True Quest Grant,2023-07-15 Ontar and Echo's first mistake might be their last. A failed mission for the thieves' guild has earned them the ire of the necromancer Narcos, and he has no patience for the living. Looking to make it up to the guild, and hoping for their protection, the pair seek out a renowned mystical sword as reparation. Unfortunately, Narcos also searches for the blade for it is the key to releasing a demon who knows the location of an even greater artifact; one that will shape the very destiny of the realm itself. But the demon has his own plans. Now, Ontar and Echo are trapped between the dead and a demon, and they're running out of time. Fail again, and the world pays an unspeakable price. Total annihilation!

Wroxeter, the Cornovii and the Urban Process. Volume 2: Characterizing the City. Final Report of the Wroxeter Hinterland Project, 1994-1997 Roger H. White,C. Gaffney,V. L. Gaffney,2013-03-15 In the mid-1990s, the site of the Roman city of Viroconium Cornoviorum at Wroxeter, Shropshire, was subjected to intensive geophysical survey. This volume reports on the archaeological interpretation of this work, marrying the geophysical data with a detailed analysis of the existing aerial photographic record created by Arnold Baker 1950s-1980s.

How to Be Authentic Skye C. Cleary,2022-08-16 An illuminating introduction to the philosophy of Simone de Beauvoir and its relevance to modern life In an age of self-exposure, what does it mean to be authentic? “Authenticity” has become attenuated to the point of meaninglessness; everyone says to be yourself, but what that means is anyone’s guess. For existential philosopher Simone de Beauvoir, authenticity is not the revelation of a true self, but an exhilarating quest towards fulfillment. Her view, central to existentialism, is that we exist first and then spend the rest of our lives creating—not

discovering—who we are. To be authentic is to live in pursuit of self-creation and self-renewal, with many different paths towards diverse goals. *How to Be Authentic* is a lively introduction to Simone de Beauvoir's philosophy of existentialism, as well as an exploration of the successes and failures that Beauvoir and other women have experienced in striving towards authenticity. Skye C. Cleary takes us through some of life's major relationships and milestones: friendship; romantic love; marriage; children; and death, and examines how each offers an opportunity for us to stretch toward authenticity. While many people don't get to choose their path in life—whether because of systemic oppression or the actions of other individuals—Cleary makes a compelling case that Beauvoir's ideas can help us become more conscious of living purposefully, thoughtfully, and with vitality, and she shows us how to do so in responsible ways that invigorate every person's right to become poets of their own lives.

To Trust the People with Arms Robert J. Cottrol, Brannon P. Denning, 2023-10-06 In 2007, for the first time in nearly seventy years, the Supreme Court decided to hear a case involving the Second Amendment. The resulting decision in *District of Columbia v. Heller* (2008) was the first time the Court declared a firearms restriction to be unconstitutional on the basis of the Second Amendment. It was followed two years later by a similar decision in *McDonald v. City of Chicago*, and in 2022, the Court further expanded its support for Second Amendment rights in *New York State Rifle and Pistol Association v. Bruen*—a decision whose far-reaching implications are still being unraveled. *To Trust the People with Arms* explores the remarkable and complex legal history of how the right to bear arms was widely accepted during the nation's founding, was near extinction in the late twentieth century, and is now experiencing a rebirth in the Supreme Court in the twenty-first century. Robert J. Cottrol and Brannon P. Denning link the right to bear arms with other major themes in American history. Prompted by the eighteenth-century belief that arms played a vital role in preserving the liberties of the citizen, the Second Amendment met many challenges in the nation's history. Among the most acute of these were racism, racial violence, and the extension of the right to bear arms to African Americans and other marginalized groups. The development of modern firearms and twentieth-century urbanization also challenged traditional notions concerning the value of an armed population. Cottrol and Denning make a particularly important contribution linking the nation's participation in the wars of the twentieth century and the strengthening of American gun culture. Most of all, they give a nuanced and sophisticated legal history that engages legal realism, different varieties of originalism, and the role of chance and accident in history. *To Trust the People with Arms* integrates history, politics, and law in an interdisciplinary way to illustrate the roles that guns and the right to keep and bear arms have played in American history, culture, and law.

