Invasion of the Overworld Mark Cheverton, 2013 Gameknight999 loved Minecraft, reveled in building fabulous structures, playing on servers, creating custom maps, but most of all, he loved to grief. As the self-proclaimed King of the Grievers, Gameknight played the game for himself at the expense of everyone else, keeping the list of his friends in the game short, extremely short. But when one of his father's inventions teleports him into the game, Gameknight is forced to live out a real-life adventure within the digital world of Minecraft. Unsure if he would respawn if killed in the game (maybe he'd just disconnect) or maybe he'd really die. Gameknight must play the game with all of his skill and knowledge in order to avoid the sharp claws of zombies and pointed fangs of spiders. While living out this terrible and painful adventure, he discovers the most well-kept secret about Minecraft, something not even the programmers realize; the creatures within the game are alive!

Overworld in Flames Mark Cheverton, 2016-05-17 Mysterious fires are burning the Overworld to the ground! The NPCs of Minecraft barely had time to celebrate their victory over the spider queen and the king of the skeletons before terrible new crimes broke the hard-earned peace. Inexplicable fires are breaking out under mysterious circumstances, the flames destroying more and more land with every tick of the CPU. Gameknight999 knows something is terribly wrong, but has no idea who is responsible or how to stop them. With danger looming, entire biomes and villages are under threat of complete annihilation. But unlike last time, there are no mocking signs or arrogant clues for Gameknight and his friends to follow. How

could Herobrine be controlling fire from beyond the digital grave? The answer lies in a dark and smoky underworld filled with fiery rivers of lava, where a terrible monster army awaits. The Great Zombie Invasion Mark Cheverton, 2016-09-06 New York Times bestselling author. Attention Minecraft players, take an adventure right into the game you love! Can Gameknight999 survive a Minecraft journey one hundred years into the past? This adventure series is created especially for readers who love the fight of good vs. evil, magical academies like Hogwarts in the Harry Potter saga, and games like Minecraft, Terraria, and Pokemon GO. A freak thunderstorm strikes just as Gameknight999 is activating his father's digitizer to re-enter Minecraft. Sparks flash across his vision as he is sucked into the game... and when the smoke clears, he's arrived safely. But it doesn't take long to realize that things in the Overworld are very different. Gameknight sees the same blocky terrain and square clouds as usual, but almost everything else has changed. His friends are nowhere to be found. His castle has disappeared and the village he calls home is missing its defenses and fortified wall. Even stranger, no one seems to know who he is. The User-that-is-not-a-user realizes he's been accidentally sent a hundred years into the past, back to the time of the historic Great Zombie Invasion. None of his friends have even been born yet. But that might be the least of Gameknight999's worries, because travelling back in time also means that the evil virus Herobrine, the scourge of Minecraft, is still alive... They thought they had finally destroyed the enemy . . . But through the Void, Herobrine's viral lines of code were able to spread all throughout The End, infecting the horrible Ender Dragon. After gaining the teleportation powers of the endermen, the dragon escaped out into the Overworld! Terrorizing Minecraft, the dragon's evil

presence is now transforming the lush and beautiful land into the dark and desolate world of The End. It will be up to Gameknight999, his dad, and their NPC friends to defeat the dragon without releasing Herobrine, while at the same time battling a massive army led by the skeleton-king, Reaper. Herobrine's War Mark Cheverton, 2017-01-17 New York Times Bestselling Author. If you play Minecraft, you will love taking this adventure with Gameknight999 into the game you love! One hundred years in Minecraft's past, foiled by a time-traveling Gameknight999, the evil virus Herobrine has gone mad with rage. Now determined to wipe every NPC alive off the server as punishment for meddling with his plans, he crafts a new monster king to lead a devastating aerial assault. Gameknight, his true identity still a secret, is stunned when a vicious ghost army, commanded by a terrifying monster that the User-that-is-not-a-user remembers all too well, arrives at the village he's protecting and unleashes wave after wave of unthinkable terror. With his army overpowered and outnumbered, Gameknight realizes they have no chance of defeating Herobrine and this new army out in the open Overworld. If he's to save Minecraft from complete annihilation (which would destroy everyone in the present day as well) he'll need to turn the tables on his greatest nemesis. As the forces of darkness slowly close in around them, one question remains: Will he defeat this enemy before the future of Minecraft is changed forever? This adventure series is created especially for readers who love the fight of good vs. evil, magical academies like Hogwarts in the Harry Potter saga, and games like Minecraft, Terraria, and Pokemon GO. Sky Pony Press, with our Good Books, Racehorse and Arcade imprints, is proud to publish a broad range of books for young readers—picture books for small children, chapter books, books for middle grade readers, and novels for young adults. Terrors of the Forest Mark Cheverton, 2017-03-14 New York Times Bestselling Author! The world of Minecraft comes to life in this thrilling original adventure! Gameknight999 reenters Minecraft to find it completely changed. There are new monsters that he's never seen before: giants and skeleton druids and pinch beetles and king spiders and mistwolves. Villages are larger than ever, and more heavily fortified; Minecraft had become much more dangerous. Even the very trees had changed, with some of them reaching up taller than the User-that-is-not-a-user ever thought was imaginable. There's a diamond block portal outside of Crafter's village, and rumors are spreading that a strange user was seen coming out of the portal with a young boy, before they disappeared into another portal, leaving behind a square hole one block deep with a ring of flowers around it. Gameknight recognizes it as the portal to reach the Twilight Forest mod. But how can there be mods

here in the vanilla Minecraft? The User-that-is-not-a-user follows the trail and finds odd mentions of “303” and “White Castle.” But what do the clues mean? Just how dangerous is this new user to Minecraft, and where is he taking the young NPC? Only Gameknight999 will be able to find out.

System Overload Mark Cheverton, 2016-07-12 The Minecraft server is at risk of a devastating crash! Glitches are appearing across the Minecraft server. Blocks are flickering unexpectedly and randomly disappearing. To make matters worse, villagers are claiming that their entire villages have mysteriously vanished, and they desperately need Gameknight999’s help. What’s causing the server to overload and glitch, and where have all the NPCs gone? The User-that-is-not-a-user suspects the two questions are related, and that somehow Herobrine’s henchmen are responsible. So Gameknight999 and his friends travel deep underground, facing some of the largest monster armies ever assembled as they search for a way to avoid the end of Minecraft as they know it. But his enemies have hatched their most diabolical plan yet, and Gameknight will have to risk everything to save his friends.
