Naturaleza americana. Extractivismo y geopolítica del capital. Actuel Marx N° 19 María Emilia Tijoux,2016 En su número 19, esta revista de análisis y reflexión crítica marxista se concentra en la actual crisis del capitalismo desde las herramientas que la especificidad americana proporciona, fundamentalmente su experiencia histórica como tierra que da lugar al lanzamiento del capitalismo de Occidente. Origen de ese patrón (imperial) de relacionamiento con el mundo, hoy, como hace cinco siglos, la naturaleza americana aparece -al decir de Alimonda- ante el pensamiento hegemónico global y ante las élites dominantes de la región, como un espacio subalterno que puede ser explotado, arrasado, reconfigurado, según las necesidades de los regímenes de acumulación vigentes.

Geopolítica financiera y petróleo Álvarez Herrero, Santiago,2019-11-25 Análisis crítico sobre la evolución y el deterioro del proceso de financiarización por medio del cual los Estados Unidos se convirtieron en la mayor potencia mundial y la relación, en torno al petróleo, que los Estados Unidos mantiene con México y Argentina. Para este propósito se aborda la baja producción petrolera en Estados Unidos durante la década de los setenta, la deuda latinoamericana en 1982, los programas de ajuste estructural financieros y energéticos, la privatización de Yacimientos Petrolíferos Fiscales y de Pemex, la internalización financiera en México y Argentina y el saqueo petrolero en ambos países.

Geopolítica de la Intervención Fernando Augusto Fernandes,2022-12-07 La Lava Javo y las crisis La operación Lava Jato descubrió una importante trama de corrupción en Brasil, ayudó a recuperar miles de millones de dinero desviado de las arcas públicas e impuso severas penas a los autores de estos delitos. Detrás del encanto que produjo en la sociedad, siempre han existido rumores sobre las verdaderas motivaciones de los investigadores, especialmente sobre el supuesto contubernio entre el Gobierno estadounidense y la Lava Jato. El autor, Fernando Augusto Fernandes, rechazó las especulaciones y fue en busca de hechos y pruebas para contar esta historia desde la perspectiva privilegiada de alguien que vivió algunos de sus episodios decisivos como abogado. Este libro presenta un relato objetivo, ilustrado con diversos documentos y pasajes que muestran claramente. los intereses ocultos de Estados Unidos en la Lava Jato. El autor profundiza en la historia para localizar y encajar las piezas de un rompecabezas que retrata a un Brasil que emergía como líder regional, los codiciados pozos de petróleo del presal y el ataque a uno de los líderes de izquierda más populares y mejor considerados de la historia del país, en medio de relaciones familiares y religiosas que apuntalarán las controvertidas acciones del Poder Judicial.

Lectura obligatoria para entender uno de los episodios más impactantes de la historia de Brasil.

Petróleo y energías desde las ciencias humanas, sociales y ambientales en América Latina y el Caribe Enoc Alejandro García Rivera ,Elita Luisa Rincón Castillo ,2023-11-09 Las distintas industrias energéticas generan impresiones estampadas de una forma tal sobre las dimensiones y componentes de las sociedades nacionales que han sido capaces de modificarlas, moldearlas, reconfigurarlas o conducirlas. Estas impresiones se han delineado a partir de los alcances y matices producidos por los efectos que surgen de su naturaleza y de la dinámica de su industria, así como por el tipo de objeto o dimensión de la colectividad estatal donde terminan incidiendo o reflejándose. Esta realidad, que involucra la interacción entre elementos y condiciones sociales, económicas y, sobre todo, ambientales, invita a emprender su análisis y estudio desde diversas ópticas científicas, pues de lo contrario su comprensión se ve acotada por la falta de un conocimiento integral sobre los mismos. A partir de un escenario contemporáneo se presenta esta obra que reúne diversas temáticas asociadas con un fenómeno de incidencia global a modo de contribuir, en la medida de lo posible, a su debate.

