*The Real Madrid Revolution* Steven G. Mandis, 2024-11-19 Real Madrid's innovative, modern strategies may not only keep them on top—but save soccer itself. Featuring behind-the-scenes coverage and expert analysis, this book gives fans an up close and personal look at one of the world's most legendary teams during a major crossroads for the sport. Former Columbia Business School adjunct professor Steven G. Mandis, who analyzed Real Madrid's path to success in *The Real Madrid Way*, returns to examine how the club is coping with systemic changes in the sport of soccer and innovating the sport in the process. Founded in 1902 and granted a royal title by the king of Spain in 1920, Real Madrid Club de Fútbol went on to become the world's most valuable sports team (by revenue), most popular sports team (by social media followers), and most successful sports team (by number of trophies). But today, this legendary, member-owned soccer team faces significant challenges, including: Soccer losing the global entertainment battle against other sports and platforms The proliferation of closely government-related, private equity, and multi-club ownership models—while Real Madrid are a not-for-profit club owned by 92,000 members The financial dominance and further separation of the English Premier League, the so-called “NBA of football” The conflicts of FIFA and UEFA being both regulators and hosts of tournaments A more congested schedule, leading to a glut of matches and more player injuries Players who earn more from endorsements than from playing the game An explosion of media platforms that enable a young generation of global fans to watch and engage with sports and entertainment in new and nontraditional ways With their top-tier status, not to mention the supremacy of their sport, hanging in the balance, Real Madrid's trademark passion and values have never been more important. *The Real Madrid Revolution* showcases what it takes to stay on top when external forces are not working your favor—and how to innovate to be stronger than ever.

In Soccer Without Borders, journalist Erik Kirschbaum lays out Klinsmann's vision for making the U.S. men's soccer team a dominant world power for the first time in its history. As the 2022 World Cup in Qatar drew to a close, there was a bitter undercurrent to Argentina's triumph. Throughout the tournament, numerous allegations of sportswashing and financial misconduct had been made against the state of Qatar, moving what had previously been a smaller conversation into the worldwide spotlight. The question had been asked, who really owns and runs football? Journeying from Abu Dhabi to Newcastle, and onto London, Paris, Moscow and New York, journalist Miguel Delaney investigates the allegations of sportswashing and misconduct in the beautiful game. The result is a gripping account of how football has been taken over by the world's wealthiest businessmen, state-backed corporations, media tycoons and oil-rich oligarchs. From Neymar's £198 million transfer to Paris Saint-Germain and Abu Dhabi's construction empire in Manchester to failed Financial Fair Play constraints and the dawn of the European Super League, Miguel draws on exclusive interviews and unprecedented access to key stakeholders to produce an all-encompassing exposé of modern football's highest echelons. **Handbook on International Sports Law** Nafziger, James A.R., Gauthier, Ryan, 2022-07-22 The second edition of this comprehensive Handbook presents new and significantly revised chapters by leading scholars and practitioners in the burgeoning field of international sports law. National, regional and comparative dimensions of sports law are emphasized throughout, exploring a wide range of issues emerging in sports law today.

*The Organisation and Governance of Top Football Across Europe* Hallgeir Gammelsæter, Benoit Senaux, 2011-07-07 This

book aims to provide an extensive overview of how football is organized and managed on a European level and in individual European countries, and to account for the evolution of the national, international and transnational management of football over the last decades.

*Asia and the Future of Football* Ben Weinberg, 2015-05-22 Football is the most popular sport in the world. Globalisation and commercialisation of the game, however, have created new conflicts and challenges. This book explores the role of the Asian Football Confederation (AFC) within the rising significance of football in Asia, drawing on three key theoretical perspectives: globalisation, neo-institutionalism and governance, as well as comprehensive data from interviews and archive material. It explores the organisational structure of AFC, its decision-making processes, relations with other actors, and policies put forward. To understand the specificities AFC has faced in its 60-year history, the broader historical, political, economic, socio-cultural and geographic contexts of football in Asia are taken into account.

**Women's Football in Africa** Chuka Onwumehili, 2024-07-09 This is the first book to take an in-depth look at women's football in Africa. Exploring the history, contemporary landscape, and future development of the women's game on the African continent, this book offers an important new perspective on the rise of women's sport more broadly. This book traces the history of women's soccer in Africa from its introduction during the period of European colonization and its subsequent ban by colonial authorities, through to the present day period of rapidly increasing spectatorship, rising participation rates, and growing media interest. It reflects on the social obstacles to girls' participation, including sociocultural and religious barriers, as well as important social issues in football such as homophobia, discrimination, and abuse, and considers why certain countries have dominated African competitions, including Nigeria, Ghana, and, lately, South Africa, Equatorial Guinea, and Cameroon. This book also examines the crucial role played by youth academies, and FIFA's leadership role, and considers the challenges faced by African players, clubs, and countries on the global stage. This is fascinating reading for anybody with an interest in football, sport history, women's sport, Africa, development studies, or the relationships between sport and wider society.

