**A Witch's Ally** Dodie Graham McKay, 2025-08-05 Invite Animal Allies Into Your Practice From the earliest grimoires,

animal familiars and companions have been a vital part of witchcraft. This book covers all aspects of working magic with animal allies and how to create profound relationships with your own pets. In addition to folklore and history, Dodie Graham McKay shares dozens of charms, recipes, rituals, and more. Featuring deep insight on how witches relate to their familiars and companions, this book helps you work with animal energy and see the world from their unique point of view. Explore supernatural entities and long-ago symbolism, partner with animals in body and spirit, and enjoy stories from Dodie about her relationship with animal allies. From making pumpkin oat dog biscuits to shapeshifting via dance, this book will enrich your experiences with the animals in your life. Includes a foreword by Kelden, author of *The Crooked Path*

**John Stearne's Confirmation and Discovery of Witchcraft** Scott Eaton, 2020-05-31 Between 1645-7, John Stearne led the most significant outbreak of witch-hunting in England. As accusations of witchcraft spread across East Anglia, Stearne and Matthew Hopkins were enlisted by villagers to identify and eradicate witches. After the trials finally subsided in 1648, Stearne wrote his only publication, *A confirmation and discovery of witchcraft*, but it had a limited readership. Consequently, Stearne and his work fell into obscurity until the 1800s, and were greatly overshadowed by Hopkins and his text. This book is the first study which analyses Stearne's publication and contextualises his ideas within early modern intellectual cultures of religion, demonology, gender, science, and print in order to better understand the witch-finder's beliefs and motives. The book argues that Stearne was a key player in the trials, that he was not a mainstream 'puritan', and that his witch-finding availed from contemporary science. It traces *A confirmation's* reception history from 1648 to modern day and argues that the lack of research focusing on Stearne has resulted in misrepresentations of the witch-finder in the historiography of witchcraft. This book redresses the imbalance and seeks to provide an alternative reading of the East Anglian witch-hunt and of England's premier witch-hunter, John Stearne.

**Time's Convert** Deborah Harkness, 2018-09-18 From the #1 New York Times bestselling author of *A Discovery of Witches* and *The Black Bird Oracle* comes a novel about what it takes to become a vampire—the fourth in the *All Souls* series. Look for the hit series “*A Discovery of Witches*,” now streaming on AMC+, Sundance Now, and Shudder! On the battlefields of the American Revolution, Matthew de Clermont meets Marcus MacNeil, a young surgeon from Massachusetts, during a moment of political awakening when it seems that the world is on the brink of a brighter future. When Matthew offers him a chance at immortality and a new life free from the restraints of his puritanical upbringing, Marcus seizes the opportunity to become a vampire. But his transformation is not an easy one and the ancient traditions and responsibilities of the de Clermont family clash with Marcus's deeply held beliefs in liberty, equality, and brotherhood. Fast-forward to contemporary Paris, where Phoebe Taylor—the young employee at Sotheby's whom Marcus has fallen for—is about to embark on her own journey to immortality. Though the modernized version of the process at first seems uncomplicated, the couple discovers that the challenges facing a human who wishes to be a vampire are no less formidable than they were in the eighteenth century.

The shadows that Marcus believed he'd escaped centuries ago may return to haunt them both--forever. A passionate love story and a fascinating exploration of the power of tradition and the possibilities not just for change but for revolution, *Time's Convert*, the fourth books in the All Souls Series channels the supernatural world-building and slow-burning romance that made the previous books instant bestsellers to illuminate a new and vital moment in history, and a love affair that will bridge centuries.

**Reading the Salem Witch Child** Kristina West,2020-11-17 This book discusses the role of children in the Salem witch trials through a close reading of the many and varied narratives of the trials, including court records, contemporary and historical documents, fiction, drama, and poetry. Taking a critical theory approach to explore both what we might understand as a child in 1692 New England and to consider our adult investment in reading the child, Kristina West explores narratives of the afflicted girls and the many accused children whom are often absent or overlooked in histories, and considers how the trial structure is continually repeated in attempts to establish the respective guilt and innocence of these and other groups. This book also analyses later manuscripts and fictional rewritings of the trials to question the basis on which assumptions about the child in history are made, and to consider why such narratives of Salem's children are still relevant now.

**Witchcraft** Marion Gibson,2024-01-16 National Bestseller A New Yorker Best Book of 2024 A “thought-provoking and timely” (The Times, London) global history of witch trials across Europe, Africa, and the Americas, told through thirteen distinct trials that illuminate a pattern of demonization and conspiratorial thinking that has profoundly shaped human history. This “inventive and compelling” (The Times Literary Supplement, London) work of social history travels through thirteen witch trials across history, some famous—like the Salem witch trials—and some lesser-known: on Vardø island, Norway, in the 1620s, where an indigenous Sami woman was accused of murder; in France in 1731, during the country's last witch trial, where a young woman was pitted against her confessor and cult leader; in Lesotho in 1948, where British colonial authorities executed local leaders. Exploring how witchcraft was feared, then decriminalized, and then reimagined as gendered persecution, *Witchcraft* takes on the intersections between gender and power, indigenous spirituality and colonial rule, political conspiracy and individual resistance. Offering a striking, dramatic journey unspooling over centuries and across continents, *Witchcraft* is a “well-rounded insight into some of the strangest and cruelest moments in history” (Buzz Magazine), giving voice to those who have been silenced by history.