De Chávez a Maduro: Balance y perspectivas Ramos Pismataro, Francesca,Rodríguez, Ronal F,De Lisio, Antonio,2016-12-16 Por iniciativa del Observatorio de Venezuela de la Universidad del Rosario y de la Red de Estudios Colombo-venezolanos se estructuró un libro con el propósito de ofrecer elementos para el análisis y el debate acerca de las complejas realidades que configuran el panorama político venezolano contemporáneo. Esta obra describe las transformaciones del Estado venezolano desde la llegada del proyecto político de la Revolución Bolivariana, develando las falencias del modelo económico y de la dependencia del petróleo. Está integrado por un conjunto de reflexiones sobre el petróleo y el Estado, el sistema político, las estrategias de despliegue institucional y la política exterior permitiéndole al lector en un contexto altamente ideologizado y politizado tener una compresión más reposada sobre lo que ha ocurrido en Venezuela como resultado de decisiones políticas y coyunturas particulares.

Elementos históricos, políticos y militares para comprender las relaciones Colombo-Venezolana Luis Jesús Suárez Castillo,Martha Ardila,2022-02-09 Las relaciones colombo-venezolanas presentan una serie de dinámicas vinculadas con factores externos, internos y personales que han obstaculizado la construcción de confianza entre ambos países. Bien sean amenazas tradicionales u otras más recientes, relacionadas también con seguridad pero más que todo con elementos ideológicos -en particular el temor a la expansión de la revolución bolivariana-, dificultan la relación. Una relación que también se torna tensa por los vínculos tan estrechos de Colombia con Estados Unidos. Cuando aspectos relacionados con la seguridad (amenazas tradicionales, crimen transnacional, ideología) resultan prioritarios, actores como las Fuerzas Militares adquieren un papel destacado. Por ello, en este libro se quiso analizar el cambio en la percepción de las Fuerzas Militares colombianas frente a Venezuela con la llegada de Hugo Chávez al poder en 1999. Pero para esto, se consideró necesario partir previamente de los principales antecedentes de las relaciones y su incidencia hasta el 2018 cuando en Colombia fue

elegido el presidente Iván Duque. Es decir, el marco temporal abarca 1999-2018. En este sentido, se analiza el cambio que se ha producido en la percepción que las Fuerzas Militares colombianas tienen frente a Venezuela. Las Fuerzas Militares colombianas presentan rasgos similares con otras sudamericanas como la brasileña, chilena y venezolana, aunque esta última refleja una serie de variaciones que indican una estrecha interacción político-militar orientada a liderar acciones de expansión y liderazgo del proyecto bolivariano. Históricamente, las Fuerzas Militares de Colombia (FF.MM.) se han constituido en actores relevantes dentro del proceso de construcción del país, pasando de cortos períodos de paz a prolongados estados de guerra y conflictos. Lo anterior se pone de manifiesto en el conflicto interno que superó cinco décadas, así como en la rivalidad con Venezuela, desde la disolución de la Gran Colombia en 1830.

A expansão econômica e geopolítica da China no século XXI: Javier Vadell, Leonardo Ramos, Alexandre Leite, 2023-12-07
Nessa nova edição, ampliada e atualizada, do livro: A expansão econômica e geopolítica da China no século XXI: diferentes dimensões de um mesmo processo é mais oportuna do que nunca. A primeira edição da obra, publicada em 2018, foi produto de um grande Seminário realizado na PUC Minas em 2016. A segunda edição, não obstante, é produto de anos de estudo da nossa rede de pesquisa internacional sobre esse fenômeno social da emergência ou re-emergência da China, assim como os seus desdobramentos que poderíamos destacar em: a) desafios interpretativos da teoria de relações internacionais para compreender o fenômeno da China contemporânea; b) os impactos econômicos e geopolíticos da ascensão da RPC; c) o surgimento (ou não) de um novo tipo de globalização; d) os complexos relacionamentos da RPC com as grandes potências e com os grandes blocos econômicos regionais; e) a relação da China com o Sul Global e os dilemas da cooperação e o desenvolvimento; f) os aspectos que se relacionam à segurança internacional num período de mudança estrutural e surgimento de novos conflitos, sejam de caráter tradicional ou híbridos.

