or not. And it is growing ever more difficult for those businesses that choose not to engage in more intrusive data gathering to compete with those that do. Tanner's timely warning resounds: Yes, there are many benefits to the free flow of all this data, but there is a dark, unregulated, and destructive netherworld as well.

The Conscious Cultural Worker Khalilah Ali, 2024-04-01 *The Conscious Cultural Worker: Counter-Narratives of Black Women Activists as Radical Educators* uses narrative inquiry and Black feminist and womanist pedagogy to look at the

teaching identities and lived experiences of Black women activist educators in the current neoliberal anti-woke moment. Their counter-narratives are presented as vignettes to look at a certain time in the lives of Black women artists who use rap, spoken word, or visual art to turn public places like bars, clubs, galleries, lounges, and alleys into unofficial educational spaces that the author calls Communities of Reciprocity (CoR). This book adds to what is known about situated learning, teacher identity, and the co-creation of communities of practice by focusing on the point of view of Black women as conscious culture workers. It does this by bringing attention to the fact that culture work is a kind of conversation between creatives as expert practitioners and audiences as spect-actors, who co-create liberatory educative texts. In this book, Black women work the culture by challenging hegemonic discourse and hidden curricula wherever people who want to learn come together.

Minnesota Law Review ,2015-05

**Seeing Justice** Mary Angela Bock, 2021-07-01 A behind-the-scenes look at the struggles between visual journalists and officials over what the public sees--and therefore much of what the public knows--of the criminal justice system. In the contexts of crime, social justice, and the law, nothing in visual media is as it seems. In today's mediated social world, visual communication has shifted to a democratic sphere that has significantly changed the way we understand and use images as

evidence. In *Seeing Justice*, Mary Angela Bock examines the way criminal justice in the US is presented in visual media by focusing on the grounded practices of visual journalists in relationship with law enforcement. Drawing upon extended interviews, participant observation, contemporary court cases, and critical discourse analysis, Bock provides a detailed examination of the way digitization is altering the relationships between media, consumers, and the criminal justice system. From tabloid coverage of the last public hanging in the US to Karen-shaming videos, from mug shots to perp walks, she focuses on the practical struggles between journalists, police, and court officials to control the way images influence their resulting narratives. Revealing the way powerful interests shape what the public sees, *Seeing Justice* offers a model for understanding how images are used in news narrative.

**The Telling** Mike Duran, 2012-06-05 A prophet never loses his calling, only his way. Disfigured with a hideous scar from his stepmother, Zeph Walker lives his life in seclusion, cloistering himself in a ramshackle bookstore on the outskirts of town. But Zeph is also blessed with a gift, an uncanny ability to foresee the future, to know peoples' deepest sins and secrets. He calls it the Telling, but he has abandoned this gift to a life of solitude, unbelief, and despair until two detectives escort him to the county morgue where he finds his own body lying on the gurney. On the northern fringes of Death Valley, the city of Endurance is home to llama ranches, abandoned mines, roadside attractions...and the mythical ninth gate of hell. Now, forced to investigate his own murder, Zeph discovers something even more insidious behind the urban legends and small-town eccentricities. Early miners unearthed a megalith, a sacred site where spiritual and physical forces converge and where an ancient subterranean presence broods. And only Zeph can stop it. But the scar on Zeph's face is nothing compared to the wound on his soul. For not only has he abandoned his gift and renounced heaven, but it was his own silence that spawned the evil. Can he overcome his own despair in time to seal the ninth gate of hell? His words unlocked something deadly, And now the silence is killing them.

*Media Control* Robert E. Gutsche, Jr.,2017-04-20 *Media Control: News as an Institution of Power and Social Control* challenges traditional (and even some radical) perceptions of how the news works. While it's clear that journalists don't operate objectively ? reporters don't just cover news, but they make it ? *Media Control* goes a step further by arguing that the cultural institution of news approaches and presents everyday information from particular and dominant cultural positions that benefit the power elite. From analysing how the press operate as police agents by conducting surveillance and instituting social order through its coverage of crime and police action to bolstering private business and neoliberal principles by covering the news through notions of boosterism, *Media Control* presents the news through a cultural lens. Robert E. Gutsche, Jr. introduces or advances readers' applications of critical race theory and cultural studies scholarship to explore cultural meanings within news coverage of police action, the criminal justice system, and embedding into the news democratic values that are later used by the power elite to oppress and repress portions of the citizenry. *Media Control* helps the reader explicate how the power elite use the press and the veil of the Fourth Estate to further white ideologies and American Imperialism.

*The Wrestlecrap Book of Lists!* R. D. Brownbag Surprise: Guests have to MacGyver their own costumes out of whatever's inside the brownbag they're given. Fake Wake: It's like a real Irish wake--except even the stiff's drunk. Donkey Punch Dinner Party: Where placing your Cleveland Steamer Meatballs between a bowl of Dirty Sanchez Seven-Layer Dip and a tray of Dutch Oven Biscuits isn't out of place. And as entertaining as it is instructive, this book is destined to become your gospel whenever you're looking for a good time. The party's on.