**Reading the Vegetarian Vampire** Sophie Dungan,2022-11-30 This *Pivot* traces the rise of the so-called “vegetarian” vampire in popular culture and contemporary vampire fiction, while also exploring how the shift in the diet of (some) vampires, from human to animal or synthetic blood, responds to a growing ecological awareness that is rapidly reshaping our understanding of relations with others species. The book introduces the trope of the vegetarian vampire, as well as important critical contexts for its discussion: the Anthropocene, food studies, and the modern practice, politics and ideologies of

vegetarianism. Drawing on references to recent historical contexts and developments in the genre more broadly, the book investigates the vegetarian vampire's relationship to other more violent and monstrous forms of the vampire in popular twenty-first century horror cinema and television. Texts discussed include Interview with the Vampire, Buffy the Vampire Slayer, Twilight, The Vampire Diaries and True Blood. Reading the Vegetarian Vampire examines a new aspect of contemporary interest in considering vampire fiction.

**Spooky Technology: A reflection on the invisible and otherworldly qualities in everyday technologies** Daragh Byrne, Dan Lockton, Matthew Cruz, Christi Danner, Karen Escarcha, Katherine Giesa, Meijie Hu, Yiwei Huang, Miranda Luong, Anuprita Ranade, Gordon Robertson, Elizabeth Wang, Lisa (Yip Yan) Yeung, Catherine Yochum, 2021-08-31 Spooky Technology explores our understanding of the invisible technologies in our everyday lives, from objects with 'intelligence' to systems in our homes that talk to us (and each other). The book is an inventory of spooky technologies, compiled by Carnegie Mellon students reviewing work across art, design, HCI, psychology, human factors research, and other fields, that has been done in this field, or adjacent to it, both historically and more recently, with commentary, essays, and interviews with creators and artists. We often hear that the technologies in our everyday lives would appear to be 'magic' and potentially terrifying to people in the past—instantaneous communication with people all over the world, access to a vast, ever-growing resource of human knowledge right there in the palm of our hand, objects with 'intelligence' that can sense and talk to us (and each other). But rarely are these 'otherworldly' dimensions of technologies explored in more detail. There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices, and incorporate new products and new ways of doing things into our lives—all cities will become smart cities; all homes will become smart homes. But these systems have become omnipresent without our necessarily understanding them. They are not just black boxes, but invisible: entities in our homes and everyday lives which work through hidden flows of data, unknown agendas, imaginary clouds, mysterious sets of rules which we perhaps dismiss as 'algorithms' or even 'AI' without really understanding what that means. On some level, the superstitions and sense of wonder, and ways of relating to the unknown and the supernatural (deities, spirits, ghosts) which humanity has felt in every culture throughout history have not gone away, but started to become transferred and transmuted into new forms.

**Satan's Counterfeit Healing** Lawrence E. Burkholder, 2019-09-30 The Christian church worldwide has been taken prisoner by Satan's counterfeit healing. This statement is based on the author's personal experience, modest exposure to the Toronto Blessing, observation of parachurch healing ministries, and extensive historical reconstructions. Satan's Counterfeit Healing presents and evaluates Satan's supernatural healing from the Paleolithic period (ca. 45000 BCE) to the contemporary church. The guiding thesis is that Satan and his demonic surrogates perform miracles which are evident as psi paranormal phenomena. These manifestations include physical and exorcistic supernatural healings. Paleolithic and Neolithic

periods produced Great Mother goddess worship and healing, which have persisted ever since. These idolatries, combined with OT nature gods, were a backdrop to Jesus' true miracles. For two thousand years of church history there's been a tug-of-war between true and false healing. Mother goddess as Mariological shrine healing joined with natural and demonic magic, and esoteric energy psi. Alongside these the Holy Spirit has raised up genuine healers and their ministries. Modern healing is marked by energy counterfeits and faith healing, the latter especially accompanied by trance, false prophecy, and psi transformations. True divine healing can be recovered when Christians repudiate nature gods, reject false prophecy, and restore proper eschatology.

*Divine Horror* Cynthia J. Miller, A. Bowdoin Van Riper, 2017-05-15 From *Rosemary's Baby* (1968) to *The Witch* (2015), horror films use religious entities to both inspire and combat fear and to call into question or affirm the moral order. Churches provide sanctuary, clergy cast out evil, religious icons become weapons, holy ground becomes battleground--but all of these may be turned from their original purpose. This collection of new essays explores fifty years of genre horror in which manifestations of the sacred or profane play a material role. The contributors explore portrayals of the war between good and evil and their archetypes in such classics as *The Omen* (1976), *The Exorcist* (1973) and *Dracula Has Risen from the Grave* (1968), as well as in popular franchises like *Hellraiser* and *Hellboy* and cult films such as *God Told Me To* (1976), *Thirst* (2009) and *Frailty* (2001).