Geopolítica Latinoamericana: nuevos enfoques y temáticas Gisela da Silva Guevara, 2016-04-01
Conscientes de que la pos Guerra Fría abrió un terreno fértil para nuevos estudios geopolíticos sobre América Latina, la presente obra busca incorporar a dichos estudios novedosos enfoques y temáticas que permitan comprender mejor las complejas dinámicas entre fenómenos políticos y geográficos en el subcontinente. Partimos de la premisa de que, tal como afirmó Colin Flint, tanto escala como espacio tienen variadas representaciones y, teniendo en cuenta que teorías y conceptos que confluyeron en la segunda mitad del siglo xx e inicios del siglo XXI, enriquecieron las viejas nociones de geopolítica, esto nos permite hoy día tener mejores herramientas conceptuales para seguir desarrollando temáticas que permitan comprender mejor la compleja realidad de los fenómenos geopolíticos de nuestra América Latina. No obstante incorporar muchos de los nuevos enfoques geopolíticos anteriormente expuestos, consideramos que sigue siendo necesario profundizar los estudios sobre América Latina bajo novedosas perspectivas y temas.

Geopolítica das relações entre EUA e América do Sul Higor Ferreira Brigola, Elói Martins Senhoras, 2021-06-22 O

presente livro se propôs a contribuir para a compreensão do contexto geopolítico da política externa dos EUA para a América do Sul. O livro foi dividido em duas partes subdivididas em capítulos distintos. Na primeira parte buscou-se sintetizar por meio de pesquisas bibliográficas, dissertações, teses, artigos de revistas e jornais, bem como de páginas digitais e documentos oficiais dos governos envolvidos na pesquisa, o histórico das relações geopolíticas entre os EUA e a região desde o início do século XIX, com a Doutrina Monroe, até a gestão de George W. Bush, para verificar de que modo foram construídas essas relações ao longo dos anos. Na segunda parte foi elaborada uma pesquisa por meio de fontes bibliográficas diversas sobre assuntos relativos ao tema, com foco em geopolítica e relações internacionais, de documentos oficiais e discursos da gestão presidencial norte-americana, do Congresso e das Forças Armadas, bem como de sites e think tanks especializados nessa temática, buscando compreender de que modo ocorreu a condução da política externa dos EUA durante os governos de Barack Obama para a América do Sul. Conclui-se que, as relações geopolíticas entre EUA e América do Sul foram caracterizadas pela oscilação entre períodos de forte presença do poderio estadunidense no hemisfério e períodos de cooperação por parte da potência hegemônica, ainda que, no governo de George W. Bush, tenha ocorrido um afastamento entre Washington e a América do Sul, resultante da campanha estadunidense no Oriente Médio. No governo de Barack Obama, a América do Sul continuou como uma área dotada de importância estratégica para o governo de Washington na agenda de segurança, sendo o narcotráfico um fator prejudicial à segurança nacional estadunidense, enquanto, na agenda econômica, a América do Sul continuou sendo um mercado importante de fornecimento de commodities e manufaturados para os EUA, e também um mercado comprador das exportações estadunidenses. Contudo, mesmo com os discursos de aproximação e cooperação de Barack Obama em relação à região, sua política externa em quase nada foi alterada em comparação à gestão de George W. Bush, o que nos permite concluir que a América do Sul, embora importante, foi considerada uma região secundária na política externa estadunidense durante o governo Obama.

Geografia política, geopolítica e gestão do território Pinheiro da Silva,Augusto César,2016-12-27 Este livro revela a força intelectual de uma geografia que não se deixa aprisionar nos limites estreitos da crítica ao presente ou à idealização do passado sem resposta para o futuro. Ao contrário, as possibilidades temáticas da geografia política e seus recursos conceituais e metodológicos nos ajudam compreender o espaço no mundo contemporâneo, cujas sociedades e territórios se encontram organizados em múltiplas escalas que se encaixam e oferecem uma realidade altamente complexa, aberta a especulações, mas que exige responsabilidade na oferta de proposições que orientam o campo das práticas em cada escala da gestão. Os textos resultam dos esforços individuais e das possibilidades de cooperação, debates e trocas no âmbito da REBRAGEO (Rede Brasileira de Geografia Política, Geopolítica e Gestão do Território) e trazem contribuições plurais de estudos territoriais em múltiplas escalas e pesquisas de situações específicas, seja no campo conceitual da geografia política,seja nos problemas objetivos da geopolítica.