On My Honor Kim Christensen, 2025-02-11 From a Pulitzer Prize winning journalist, the shocking rise and fall of an American institution. Since its founding in 1910, the Boy Scouts of America has been the nation's premier youth organization, espousing self-reliance and honor. More than 100 million Americans have been Boy Scouts, from Bill Gates to Martin Luther King Jr. Today, however, Scouting faces an existential threat of its own making: more than 82,000 former Scouts have filed claims alleging they were sexually abused—seven times the number of similar allegations that rocked the Catholic Church two decades ago. *On My Honor* untangles the full story of the Boy Scouts of America, tracking its creation, growth, influence, and the massive generational trauma it has caused. Using the iconic institution to tell a story of American values over the last century, the book grapples with America's changing understanding of what it means to "make men." This riveting story of power and abuse, religion and politics, scandal and justice, is brought to life by groundbreaking research and an unforgettable cast of characters.

Victory at Poitiers Christian Teutsch, 2010-06-15 "Evokes the blood and mud and terror of combat . . . A good primer of the Battle of Poitiers . . . with prose that is by turns professional and passionate." —*De Re Militari* On September 13, 1356, near Poitiers in western France, the small English army of Edward the Black Prince crushed the forces of the French King Jean II in one of the most famous battles of the Hundred Years' War. Over the centuries, the story of this against-the-odds English victory has, along with Crecy and Agincourt, become part of the legend of medieval warfare. And yet in recent times this classic battle has received less attention than the other celebrated battles of the period. The time is ripe for a reassessment, and this is the aim of Christian Teutsch's thought-provoking new account. "Teutsch describes in vivid detail

the Black Prince's experiences that led to his horse charge across the countryside of southwest France, and the critical actions of Romorantin and Chatellerauld that made Poitiers possible. His narrative culminates with the prince's daring ride to draw the French king Jean into battle and the drama of the combat itself. Combined with a selection of over 15 battlefield maps showing the orders of battle, this informative and highly readable account is a compulsive purchase for all with an interest in medieval history." —The Lance and Longbow Society

Worldly Spirits, Extra-Human Dimensions, and the Global Anglophone Novel Hilary Thompson, 2023-12-28 Engaging a diverse range of contemporary anglophone literature from authors of the Asian, Middle Eastern and Caribbean diasporas, this book explores how such works turn to spirit forces, spirit realms and spirit beings - were-animals, mystical birds, and snake goddesses - as positive forces that assert perceptual dimensions beyond those of the human, and present a vision of Earth as agentive and animate. With previous scholarship downplaying these aspects of modern works as uncanny hauntings or symptoms of capitalism's or anthropocentrism's destructiveness, or within a blanket rubric of 'magical realism', Hilary Thompson rejects this partitioning of them as products of an exotic East or global South. By contrast, this book builds a new critical framework for analysis of worldly spirits, drawing on anthropological discussions of animism, the newly recovered 1930s boundary-crossing art movement Dimensionism, and multispecies theories of animals' diverse perceptual worlds. Taking stock of novels published from 2018-2020 by such writers as Amitav Ghosh, André Alexis, Yangsze Choo, Azareen Van der Vliet Oloomi, Zeyn Joukhadar, and Tanya Tagaq, Thompson illuminates how these works extend an ecological call to decentre the human and align with multidimensional theories of art and literature to provide ways to read for rather than reduce the extra-human dimensions emerging in contemporary fiction. A refreshing rejection of ecological apocalypticism, this book unsettles typical conceptualizations of both anglophone and Anthropocene literatures by invoking European art theory, philosophy, and non-Western ideas on animism and spirits to put forward perceptions of the extra-human as a form of dealing with the many uncertainties of today's different crises.
