Fodor's Travel Guides

'Twas Only an Irishman's Dream W. H. A. Williams, 1996 The image of the Irish in the United States changed drastically over time, from that of hard-drinking, rioting Paddies to genial, patriotic working-class citizens. In *'Twas Only an Irishman's Dream*, William H. A. Williams traces the change in this image through more than 700 pieces of sheet music--popular songs from the stage and for the parlor--to show how Americans' opinions of Ireland and the Irish went practically from one extreme to the other. Because sheet music was a commercial item it had to be acceptable to the broadest possible song-buying public. Negotiations about their image involved Irish songwriters, performers, and pressured groups, on the one hand, and non-Irish writers, publishers, and audiences on the other. Williams ties the contents of song lyrics to the history of the Irish diaspora, suggesting how ethnic stereotypes are created and how they evolve within commercial popular culture.

The Irish Whales Kevin Martin, 2020-09-01 In the early 1900s, the Olympic Games track and field throwing events were dominated by a group of Irish-born weight throwers representing the United States. Of immense size and with a larger-than-life presence, these athletes came to be known as the "Irish Whales." In *The Irish Whales: Olympians of Old New York*, Kevin Martin shares the untold story of these Irish American athletes who competed with unparalleled distinction for the United States. James Mitchell, John Flanagan, Martin Sheridan, Pat McDonald, Paddy Ryan, and Con Walsh won a total of eighteen medals in the Olympic Games between 1900 and 1924 and completely dominated the world stage in their chosen athletic disciplines. They were lionized in the American and Irish press and became folk heroes among Irish-American immigrant communities. Almost all of these men were further distinguished by their membership in the fabled Irish American Athletic Club of New York and careers with the New York Police Department. The story of the Irish Whales is the very embodiment of the American Dream and exemplifies the triumph of many Irish emigrants in the New World. Featuring a wonderful collection of original photographs, *The Irish Whales* tells the dramatic stories of these international athletes and their extraordinary sporting successes.

Bobby Sands - An Irish Martyr? Philip Hanke, 2011-03 Pre-University Paper from the year 2009 in the subject English - Applied Geography, grade: 1,0, language: English, abstract: Bobby Sands was a member of the paramilitary Irish Republican Army who was arrested for the possession of firearms in 1977 and died on hunger strike four years later because Margaret Thatcher refused to force-feed him. As his death in Maze Prison caused massive reactions all over the world, Sands was

regarded as one of the most significant members of the IRA. A very popular citation that can be found everywhere on the Internet when you look for Bobby Sands is: They have nothing in their whole imperial arsenal that can break the spirit of one Irishman who doesn't want to be broken! Although there is no clear evidence that this sentence was said by the IRA-Member Bobby Sands or if this quote is just a legend attached to the famous hunger striker after his death, it sums up his attitude towards Great Britain and Margaret Thatcher in a short and provocative way. History has shown that the answer to the question who is a heroic fighter for freedom and who is a terrorist depends on the point of view of the person judging the actions of another person - the Taliban were heroes for the USA when they fought the Soviet Union and even Saddam Hussein was seen as the hero of the Iran-Iraq War. The same thing can be said about the Irish Republican Army and their members because many Irish see or saw them as heroes fighting for the freedom of their home country whereas the English saw them as terrorists attacking the integrity of the United Kingdom. On the following pages I will try to outline who Bobby Sands was, what ideas he fought and died for and if he can be seen as an Irish Martyr today. I will start with the historical background to show where the English-Irish conflict has its roots and what role the IRA and especially Bobby Sands played in that tragedy. To do that I will examine the life of Bobby Sands to see what made a young Irishman j

Folk Women and Indirection in Morrison, N Dhuibhne, Hurston, and Lavin Jacqueline Fulmer, 2017-11-30