Geopolítica del conocimiento jurídico Daniel Bonilla Maldonado,James J. Silk,David Bilchitz,Jeremy Perelman,Jorge L. Esquirol,Isabel Cristina Jaramillo Sierra,2015-06-09 El análisis de la economía política del conocimiento jurídico pone en evidencia que el conocimiento jurídico es una forma de poder que tiene dinámicas propias e importantes implicaciones prácticas. El conjunto de normas y actividades que componen esta economía política determina cuestiones como cuáles son los objetos de estudio que se consideran valiosos en las facultades de derecho; cuáles son los contextos de producción de conocimiento jurídico que se imaginan ricos o pobres; cuál es la dirección que toma el intercambio de productos jurídicos en un mundo globalizado, y cómo se describen los aportes que hacen los países del Norte y del Sur globales a las tradiciones dominantes.

La geopolítica nunca se fue Alberto Hutschenreuter,2025-03-19 Luego de brindarnos “cápsulas” estratégicas y geopolíticas para comprender el descenso de la política mundial en el siglo XXI, el Dr. Alberto Hutschenreuter asume el nuevo y formidable desafío de desentrañar el origen de la geopolítica, su continuidad y vigencia histórica en el tiempo. Nutriéndose de las pertinentes reflexiones de destacados pensadores y especialistas de todos los tiempos y del análisis de los grandes acontecimientos mundiales en clave de política, territorio y poder, el autor logra identificar su origen remoto, el cual se produjo ineludiblemente antes de la aparición del propio vocablo y su posterior sistematización como disciplina de estudio. Ejemplo claro de ello son las distintas “compuertas geopolíticas” que el autor describe con suma claridad para ayudarnos a comprender cómo uno o más sucesos -de cuño político-territorial- acabaron siendo el umbral de acontecimientos mayores y trascendentales para la humanidad. El profesor Hutschenreuter nos demuestra que la geopolítica nunca se fue ni ha perdido su verdadera esencia, sino que más bien se ha visto alterada en su naturaleza debido a la resignificación y “pluralización” del término a partir de la irrupción de determinados fenómenos y procesos propios de la modernidad. La lectura de esta prodigiosa obra reviste carácter estratégico para todo aquel que anhele inmiscuirse en un análisis geopolítico adecuado que le permita comprender las constantes rivalidades y conflictividades de antaño y de nuestro tiempo. Tecnocracia e Geopolítica Ana Maria Libório de Oliveira,Marcelo Lacortt,Wendell Teles de Lima,2022-07-14 Tendo em vista que a Amazônia sempre foi uma região estratégica para o Estado brasileiro, desde o último quartel do século XX foi inserida na agenda de segurança internacional com a alegação do aumento das preocupações dos países centrais quanto às mudanças climáticas globais. A tarefa de pensar o espaço amazônico numa perspectiva geopolítica tornou-se algo mais complexo e polêmico. De um lado, uma aliança de interesses entre países e grupos não governamentais em torno da defesa da Amazônia Indígena e da preservação das florestas, mas que paradoxalmente mantém intactos os interesses das grandes corporações de exploração mineral, muitas delas financiadas por Estados de países centrais que vociferam contra as políticas

desenvolvimentistas do Estado brasileiro na região. De outro lado, o atual governo brasileiro e os velhos interesses geopolíticos de desenvolvimento da região, que demandam explorar ao máximo os recursos naturais de um dos últimos fundos territoriais do planeta. A bem da verdade, esses interesses desenvolvimentistas permaneceram no seio do governo mesmo na Nova República, como atestam os Eixos de Integração e Desenvolvimento (EID), a IIRSA (Iniciativa para a Integração da Infraestrutura Regional Sul-Americana) e as mudanças no Código Florestal.