**KELONG KINGS** Wilson Raj Perumal, Alessandro Righi, Emanuele Piano, 2014-04-28 Wilson Raj Perumal has been labeled the world's most prolific match-fixer in football's recent history. Born a village boy in rural Singapore in the mid-60's, Wilson climbed the heights of international match-fixing across five continents, becoming FIFA's most wanted man. Like a guppy in the sea, Wilson starts off a small gambler, mixing with the local Singapore bookies, and witnesses the rise and fall of the old-school Asian big fish of match-fixing until he finds himself competing against them in a world with no set rules, where turncoats are the norm and quick money the only drive. Perumal was arrested in Finland in February 2011 and decided to collaborate with authorities, thus opening the match-fixing Pandora's box. In his book, Wilson reveals an unprecedented account of how the international match-fixing underworld has influenced the outcomes of matches at every level of football

that we may well have watched unsuspectingly. Kelson's Kings is the ultimate tale about gambling, football and match-fixing, told directly by the man who made it all happen. But be advised, after you read this book, you will never be able to watch a soccer match in the same way again.

**Principles and Practice in EU Sports Law** Stephen Weatherill, 2017 Principles & Practice in EU Sports Law provides an overview of EU Sports Law. In particular it assesses sporting bodies' claims for legal autonomy from the 'ordinary law' of states and international organisations. Sporting bodies insist on using their expertise to create a set of globally applicable rules which should not be deviated from irrespective of the territory on which they are applied. The application of the *lex sportiva*, which refers to the conventions that define a sport's operation, is analysed, as well as how this is used in claims for sporting autonomy. The *lex sportiva* may generate conflicts with a state or international institution such as the European Union, and the motives behind sporting bodies' claims in favour of the *lex sportiva*'s autonomy may be motivated by concern to uphold its integrity or to preserve commercial gain. Stephen Weatherill's text underlines the tense relationship between *lex sportiva* and national and regional jurisdictions which is exemplified with specific focus on the EU. The development of EU sports law and its controversies are detailed, reinforced by the example of relevant legal principles in the context of the practice of sports law. The intellectual heart of the text endeavours to make a normative assessment of the strength of claims in favour of sporting autonomy, and the comparison between different jurisdictions and sports is evident. Furthermore the enduring dilemma facing sports lawyers running throughout the text is whether sport should be regarded as special, and in turn how (far) its special character should be granted legal recognition.

**Sports Law in the European Union** Andrea Cattaneo, Richard Parrish, 2020-09-22 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in the European Union deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend towards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal

literature by giving academics, practitioners, sports organizations, and policy makers access to sports law at this specific level. Lawyers representing parties with interests in the European Union will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law.

**CAS and Football: Landmark Cases** Alexander Wild, 2011-11-16 FIFA has accepted the jurisdiction of the CAS as from 11 November 2002. This date does not mark the beginning of the arbitration of the CAS in football matters, however it has to be stated, that from this date on football disputes in front of the CAS increased enormously. This book is dedicated to the most important decisions of the CAS in football disputes. These awards are analyzed by experts, practicing all over the world. Most of the authors have been directly involved in the proceedings before the CAS. The commentaries cover a broad spectrum of disputes, inter alia, disputes concerning the contractual stability, protection of young football players, doping, football hooliganism, match fixing, players release, multiple club ownership, player agents and the stays of execution. This book provides a wide range of valuable information and is a useful tool for those whose main concern is professional football, such as sports lawyers, sports managers and sports agents, but also academics and researchers. The book appears in the ASSER International Sports Law Series, under the editorship of Dr. Robert Siekmann, Dr. Janwillem Soek and Marco van der Harst LL.M.

