Satanism Joseph P. Laycock, 2024-03-07 What is Satanism? The word has functioned as a powerful indictment of one's rivals, an expression of rebellion against authority, and sometimes to describe the deliberate worship of dark, supernatural

forces. This Element provides a concise overview of Satanism from its origins in early modern Europe through the present. It covers such topics as legends of the black mass, hell-fire clubs, the Romantic Satanism of Lord Byron and Percy Shelley, and nineteenth-century occultists who expressed reverence for Satan. It describes modern Satanic religions including the Church of Satan, The Temple of Set, The Order of Nine Angles, The Satanic Temple, and others. It also addresses contemporary Satanic Panic from the 1980s through QAnon. This Element should prove useful to anyone seeking to learn more about this complicated and frequently misunderstood tradition.

Amsterdam's Canal District Jan Nijman, 2020-09-10 In terms of design, scale, and blending of ecological and aesthetic function, Amsterdam's seventeenth-century Canal District is a European marvel. Its survival for four centuries is a testament to its ingenuity, reflected in its designation as a UNESCO World Heritage Site in 2010. The Canal District today is an extraordinary example of resilient historic design and cultural heritage in a living city, but it is not without present-day challenges: in recent years, its urban ecology has become subject to severe pressures of global tourism and supergentrification. This edited volume brings together seventeen reputable scholars to debate questions about the origins, evolution, and future of the Canal District. With these differing approaches and perspectives on the Canal District the contributions render a collection where the whole is much more than the sum of the parts. The book breaks new ground in our understanding of the District's historic design, its evolution over four hundred years, and the fundamental issues in future-facing strategies and policies. While the main focus is clearly on Amsterdam, the discussions in this collection have an important bearing on broader questions of urban historic preservation elsewhere, and on questions about enduring urban design.

Size Zero Abigail Mangin, 2020-07-12 A somber, disturbing mystery fused with a scathing look at the fashion industry. Mangin writes in a confident, razor-edged style. - Kirkus Reviews Condom dresses and space helmets have debuted on fashion runways. A dead body becomes the trend when a coat made of human skin saunters down fashion's biggest stage. The body is identified as Annabelle Leigh, the teenager who famously disappeared over a decade ago from her boyfriend's New York City mansion. This new evidence casts suspicion back on the former boyfriend, Cecil LeClaire. Now a monk, he is forced to return to his dark and absurd childhood home to clear his name. He teams up with Ava Germaine, a renegade ex-model. And together, they investigate the depraved and lawless modeling industry behind Cecil's family fortune. They find

erotic canes, pet rats living in crystal castles, and dresses made of crushed butterfly wings. But Cecil finds more truth in the luxury goods than in the people themselves. Everyone he meets seems to be wearing a person-suit. Terrified of showing their true selves, the glitterati put on flamboyant public personas to make money and friends. Can Cecil find truth in a world built on lies? In high fashion modeling, selling bodies is organized crime.

In All Directions James Bowring, 2011-02-01 It is the middle of summer and a group of British holidaymakers are embarking on a two-week whistle-stop coach tour of Western Europe under the dubious auspices of 'Conn Tours' Coach Holidays. Among the group are Frank and Joyce. They are not used to holidaying abroad and now that Frank has retired, Joyce is not sure how, or indeed if, she will cope with his obsessions, his bad temper and his weak bladder. Then, there are Dave and Susan. Dave enjoys everything to excess, especially food and alcohol, apart from sex. Susan, for her part, is starting to have some strange and uncomfortable fantasies. Student, Barbara, released from the stifling shackles of life at home is determined to enjoy every minute of her holiday, both inside and outside the hotel bedroom. Julia and Trevor are recently married (the second time for Julia) and Trevor is looking forward to a romantic holiday - he is lovesick. Julia, on the other hand, is just homesick. As the tour gets underway, it is increasingly beset by problems, delays, accidents and incompetence and Miranda, the "tour Director", who clearly has issues of her own, begins to lose control. As problems pile up, the frustrations increase and members of the group face some increasingly difficult decisions about what they need to do to salvage their holiday and their relationships

Key Interiors since 1900 Graeme Brooker, 2013-09-23 This book defines the history of modern interior design through the reuse of existing buildings. This approach allows the history of the interior to be viewed as separate from the history of architecture and instead enables the interior to develop its own historical narrative. The book is organized around six thematic chapters: home, work, retail, display, leisure and culture. Each one comprises a selection of case studies in chronological order. 52 key examples dating from 1900 to the present are explored in terms of context, concept, organization and detail and are illustrated with photographs, plans, sections, concept drawings and sketches. This unique history will be invaluable for students of interior architecture and design seeking a survey tailored especially for them, as well as appealing to interested general readers.

Built Design and the Rhetoric of Cities Kathleen M. Vandenberg, 2023-05-04 In *Built Design and the Rhetoric of Cities*, Kathleen M. Vandenberg explores how cities are imagined, designed, and constructed and analyzes the impact of built design on the movement, behavior, and experience of people in urban areas. Vandenberg argues that becoming attuned to the built environments of cities is critical to understanding and planning for how they might be reshaped to confront the challenges of this century, which include rapid urbanization, the global rise in slums, climate change, and increasing urban air pollution. With a focus on London, Copenhagen, Amsterdam, and Washington, DC, this book invites readers to consider how the built environment influences mobility, the availability of green space, placemaking, and public memory. Street-level analysis is merged with a humanistic perspective that considers the impact of such urban elements as facades, cycle paths, sidewalks, lighting, trees, seating, parks, and monuments on the human experience of cities. By design, cities speak—this book offers an understanding of their rhetoric.

Dual Markets Ernesto U. Savona, Mark A.R. Kleiman, Francesco Calderoni, 2017-11-14 This comprehensive volume analyzes dual markets for regulated substances and services, and aims to provide a framework for their effective regulation. A "dual market" refers to the existence of both a legal and an illegal market for a regulated product or service (for example, prescription drugs). These regulations exist in various countries for a mix of public health, historical, political and cultural reasons. Allowing the legal market to thrive, while trying to eliminate the illegal market, provides a unique challenge for governments and law enforcement. Broken down into nine main sections, the book studies comparative international policies for regulating these "dual markets" from a historical, legal, and cultural perspective. It includes an analysis of the markets for psychoactive substances that are illegal in most countries (such as marijuana, cocaine, opioids and amphetamines),

psychoactive substances which are legal in most countries and where consumption is widespread (such as alcohol and tobacco), and services that are generally regulated or illegal (such as sports betting, the sex trade, and gambling). For each of these nine types of markets, contributions focus on the relationship between regulation, the emerging illegal market, and the resulting overall access to these services. This work aims to provide a comprehensive framework from a historical, cultural, and comparative international perspective. It will be of interest to researchers in criminology and criminal justice, particularly with an interest in organized crime, as well as related fields such as sociology, public policy, international relations, and public health.
