The Concert Composer's Business Handbook Steven Rosenhaus, 2025-04-01 The Concert Composer's Business Handbook is written for composers of original music—mostly or completely within the world of concert or classical music—as a one-stop resource of information on earning income from music that they write. Drawing on a breadth of experience in the professional field, Stephen L. Rosenhaus addresses a variety of important topics, including: Copyright Types of income streams Performing rights organizations Promoting and presenting music Music publishing Contracts for composers Basics of finances

The Music Performance Library Russ Girsberger, Laurie Lake, 2011-07-01 (Meredith Music Resource). The music performance library is the heart of any musical ensemble, supplying music to performers and information to an entire organization. This text contains valuable information on this important topic for all musicians, including music directors, conductors, student librarians, community volunteers, professional performance librarians, and performers. This essential resource provides step-by-step directions on the librarian's responsibilities, including how to: locate and choose editions * purchase and rent music * catalog new works * store and preserve music * prepare music for performance * mark bowings * correct errata * prepare manuscripts and programs * distribute and collect parts * and communicate efficiently.

Writing about Music D. Kern Holoman, 2014-09-05 Where do you place the hyphen in Beethoven if it breaks between two lines? How do you cite John Coltrane's album A Love Supreme? Is it premiere or première? The answers and much more can be found in this definitive resource for authors, students, editors, concert producers—anyone who deals with music in print. Extending the principles devised for the classical repertoires, this revised and expanded edition now includes examples from world music, rock, jazz, popular music, and cinema. This essential volume covers some of the thorniest issues of musical discourse: how to go about describing musical works and procedures in prose, the rules for citations in notes and bibliography, and proper preparation of such materials as musical examples, tables, and illustrations. One section discusses program notes, while others explain the requirements for submitting manuscripts and electronic files, and outline best

practices for student writers. An appendix lists common problem words. Updates include greatly simplified citations of Internet locators, the recognition of multiple platforms, and the expectation of paperless transmission and storage of work. Cited as the authority by The Chicago Manual of Style, this classic handbook is the go-to source for anyone writing about music.