Geopolítica de la cooperación transfronteriza Heriberto Cairo, Enrique Varela, María Lois, 2022-05-10 Interpretar la cooperación transfronteriza desde la geopolítica nos permite aportar una mirada multiescalar, sopesando las estrategias de las comunidades locales en tiempos de blindajes fronterizos de los Estados como los promovidos en los últimos años por la Unión Europea, Mercosur o el Tratado de Libre Comercio de América del Norte. Por tanto, se analizan, desde esta perspectiva geopolítica, las fortalezas y las debilidades de la cooperación transfronteriza en diferentes escenarios: África, América y Europa. Así mismo, se abordan los retos y desafíos futuros, en particular los que surgen tras la pandemia de la COVID-19. Este volumen intenta responder también a la cuestión de si la cooperación transfronteriza es la clave para acabar con las fronteras estatales, tan estrechamente vinculadas con la modernidad. En este sentido, como decía Régis Debray, quizás “toda frontera, como los medicamentos, es remedio y veneno. Se trata entonces de dosificarla”. El objetivo es abrir un camino para aplicar diferentes “dosis de frontera”, proporcionando, desde el acercamiento a las constantes dinámicas de desfronterización y refronterización, una lectura de sus múltiples dimensiones, siempre en transformación.

Geopolítica e Integração Regional na América Latina Dayana Aparecida Marques de Oliveira Cruz, 2021-07-14 O aprofundamento dos processos de globalização têm reconfigurado as estratégias de inserção do Sul Global na economia-mundo. No cenário complexo da América Latina, encontramos desde a virada do século XXI iniciativas distintas que vão desde a ampliação das relações internacionais no contexto da cooperação sul-sul até o estreitamento dos laços com o centro do sistema capitalista. A diversidade das estratégias políticas e econômicas devem ser lidas considerando o cenário geopolítico global e regional, que delimita, dentre outras coisas, o perfil da integração no subcontinente. O neoliberalismo que permeia os acordos regionais em contraposição às tentativas de resistência caracterizam a instabilidade, a alternância e as incertezas dos modelos adotados. A proposta de organização do livro seriado tem o intuito de viabilizar o debate sobre a integração regional na América Latina, considerando seu contexto geopolítico a partir da intersecção entre a política e a economia no subcontinente.

Venezuela Arantxa Tirado, 2019-12-02 Todos los días, por todos los medios de supuesta comunicación, tenemos un bombardeo incesante de noticias sobre Venezuela que nos presentan un panorama apocalíptico del país suramericano: «En Venezuela no hay comida, no hay pan, no hay luz, los hospitales no funcionan, se están muriendo de hambre, el país es un desastre...», «En Venezuela no hay democracia sino dictadura, se persigue a la oposición, cierran medios de comunicación,

se tortura y reprime, los periodistas se exilian...». A la labor de los medios se une la versión de miles de venezolanos que viven fuera de su país y que contribuyen a una matriz de opinión que parece, cuando menos, exagerada. En estos tiempos paradójicos en los que mayor acumulación de noticias no significa estar más informado, Venezuela ejemplifica como ningún otro caso la muerte del periodismo. Un país que detenta las principales reservas de petróleo del mundo y que pasó a primera línea mediática sólo cuando decidió emprender una revolución. Un proceso de transformación social y política que ha sido deformado hasta la saciedad y usado como arma arrojadiza contra la izquierda mundial, la misma que calla para no ser salpicada por la experiencia política más demonizada de este siglo XXI. Este libro es un grito que rompe con rigor y valentía ese silencio, desmontando las mentiras, mitos y manipulaciones construidas en torno a la Revolución Bolivariana. Contar la verdad de Venezuela, un ejercicio imprescindible para hacer justicia al ejemplo del pueblo venezolano, pero también para entender qué implica en el actual momento histórico tratar de hacer una revolución.