An Encyclopedia of Fairies Ty Hulse, Many of the fairies and spirits mentioned within this book come from regions where information on the fairies isn't readily available in English elsewhere. A few of these include; Mari-El - In the heart of an ancient forest which was so vast and isolated it allowed the people within to remain the last pagans in Europe. For the people of this land never converted to Islam or Christianity, and so to this day they still value the spirits of the forest. Their woodlands are filled with a dizzying array of spirits, from bathhouse spirits that appear as shooting stars to spirits which always run and move backwards. Brittany - One of the last remaining Celtic kingdoms, where many traditional Celtic ideas survived. Yet despite how popular Celtic beliefs are there isn't a lot of information or stories on these fairies available in English. Northern Italy and Austria - Wedged high in the mountains the tiny villages that dot this land were often the slowest to change, retaining ideas about the spirit world from a past long forgotten to most of us. Not so long ago there were still some people who would answer the shamans call, sending their soul out at night to join the kindly spirits in a battle against the darkness. Other people's will include, the Komi, Irish, English, Scottish, Welsh, German, the Scandinavian Countries, the Selkup, the Yakut, and many many more. Indeed there will be well over a thousand different fairies in this book, most of which you'll likely never have heard of.

The Arabic Influences on Early Modern Occult Philosophy Liana Saif, 2016-04-29 Investigating the impact of Arabic medieval astrological and magical theories on early modern occult philosophy, this book argues that they provided a

naturalistic explanation of astral influences and magical efficacy based on Aristotelian notions of causality.

**Biographical Memoirs** National Academy of Sciences,1995-02-01 Biographic Memoirs: Volume 67 contains the biographies of deceased members of the National Academy of Sciences and bibliographies of their published works. Each biographical essay was written by a member of the Academy familiar with the professional career of the deceased. For historical and bibliographical purposes, these volumes are worth returning to time and again.

**Digital Children: A Guide for Adults** Andy Phippen,Sandra Leaton Gray,2021-10-15 The digital world is a place where even the most informed parents and teachers can feel one pace behind children. Bombarded with scare stories about the risks of everyday Internet interactions for young people, those caring for them are frequently left to navigate online minefields more or less on their own. This book is here to help. Two leading experts on digital childhoods, Dr Sandra Leaton Gray and Professor Andy Phippen, explore the realities of growing up online in the 21st century. They provide an informative and accessible guide to the issues young people face today, based on the latest research and scholarship. They also expose the many ways the child safeguarding industry means well, but often gets things very wrong. The authors explain the latest research on topics such as biometrics, encryption, cyphertext and sexting, and analyse their relevance to the next generation. They raise a number of key questions about the contemporary lives of young people, including their relationship with digital technologies such as games, social media, surveillance and tracking devices. They also challenge conventional thinking on these issues. Rather than relying on technology, they argue we should instead focus on the quality of relationships between children, their peers, their parents and with adults generally. Then we can build a healthy digital future for society as a whole.

**Llewellyn's 2023 Witches' Companion** Llewellyn,2022-07-08 Llewellyn's 2023 Witches' Companion explores the leading edge of Witchcraft and Pagan lifestyles with more than two dozen articles featuring new insights and hands-on magical practices. **Art, Ethics and the Human-Animal Relationship** Linda Johnson, 2021-09-20 This book examines the works of major artists between the seventeenth and nineteenth centuries, as important barometers of individual and collective values toward non-human life. Once viewed as merely representational, these works can also be read as tangential or morally instrumental by way of formal analysis and critical theories. Chapter Two demonstrates the discrimination toward large and small felines in *Genesis* and *The Book of Revelation*. Chapter Three explores the cruel capture of free roaming animals and how artists depicted their furs, feathers and shells in costume as symbols of virtue and vice. Chapter Four identifies speciesist beliefs between donkeys and horses. Chapter Five explores the altered Dutch kitchen spaces and disguised food animals in various culinary constructs in still life painting. Chapter Six explores the animal substances embedded in pigments. Chapter Seven examines animals in absentia-in the crafting of brushes. The book concludes with the fish paintings of William Merritt Chase whose glazing techniques demonstrate an artistic approach that honors fishes as sentient beings.

**Handbook of Research on Transmedia Storytelling and Narrative Strategies** Yilmaz, Recep, Erdem, M. Nur, Resuloğlu, Filiz, 2018-07-06 Transmedia storytelling is defined as a process where integral elements of fiction get dispersed

systematically across multiple delivery channels to create a unified and coordinated entertainment experience. This process and its narrative models have had an increasing influence on the academic world in addressing both theoretical and practical dimensions of transmedia storytelling. The Handbook of Research on Transmedia Storytelling and Narrative Strategies is a critical scholarly resource that explores the connections between consumers of media content and information parts that come from multimedia platforms, as well as the concepts of narration and narrative styles. Featuring coverage on a wide range of topics such as augmented reality, digital society, and marketing strategies, this book explores narration as a method of relating to consumers. This book is ideal for advertising professionals, creative directors, academicians, scriptwriters, researchers, and upper-level graduate students seeking current research on narrative marketing strategies.