Focusing on the lineage of pivotal African American and Irish women writers, the author argues that these authors often employ strategies of indirection, via folkloric expression, when exploring unpopular topics. This strategy holds the attention of readers who would otherwise reject the subject matter. The author traces the line of descent from Mary Lavin to Éilís Ní Dhuibhne and from Zora Neale Hurston to Toni Morrison, showing how obstacles to free expression, though varying from those Lavin and Hurston faced, are still encountered by Morrison and Ní Dhuibhne. The basis for comparing these authors lies in the strategies of indirection they use, as influenced by folklore. The folkloric characters these authors depict - wild denizens of the Otherworld and wise women of various traditions - help their creators insert controversy into fiction in ways that charm rather than alienate readers. Forms of rhetorical indirection that appear in the context of folklore, such as signifying practices, masking, sly civility, and the grotesque or bizarre, come out of the mouths and actions of these writers' magical and magisterial characters. Old traditions can offer new ways of discussing issues such as sexual expression, religious beliefs, or issues of reproduction. As differences between times and cultures affect what can and cannot be said, folkloric indirection may open up a vista to discourses of which we as readers may not even be aware. Finally, the folk women of Morrison, Ní Dhuibhne, Hurston, and Lavin open up new points of entry to the discussion of fiction, rhetoric, censorship, and folklore.

Leader Katy Granville-Chapman, Emmie Bidston, 2020-06-30 What exactly is it that good leaders do to enable their teams to succeed? How do they think? What do findings from neuroscience teach us about effective leadership? Leader explores and answers these crucial questions. In this wide-ranging book, Katy and Emmie eloquently combine up-to-date research in psychology and neuroscience with inspiring examples of success to show that leadership can be learned and that it is all about looking after your people. They take you on a journey to meet a diverse selection of great leaders from multiple spheres - from the sports field to the corporate world - and talk you through the process by which effective leaders have become great leaders. The secret lies in mastering three key principles: know your people, love your people, inspire your people. These three principles form the core of the book, which also provides a range of practical activities designed to help you reflect on your own and your team's progress and performance. The authors contend that leadership which focuses on the flourishing of people is not only intrinsically valuable, but is also the most important factor in achieving success in any domain. To provide proof, the book features inspiring examples of leaders who have made a significant impact in their organisation, alongside insightful analysis of how and why effective leaders outperform others not just in terms of results, but, even more importantly, through the contributions they make to people's lives. Practical, evidence-based and optimistic, this book is suitable for both aspiring and established leaders. All royalties from sales of this book will be donated to The Prince's Trust. Archer,Felicity Heal,2013 The Handbook brings together forty articles by leading scholars of history, literature, religion, and classics, in the first full investigation of the significance of Raphael Holinshed's *Chronicles of England, Scotland and Ireland* (1577, 1587), the greatest of Elizabethan chronicles and a principal source for Shakespeare's history plays.

Children's Propaganda Games of the Second World War Nicholas Milton,2024-07-31 From puzzles and cards to pinball and die games, find out about the children's games produced as propaganda during World War II. During the Second World War, hundreds of games were manufactured by the British, Germans and Americans aimed at children. Despite being cheaply made due to the wartime economy, the games were often fun to play and challenging to win. They also had considerable propaganda value helping to manipulate children into supporting the war. To get their attention, many of the games incorporated dramatic artwork and were based on real wartime events from the evacuation of children in 1939 to the dropping of the atomic bomb in 1945. This book features a large selection of different games produced by the British, Germans and Americans and tells the stories behind their wartime propaganda. The Nazis in particular prided themselves on producing games which promoted and glamourised war, exploiting children's patriotism and pride in German conquests. Some of their most insidious games included *Juden Raus!* (Jews Out!) and *Bomber u?ber England* (Bomber over England). However, the British and Americans also produced unethical games like *Target for Tonight* which promoted the carpet bombing of Germany and *Atomic Bomb*, a dexterity puzzle about the nuclear bombing of Japan. The games featured in this book include roll and move games with a board and die, pinball and similar 'shooting' games, dexterity and other puzzles and card games. They were made out of paper, card, wood, rubber, bakelite plastic and initially metal. Remarkably despite wartime restrictions games were manufactured throughout the conflict to meet the demand from boys and girls as they closely followed the changing fortunes of the war. Today many of the games have become scarce so for collectors a guide to their value and rarity is included.