Territorial Disputes in the Americas Jorge Emilio Núñez, 2025-08-20 Territorial disputes are intricate, shaped by historical, legal, geopolitical, social, cultural and other factors. This book uses a multidimensional approach to assess real case scenarios across the Americas, individually and collectively. The work evaluates a selected sample of these disputes, tracing origins to colonial histories, unclear border demarcations or uncharted lands, and challenges enforcing legal boundaries. It then explores critical thematic areas, illustrated with compelling examples—disputes entangled with non-American agents like European nations; colonialism, neo-colonial interference and pervasive colonial mindsets; ongoing, regional differences between neighboring states; and the intricate, sometimes conflicting roles of indigenous communities and implanted populations asserting self-determination, often diverging from states' interests. The work reveals sovereignty and disputes intertwine, encompassing plural agents, roles, contexts, realms and modes of existence beyond traditional views. Cases like the Falkland/Malvinas Islands, Mexico-US border, Amazon region and Antarctica highlight how regional organizations and alliances could enhance peacebuilding, strengthen American states against external powers and challenge traditional unidimensional scholarly approaches with a nuanced, comprehensive perspective. The book will appeal to researchers, academics and policymakers in the areas of Public International Law, Political Science and International Relations, Legal Philosophy, Political Philosophy and Jurisprudence.

#8 Caracterización y análisis de algunas variables socioambientales clave en el Arco Minero del Orinoco SOS

Orinoco,2022-08-03 Venezuela, uno de los doce países más ricos en diversidad biológica del mundo¹, es también muy rico en minerales, y está sufriendo, sin duda, la peor crisis ambiental del hemisferio occidental, con el mayor número proporcional de minas ilegales y una de las tasas de deforestación más alta de las Américas y la Amazonia. Esto se explica en parte por el colapso progresivo y ahora definitivo de una economía basada en el extractivismo petrolero lo cual ahora empuja al régimen de Maduro a acelerar la explotación desenfrenada del oro al sur del río Orinoco. A partir de su experiencia, SOSOrinoco se ha propuesto profundizar en el análisis de la situación de la minería, específicamente en el llamado Arco Minero del Orinoco. Esto se ha abordado mapeando sus huellas físicas y haciendo seguimiento a las situaciones sociales. Al analizarlas, espacialmente, se hace posible comprender el impacto de la política minera del régimen, que luego nos permitirán proponer lineamientos para soluciones que eventualmente mitiguen sus daños y ayuden a la reconstrucción de Venezuela.

Elementos históricos, políticos y militares, para comprender las relaciones colombo-venezolanas (1999-2018) Luis Jesús Suárez Castillo ,Martha Ardila,2022-01-11 Las relaciones colombo-venezolanas presentan una serie de dinámicas vinculadas con factores externos, internos y personales que han obstaculizado la construcción de confianza entre ambos países. Bien sean amenazas tradicionales u otras más recientes, relacionadas también con seguridad, pero más que todo con elementos ideológicos -en particular, el temor a la expansión de la revolución bolivariana- dificultan la relación. Una relación que se obstaculiza, también, por los vínculos tan estrechos de Colombia con Estados Unidos. El presente libro examina las relaciones colombo-venezolanas con especial énfasis en el cambio en la percepción militar colombiana frente a Venezuela. Para ello, se determinaron históricamente los principales hitos en el desarrollo político de las relaciones colombo-venezolanas desde 1941, cuando se definen los límites terrestres y de navegación fluvial entre los dos países; se identifican las diferencias y similitudes entre las Fuerzas Militares de Colombia y la Fuerza Armada Nacional Bolivariana, en el contexto binacional, y con las Fuerzas Armadas de Brasil y Chile; y se explica la metamorfosis de la amenaza a través de la construcción del liderazgo de Venezuela en la región. Las conclusiones señalan que la percepción de las Fuerzas Militares colombianas, frente a Venezuela, ha variado desde 1999. Lo anterior, como producto del cambio de enfoque, que era determinado por el diferendo limítrofe, hacia hechos políticos e ideológicos, articulados y afines a la naturaleza del conflicto interno, asociados a la revolución bolivariana Socialismo del Siglo XXI, iniciada con Hugo Chávez y continuada por Nicolás Maduro.