**EU Sports Law and Breakaway Leagues in Football** Katarina Pijetlovic, 2015-02-02 Katarina Pijetlovic is the first author to address the issue of breakaway leagues in football and their treatment under EU law. In this book she guides the reader through EU sports law, the specificities of the sporting industry and the problems and power struggles in European football governance in the context of the breakaway threats by elite clubs. In order to analyse the legality of UEFA clauses that restrict the formation of such breakaway structures, the author first provides a progressive interpretation of the applicable EU sports law and an in-depth analytical review of EU sports cases decided under internal market and competition provisions, including a novel perspective on the UEFA home-grown rule and the Bosman case. Thereafter, she sets out an original theory of convergence between TFEU provisions on competition and the internal market in the light of sporting exceptions. Finally, in applying the legal principles thus outlined Katarina Pijetlovic explores the legality of the restrictive UEFA clauses and the case for the formation of alternative leagues in European football under EU sports law. A number of surprising outcomes emerge from this analytical process. Conversely, she also tests the largely neglected issue of the legality of forming a breakaway league by the European elite football clubs. The systematic way in which the reader is guided through EU sports law and the legal issues under consideration makes the book accessible for EU lawyers as well as non-EU sports lawyers, on both an academic and a practitioner's level. Katarina Pijetlovic holds licentiate and doctoral degrees in EU sports law from the University of Helsinki. The book appears in the ASSER International Sports Law Series, under the editorship of Dr. David McArdle, Prof. Ben Van Rompuy and Marco van der Harst LL.M.

*Research Handbook on the Law of Professional Football Clubs* Robby Houben, 2023-09-06 This original Research Handbook examines the key legal aspects of a professional football club's actions. Reflecting also on the role of key governing bodies such as UEFA, the Handbook informs and contributes to the ongoing debate surrounding the governance and behaviours of professional football clubs.

**Daily Graphic** Ransford Tetteh, 2010-03-04

**The EU in International Sports Governance** A. Geeraert, 2016-04-12 This book demonstrates that the European Union (EU) can curtail the autonomy of FIFA and UEFA by building upon insights from the principal-agent model. The author argues that EU institutional features complicate control, but do not render the EU powerless, and that FIFA and UEFA can deploy a variety of strategies to mitigate control.

**Rise of the Matildas** Fiona Crawford, 2024-11-05 The 2023 Women's World Cup semi-final gripped Australia in a way that few sporting events have achieved. On any level it was transformative, capturing the highest TV audience since records began. It was hard on the back of the Matildas' nail-biting quarter final, which ended in the longest penalty shootout in World Cup history. To chronicle the Matildas' euphoric World Cup rise, Fiona Crawford draws on interviews with players, administrators, sponsors and fans, skilfully unpicking questions of gender, human rights, race and women's sports. The Rise of the Matildas highlights the astonishing impact of one team's determination to leave the game in a better place.

*Corporate Social Responsibility and Reporting in Sports Organizations* Massimo Valeri, 2018-07-31 This book explores the key issues of corporate social responsibility (CSR) and reporting as applied to sports organizations, with particular attention to the Italian environment. It is divided into two parts, the first of which examines the general principles and reporting tools of CSR; these represent the reference point for all types of organization, including sports organizations. The coverage encompasses the evolution of CSR and the latest standards issued by authoritative international public and private institutions. The aim is to provide readers with a sound basis for understanding fully the application of these principles and reporting tools within the world of sport. The second part is devoted to a detailed analysis of the CSR strategies and social reporting initiatives adopted by sports organizations. Although the focus is primarily on Italian sports organizations, due attention is also paid to world benchmarks. In particular, the analysis examines the CSR strategies and reporting initiatives developed by international and Italian sports federations and by two international professional football clubs. The book will be of wide interest to academics, students, and practitioners.

**Sports Law in Turkey** Anıl Gürsoy Artan, 2021-12-21 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Turkey deals with the regulation of sports activity by both public authorities and private sports organizations. **Basta** Marco van Basten, 2020-11-05 \*\*\*\*\* Shortlisted for International Autobiography of the Year in the Telegraph Sports Book Awards 2021 'This account is often poetic and sometimes haunting.' - FourFourTwo Triple European Footballer of the Year. Once World Footballer of the Year. European Champion two UEFA Super Cups, European Champion with the Dutch National Team in 1988 and numerous national championships with both Ajax and AC Milan. Marco van Basten is known as one of the greatest footballers of all time, but his personal life has always remained somewhat of a mystery, until now. Basta is the raw, honest, but above all gripping autobiography of Marco van Basten. It's the unfiltered story of his rise to fame, from being under the wing of Cruyff and experiencing life as an Ajax player to being propelled into the spotlight following Euros '88 - and scoring the greatest goal ever to win a major final - and playing for AC Milan at the peak of Italian football's popularity. But despite countless successes, Marco van Basten experienced many low points, including losing a childhood friend, battling with pain after his numerous fluffed operations, and ultimately coming to terms with life after playing football. Basta is his story.
